RISK IN RELATION TO THE FIRST OFFER

The Face value of the Equity Shares is ₹ 10/- each. The Floor Price, Cap Price and Offer Price determined by our Company and selling shareholders in consultation with the Book Running Lead Managers ("BRLMs"), on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, as stated under "Basis for Offer Price" on page 132, should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Red Herring Prospectus. Specific attention of investors is invited to the statement of "Risk Factors" on page 45 under the section "General Risks".

Our entire revenue is dependent upon the availability of the carriers and any disruption will materially and adversely affect our business, results of operations, and financial condition.
2.	We rely on limited number of suppliers and procure 32.08%, 38.29%, 39.12 and 39.52% of our cost of service for the nine months period ended December 31, 2024, Financial Year 2024, 2023 and 2022 respectively from our Top 5 suppliers and 47.05%, 54.31%, 52.69% and 50.87% of our cost of service from our top 10 suppliers for the nine months period ended December 31, 2024, Financial Year 2024, 2023 and 2022 respectively. Any failure of us to maintain good business relations and continued arrangements with such suppliers may adversely affect our results of operations and financial condition.
3.	Some of our subsidiaries including step down subsidiary(ies), including the ones acquired by us, have incurred, or continue to incur, losses, which could negatively impact our financial performance
4.	Any adverse developments affecting trade volumes and freight rates may have an adverse effect on our business, results of operations, and financial condition.
5.	We have significant working capital requirements which have historically been funded through borrowings. Any inability to access adequate working capital loans on commercially reasonable terms may adversely effect our business, financial condition and results of operations.
6.	We have had negative cash flows in the past. Sustained negative cash flow could adversely impact our business, financial condition and growth.
7.	The agreements governing our indebtedness contain conditions and restrictions on our operations, additional financing, and capital structure.
8.	If we are not able to sell container space that we purchase from sea shipping lines, we will not be able to recover our costs and our profitability may suffer.
9.	We enter into certain related party transactions in the ordinary course of our business and we cannot assure you that such transactions will not have an adverse effect on our results of operations and financial condition.
10.	We are highly dependent on our workforce, which is a key asset for our logistics operations, and any inability to attract, retain or effectively manage our personnel may adversely affect our business and results of operations.

FINANCIAL DATA

Our Company’s Financial Year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular Financial Year or Fiscal are to the 12 months period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Draft Red Herring Prospectus are to a calendar year and references to a Fiscal/ Financial Year/ FY are to the 12 months period ended on March 31, of that calendar year.

Unless stated otherwise or the context otherwise requires, the financial information and financial ratios in this Draft Red Herring Prospectus has been derived from our Restated Consolidated Financial Information.

Certain measures included and presented in this Draft Red Herring Prospectus, for instance EBITDA, EBITDA Margin, RoNW and Net Asset Value per Equity Share (**Non-GAAP Measures**), are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with, Ind AS, IFRS or US GAAP. Furthermore, these Non-GAAP Measures, are not a measurement of our financial performance or liquidity under Indian GAAP, IFRS or US GAAP and should not be considered as an alternative to net profit/loss, revenue from operations or any other performance measures derived in accordance with Ind AS, IFRS or US GAAP or as an alternative to cash flow from operations or as a measure of our liquidity. In addition, Non-GAAP Measures used are not a standardized term, hence a direct comparison of Non-GAAP Measures between companies may not be possible. Other companies may calculate Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Please see ***“Risk Factor No. 39 - We have included certain non-GAAP financial and operational measures related to our operations and financial performance that may vary from any standard methodology that may be applicable across the industry in which we operate, and which may not be comparable with financial, operational or industry related statistical information of similar nomenclature computed and presented by similar companies”*** on page 67.

The Restated Consolidated Financial Information of our Company included in this Draft Red Herring Prospectus are as at and for the period ended on December 31, 2024 and for the Fiscal Years ended on March 31, 2024, March 31, 2023 and March 31, 2022 comprises of Consolidated Restated summary statement of assets and liabilities as at December 31, 2024 and Fiscal Year ended on March 31, 2024, March 31, 2023 and March 31, 2022, the Consolidated Restated summary statement of profit and loss and the Consolidated restated summary statement of cash flow for the period ended on December 31,

2024 and Fiscal Years ended on March 31, 2024, March 31, 2023 and March 31, 2022 together with the notes to the Restated Consolidated Financial Information (**collectively, the Restated Consolidated Financial Information**) are prepared in accordance with Ind AS and restated in accordance with the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI, as amended from time to time. For Further information, see “**Restated Consolidated Financial Information**” beginning on page 317.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Please see “**Risk Factor No. 68 – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the Financial Statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus**” on page 81. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited.

Certain figures contained in this Draft Red Herring Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data used throughout this section has been obtained or derived from a report titled “**Industry Report of Logistics in India**” dated **June 04, 2025**, by **Dun and Bradstreet Information Services India Private Limited (D&B)** prepared and issued by **D&B**, and exclusively commissioned and paid for by our Company in connection with the issue. Unless otherwise indicated all industry and other related information derived from the D&B Report and included therein with respect to any particular year refer to such information for the relevant calendar year. D&B was appointed by our company and is not connected to our company or directors and our promoters. A copy of the D&B Report is available on the website of our Company at www.skyways-air.in. For risks in relation to the commissioned report, see “**Risk Factors No. 36 – Certain sections of this Draft Red Herring Prospectus disclose information from the industry report which has been commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks.**” on page 66.

In accordance with the SEBI ICDR Regulations, the chapter titled “**Basis for Offer Price**” beginning on page 132, includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we nor the BRLMs has independently verified such information.

CURRENCY AND UNITS OF PRESENTATION

All references to “*Rupees*” or “₹” or “*Rs.*” or “*INR*” are to Indian Rupees, the official currency of the Republic of India. All references to “*US\$*”, “*U.S. Dollar*”, “*USD*” or “*U.S. Dollars*” are to United States

Dollars, the official currency of the United States of America. In this Draft Red Herring Prospectus, our Company has presented certain numerical information. All figures have been expressed in lakh. One lakh represents 1,00,000 and one million represents 10,00,000. However, where any figure(s) that may have been sourced from third-party industry sources are expressed in denominations other than lakh, such figure(s) appear in this Draft Red Herring Prospectus expressed in such denominations as provided in their respective sources.

Any percentage amounts, as set forth in ***"Risk Factors"***, ***"Our Business"***, ***"Management's Discussion and Analysis of Financial Conditions and Results of Operation"*** beginning on pages 45, 214 and 423 and elsewhere in this Draft Red Herring Prospectus, unless otherwise indicated, have been calculated based on our Restated Consolidated Financial Information.

EXCHANGE RATES

This Draft Red Herring Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all. The exchange rates of certain currencies used in this Draft Red Herring Prospectus into Indian Rupees for the periods indicated are provided below:

(1) In the event that March 31 of any of the respective years is a holiday, the previous calendar day not being a public holiday has been considered.

FORWARD LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as "forward-looking statements". These forward-looking statements include statements which can generally be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "likely to", "objective", "plan", "propose", "project", "will", "will continue", "seek to", "will pursue", or other words or phrases of similar import. Similarly, statements that describe our Company's strategies, objectives, plans or goals are also forward-looking statements.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

This may be due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry and incidence of any natural calamities and/or acts of violence.

Certain Important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

- General economic and business conditions in the markets in which we operate and in the local, regional, and national economies;
- Changes in laws and regulations relating to the sectors/ area in which we operate;
- Increase competition in the industry which we operate;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India or in countries that we may enter, the monetary and interest rate policies of India and other countries;
- Our ability to successfully execute our expansion strategy in a timely manner or at all;
- Factors affecting the industry in which we operate;
- Changes in technology and our ability to manage any disruption or failure of our technology systems;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Occurrences of natural disasters or calamities affecting the areas in which we have operations;
- Market fluctuations and industry dynamics beyond our control;
- Our ability to compete effectively, particularly in new markets and businesses;
- Our ability to manage risk that arise from these factors;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of interest with our Promoters, Promoter Group, Group Company and other related parties;
- Changes in domestic and foreign laws, regulations and taxes and changes in competition in our industry;
- Inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals or non-compliance with other applicable regulations, may adversely affect our business, financial condition, results of operations and prospects.

For a further discussion of factors that could cause our actual results to differ from our expectations, see section titled "**Risk Factors**" and chapter titled "**Our Business**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" beginning on page 45, 214 and 423 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Although our assumptions on which such forward-looking statements are based are reasonable, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as on the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management's belief and assumptions, which in turn are based on currently available information. Although our assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions as well as statements based on them could prove to be inaccurate. Neither our Company, our Promoters, our Directors, the BRLMs, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with regulatory requirements, our Company will ensure that investors in India are informed of material developments from the date of registration of this Draft Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchanges for this Offer.

SECTION II - RISK FACTORS

An investment in equity shares involves a high degree of risk. Investors should carefully consider all the information in the Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares but also for the industry in which we operate or to India and other jurisdictions we operate in. Additional risks and uncertainties, not currently known to us or that we currently do not deem material, may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in conjunction with chapter titled "**Industry Overview**", "**Our Business**", "**Restated Consolidated Financial Information**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" beginning on pages 150, 214, 317 and 423 respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Offer including the merits and risks involved.

Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries.

This Draft Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. For further information, see chapter titled "**Forward-Looking Statements**" beginning on page 43. Unless otherwise indicated, the financial information included herein is based on our Restated Consolidated Financial Information included in this Draft Red Herring Prospectus. For further information, see chapter titled "**Restated Consolidated Financial Information**" beginning on page 317. Unless the context otherwise requires, in this section, references to "our Company" or "the Company" refers to Skyways Air Services Limited on a standalone basis, and references to "we", "us", "our" refers to Skyways Air Services Limited and its Subsidiaries on a consolidated basis.

INTERNAL RISKS

RISKS RELATING TO OUR BUSINESS

- 1. Our dependence on carriers for cargo transportation exposes us to risks related to capacity availability, cost fluctuations, and service disruptions. Our entire revenue is dependent upon the availability of the carriers and any disruption will materially and adversely affect our business, results of operations, and financial condition.**

We rely extensively on third-party carriers for the transportation of cargo, as we do not operate our own aircraft or shipping lines. Consequently, our business is highly dependent on the availability, pricing, and service quality of such carriers, particularly for the movement of time-sensitive or high-value shipments.

Especially for air freight forwarding vertical, our Company does not charter any capacity and rather, secures appropriate space on back-to-back basis after receiving confirmation from the customer. We rely on our long-standing relationship with the carriers to secure dedicated and consistent cargo space on their flights. These arrangements are essential for ensuring reliable and timely transportation of goods from one location to another and form a critical component of our service offerings to customers. Our ability to secure such maintain and renew such agreements on commercially viable terms is subject to various factors including commercial negotiations, strategic priorities of such airlines, changes in industry dynamics, regulatory constraints, and availability of cargo capacity.

This reliance subjects us to various risks. Limited cargo capacity especially during peak demand periods or global supply chain disruptions may restrict our ability to secure space at competitive rates. In addition, we may be exposed to increases in transportation costs arising from fluctuations in fuel prices, imposition of surcharges, or contractual rate revisions by such carriers. Our ability to pass on these additional costs to customers is limited and may adversely impact our margins and competitiveness.

Further, service disruptions arising from flight delays, cancellations, adverse weather conditions, labour actions, technical failures, or geopolitical events could impair our ability to meet delivery timelines, resulting in customer dissatisfaction, loss of business, and reputational harm. As we have limited control over the operations of third-party carriers, we are exposed to risks arising from their operational inefficiencies or business disruptions.

Any inability to obtain adequate and reliable transport services on commercially reasonable terms, or any disruption in the services of our logistics partners, could adversely affect our service quality, operational continuity, and financial performance.

2. *We rely on limited number of suppliers and procure 32.08%, 38.29%, 39.12 and 39.52% of our cost of service for the nine months period ended December 31, 2024, Financial Year 2024, 2023 and 2022 respectively from our Top 5 suppliers and 47.05%, 54.31%, 52.69% and 50.87% of our cost of service from our top 10 suppliers for the nine months period ended December 31, 2024, Financial Year 2024, 2023 and 2022 respectively. Any failure of us to maintain good business relations and continued arrangements with such suppliers may adversely affect our results of operations and financial condition.*

There are limited air carriers in the air cargo industry in which we operate. While we generally deal with multiple air carriers, we have developed good business relations with certain air carriers with whom we deal on a regular basis and these carriers are also our top ten suppliers. Any failure to maintain good business relations and retain those suppliers in the long-run due to any reasons whatsoever, will adversely impact our business and result of operations.

The contribution to the cost of service of our Company from our top ten and top five largest suppliers is as set out below:

Particulars	For the period ended on December 31, 2024		For the Financial Year ended on March 31,					
			2024		2023		2022	
	Amount	% of cost of service	Amount	% of cost of service	Amount	% of cost of service	Amount	% of cost of service
Top 5 Suppliers	47,370.30	32.08	43,536.14	38.29	51,477.45	39.12	59,667.14	39.52
Top 10 Suppliers	69,469.41	47.05%	61,761.31	54.31	69,340.53	52.69	76,797.62	50.87

Note: For nine months period ended December 31, 2024, our top 10 suppliers in terms of cost of service are (i) Emirates (ii) Qatar Airways (iii) Air India Limited (iv) Lufthansa Cargo AG (v) Virgin Atlantic (vi) Air France (vii) British Airways (viii) Turkish Airlines (ix) DHL Express (India) Private Limited and (x) MNC Mediterranean Shipping Company S.A.

3. Some of our subsidiaries including step down subsidiary(ies), including the ones acquired by us, have incurred, or continue to incur, losses, which could negatively impact our financial performance.

Some of our Subsidiaries including step down subsidiary(ies), including those acquired in recent years, have historically incurred losses as set out below based on restated financials in as under:

S. No.	Name of Subsidiary	Relevant Period of Loss	Profit/(Loss) After Tax (in ₹ Lakhs)
1.	Skyways SLS Logistik Co. Limited, Hong Kong	Fiscal 2024	(26.67)
2.	Hubload SLS Services Private Limited	Fiscal 2024	(73.43)
3.	Phantom Road Express Ltd	Fiscal 2024	(13.90)
4.	Surgeport Logistics Private Limited	Fiscal 2024	(154.79)
5.	SLS ASAP Tech Systems Private Limited (Formerly known as Northport Logistics Private Limited)	Fiscal 2024	(0.29)
6.	SLS Logistik Academy Private Limited	Fiscal 2024	(28.59)
7.	Skyways SLS Logistik GMBH	Fiscal 2024	(39.45)
8.	SLS Retail Supermart Private Limited	Fiscal 2024	(51.41)
9.	Skyways SLS Logistik Company Ltd, Vietnam	Fiscal 2024	(26.38)
10.	Skyways SLS Logistik Co. Ltd, Cambodia	Fiscal 2024	(10.42)

We cannot assure you that our Subsidiaries will not incur losses in future. Ongoing or increased losses in these Subsidiaries could result in a deterioration of our consolidated profitability, reduced cash flow, and potentially impair our ability to invest in other growth opportunities or to meet financial obligations.

4. Any adverse developments affecting trade volumes and freight rates may have an adverse effect on our business, results of operations, and financial condition.

Our results of operations are influenced by the volume of our business, which, in turn, depends on worldwide trade volumes as well as the import and export volumes in India. Global trade volumes and the import and export volumes in India are significantly affected by changes in global, regional, and local economic, financial, and political conditions, as well as freight rates, all of which are beyond our control. These factors include, but are not limited to:

- (a) Changing economic cycles and other macroeconomic developments;
- (b) The imposition of trade barriers, sanctions, boycotts, and other measures;
- (c) Significant variations in exchange rates applicable to currencies in the regions where our customers operate;
- (d) Trade disputes and work stoppages, particularly within the logistics services industry;
- (e) Acts of war, hostilities, natural disasters, epidemics, terrorism, and changes in freight rates.

Any obstruction to trade with the markets from which we receive cargo, or to which cargo passing through our facilities is shipped, could slow economic growth. This can result from factors such as economic fluctuations, wars, natural disasters, internal political developments, or the imposition of new trade barriers (including tariffs on rail, road, and other services; minimum prices; political, economic, or military sanctions; export subsidies; import restrictions; or duties). These disruptions could lead to lower trade volumes or slower growth in cargo handling, which could, in turn, negatively impact our business, results of operations, and financial condition.

We have experienced such instances during Fiscal Years 2024 and 2023 wherein our turnover dipped in comparison to the turnover of Fiscal Year 2022 on account of changing economic cycles and other macroeconomic developments which resulted in lowered freight rates. For details of our revenue “**Our Business – Our Revenue Breakup on service basis**” on page 227.

Any adverse changes in the macroeconomic environment, global demand, trade relations, government policies, or geopolitical developments that negatively affect India's export sector may result in reduced cargo volumes and, consequently, lower demand for our services. Further, sector-specific downturns, supply chain disruptions, imposition of trade restrictions or tariffs, or changes in foreign exchange rates affecting export competitiveness may contribute to a decline in India's exports. A sustained reduction in export activity could materially and adversely affect our business operations, financial condition, cash flows, and results of operations.

5. *We have significant working capital requirements which have historically been funded through borrowings. Any inability to access adequate working capital loans on commercially reasonable terms may adversely effect our business, financial condition and results of operations.*

Our business operations involve substantial working capital requirements, primarily to finance trade receivables, inventory and other current assets. These requirements have historically been funded largely through borrowings. For details of our working capital requirements for nine months the period ended December 31, 2024 and fiscal years ended on March 31, 2024, March 31, 2023, and March 31, 2022, refer "**Object of the Offer**" beginning on page 117.

A significant portion of our working capital gap is met through working capital limits and other borrowings availed from banks and financial institutions. A sustained or increased reliance on such borrowings may result in a higher debt-to-equity ratio. Our debt-to-equity ratio stood at 1.77, 1.92, 1.34 and 1.62 as on December 31, 2024, and March 31, 2024, 2023 and 2022, respectively.

Any disruption in our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding on favourable terms, in a timely manner, or at all, to meet our working capital requirements or to pay our debts, could adversely affect our financial condition and results of operations. Additionally, an increase in interest rates, tightening of credit conditions, could further affect the cost and availability of such funds. This may, in turn, constrain our ability to meet short-term liabilities, manage our operating cycle, or fund business growth, including planned expansions.

For further information regarding the working capital facilities currently availed of by us, see "**Financial Indebtedness**" beginning on page 416.

6. *We have had negative cash flows in the past. Sustained negative cash flow could adversely impact our business, financial condition and growth.*

We have experienced negative cash flows from operating activities and investing activities which are set forth below as per the Restated Consolidated Financial Statements:

Particulars	For the period ended on December 31, 2024	(₹ in Lakhs)		
		2024	2023	2022
Net cash flow (used in)/from operating activities	(2,201.55)	(904.17)	7,158.53	2,087.90
Net cash flow (used in)/ from investing activities	(2,637.41)	(13,101.29)	(7,616.17)	(1,728.41)
Net cash flow (used in)/from financing activities	4,980.50	15,534.08	(1,066.50)	2,583.06

For further information, see "**Restated Consolidated Financial Information**" beginning on page 317.

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our business, financial condition and results of operations could be materially and adversely affected.

7. *The agreements governing our indebtedness contain conditions and restrictions on our operations, additional financing, and capital structure.*

As of **May 31, 2025** our total sanctioned borrowings are **₹ 62,971.05 Lakhs** and outstanding borrowing of **₹ 35,270.77 Lakhs** which includes secured borrowings of **₹ 34,764.71 Lakhs** availed from banks. For details of our total sanctioned borrowings and outstanding balances, please see chapter titled "***Financial Indebtedness***" on beginning page 416.

We have availed various borrowing facilities from banks and other institutional lenders for different terms and tenures, which are governed by formal financing agreements. The financing agreements with banks contain customary conditions and restrictive covenants that, among other things, require us to obtain prior consents, no-objection certificates or waivers from lenders before undertaking specified actions. These include, inter alia, incurring additional indebtedness, prepaying existing borrowings, declaring dividends, incurring capital expenditure beyond specified limits, amending our constitutional documents, altering our capital structure, shareholding pattern or management, and selling, leasing, transferring or otherwise disposing of secured assets.

Although we have taken the consent of our lenders for undertaking activities in relation to our Initial Public Offering, undertaking any of the above without the consent of our lenders or non-compliance with any of the covenants of our financing agreements, constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements, that include, among others, acceleration in repayment of the amounts outstanding under the financing agreements, enforcement of any security interest created under the financing agreements and taking possession of the assets given as security in respect of the financing agreements. For details of consent from our lenders in relation to our Initial Public Offering, please see "***Objects of the Offer***" on page 117.

Further, we cannot assure you that we will be able to obtain necessary approvals to undertake any of these activities as and when required or to comply with such covenants or other covenants in the future. Any default by us under the terms of any financing agreement may also trigger a cross-default under some of our other financing agreements, or any other agreements or instruments of ours containing cross-default provisions, which may individually or in aggregate, have an adverse effect on our operations, financial position and credit rating. If the lenders of a material amount of the outstanding loans declare an event of default simultaneously, we may be unable to pay its debts when they fall due.

Additionally, we are required to comply with certain financial covenants, including maintaining specified inventory margins, adequate insurance cover on hypothecated assets, and creation of liens, among others. Our hypothecated assets include inventories such as raw materials, semi-finished and finished goods, consumables, spares, and other movable current assets, including book debts, bills, and receivables, both present and future. We have also mortgaged certain immovable properties, including residential properties of our Promoters, to secure such borrowings. There can be no assurance that we will be able to comply with all financial and other covenants, or obtain timely consents required for actions critical to the growth and operation of our business. Moreover, any increase in interest rates could lead to higher borrowing costs, which may adversely affect our business, financial condition, results of operations and future prospects. Our ability to meet repayment obligations and refinance existing debt will depend on our ability to continue generating adequate cash flows from operations, which cannot be assured.

8. If we are not able to sell container space that we purchase from sea shipping lines, we will not be able to recover our costs and our profitability may suffer.

For our ocean freight forwarding business, we contract with shipping lines to obtain transportation for a fixed number of containers between various points during a specified time period at variable rates. We then solicit freight from our clients to fill the containers. When we contract shipping lines, we become obligated to pay for the container space that we purchase. If we are not able to sell all of

our purchased container space, we will not be able to recover our costs for such purchase of container space and our business, financial condition and results of operations could be adversely affected.

9. We enter into certain related party transactions in the ordinary course of our business and we cannot assure you that such transactions will not have an adverse effect on our results of operations and financial condition.

In the ordinary course of our business, we have entered and will continue to enter into transactions with related parties. For details regarding our related party transactions, see "**Restated Consolidated Financial Information—Note 39 - Restated Statement of Related Party Transactions**" on page 378-388. These transactions include, inter alia remuneration, salary, unsecured loan granted or accepted, rent expenses, availing and rendering of services, etc.

Further, details of related party transactions in each period of in respect of the total transactions of a similar nature in the period ended December 31, 2024 and Fiscal Year ended 2024, 2023 and 2022 are set out below:

While all related party transactions that we have entered into are conducted on an Arms' Length Basis in accordance with the Companies Act, 2013 and other applicable regulations pertaining to the evaluation and approval of such transactions. Any related party transactions that we may enter into post-listing will also be subject to requisite approvals of the Board, Audit Committee and/or shareholders, as applicable, in accordance with the Companies Act, 2013 and the SEBI Listing Regulations. However, there can be no assurance that such transactions, whether individually or in the aggregate, will not have an adverse effect on our business, financial condition, results of operations, cash flows or prospects. Further, any future related party transactions may involve potential conflicts of interest, which could be detrimental to our Company. There can be no assurance that our directors or executive officers will be able to effectively address or mitigate such conflicts, if any arise in the future.

For more details, see "**Restated Consolidated Financial Information – Note 39- Related Party Disclosures**" on page 378-388.

10. We are highly dependent on our workforce, which is a key asset for our logistics operations, and any inability to attract, retain or effectively manage our personnel may adversely affect our business and results of operations.

Our business operations are labor-intensive and rely heavily on the skills, experience, and efficiency of our workforce, including drivers, warehouse staff, logistics coordinators, and other operational and support personnel. The quality and reliability of our logistics services depend significantly on the performance and dedication of our employees.

Any shortage of skilled personnel, high employee turnover, inability to attract and retain qualified manpower, or any labor unrest may disrupt our operations, increase costs, and adversely affect our service levels and customer satisfaction. Additionally, rising wage costs, regulatory changes impacting labor, or adverse working conditions may further strain our workforce management and financial performance.

Our failure to effectively manage workforce-related challenges could materially and adversely affect our business, financial condition, cash flows and results of operations.

Period	Employee Related Expenses	Comparison with Revenue
For the period ended December 31, 2024	6,301.86	3.85%
FY 2023-24	6,593.86	5.11%
FY 2022-23	6,102.90	4.11%
FY 2021-22	4,621.56	2.78%

In the event our employee relationships deteriorate, or we experience significant labour unrest, strikes, lockouts and other labour action, work stoppages could occur and there could be an adverse impact on our delivery of services to clients. While there have been no such instances in the past three Fiscals and three months ended March 31, 2025, if there is any failure by us in complying with applicable labour laws and regulations including in relation to employee welfare and benefits and training/ qualification requirements, we may be subject to criminal and monetary penalties, incur increased costs, or disputed in litigation which may in turn disrupt our operations.

11. We have contingent liabilities that have not been provided for in our Company's financials which if materialised, could adversely affect our financial condition.

As of December 31, 2024, we had ₹ 21,207.43 Lakhs of contingent liabilities that had not been provided for. A summary table of our contingent liabilities as of December 31, 2024, as disclosed in the Restated Consolidated Financial Information is set forth below:

Particulars	For the Period Ended December 31, 2024	(₹ in Lakhs)
(A) Contingent liabilities		
a) Guarantees issued by banks		-
b) Income tax Matters		95.93
c) Indirect tax Matters		3,667.50
d) Corporate Guarantee Given by Company		-
(B) Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided		4,244.00
Corporate Garuantees issued by holding company to banks on behalf of and in respect of fund and non-fund based credit facilities availed by its subsidiary companies-		
1. Forin Container Private Limited		7,200
2. Braceport Logistics Private limited		500

Particulars	For the Period Ended December 31, 2024
3. Phantom Express Private Limited	4,500
4. Rahat Continental Private Limited	1,000
Total (A+B)	21,207.43

For details, see "**Restated Consolidated Financial Information**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations - Contingent Liabilities**" on pages 317 and 446, respectively. Any or all of these contingent liabilities may become actual liabilities. In the event that any of our contingent liabilities become non-contingent, our business, financial condition and results of operations may be adversely affected. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current financial year or in the future.

12. High employee attrition rates may adversely impact our business operations, continuity, and financial performance.

Our Company has witnessed elevated employee attrition rates over the past three fiscal years, which may adversely impact our operational efficiency and execution capabilities. the following table sets forth the details of the attrition rate for the past three fiscal years and stub period ending on December 31, 2024:

FY/Period	Average Number of Employee during the year/stub period	No. of Employees left	Attrition rate
For the period ended December 31, 2024	416	84	20.19%
2023-24	465	203	43.66%
2022-23	466	119	25.54%
2021-22	389	52	13.37%

Pursuant to certificate dated June 23, 2025, received from Independent Chartered Accountant, M/S S.K. Singla & Associates, Chartered Accountants.

A sustained increase in attrition levels can result in higher recruitment and training costs, disruption of ongoing operations, loss of experienced personnel, and erosion of institutional knowledge. In our industry, where logistics execution depends significantly on domain expertise and process familiarity, workforce continuity is critical to maintaining service quality and meeting client expectations.

Our Company's ability to attract, train, and retain qualified personnel is fundamental to the success of our business. Any difficulty in retaining key employees or replacing them with equally skilled resources in a timely manner may disrupt project delivery, delay strategic initiatives, and adversely affect client relationships.

Although our Company have undertaken initiatives to strengthen employee engagement and improve retention, there can be no assurance that such efforts will be effective in reducing attrition to acceptable levels. Continued high employee turnover may have a material adverse effect on our business operations, financial condition, and results of operations.

13. Our agreements with air carriers include tonnage-based incentive structures and any inability enter into or renew these agreements may adversely affect our profitability.

We have entered into contractual arrangements with certain air carriers that incorporate tonnage-based incentive mechanisms. Under these agreements, we receive additional payments upon reaching specified cargo volume thresholds. If we are unable to meet the committed tonnage levels, we may lose the incentive or face deterioration in our relationships with air carriers. These arrangements may limit our ability to manage costs effectively, particularly in periods of demand.

14. We have pledged or have agreed to pledge and will continue to pledge a significant portion of our cash and cash equivalents and fixed deposits in favor of lenders, who may exercise their rights under the respective pledge agreements in the event of a default.

We have pledged a significant portion of our cash and cash equivalents and bank balances with our lenders in form of fixed deposits ("FDs"). The table below provides details of the amounts pledged as at the dates indicated.

Particulars	As at December 31, 2024	As at March 31,		
		2024	2023	2022
Cash and cash equivalents and bank balances				
Cash and cash equivalents (A)	7,150.81	7,015.09	5,480.39	7,012.16

Free Cash (F=D-E)	5,306.50	4,794.94	5,471.97	4,306.81

If we are unable to meet our obligations under our financing agreements, our lenders may choose to invoke the amounts pledged to recover the dues payable to them. This may significantly impact our liquidity and can limit our ability to respond to any imminent financial needs or opportunities, thereby affecting our profitability and financial condition. Lower liquidity can also lead to constraints on our operational flexibility, which can affect the efficiency of our operations. For further details of the restrictive covenants in our financing agreements, see "**Financial Indebtedness**" beginning on page 416.

15. Our revenue is heavily reliant on our operations within certain geographical regions. Any adverse developments, such as economic downturns, political instability, or natural disasters, in these regions could significantly impact our revenue and overall financial performance.

The continent wise revenue contribution, as reflected in the Restated Consolidated Financial Information for the period ended December 31, 2024 and for the Fiscal Years ended March 31, 2024, 2023, and 2022, is detailed below:

Continents	(₹ in Lakhs)

Pursuant to certificate dated June 23, 2025, received from Independent Chartered Accountant, M/S S.K. Singla & Associates, Chartered Accountants.

Such geographical concentration of our business in Asia regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. Our inability to expand into other regions may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in such regions to expand our operations in other parts of India or internationally, due to factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets. In addition, as we enter new

markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside such markets may adversely affect our business prospects, financial conditions and results of operations. While our management has faith that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we may face and should not rely on our results of operations for any prior periods as an indication of our future performance.

16. We and certain of our Subsidiaries are involved in ongoing proceedings pertaining to direct and indirect taxes involving an aggregate disputed demand of approximately ₹ 3,868.06 lakhs. These demands exceed the thresholds of materiality based on our Restated Consolidated Financial Statements. Any adverse outcome in these proceedings may have a material adverse effect on our financial condition, results of operations and cash flows.

Our Company and certain of our Subsidiaries are currently parties to various proceedings in relation to direct and indirect taxes before different authorities. These proceedings relate to disputed tax demands arising from assessments made under applicable income tax laws and goods and services tax laws, etc. The total amount of tax demands under dispute, in the aggregate, is approximately **₹ 3,868.06 lakhs**. While we have contested these demands and have filed appeals in various matters, however, the outcome of litigation is uncertain and beyond our control. In indirect tax appeals, we also pre-deposited amount aggregating to **₹ 212.14 lakhs**. We cannot assure you that these matters will be ruled out in our favour or that we will not be subject to any tax demands additional liabilities, including interest and penalties, in the event of an adverse decision. For details, please refer "**Outstanding Litigations and Material Developments**" chapter beginning on page 450.

If any of these disputed tax demands materializes, either fully or partially, we may be required to make significant financial outflows, which could adversely affect our profitability, cash flows and overall financial position.

17. Our Company proposes to invest a portion of the Net Proceeds of the Fresh Issue in our material subsidiary, Forin Container Line Private Limited (FCLPL), for repayment or prepayment of its outstanding borrowings. Any adverse performance by FCLPL may affect its ability to meet residual obligations and may also result in the loss of value of the proceeds deployed by us, which could adversely impact our business, financial condition and results of operations.

We intend to utilize **₹ 3,470.00 Lakhs** out of the Net Proceeds of the Offer towards an investment in the form of equity, in our material subsidiary namely Forin Container Line Private Limited for repayment or prepayment, in full or in part, of certain outstanding borrowings availed by FCLPL from banks and financial institutions. These loans were primarily raised to finance the working capital requirements, repayment of debts and funding the capex for constructing warehouse. As of May 31, 2025, FCLPL had total borrowings of **₹ 7,024.02 Lakhs**. The proposed repayment is expected to reduce the indebtedness and associated interest burden.

However, there can be no assurance that FCLPL will be able to generate sufficient cash flows from its operations to service the remaining debt obligations, or to meet its ongoing working capital and capital expenditure requirements. In the event of any delay default by FCLPL in servicing its obligations, the lenders may enforce security interests over the assets of FCLPL or invoke guarantees or cross-default provisions involving our Company or other Subsidiaries. Furthermore, since a portion of the Net Proceeds of Offer is proposed to be deployed in FCLPL for repayment of its loans, any underperformance or financial stress in FCLPL's operations may not only result in financial and

operational setbacks for our Company, but could also lead to diminution or loss in the value of the Net Proceeds so invested.

While we have not experienced any such instances during the nine months ended December 31, 2024 or in Fiscal Years 2024, 2023 and 2022, we cannot assure you that similar events will not arise in the future due to non-compliance with covenants or adverse developments affecting FCLPL's business.

18. We may be unable to fully realize the anticipated benefits of recent acquisitions and investments or any future acquisitions and investments successfully or within our intended timeframe that may adversely affect our business, financial condition, cash flows, results of operations and prospects.

Our Company has acquired or invested in the equity shares of certain entities, both within and outside India, with the objective of expanding our business operations, diversifying our service offerings, and broadening our revenue streams.

For details, see "***History and Certain Corporate Matters – Details regarding material acquisitions or divestments of business or undertakings, mergers, amalgamations***" and "***Subsidiaries of our Company***" on pages 262 and 263, respectively. In line with our long-term strategic plans, we may pursue additional acquisitions from time to time. However, the success of any acquisition is subject to several risks and uncertainties, including the ability to identify suitable targets, obtain necessary approvals, secure appropriate funding, and effectively integrate operations, systems, and personnel.

Further, many of our Subsidiaries are not our wholly owned subsidiaries. We do not control the other shareholders of such subsidiaries. In case there is lack of co-operation from such shareholders or they mis-use our intellectual property or confidential information, we cannot assure you if we would be able to take timely or adequate action to restrain them.

Challenges in cultural alignment, operational integration or unanticipated liabilities may also arise. There can be no assurance that any past or future acquisitions will yield the expected strategic or financial benefits. Any failure to integrate such acquisitions effectively, or to achieve the anticipated synergies, may have an adverse impact on our business, financial condition, and results of operations. Additionally, there is a risk of absorbing unforeseen liabilities or compliance issues from the acquired entities, which may not have been fully identified during due diligence, potentially leading to legal complications and financial burdens.

19. Misconduct or errors by manpower engaged by us could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.

Misconduct or errors by manpower engaged by us could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such misconduct includes breach of security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. We have a large workforce deployed across India and other countries where we operate. Consequently, our ability to control the workplace environment in such circumstances is limited. The risks associated with the deployment of manpower engaged by us across several locations include, among others, possible claims relating to actions or inactions, failure of manpower engaged by us to adequately perform their duties or absenteeism, errors or malicious acts or violation of security, privacy, health and safety regulations.

While our Company has not experienced such misconduct, there have been instances of misconduct by employees in our Subsidiaries. In case of Hubload SLS Service Private Limited, a former employee misused confidential information and diverted business opportunities. Our Subsidiary has filed a civil

suit seeking permanent injunction as well as monetary damages of ₹ 40 Lakhs. For details, refer “**Outstanding Litigations and Material Developments – Litigation by our Subsidiaries**” on page 453.

In another instance, one of the employee of our subsidiary, FCLPL committed fraud against our subsidiary, during the year 2022 and 2023. The said employee was authorized to deal with vendor payment settlements and during the payment process, there was fraudulently transfer of funds to personal bank accounts, aggregating to INR 293.98 Lakhs. The Company filed a FIR with its area Police Station. Thereafter, the Company has recovered majority of the amount. For details, refer “**Outstanding Litigations and Material Developments – Litigation by our Subsidiaries**” on page 453.

Any such claims in future may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and adversely impact our reputation and brand name. We may also be affected in our operations by the acts of third parties, including sub-contractors and service providers. Any claims and proceedings for alleged negligence as well as regulatory actions may in turn materially and adversely affect our brand and our reputation, and consequently, our business, financial condition, results of operations and prospects.

20. We may face claims relating to loss or damage to cargo shipment, personal injury claims or other operating risks that are not adequately insured and our insurance coverage could prove inadequate to satisfy potential claims or be insufficient to cover all losses associated with our business operations, which may have a material adverse effect on our business, results of operations, financial condition and cash flows.

We are exposed to various operational risks that are typical to the logistics industry, including those arising from the transportation, storage and handling of goods. These risks include, among others, accidents involving our vehicles or third-party carriers, which may result in personal injuries, damage to property, or damage, loss or theft of customer cargo. In the ordinary course of business, we may face claims from customers for compensation relating to such loss or damage, including for goods in transit or held in storage facilities managed by us. While we generally maintain insurance coverage, including freight forwarder liability cover, for goods transported or stored by us, such coverage may not be adequate or may not cover all potential liabilities. There have been such instances in past where the insurance policy has not covered our entire liability. In certain cases, we may be contractually or legally required to compensate customers irrespective of whether insurance proceeds are available. Furthermore, even where insurance is procured, our liability exposure may exceed the policy limits, or we may be subject to deductibles or exclusions that limit recoverability.

However, there can be no assurance that our current insurance policies will insure us fully against all risks and losses that may arise in the future. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. In cases where certain loss or damages are not covered under our insurance policies, or even if such losses are insured, we are required to pay a significant deductible on any claim for recovery of such a loss, or the amount of the loss may exceed our coverage for the loss or the premium charged is significantly increased, our results of operations and cash flows could be adversely affected. In addition, our insurance policies are subject to annual review, and we cannot assure you that we will be able to renew these policies on similar or otherwise acceptable terms, or at all. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have a material adverse effect on our financial condition, results of operations and cash flows. For further details of insurance, see “**Our Business - Insurances**” on page 247.

21. Certain secured loan facilities availed by our Company have been backed by personal guarantees from our Promoters and a member of our Promoter Group. Any default in repayment by our Company may result in enforcement of such guarantees, which could adversely affect our Promoters and consequently, our business and operations.

As of **May 31, 2025**, the secured borrowings aggregating to ₹ 62,453.05 lakhs have been sanctioned by institutional lenders to our Company. In connection with these borrowings, our promoters, namely Mr. Yashpal Sharma, Mr. Tarun Sharma and a member of our Promoter Group namely Mr. Sudershan Lal Sharma, have provided their personal guarantee in securing the aforesaid borrowings to extent of ₹ 62,453.05 lakhs which tantamount to 96.53% of our sanctioned limits.

Historically, we have not defaulted in the repayments of principal and interest and have Debt Service Coverage Ratio in relation thereto of 1.58 times, 1.17 times, 1.97 times and 3.02 times for the period ended on December 31, 2024 and Fiscal Year ending on March 31, 2024, March 31, 2023 and March 31, 2022 respectively. There have been few instances of NACH failure, which were attributable to technical reasons and not due to insufficiency of funds or credit issues. However, in respect of certain secured borrowings availed by us, our Promoters and certain members of our Promoter Group have extended personal guarantees. Consequently, any delay or default by us in servicing such debt obligations, whether due to financial constraints or otherwise, could result in lenders invoking these guarantees. This could have an adverse effect on our business, results of operation and financial condition. Furthermore, we may not be successful in procuring guarantees to supplement/ substitute the guarantees provided by our Promoters, member of Promoter Group and material subsidiary satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our business prospects, financial condition, results of operations and cash flows.

22. Certain immovable properties occupied by our Company are situated on 'Lal Dora' lands in New Delhi and are not registered in the name of our Company. Any inability to perfect title or comply with applicable regulatory requirements may adversely affect our business operations.

Our Company occupies certain immovable properties situated on lands bearing Khasra Nos. 378, 379/2/2, 384/2 and 385 at Mahipalpur Extension, New Delhi. These properties are presently recorded in the names of third parties, namely, Mr. Nathu Singh (Khasra No. 378), Mr. Hari Chand (Khasra Nos. 379/2/2 and 384/2), and Mr. Jagpal Singh (Khasra No. 385). We have acquired possession of these properties based on agreements to sell, general powers of attorney and consent letters duly executed. However, as these properties fall under the category of 'Lal Dora' lands, formal legal title has not yet been transferred in favour of our Company.

'Lal Dora' lands are historically classified as village lands which may be subject to certain regulatory restrictions relating to transfer, registration, commercial use and construction, depending on prevailing municipal and urban development regulations. While we currently possess valid documentation supporting our possession these properties and there are no existing disputes or proceedings with respect to these properties, the absence of formal registration of title in our Company's name may pose certain risks. In the event of any regulatory changes, stricter enforcement or claims by third parties, we may be required to incur additional costs for obtaining necessary approvals or regularization. In the event the relevant authority determines that our possession is unauthorized or void and directs us to vacate such premises or impose any restriction on utilisation of such properties, we may be required to surrender possession of these properties. In such a scenario, our Company may suffer a financial impact in connection with the cost of acquisition and related expenditures incurred on such properties. Based on the cost of acquisition, the potential financial exposure in respect of these properties is estimated to be approximately ₹ 8.50 crore. Any such adverse determination may have financial consequences for our Company. For further information, please refer "***Our Business***" chapter beginning on page 214.

23. Majority of our offices, including our registered office, are located on premises which are occupied either on lease or on leave and license basis. Any failure to comply with the terms of these leases or leave and licenses, inability to renew existing agreements or enter into new agreements on

commercially favourable terms, or adverse regulatory developments, may materially and adversely affect our business, results of operations and financial condition.

We have entered into lease agreements as well as leave and license agreements for several premises from which we conduct our operations, including our registered office. We cannot assure you that we will be able to fully comply with all the terms and conditions of these lease agreements, or that we will be able to renew such leases or secure new leases in the future on terms favourable to us, or at all. Generally, our lease agreements allow the lessors to terminate the lease prior to its scheduled expiry in the event of our default, including non-compliance with lease terms or non-payment of rent beyond specified periods or after serving a notice period. Any termination or non-renewal of these leases may require us to relocate our operations, which could involve considerable time, effort, and costs, and may result in temporary disruption to our business activities.

Further, our registered office and our branch office at Delhi which are leased/taken on leave and license by us from our Promoters and member of our Promoter Group, Sudershan Lal Sharma are located on Lal Dora land in New Delhi. 'Lal Dora' lands are historically classified as village lands which may be subject to certain regulatory restrictions relating to transfer, registration, commercial use and construction, depending on prevailing municipal and urban development regulations. If any of the said lease or license arrangements are terminated or not renewed due to restrictions on commercial use of Lal Dora lands, or if the lessor's rights to lease or license of such property are challenged, we may be required to vacate the premises. This may prevent us from deriving the intended benefits from the capital expenditure and investments already made at such locations, result in unanticipated relocation costs, and may temporarily disrupt our business operations, thereby adversely affecting our financial condition and results of operations.

24. An inability to renew quality accreditations in a timely manner or at all, or any deficiencies in the quality of our services may give rise to service liability claims and negatively affect our business prospects and financial performance.

We obtain and maintain quality certifications and accreditations from independent certification entities and also comply with prescribed specifications and standards of quality approved by certification issuing agencies. Our Company has obtained following certifications/ recognition:

S. No.	Certification	Validity
1.	ISO 9001:2015 in recognition of the organization's Quality Management System.	17/01/2027
2.	ISO 14001:2015 in recognition of the organization's Environment Management System.	16/04/2028
3.	OHSAS 45001:2018 in recognition of the Occupational Health and Safety Management System	16/04/2028

If we fail to comply with applicable quality standards or if we are otherwise unable to obtain such quality accreditations in the future in a timely manner or at all, our business prospects and financial performance may be negatively affected.

Further, we may be subject to service liability claims. There could be instances in which our services do not meet the customer requirements. We have, at some times, encountered certain claims with respect to the quality of our services and we may be subject to service liability claims and litigation for compensation in the future also which could result in substantial and unexpected expenditure and could materially affect our cash flow and operating results. Further, there can be no assurance that we will be able to successfully defend such claims. If any such claims against us are materialised, we could be required to pay substantial damages, which could materially and adversely affect our business, financial condition, results of operations and cash flows.

25. There have been discrepancies in filings with the Registrar of Companies (RoC) and other non-compliances under the Companies Act in the past, which may result in penalties.

Our Company has, in the past, experienced prolonged and continuous delays in filing certain forms

and returns with the RoC, including instances where revisions were made to previously filed forms. Additionally, there have been certain clerical errors and procedural non-compliances, some of which may not be rectifiable under applicable laws. While we have taken steps to address these issues, we cannot assure that the RoC or any other regulatory authority will not initiate inquiries, impose penalties, or take other regulatory action against us or our officers for such past non-compliances.

Any such proceedings or penalties, including those arising from continued delays or inadvertent lapses in future filings, may result in additional financial liabilities beyond statutory late filing fees and may adversely affect our cash flows. We cannot assure you that similar instances will not recur in the future or that we will not be subjected to further penalties or regulatory scrutiny. We have outlined below few instances of delays for the fiscal 2022, 2023, 2024 and till the date of this DRHP, occurred in our regulatory filings with the RoC:

S. No.	Description of Form	Delay Ranging between	No. of Instances of delays
1.	CHG-1: for creation of charge	3-17 days	8
2.	CHG-1: for modification of charge	2-74 days	8
3.	CHG-1: for satisfaction of charge	5-194 days	4
4.	MGT- 7: Annual return	24-89 days	3
5.	AOC-4: Financial Statements	50-123 days	3
6.	SH-7: for increasing the authorized share capital	199 days	1
7.	MGT-14: for approval regarding issuance of Sweat Equity shares	5-217 days	3
8.	DPT-3: for declaration of deposits and exempted deposits	30-347 days	3
9.	PAS-3: for Allotment of shares	2 days	1
10.	MGT-14: Borrowing Power/ Loan to person or entity in whom director of the company is interested	27 days	1
11.	ADT-1: Auditors' Appointment	207days	1
12.	ADT-1: Casual Vacancy of Statutory Auditors	38 days	1
13.	ADT-3: Auditors' Cessation	2 days	1

Further, there is no assurance that such discrepancies will not occur in the future, and we may still be subject to regulatory actions or penalties, which could adversely affect our business operations and financial position. However, there could have an impact on the Company's reputation, regulatory standing, or operational results.

26. Our obligations under corporate guarantees provided in respect of credit facilities availed by our Subsidiaries may expose us to financial liabilities, and any invocation of such guarantees may impact our financial condition, results of operations and cash flows.

Our Company has provided corporate guarantees to banks and financial institutions in connection with credit facilities sanctioned to certain of our Subsidiaries. While these guarantees have been extended to support the financing needs of such Subsidiaries, any default, delay or inability by the respective Subsidiaries to meet their repayment obligations under such credit facilities, whether due to operational, financial or other reasons, may trigger our obligations as a guarantor. If such corporate guarantees are invoked, our Company may be required to make payments towards such borrowings, which could adversely affect our financial condition, cash flows and overall business operations. There can be no assurance that the financial condition of our Subsidiaries will not deteriorate or that we will not be called upon to honour such obligations in the future. For further details regarding corporate guarantees provided by our Company, see "***Restated Consolidated Financial Information***" beginning on page 317.

27. Our inability to obtain certain statutory registrations for one of our branch offices located in Kerala may expose us to regulatory actions and penalties.

Our Company has entered into a lease arrangement for one of its branch offices located at Surya Apartment, Room no. 10/498G, 1st floor, KC Jacob Building, Old airport road, Nedumbassery,

Ernakulam-683572, Kerala. We have obtain GST registration for this branch. As per the laws applicable in the state of Kerala, our Company is required to obtain registrations under the Shops and Establishments Act and Professional Tax regulations also. The lessor of the aforesaid premises has recently passed away, and the process of determination and formalization of ownership in favour of the legal heir is currently ongoing. Until such time as the ownership is formally registered in the name of the legal heir, we are unable to complete the process of obtaining the required registrations, as these require submission of lease arrangement related documents executed with successors.

Although such inability to obtain the requisite registrations is not attributable to any default or lapse on our part, any prolonged delay may expose us to penalties or other compliance requirements as may be imposed by the relevant statutory authorities.

28. We have not complied with the applicable requirements under the Labour Welfare Fund Act(s) in various states, and such non-compliance may expose us to penalties and other regulatory actions.

Our Company is subject to various state-specific legislations relating to labour welfare, under Labour Welfare Fund Act (“LWF Act”), which require establishments to obtain registration and make periodic contributions to the respective state labour welfare funds for the benefit of employees. We have, in the past, not obtained registrations under the LWF Act in certain states where such compliance was applicable. Consequently, we have not made contributions to the labour welfare funds in such states for the relevant periods. We have recently applied for such registrations as applicable. For further information, please refer to “**Government and Other Approvals – Material Approvals applied but not received**” chapter on page 467.

While our Company has now initiated the process of applying for registration under the relevant LWF Act, we remain non-compliant with past obligations relating to registration and contribution under such state specific LWF Act. As a result, we may be subject to penalties, interest, or other regulatory actions by the competent authorities at a later stage. Any such action may adversely affect our cash flows and financial position.

29. Instances of delays in payment of employee-related statutory dues in the past may expose us to regulatory action, including imposition of penalties.

Our Company has, in the past, experienced certain delays in remitting employee-related statutory dues, including contributions towards provident fund, gratuity, and bonus, within the timelines prescribed under applicable labour laws. While all such dues have subsequently been paid and there has been no continuing default or forfeiture, such delays may be construed as non-compliance with applicable statutory requirements. As on the date of this Draft Red Herring Prospectus, no regulatory proceedings have been initiated against us in this regard. However, there can be no assurance that the relevant authorities will not initiate inquiries or proceedings or impose penalties for such past delays, which may result in financial impact on our Company.

The details of the delays are as follows:

We cannot assure you that going forward we will be able to make payment of our statutory dues in a timely manner or at all, which could result in penal or other regulatory action including payment of interest on the delay in payment of statutory dues, which could adversely affect our business and our results of operations and financial condition.

30. Our Company, Subsidiaries, certain Promoters, Key Managerial Personnel and Senior Managerial Personnel are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows, and results of operations.

There are outstanding legal and regulatory proceedings involving our Company and Subsidiaries which are pending at different levels of adjudication before various forums. Such proceedings could divert the management's time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, business, financial condition, and results of operations.

The summary of outstanding legal proceedings involving our Company, Promoters, Subsidiaries, Directors, Key Managerial Personnel and Senior Managerial Personnel, as on the date of this Draft Red Herring Prospectus is set out below:

 - c. Notice in respect to assessment proceedings u/s 143(3) of the Income Tax Act, 1961 for the AY 2024-25.

^{^A}Amount does not include amount of demand in following proceedings as no demand is has been quantified yet:

1. Odyssey Logistics Private Limited- Notice in Form ASMT-10 dated 25.05.2021 for the FY 2020-21 requiring the company to furnish reasons for discrepancies mentioned in the notice. However, no further order has been issued nor any subsequent action has been taken by the relevant authority.

B. The total demand amount includes Rs. 14.42 lakhs related to Skart Global Express Private Limited, for which a stay order has been granted by the High Court of Karnataka.

- ^{^^1}Number of cases includes 2 audit proceedings involving Forin Container Line Private Limited and Surgeport Logistics Private Limited wherein the companies have duly responded to the audit notices received, however, no further order has been issued quantifying demand nor any subsequent action has been taken by the relevant authority.
2. Out of the total cases, 4 relate to Odyssey Logistics Private Limited. In one of these cases, which involves a demand of Rs. 8.63 lakhs, the company has filed an appeal with the Appellate Authority and has made a pre- deposit of Rs. 0.78 lakhs.

^{**}This case is arising out of an appeal filed against our subsidiary company, SurgePort Logistics Private Limited, wherein the petitioners Paul Deepak Rajaratnam & Ors. have appealed against setting aside the interim order dated December 16, 2024, passed by the learned sole arbitrator in an international commercial arbitration seated in New Delhi in favour of our subsidiary company.

^{^^2}Number of cases includes 2 audit proceedings involving Forin Container Line Private Limited and Surgeport Logistics Private Limited wherein the companies have duly responded to the audit notices received, however, no further order has been issued quantifying demand nor any subsequent action has been taken by the relevant authority.

Further, there is no litigation involving our Group Company which may have a material impact on our Company.

We cannot assure you that any of these matters will be settled in favour of our Company, Promoters, or Directors, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, results of operations, and our reputation. For details, see "**Outstanding Litigation and Material Developments**" beginning on page 450.

31. We are required to obtain, renew or maintain certain statutory and regulatory permits and

approvals required to operate our business and if we fail to do so in a timely manner or at all and our business, financial conditions, results of operations and cash flows may be adversely affected.

Our operations are subject to government and statutory regulations, and we are required to obtain and maintain a number of licences, registrations, permits, consents and approvals under various central, state and local laws to carry on our business. While we have, in all material aspects, obtained the requisite approvals, licenses, registrations and permits necessary for our operations, there may be instances where we may have failed to apply for, delaying in applying for or not obtained certain approvals that may be applicable to us. For details, refer to "**Government & other Approvals – Material approvals applied for but not received**" and "**Government & other Approvals – Material approvals required but not obtained or applied for**" on page 467 and 468 respectively. Any such non-compliance or breach could result in penalties or other regulatory actions being imposed on our Company, which may have an adverse effect on our business, financial condition, results of operations and cash flows.

We are required to apply for renewals of certain approvals, licenses, registrations, and permits from time to time upon their expiry, or obtain fresh approvals as may be necessary in the ordinary course of our business. While we generally endeavor to make such applications within the prescribed timelines, there can be no assurance that the requisite approvals will be granted or renewed in a timely manner, or at all. Any delay or inability in obtaining or renewing such approvals could adversely impact our operations.

There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could adversely affect our related operations. Further, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/ penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

The approvals obtained by us are subject to various conditions, including but not limited to, limits on the usage of raw materials and compliance with applicable fire safety norms. In certain cases, prior consent of the relevant authority is required for any modification, alteration, or change in our services. These approvals also typically require periodic renewals and continuing compliance with prescribed conditions. We cannot assure that such approvals, licenses, registrations, or permits will not be suspended, revoked, or cancelled in the event of any actual or alleged non-compliance with their terms, or as a consequence of any regulatory action.

32. Our Company has made overseas investments and is subject to regulatory requirements under FEMA. While such investments have been undertaken in compliance with applicable laws, any future or inadvertent non-compliance may subject us to regulatory actions or penalties.

Our Company has made investments in entities incorporated outside India in compliance with the Foreign Exchange Management Act, 1999 ("FEMA") and the applicable rules and regulations framed thereunder, including the Foreign Exchange Management (Overseas Investment) Rules, 2022 and the Foreign Exchange Management (Overseas Investment) Regulations, 2022 and in this regard, has been allotted Unique Identification Number pursuant to the overseas investments made by us. While we believe that such investments have been undertaken in compliance with applicable requirements, the RBI or any other regulatory authority may, at its discretion, review such transactions and may impose penalties in case of any non-compliance, including any inadvertent or unknown lapses. Further, we cannot assure that we will be able to ensure full and ongoing compliance with all applicable FEMA provisions at all times. Any adverse regulatory action or penalty may impact our financial condition and reputation. On one occasion, one of our subsidiaries, Odyssey Logistics Private Limited ("**Odyssey India**"), made an overseas investment in

the 100% shares of Odyssey Logistics USA LLC (“**Odyssey USA**”) which consequently became a step-down subsidiary of our Company. Odyssey India, was unable to comply with the requirement of filing the Annual Performance Report as mandated under the Overseas Investment Regulations, issued under FEMA. While Odyssey India is in the process of filing the pending Annual Performance Report with the Reserve Bank of India through its Authorised Dealer Bank, however, the aforesaid non-compliance may attract regulatory scrutiny and result in penalties, compounding proceedings or other adverse actions by the Reserve Bank of India against Odyssey India. Although the non-compliance is attributable to our Subsidiary, any resulting regulatory or financial consequences may adversely affect our consolidated financial statements and overall compliance status.

33. Our business is dependent on technology and any disruption or failure of our technology systems may affect our operations.

We believe that our technological capabilities play a key role in helping us effectively manage our pan-India operations, maintain operational and fiscal controls, and support our efforts to enhance client service levels. Our business is significantly dependent on the efficient and uninterrupted operation of our technology infrastructure and systems such as our transportation management system and control tower and our warehouse management system. For further details, see “**Our Business**” beginning on page 214.

Our operations are vulnerable to interruption by events beyond our control such as fire, earthquake, power loss, telecommunications or internet failures, terrorist attacks and computer viruses. We are also subject to hacking or other attacks on our IT systems, and we cannot assure you that we will be able to successfully block or prevent all such attacks. Any breaches of our IT systems may require us to incur further expenditure on repairs or more advanced security systems. A significant system failure could adversely affect our ability to manage overall operations, thereby affecting our ability to deliver our services to our clients, affecting our reputation and revenues.

We may also be exposed to multiple claims for failed delivery of goods. If such interruption is prolonged, our business, operations, financial condition and results of operations may be materially and adversely affected. We expect our clients to continue to demand more sophisticated and customized solutions. We may lose clients, and our business could be affected if we fail to implement and maintain our technology systems or fail to upgrade or replace our technology systems to handle increased volumes, meet the demands of our clients and protect against disruptions of our operations. Our operating efficiency may decline, and our growth may suffer if our technology systems are unable to handle additional volume of our operations as we grow.

Our future success will depend on our ability to adapt our solutions to the changes in technologies and internet user behaviour. In order to attract and retain clients and compete against our competitors, we must continue to invest significant resources in research and development to enhance our technology infrastructure, expand and diversify our product and service offerings, and improve our existing products and services.

Any changes in technology, or evolution of technology towards logistic sector that our solutions are unable to combat, could degrade the functionality of our services or give preferential treatment to competitive services. If we fail to keep up with these changes to remain competitive, our future success may be adversely affected.

34. Our management will deploy net proceeds from the Fresh Issue pending utilization for Objects to Offer in scheduled commercial banks and financial institutions and there is no assurance that the objects of the Offer will be achieved within the time frame expected. Any variation in the utilisation of the Net Proceeds in terms as disclosed in the Draft Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders' approval.

We intend to use the Net Proceeds of the Fresh Issue for (i) Repayment or prepayment, in full or in part of certain outstanding borrowings availed by our Company and our Subsidiary “**Forin Container Line Private Limited**”; (ii) Funding incremental working capital requirements of our Company; and (iii) general corporate purposes. The deployment of Net Proceeds is based on management estimates, current circumstances of our business and prevailing market conditions and has not been appraised by any bank, financial institution or other independent institution. We may have to revise our funding requirements and deployment from time to time due to various factors, such as changes in costs, financial and market conditions, business and strategy considerations and interest and exchange rate fluctuations or other external factors, which may or may not be within the control of our management. This may entail rescheduling and revising planned expenditure and funding requirements and increasing or decreasing expenditures for a particular purpose from planned expenditures at the discretion of our management and subject to applicable law. Accordingly, investors in Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds. The application of Net Proceeds in our business may not lead to an increase in the value of your investment.

Further, we will appoint a monitoring agency for monitoring the utilization of Gross Proceeds in accordance with Regulation 41 of the SEBI ICDR Regulations and the monitoring agency will submit its report to us on a quarterly basis in accordance with the SEBI ICDR Regulations.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds or in the terms of any contract as disclosed in this Draft Red Herring Prospectus without obtaining the Shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in our interest. This may restrict our ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of the Net Proceeds, if any, or varying the terms of any contract, which may adversely affect our business and results of operations.

Various risks and uncertainties, including those set forth in this section “**Risk Factors**”, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. For details see, “**Objects of the Offer**” beginning on page 117.

35. Our business strategies and expansion plans may be subject to various unfamiliar risks and may not be successful.

Our business strategies include expanding and strengthening the scope of our existing operations, enhancing infrastructure development, deepening customer relationships, improving our technological capabilities both in terms of software and hardware and exploring opportunities in high-growth international markets. For further details, see “**Our Business—Business Strategies**” on page 225.

These strategies require us to expand our operations to other geographical areas and in new industry verticals. Risks that we may face in implementing our business strategy in these markets may

substantially differ from those previously experienced, thereby exposing us to risks related to new markets, industry verticals and clients. The commencement of operations beyond our current markets and industry verticals is subject to various risks including unfamiliarity with pricing dynamics, competition, service and operational issues as well as our ability to retain key management and employees. There can also be no assurance that we will not experience issues such as capital constraints, difficulties in expanding our existing operations and challenges in training an increasing number of personnel to manage and operate our expanded business, or that we will be able to successfully manage the impact of our growth on our operational and managerial resources and control systems. We may not be able to successfully manage some, or all the risks associated with such an expansion into new geographical areas and new industry verticals, which may place us at a competitive disadvantage, limit our growth opportunities and materially and adversely affect our business, results of operations and financial condition. Furthermore, our participation in industry verticals has increased in recent financial periods. We cannot guarantee that our business in these industry verticals will continue to perform in a manner consistent with its performance in prior periods.

36. Certain sections of this Draft Red Herring Prospectus disclose information from the industry report which has been commissioned and paid for by us exclusively in connection with the Offer and any reliance on such information for making an investment decision in the Offer is subject to inherent risks.

We have engaged Dun and Bradstreet Information Services India Private Limited, which is not related to our Company, our directors or our Promoters to prepare an industry report titled "***Industry Report on Logistics in India***" dated ***June 04, 2025*** ("**D&B Report**"). Certain information contained in this Draft Red Herring Prospectus is based on or derived from the D&B Report, and such information has been appropriately disclosed with reference to its source. Neither our Company, nor any of our Directors or the Book Running Lead Managers, has independently verified the data contained in the D&B Report. Accordingly, none of them makes any representation or provides any assurance as to the accuracy, adequacy, completeness or objectivity of the information derived from or based on the D&B Report. Investors should consider this information in the context of the foregoing disclaimer when evaluating the disclosures made in this Draft Red Herring Prospectus.

Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. While industry sources take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data. Accordingly, investors should not place undue reliance on or base their investment decision solely on this information.

In view of the foregoing, you may not be able to seek legal recourse for any losses resulting from undertaking any investment in the Offer pursuant to reliance on the information in this Draft Red Herring Prospectus based on, or derived from, the D&B Report. You should consult your own advisors and undertake an independent assessment of information in this Draft Red Herring Prospectus based on, or derived from, the D&B Report before making any investment decision regarding the Offer. See "***Industry Overview***" beginning on page 150.

37. Certain secretarial records and documents filed by us with the Registrar of Companies are not traceable.

Our Company has not been able to trace certain secretarial records and regulatory filings, including forms pertaining to allotments made prior to the financial year 2005-06. Despite undertaking an extensive search of our available records, these documents could not be located. Consequently, we have relied on a certificate issued by M/s. S.K. Joshi & Associates, Practicing Company Secretary,

alternative documentation, such as our Memorandum of Association, minutes of meetings of the Board and shareholders, the Register of Members maintained by our Company, and subsequent filings and financial statements that capture the relevant details. However, no additional compliance-related filings in respect of these allotments could be traced, either in our internal records or those of the Registrar of Companies.

Accordingly, we cannot confirm whether such filings were made in accordance with applicable law, were made at all, or were filed within the prescribed timelines. While no penalties or regulatory actions have been imposed on our Company in connection with these missing records as of the date of this Draft Red Herring Prospectus, we cannot assure you that such actions or proceedings will not be initiated in the future, or that we will not be subject to penalties or other consequences in this regard.

38. The schedule of our estimated deployment of Net Proceeds is subject to inherent uncertainties.

The funding requirements and the proposed deployment of Net Proceeds are based on internal estimates and our current business plans, which in turn are dependent on certain assumptions regarding market conditions, business growth, costs, and other relevant factors. These estimates are inherently subject to change in response to evolving external circumstances, including changes in costs, business priorities, or macroeconomic developments. Further, such estimates have not been independently appraised or verified by any bank, financial institution, or external agency.

In view of the dynamic nature of the sector and specifically that of our business, we may have to revise our expenditure and fund requirements as a result of variations in cost estimates, exchange rate fluctuations and external factors which may not be within the control of our management. This may entail rescheduling and revising the planned expenditures and fund requirements and increasing or decreasing expenditures for a particular purpose at the discretion of our management, within the objects. For further details refer to "***Objects of the Offer***" beginning on page 117.

39. We have included certain non-GAAP financial and operational measures related to our operations and financial performance that may vary from any standard methodology that may be applicable across the industry in which we operate, and which may not be comparable with financial, operational or industry related statistical information of similar nomenclature computed and presented by similar companies.

Certain non-GAAP financial measures and certain other industry measures relating to our operations and financial performance have been included in this Draft Red Herring Prospectus. We compute and disclose such non-GAAP financial measures and such other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of logistics industry, many of which provide such non-GAAP financial measures and other industry related statistical and operational information. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our audited financial statements as reported under applicable accounting standards disclosed elsewhere in this Draft Red Herring Prospectus.

These non-GAAP financial measures and such other industry related statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other companies. For further information, see "***Management's***

Discussion and Analysis of Financial Condition and Results of Operations – Key Performance Indicators and Certain Non-GAAP Measures” on page 425.

40. If we fail to maintain an effective system of internal controls, we may not be able to successfully manage, or accurately report, our financial risks.

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may deteriorate over time, due to evolving business conditions. There can be no assurance that deficiencies in our internal controls will not arise in the future, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls. Any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls may adversely impact our ability to accurately report, or successfully manage, our financial risks, and to avoid fraud.

41. Our Promoter, also being the Managing Director, and some other Directors and Key Managerial Personnel and Senior Managerial Personnel of our Company, hold Equity Shares in our Company and are therefore interested in the Company’s performance in addition to their remuneration and reimbursement of expenses.

Our Promoter, also being the Managing Director, and some other Directors and Key Managerial Personnel and Senior Managerial Personnel of our Company, are interested in our Company to the extent of their shareholding in our Company, in addition to their remuneration or benefits and reimbursement of expenses. Our Promoter, Directors, KMPs and SMPs are mandatorily required to adhere to provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and act in a manner that protect the interests of the Company. While they are required to prioritize the interest of the Company of their personal considerations in the event of a conflict, there can be no assurance that they will always exercise their rights as shareholders in a manner that is aligned with the best interests of our Company. There may be instances where decisions taken, or actions blocked, by our Promoter, Directors, KMPs or SMPs in relation to our business may not be fully aligned with the interests of the Company or its other shareholders. For further information on the interest of our Promoter, Directors, KMPs and SMPs of our Company, other than reimbursement of expenses incurred or remuneration or benefits, please see the chapters titles “**Our Management**” and “**Our Promoter and Promoter Group**” beginning on pages 282 and 310, respectively.

42. We have allotted shares in the last one year, which may be at a price below the Offer Price.

Our Company has allotted Equity Shares during the twelve months immediately preceding the date of this Draft Red Herring Prospectus at prices which may be lower than the Offer Price. Such allotments were undertaken in compliance with applicable laws and were based on prevailing market conditions, valuation methodologies, and commercial considerations at the time of issuance. For further details, see “**Capital Structure**” beginning on page 101. There can be no assurance that the Offer Price, which may be higher than the price at which such Equity Shares were allotted, will not affect investors’ perception of the Offer or the market price of the Equity Shares after listing.

43. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures and lender consents and we cannot assure you that we will be able to pay dividends in the future.

Our Company has declared and paid dividends in the past. Any dividends to be declared and paid in the future are required to be recommended by our Board of Directors and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. Our Company’s ability to pay dividends in the future will depend on several internal and external factors, which, inter alia, include (i) profits earned by our

Company, (ii) present and future capital requirements, (iii) overall financial position of our Company, and (iv) uncertainty in economic conditions. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our Shareholders in future consistent with our past practices, or at all. For details pertaining to our dividend policy, see "**Dividend Policy**" on page 316.

44. Geopolitical tensions, conflicts, and global instability, including the Russian invasion of Ukraine, the Israel-Hamas war, the Iran-Israel conflict, and any future such hostilities or wars, may adversely impact the global economy, supply chains, and our business and operations.

The ongoing geopolitical conflicts, including the Russian invasion of Ukraine, the Israel-Hamas war, the Iran-Israel conflict, and the Red Sea crisis, have introduced significant uncertainty into the global economy, particularly with respect to energy supplies and the availability of raw materials. The short- and long-term ramifications of these events are currently difficult to predict. Furthermore, the South Asian region has witnessed episodes of civil unrest and tensions between neighboring countries, including India and Pakistan. Any escalation in hostilities between India and Pakistan could materially and adversely affect our business operations and the broader Indian economy.

As of the date of this Draft Red Herring Prospectus, our business operations have not been materially impacted by these geopolitical events. However, we continue to closely monitor their potential effects on our business, our counterparties, and the global economic environment. This includes ongoing developments in the Russia-Ukraine conflict and the resulting sanctions imposed on Russia by the United States, the European Union, and other nations, as well as the continuing unrest in the Middle East. These actions may include blockage of air space which directly impacts the air logistic industry.

To the extent that these or similar conflicts escalate or persist, they may heighten many of the other risks described in this Draft Red Herring Prospectus. These risks include, among others: adverse macroeconomic conditions, including inflationary pressures; disruption to global technology infrastructure through cyberattacks or other security breaches; changes in international trade relations; instability in global supply chains; volatility in commodity and energy prices; political and social unrest; shifts in consumer behavior or purchasing constraints; and increased volatility or disruption in capital markets. Any of these developments could adversely impact our business, financial condition, and results of operations.

Furthermore, the emergence of any new geopolitical conflicts, wars, cross-border hostilities, or global tensions in regions critical to our business or supply chain whether or not specifically mentioned herein could aggravate existing risks and introduce new uncertainties. These risks include, but are not limited to, inflationary pressures, volatility in commodity and energy prices, interruptions in global supply chains, disruptions to technology infrastructure (including cyberattacks), volatility in capital markets, and changes in consumer demand or international regulatory frameworks. Any such developments could have a material adverse effect on our business, financial condition, results of operations, and future prospects.

45. Failure to maintain confidential information of our customers could adversely affect our reputation, business, results of operations and financial condition.

Our business generates and processes a large quantity of confidential customer and vendors data. Failure to protect our customers or vendors data through improper handling or unauthorised access could damage our reputation and substantially harm our business, results of operations and financial conditions. The data relating to our customers, vendors and other intermediaries involved in our business operations is processed through ERP and data base for the same is outsourced with third party. Any breach or compromise in data either by us or outsourced centre may materially and

adversely affect our business, results of operations and financial condition.

Any failure or perceived failure by us to prevent information security breaches or to comply with privacy policies or privacy-related legal and contractual obligations could cause our customers to lose trust in us and our services. Further, assertions of misappropriation of confidential information or the intellectual property of our customers, vendors and other intermediaries against us, if successful, could have an adverse effect on our business, results of operations and financial condition. Even if such assertions against us are unsuccessful, they may cause us to incur reputational harm and divert management's attention.

Additionally, in 2023, the Digital Personal Data Protection Act, 2023 ("DPDP Act") provides for the processing of digital personal data for lawful purposes and protection of personal data. Our ability to collect, use, disclose and transfer information with respect to our counterparties will be further restricted. Our failure to take reasonable security precautions and safeguard personal information in the future may have a material adverse effect on our business, results of operations and financial condition.

46. If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.

The trends in cash collection, as measured by the number of days outstanding, significantly influence our cash receipts and, consequently, our overall cash flow. Typically, an increase in bad debts or the aging of receivables necessitates greater utilization of operating working capital and results in higher interest expenses. The following table details our trade receivables and the allowance for doubtful debts as of the specified dates:

We typically bill and collect payments within 6 months. If we experience an increase in the time to bill and collect for our services, our working capital and cash flows could be adversely affected. Actual losses on client balances could differ from those that we anticipate and as a result we might need to adjust our provisions. Macroeconomic conditions could lead to financial difficulties for our customers, including insolvency or bankruptcy. Such situations could cause customers to delay payments, request modifications to their payment arrangements that could increase our receivables balance, or default on their payment obligations. However, we cannot guarantee that future delays or defaults by our clients will not adversely affect our cash flows, potentially impacting our results of operations and financial condition.

47. We operate in a highly fragmented and competitive industry, and increased competition or improved performance by our competitors may adversely affect our business, financial condition, results of operations, and cash flows.

We operate within a highly competitive and dynamic business environment, contending with a broad range of companies that provide freight forwarding, supply chain, and integrated logistics solutions. The level of competition we face is influenced by several interrelated factors, including the type and

sensitivity of cargo, the overall contract value, anticipated profit margins, the complexity of logistical operations, destination-specific requirements, and the associated risks in revenue realization.

In the competitive bidding process particularly for large-scale logistics contracts clients typically assess a variety of criteria to evaluate and select service providers. These factors include, but are not limited to, the quality and consistency of service delivery, technical capabilities, proven track record, depth of industry experience, compliance with health and safety standards, and access to a pool of trained and qualified personnel. While all these elements are important in influencing client decisions, pricing often becomes the decisive factor, especially in tenders and procurement processes, significantly impacting the ability to secure contracts. Further, some of our competitors may possess greater financial resources, wider service networks, advanced technological infrastructure, or more established brand recognition than we currently command. These competitive advantages may enable them to offer more aggressive pricing, broader service portfolios, or more flexible contract terms, thereby posing challenges to our market penetration and client retention strategies. Our inability to effectively compete in this environment whether due to pricing pressures, service limitations, or operational constraints could materially affect our business operations, financial performance, and long-term growth prospects.

48. Any downgrade of our credit ratings could increase borrowing costs and constrain our access to capital and lending markets and, as a result, could negatively affect our net interest margin and our business.

The cost and availability of capital is dependent on our short-term and long-term credit ratings. Ratings reflect a rating agency's opinion of our financial strength, operating performance, strategic position and ability to meet our obligations. Under certain financing agreements, we are also required to maintain specific credit ratings and if we fail to do so, it would result in an event of default. While there has been no downgrade in our credit ratings in the nine months ended December 31, 2023 and the three preceding Fiscals and until the date of this Draft Red Herring Prospectus, any downgrade in our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could result in a recall of existing facilities, increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future, impair our future issuances of debt and equity and our ability to raise new capital on a competitive basis or at all. The ratings provided by credit rating agencies may be suspended, withdrawn or revised at any time by the assigning rating agency and should be evaluated independently of any other rating. These ratings are not a recommendation to buy, sell or hold securities and investors should take their own decisions. Any such adverse development in our credit ratings could adversely affect our business, financial condition, results of operations and cash flows.

EXTERNAL RISK FACTORS

49. Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located elsewhere, including India. Adverse economic developments, such as rising financial or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition, results of operations, and cash flows, and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares. We are dependent on

domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- epidemic, pandemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries, such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 pandemic;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- occurrence of natural or man-made disasters (such as typhoons, flooding, earthquakes and fires) which may cause us to suspend our operations;
- prevailing regional or global economic conditions, including in India's principal export markets;
- other significant regulatory or economic developments in or affecting India or its consumption sector;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- protectionist and other adverse public policies, including local content requirements, import/export tariffs, increased regulations or capital investment requirements;
- logistical and communications challenges;
- downgrading of India's sovereign debt rating by rating agencies;
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms or on a timely basis; and
- being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Any slowdown or perceived slowdown due to these factors could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

50. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax

laws, may adversely affect our business, prospects, cash flows and results of operations.

The regulatory and policy environment in which we operate is evolving and subject to change. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our business, prospects, cash flows and results of operations.

Further, any future amendments may affect our tax benefits such as exemptions for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemptions for interest received in respect of tax-free bonds, and long-term capital gains on equity shares.

The Government of India has announced the union budget for the Fiscal 2024, pursuant to which the Finance Act 2024 has proposed various amendments. We have not fully determined the impact of these recent and proposed laws and regulations on our business.

The Government introduced (a) the Code on Wages, 2019 (“Wages Code”); (b) the Code on Social Security, 2020 (“Social Security Code”); (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020, which consolidate, subsume and replace numerous existing central labor legislations. Except certain portions of the Wages Code, which have come into force pursuant to notification by Ministry of Labor and Employment, the rules for implementation under such codes are yet to be notified.

Furthermore, changes in capital gains tax or tax on capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

We cannot predict the impact of any changes in or interpretations of existing, or the promulgation of, new laws, rules, and regulations applicable to us and our business. Unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us, our business, operations, or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and expend resources relating to compliance with such new requirements, which may also require significant management time, and any failure to comply may adversely affect our business, results of operations, cash flows and prospects. Uncertainty in the applicability, interpretation, or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve. It may also impact the viability of our current business or restrict our ability to grow our business in the future.

For details, see “***Key Regulations and Policies***” beginning on page 248. For further discussion on capital gains tax, see “***Risk Factor No. 62 - Investors may be subject to Indian taxes arising out of income arising from distribution of dividend and sale of the Equity Shares***” on page 78.

51.A downgrade in ratings of India, may affect the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to India’s credit ratings for domestic and international debt by

international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of the Equity Shares.

52. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom's exit from the European Union ("Brexit"), there remains significant uncertainty around the terms of their future relationship with the European Union and, more generally, as to the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. For example, Brexit could give rise to increased volatility in foreign exchange rate movements and the value of equity and debt investments. The full scale military invasion of Russia into Ukraine and the subsequent sanctions placed on Russia by various countries has substantially affected the economic stability of the world and such volatility could impact the Company's growth.

In addition, the USA is one of India's major trading partners and any possible slowdown in the American economy as well as a strained relationship with India could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition, results of operation, and cash flows. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition, results of operations, and cash flows, and reduce the price of the Equity Shares.

53. If inflation rises in India, increased costs may result in a decline in profits. Inflation rates in India have been volatile in recent years, and such volatility may continue.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, wages, raw materials and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control

our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our clients, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or entirely offset any increases in costs with increases in prices for our products. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

54. Investors may have difficulty in enforcing foreign judgments against our Company or our management.

Our Company is incorporated under the laws of India. Our Company's assets are located in India and all of our Company's Directors, Key Managerial Personnel and Senior Management Personnel are residents of India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with Indian public policy. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI under the FEMA to repatriate any amount recovered, and such approval may not be forthcoming.

The recognition and enforcement of foreign judgments in India are governed by Sections 13 and 44A of the Civil Code, which provide that a suit must be brought in India within three years of the date of the judgment sought to be enforced. Generally, there are considerable delays in the disposal of suits by Indian courts. Furthermore, enforcement of foreign arbitral awards is governed under Sections 48, 49, 55 and 57 of the Arbitration and Conciliation Act, 1996. However, the courts may refuse to enforce such awards if the courts find that the subject matter of the dispute is not capable of being settled under the laws of India or if the enforcement would be contrary to the public policy of India.

55. A third party could be prevented from acquiring control of us because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our Shareholders, such a takeover may not be attempted or consummated because of SEBI (AST) Regulations, 2011.

56. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign

investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

57. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

In addition, in accordance with circular, dated October 15, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained with or without any particular terms or conditions or at all.

We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see "**Restrictions on Foreign Ownership of Indian Securities**" beginning on page 522.

RISKS RELATING TO EQUITY SHARES

58. Pursuant to listing of the Equity shares of our Company, our Company may be subject to pre-emptive surveillance measures like Additional Surveillance Measures ("ASM") and Graded surveillance Measures ("GSM") by the Stock Exchanges in order to enhance market integrity and safeguard the interest of the investors.

On and post the listing of equity shares of our Company, our Company may be subject to ASM and GSM by the Stock Exchange(s) and the SEBI. These measures have been introduced in order to enhance market integrity, and safeguard the interest of the investors and to alert and advise investors to be extra cautious and carry out necessary due diligence that may be required while dealing in such securities. The criteria for shortlisting any scrip trading on the Stock Exchange(s) under the ASM is based on an objective criterion as jointly decided by SEBI and the Stock Exchanges(s), which include market based dynamic parameters such as high low variations, client concentration, close to close price variation, market capitalization, delivery percentage, volume variation, number

of unique PAN's and price to equity ratio. A scrip is typically subjected to GSM measures where there is an abnormal price rise that is not commensurate with the financial health and fundamentals of a company, which inter alia includes factors like earnings, book value, fixed assets and net worth to the equity ratio etc. The price of our equity shares may also fluctuate after the offer due to several factors such as volatility in the Indian and global securities market, our profitability and performance, our financial results, the performance of our competitors, change in the estimates of our performance or any other political or economic factor. The occurrence of any of the above-mentioned factors may trigger the parameters identified by SEBI and the Stock Exchange(s) for the placing securities under the GSM and ASM framework. In the event of our Equity Shares are covered under such pre-emptive surveillance measures implemented by SEBI and the Stock Exchange (s), we may be subject to certain additional restrictions in the relation to trading of our Equity Shares such as limiting trading frequency (for example trading either allowed in a week or a month as the case may be) higher margin requirements of settlement on a trade for trade basis, without netting off requirement of settlement on gross basis or freezing price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active market for and trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

59. The trading volume and market price of the Equity Shares may be volatile following the Issue.

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

60. The Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer.

The Offer Price of the Equity Shares will be determined by our Company and the Selling Shareholders in consultation with the BRLMs through the Book Building Process. This price will be based on numerous factors, as described under the chapter "**Basis for Offer Price**" beginning on page 132 and may not be indicative of the market price for the Equity Shares after the Offer. The market price of the Equity Shares could be subject to significant fluctuations after the Offer and may decline below the Offer Price. We cannot assure you that you will be able to resell their Equity Shares at or above the Offer Price.

61. Our Equity Shares have never been publicly traded and may experience price and volume

fluctuations following the completion of the Issue, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Offer Price or at all.

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for our Equity Shares will develop or, if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through a book building process. This price will be based on numerous factors, as described in the section "**Basis for Offer Price**" beginning on page 132. This price may not necessarily be indicative of the market price of our Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

Our Equity Shares are expected to trade on NSE and BSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after this Offer could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Draft Red Herring Prospectus. The market price of our Equity Shares may be influenced by many factors, some of which are beyond our control, including:

- the failure of security analysts to cover the Equity Shares after this Issue, or changes in the estimates of our performance by analysts;
- the activities of competitors and suppliers;
- future sales of the Equity Shares by us or our shareholders;
- investor perception of us and the industry in which we operate;
- our quarterly or annual earnings or those of our competitors; developments affecting fiscal, industrial or environmental regulations; the public's reaction to our press releases and adverse media reports; and general economic conditions.

A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment.

62. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under the current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification) and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months, which are sold using any other platform other than on a recognised stock exchange and on which no STT has been paid, are subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹ 100,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12% (plus applicable surcharge and cess). Unrealized capital gains earned on listed equity shares up to January 31, 2018 continue to be tax exempt in such cases. Further, STT will be levied on and collected by an Indian stock exchange if the equity shares are sold on a stock exchange. With respect to capital gains arising in an off-market sale, long term capital gains are subject to tax at the rate of 20% (plus applicable surcharge and cess) without the exemption of ₹ 100,000. Short-term capital gains, arising from the sale of such equity shares on a stock exchange would be subject to tax at the rate of 15% (plus applicable surcharge and cess), while short term capital gains arising in an off-market sale would be subject to tax at a higher rate of 40% (plus applicable surcharge and cess) in the case of foreign

companies and 30% (plus applicable surcharge and cess) in the case of other non-resident taxpayers. The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our Company's business and operations.

Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. In cases where the seller is a non-resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Additionally, the Finance Act, 2020 does not require dividend distribution tax to be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. Historically, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity shares.

Our Company cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our Company's business, financial condition, results of operations and cash flows.

63. Future sales of Equity Shares by our Promoter may adversely affect the market price of the Equity Shares.

After the completion of the Issue, our Promoters will own, directly, more than [●] % of our outstanding Equity Shares. Upon expiry of the lock-in period provided under the SEBI ICDR Regulations, our Promoter will be eligible to sell part or all of the Equity Shares held by it. Future sales of a large number of the Equity Shares by our Promoter, either in one sale or over a series of sales, could adversely affect the market price of the Equity Shares. Similarly, the perception that any such primary or secondary sale may occur could adversely affect the market price of the Equity Shares. No assurance may be given that our Promoter will not dispose of, pledge or encumber their Equity Shares in the future, or that the market price of the Equity Shares will not be adversely affected by any such disposal, pledge or encumbrance of their Equity Shares.

64. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction where the investors are located do not permit them to exercise their pre-emptive rights without filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be

reduced.

65. The requirements of being a publicly listed company may strain our resources.

We are not a publicly listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the Listing Regulations which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/ or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, financial condition, results of operations and cash flows. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

66. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited with the Equity Shares within one working day of the date on which the Basis of Offer is approved by the Stock Exchanges. The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take time from the Bid/ Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges could also take from the Bid/Offer Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

67. Stringent environmental, health and safety laws and regulations or stringent enforcement of existing environmental, health and safety laws and regulations may result in increased liabilities and increased capital expenditures.

Our operations are subject to environmental, health and safety and other regulatory and statutory requirements in the jurisdictions in which we operate. We are subject to various national, state, municipal and local laws and regulations concerning environmental protection in India. Non-compliance with these laws and regulations could expose us to civil penalties, criminal sanctions and revocation of key business licenses. Environmental laws and regulations in India are becoming more stringent and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment and emissions management.

As a consequence of unanticipated regulatory or other developments, future environmental and regulatory related expenditures may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations, financial condition or cash flows. In addition, we could incur substantial costs, our products could be restricted from entering certain markets and we could face other sanctions, if we were to violate or become liable under environmental laws or if our products become non-compliant with applicable regulations. Our potential exposure includes fines and civil or criminal sanctions, third-party property damage or personal injury claims and clean-up costs. The amount and timing of costs under environmental laws are difficult to predict.

68. Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, U.S. GAAP and IFRS, which may be material to the Financial Statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.

Our Restated Consolidated Financial Information for the Period ended December 31, 2024 and for the Fiscal Years ended on March 31, 2024, 2023 and 2022 have been prepared and presented in conformity with Ind AS. Ind AS differs in certain significant respects from Indian GAAP, IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should be limited accordingly.

69. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid amount) at any stage after submitting a bid, and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Offer closing date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to block the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of equity shares or the Bid amount) at any stage after submitting a Bid. Similarly, Retail Individual Investors can revise or withdraw their Bids at any time during the Bid/ Offer period and until the Bid/ Offer closing date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by the SEBI, events affecting the Investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing. Therefore, QIBs and Non- Institutional Investors will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise between the dates of submission of their Bids and Allotment.

70. Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.

The rights of shareholders and the governance framework applicable to our Company are primarily governed by Indian law and our Articles of Association. These may differ significantly from the legal provisions applicable to companies incorporated in other jurisdictions. For instance, the scope of shareholders' rights, the duties and liabilities of directors, the enforceability of corporate actions, and mechanisms for shareholder recourse may not be as extensive or as readily enforceable under Indian law as in certain other countries. As a result, investors in our Company may find it more difficult to assert their rights or pursue remedies as shareholders, compared to those available to shareholders of companies incorporated in jurisdictions with more developed or investor-protective legal regimes.

71. Future issuances or sales of the Equity Shares could dilute your shareholding and significantly affect the trading price of the Equity Shares.

The future issuance of Equity Shares by us, the disposal of Equity Shares by any of our major shareholders or the perception that such issuance or sales may occur, may lead to the dilution of your shareholding in the Company or significantly affect the trading price of the Equity Shares. These sales could also impair our ability to raise additional capital through the sale of our equity securities in the future.

Furthermore, under the Securities Contract (Regulation) Rules, 1957, as amended ("SCRR"), listed companies are required to maintain public shareholding of at least 25% of their issued share capital. Failure to comply with the minimum public shareholding provision would require a listed company to delist its shares and may result in penal action being taken against the listed company pursuant to the SEBI Act. This may require us to issue additional Equity Shares or require our Promoter or Promoter Group to sell their Equity Shares, which may adversely affect our trading price.

UNDERWRITING AGREEMENT

After the determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC our Company and the Selling Shareholders intend to enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be issued and offered in the Offer. The extent of underwriting obligations and the Bids to be underwritten by each BRLM in the Offer shall be as per the Underwriting Agreement. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein.

The Underwriting Agreement is dated [●]. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

Name and Address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten	% of the Total Offer size Underwritten
[●]	[●]	[●]	[●]

Name and Address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten	% of the Total Offer size Underwritten
[•] Telephone: [•] E-mail ID: [•] Investor Grievance ID: [•] Website: [•] Contact Person: [•] SEBI Registration No.: [•]			

(This portion has been intentionally left blank and will be filled in before filing of the Prospectus with the RoC.)

The above-mentioned underwriting commitments are indicative and will be finalized after determination of the Offer Price and Basis of Allotment and the same will be subject to and in accordance with the provisions of the SEBI ICDR Regulations.

In the opinion of our Board of Directors, (based on representations made to our Company by the Underwriters), the resources of the aforementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The aforementioned Underwriters are registered as Merchant Bankers or Stock Brokers with SEBI under Section 12(1) of the SEBI Act. Our Board, at its meeting held on [•], has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above. Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to investors respectively procured by them in accordance with the Underwriting Agreement.

In the event of any default in payment, the respective Underwriter, in addition to other obligations define in the Underwriting agreement, will also be required to procure subscribers for or subscribe to the equity share to the extent of the defaulted amount in accordance with the Underwriting Agreement. The Underwriting Agreement has not been executed as on date of this Draft Red Herring Prospectus and will be executed after determination of Offer Price and Allocation of Equity Shares, but prior to filing the Prospectus with the RoC. The extent of underwriting obligations (including any defaults in payment for which the respective Underwriter is required to procure subscribers for or subscribe the Equity Shares to the extent of the defaulted amount) and the Bids to be underwritten in the Offer shall be as per Underwriting Agreement.

BOOK BUILDING PROCESS

Book Building Process, in the context of the Offer, refers to the process of collection of Bids from investors on the basis of the Red Herring Prospectus and the Bid cum Application Forms within the Price Band. The Price Band and minimum Bid Lot will be decided by our Company in consultation with the BRLMs, and if not disclosed in the Red Herring Prospectus, will be advertised in all editions of [●], the English national daily newspaper, all editions of [●], the Hindi national daily newspaper and all editions of [●], the regional daily newspaper, (Hindi being the local language of Delhi, where our registered office is situated), each with wide circulation, respectively, at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Offer Price shall be determined by our Company in consultation with the BRLMs after the Bid/Offer Closing Date. For details see the section titled "**Offer Procedure**" beginning on page 499.

All Bidders, other than Anchor Investors, shall only participate through the ASBA process by providing the details of their respective ASBA Accounts in which the corresponding Bid Amount will be blocked by the SCSBs. In addition to this Retail Individual Bidders may participate through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs or, (b) through the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bid(s) (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise their Bids during the Bid/ Offer Period and withdraw their Bids on or before the Bid/ Offer Closing Date. Further Anchor Investors cannot withdraw their Bids after the Anchor Investor Bidding Date. Allocation to Retail Individual Bidders and Non-Institutional Bidders will be on a proportionate basis. Allocation to Anchor Investors will be on a discretionary basis. For illustration of the Book Building Process and further details, see the chapters titled "**Terms of the Offer**", "**Offer Structure**" and "**Offer Procedure**" beginning on pages 489, 495 and 499 respectively.

Each Bidder by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.

The Book Building Process under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and Bidders are advised to make their own judgment about an investment through aforesaid process prior to submitting a Bid in the Offer.

Bidders should note the Offer is also subject to obtaining (i) the final approval of the RoC regarding the Prospectus that will be filed with the RoC and; (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment as per the prescribed timelines in compliance with the SEBI ICDR Regulations or as prescribed under applicable law.

For details of the method and procedure for Bidding, see the chapters titled "**Terms of the Offer**", "**Offer Structure**" and "**Offer Procedure**" beginning on pages 489, 495 and 499 respectively.

OBJECTS OF THE OFFER

The Offer comprises the Fresh Issue by our Company and an Offer for Sale by the Selling Shareholders. For details, see "***The Offer***" beginning on page 83.

APPRAISING AGENCY

None of the objects of the Offer for which the Net Proceeds will be utilized have been appraised by any external agency or any bank/financial institution.

OBJECTS OF THE OFFER

Offer for Sale

The Selling Shareholders will be entitled to their portion of the proceeds from the Offer for Sale after deducting its proportion of Offer related expenses and the relevant taxes thereon. Our Company will not receive any proceeds from the Offer for Sale and the proceeds received from the Offer for Sale will not form part of the Net Proceeds.

Fresh Issue

The net proceeds of the Fresh Issue, i.e., gross proceeds of the Fresh Issue less the Offer related expenses to be borne by the Company ("**Net Proceeds**") are proposed to be utilised in the following manner:

- Repayment/pre-payment, in full or in part, of certain outstanding borrowings availed by Our Company and our Subsidiary "**Forin Container Line Private Limited**".
- Funding incremental working capital requirements of our Company.
- General corporate purposes.

(Collectively, referred to herein as the "**Objects**")

In addition, we expect to achieve the benefits of listing of our Equity Shares bearing face value of ₹ 10 on the Stock Exchanges, including enhancement of our Company's brand name and creation of a public market for our Equity Shares bearing face value of ₹ 10 in India.

The main objects clause and the objects ancillary to the main objects clause as sets out in our Memorandum of Association enables our company to (i) to undertake our existing business activities and (ii) to undertake the activities proposed to be funded from the Net Proceeds. Further, the main objects and objects incidental and ancillary to the main objects set out in the respective memorandum of association of our Subsidiary, enables the respective Subsidiary to undertake the activities proposed to be funded from the Net Proceeds.

Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the Red Herring Prospectus and the Prospectus

The fund requirements, proposed deployment of funds and the intended use of the Net Proceeds set out above is based on our current business plan, internal management estimates, current circumstances of our business, prevailing market conditions and other commercial considerations. However, these fund requirements and proposed deployment of Net Proceeds have not been appraised by any bank or financial institution. We may have to revise our funding requirement on account of various factors, such as financial and market conditions, delay in procuring and operationalizing assets or necessary licenses and approvals, competition, price fluctuations, interest rate fluctuations and other external factors, which may not be within the control of our management. This may also entail rescheduling of the proposed deployment of the Net Proceeds at the discretion of our management, subject to compliance with applicable laws. Further, in the event, the Net Proceeds are not utilized (in full or in part) for the objects of the Issue during the period stated above due to any reason, including (i) the timing of completion of the Issue; (ii) market conditions outside the control of our Company; and (iii) any other

economic, business and commercial considerations, the remaining Net Proceeds shall be utilized in next fiscal year i.e. 2027-28 in accordance with applicable laws. This may also entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to compliance with applicable law. Also, management has discretion in how it may use a portion of the Net Proceeds of the Fresh Issue.

Subject to compliance with applicable laws, if the actual utilisation towards any of the Objects, as set out above, is lower than the proposed deployment, such balance will be used towards any other Object including general corporate purposes, provided that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds, in accordance with the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds towards meeting the Objects of the Offer, we may explore a range of options including utilising our internal accruals, any additional equity or debt arrangements or both. Such alternate arrangements would be available to fund any such shortfalls. Further, in case of any variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, including from internal accruals, if any, available in respect of the other purposes for which funds are being raised in the Issue. To the extent our Company is unable to utilise any portion of the Net Proceeds towards the aforementioned Objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent year i.e. 2027-28 towards the aforementioned Objects, in accordance with applicable law. Our Company may also utilise any portion of the Net Proceeds, towards the aforementioned Objects of the Offer, ahead of the estimated schedule of deployment specified above.

MEANS OF FINANCE

The fund requirements for all the Objects of the Issue are proposed to be entirely funded from the Net Proceeds. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance under Regulation 7(1)(e) the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue or through existing identifiable internal accruals.

DETAILS OF THE OBJECTS OF THE OFFER

1. Repayment/pre-payment, in full or in part, of certain outstanding borrowings availed by our Company and our Subsidiary "Forin Container Line Private Limited"

We avail a majority of our fund-based and non-fund-based facilities in the ordinary course of business from various scheduled commercial banks, financial institutions and other entities. The borrowing arrangements entered into by us include, *inter alia*, term loans and working capital loans. Our company has been awarded long term rating "Crisil A/Stable" by Crisil vide their letter March 6, 2025. For further information on the financial indebtedness of our Company, see "**Financial Indebtedness**" beginning on page 416. As of May 31, 2025, our Company on standalone basis had an outstanding total borrowing of **₹ 35,270.77 lakhs**. We propose to utilise a portion of the Net Proceeds aggregating to **₹ 21,678.67 Lakhs** for repayment or prepayment, of all or a portion of borrowings availed by our Company and our subsidiary.

Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will also be funded out of the Net Proceeds. Given the nature of the borrowings and the terms of repayment or prepayment, the aggregate outstanding amounts under the borrowings may vary from time to time and we may, in accordance with the relevant repayment schedule, repay or refinance some of the existing borrowings prior to Allotment or avail of additional credit facilities.

Further, the outstanding amounts under these borrowings as well as the sanctioned limits are dependent on several factors and may vary with our business cycle with multiple intermediate repayments, drawdowns and enhancement of sanctioned limits. Accordingly, our Company may utilise the Net Proceeds for repayment/prepayment of any such refinanced facilities (including any prepayment fees or penalties thereon) or any additional facilities obtained by our Company and our subsidiary. However, the aggregate amount to be utilised from the Net Proceeds towards prepayment, repayment or redemption of borrowings (including refinanced or additional facilities availed, if any), in part or full, will not exceed **₹ 21,678.67 lakhs**. In light of the above, at the time of filing of Red Herring Prospectus, the table below shall be suitably updated to reflect the revised amounts or loans, as the case may be. We believe that such repayment or prepayment will help reduce our outstanding indebtedness on a consolidated basis and debt servicing costs and enable utilization of the internal accruals for further investment towards business growth and expansion. In addition, we believe that repayment/prepayment of the loans will add to the profitability of our Company due to reduced finance cost and also the improvement in the debt-to-equity ratio of our Company is intended to enable us to raise further resources in the future to fund potential business development opportunities and plans to grow and expand our business in the future.

The selection of borrowings proposed to be prepaid or repaid amongst our borrowing arrangements availed will be based on various factors, including (i) commercial considerations including, among others, the amount of the loan outstanding, rate of interest and the remaining tenor of the loan, (ii) any conditions attached to the borrowings restricting our ability to prepay/ repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, (iii) cost of the borrowing, including applicable interest rates (iii) receipt of consents for prepayment from the respective lenders and terms and conditions of such consents and waivers and (v) levy of any prepayment penalties/premium and the quantum thereof and other related costs and (vii) nature and/or repayment schedule of borrowings. We will approach the relevant lenders after completion of this Issue for repayment/prepayment of the borrowings.

Our company has obtained Consents letters in the form of No Objection Certificate (“*NOC*”) from each of such scheduled commercial banks and other financial institutions for the proposed IPO of our company in the following manner:

#The balances in deposit account are earmarked for securing short-term working capital borrowings.

Our working capital gap for the period ending on 31st March 2022 and 31st March 2023 was on similar lines with insignificant change. Our working capital gap significantly increased to ₹ 24,265.23 Lakhs for the period ending on 31st March 2024 leading to rise by ₹ 11,831.74 Lakhs over the previous year. The reasons for the same is listed below.

- Increase in Trade Receivables of our company:**

The trade receivables of our company increased from ₹ **11,752.52 Lakhs** in FY23 to ₹ **22,225.86 Lakhs** in FY24, which increased by 89.12%. This increase was majorly attributed to the increase in sales in Q4 of FY24. The details of the quarterly sales during FY24 are as under:

(in Lakhs)					
S.No.	Quarter ending	FY24	%age of Total Revenue	FY23	% of Total Revenue
1	June, 2023	20,401.60	21.88%	35,161.39	31.19%
2	September, 2023	19,135.46	20.52%	31,060.66	27.55%
3	December, 2023	21,939.79	23.54%	26,071.41	23.13%
4	March, 2024	31,759.75	34.06%	20,437.02	18.13%
	Grand Total	93,236.60	100.00%	1,12,730.48	100.00%

During the Q4 of FY24, our company generated a revenue of ₹ **31,759.75 Lakhs**, which represented 34.06% of the total revenue from operations generated during FY24. The reason behind an increase in the revenue of the company in the Q4 of FY24 is due to several macroeconomic factors like Red Sea crisis and decrease in interest rates by US Federal Reserve in later half of 2024. This led to an increase in the demand of goods across the globe and movement of goods across borders increased. With the increase in the movement of goods, it led to an increase in the revenue of our company during the Q4 of FY24.

The average credit period we provide for our customers spans between 60-75 days. Since the majority of sales in Q4, wherein we generated revenue of ₹ 31,759.75 Lakhs, the realization of these receivables will be made in the month April or May 2024. Therefore, this led to an increase in the trade receivables of the company in FY24. To fund the increase in trade receivables, our company short term bank borrowings increased by ₹ 7,951.54 Lakhs

- Increase in current assets (other than trade receivables)**

Our current assets other than trade receivables have increased by ₹ 8,676.45 Lakhs for the period ending on 31st March 2024. This was majorly due to increase in balances of earmarked bank deposits and investment on securing additional short term bank borrowings. This was done to meet the bank and financial institutions condition of maintaining the debt service reserve account (DSRA). The increase in current assets other than trade receivables was offset by increase in current liabilities of the company in the form of trade payables and other current liabilities.

Basis of estimation of working capital requirement

In light of the incremental business requirements, our Company requires additional working capital for funding its working capital requirements in the Fiscal Year 2026 and 2027. On the basis of our existing audited working capital requirements and the estimated working capital requirements for the fiscal year 2025, our Board pursuant to its resolution dated **June 23, 2025**, has approved the business plan for the Fiscal Year 2026 and 2027 and the proposed funding of such working capital requirements as set forth below:

Justification of enhanced working capital requirements

Our Company has working capital requirement of ₹ 29925.41 Lakhs in FY 2024-2025 and has projected same at ₹ 41,476.04 lakhs & ₹ 48,276.49 in FY 2025-26 and FY 2026-27. Our working capital requirements for the last 3 years and stub period ending on December 31, 2024 and for the Fiscal year 2025, 2026 and 2027 is depicted in the table below

Particulars	FY 2021-22	FY 2022-23	FY 2023-24	December 31, 2024	FY 2024-25 (Unaudited)	FY 2025-26 (Projected)	FY 2026-27 (Projected)
Working Capital Requirements	12,405.73	12,433.49	24,265.23	26,405.35	29,925.41	41,476.04	48,276.49
Growth in %	-	0.22%	95.16%	8.82%	13.33%	38.60%	16.40%

Historically, we have experienced CAGR growth of 25.42% in increase of working capital requirements. Our working capital requirements increased by 0.22% in FY 2022-23 over FY 2021-22. Similarly in the fiscal year 2023-24 our working capital requirements increased by 95.16% over the immediately

preceding year. In the FY 2024-25 with the growth in business and volumes, we had experience growth of 13.33% in our working capital requirements.

Our Company has projected growth of 38.60% and 16.40% in working capital requirements for FY 2025-26 and FY 2026-27 as per the business plan approved by it considering the past growth rate witnessed in previous years and current business developments.

The rationale for the projections of the working capital is as under:

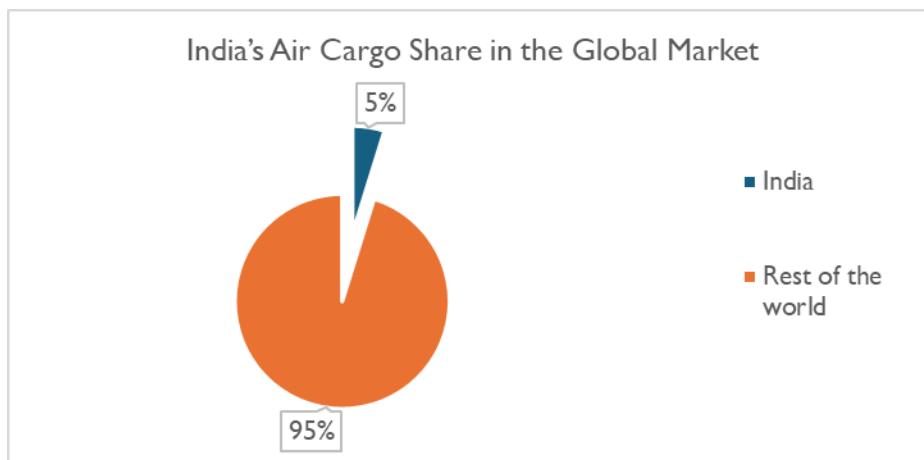

Historical trend: Our company has demonstrated a CAGR of 25.42% growth in working capital requirements in recent years.

Increased business prospects and growth:

Air cargo serves as a critical pillar of global trade, ensuring the efficient and timely movement of goods across international markets. Over the years, the total volume of cargo transported by air has demonstrated a steady upward trajectory, driven by various factors such as economic expansion, technological advancements, and shifting trade patterns.

Air cargo volumes are projected to rise by 5.8% year-on-year, reaching 72.5 million ton by 2025. This growth is largely fueled by increasing global e-commerce activity and supply chain adjustments, particularly due to disruptions in traditional maritime routes, such as the Red Sea crisis. The rise in air freight demand reflects businesses' strategic shift towards faster and more reliable logistics solutions to counter delays in ocean shipping.

India's aviation sector has experienced a significant recovery, reinforcing its role as a crucial hub for global trade. In 2023, Indian airports handled approximately 3.3 million ton of air cargo, demonstrating the increasing reliance on air transport for imports and exports. The resurgence in the aviation sector is evident in the air traffic movement, which saw a substantial rise from 188.89 million in FY22 to 327.28 million in FY23. This growth underscores the renewed strength of the post-pandemic industry, further bolstering air cargo transportation.

India has emerged as a key player in global air cargo logistics, reflecting the country's growing trade and economic activities. In 2023, Indian airports handled approximately 3.3 million ton of air cargo, contributing significantly to the nation's import and export volumes. When compared to the estimated global air cargo volume of 68.5 million ton in 2023, India's share in the global market stands at approximately 4.8%.

Key Drivers of Air Cargo Growth

- **E-commerce Expansion:** With the rapid rise of online shopping, the demand for express delivery services has significantly increased, contributing to higher air cargo volumes.

- **Supply Chain Disruptions:** Challenges such as the Red Sea crisis have led businesses to pivot towards air freight for urgent and time-sensitive shipments.
- **Post-Pandemic Recovery:** The strong rebound in passenger air traffic has also positively impacted cargo movement, as more flights translate into enhanced freight capacity.
- **Infrastructure Development:** Improvements in cargo-handling facilities and airport expansions have further facilitated efficient air freight movement.

As global trade continues to evolve, the air cargo industry is expected to witness sustained growth. The projected 5.8% annual increase in cargo volumes indicates a promising future, with air freight becoming an increasingly vital component of global logistics. In India, the government's ongoing investments in aviation infrastructure and logistics hubs will further strengthen the country's role in the international air cargo ecosystem. Given the current trajectory, air transport will remain a crucial enabler of economic growth, ensuring seamless global trade and connectivity.

Trade payables	40.00	49.00	61.00	58.00	47.00	40.00	35.00

Justifications for holding period level mentioned in the table above are provided below:

Particulars	Justification for Holding Levels
Trade Receivables	Trade receivables of our company ranging from 40-67 days during the period FY22 to FY24. In the FY25 our trade receivables were at 61 days due to improved collections in March, 2025 due to US tariff announcement. All our customers were rushing to send their shipments before March 2025. Our company has assumed the holding level for trade receivables as 67 days and 66 days for the fiscal year 2026 and 2027 in line with holding levels of past.
Trade Payables	Our trade payables have a direct correlation to our business growth. Holding levels for trade payables have ranged from 40-61 days during the period FY22 to FY24. In FY25 our trade payable were down at 47 days due to better collections from our trade receivables. Company will deploy major IPO proceeds in payment of outstanding creditors and financing its trade receivables and hence assumed the holding level for trade payables as 40 days and 35 days in FY26 and FY27. This is expected to enable our Company to get better terms from our vendors.
Other Current Assets	Other current assets are computed from the historic Audited Standalone Financial Information and include, amongst others, balance with statutory authorities, cash and cash equivalents, advances for supply of goods and other assets. Other current assets have been maintained in line with the projected business activity for the forthcoming years.
Other Current Liabilities	Other current assets are computed from the historic Audited Standalone Financial Information and include, amongst others, statutory dues, provision for taxation, advances from customers/deposits from dealers and other liabilities. Other current liabilities have been maintained in line with the projected business activity for the forthcoming years.

3. General corporate purposes

The Net Proceeds will first be utilized for the objects as set out above. Subject to this, our Company intends to deploy any balance left out of the Net Proceeds, aggregating up to ₹ [●] Lakh, towards general corporate purposes and the business requirements of our Company, as approved by our management, from time to time, subject to such utilization for general corporate purposes not

exceeding 25% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations.

1. We refer the proposed offer of equity shares of Skyways Air Services Limited (the "Company").
2. We hereby confirm that the enclosed Annexure I, prepared by the Company, initialled by us for identification purpose, which provides the special tax benefits available to the Company, its material subsidiaries and to the shareholders of the Company, under:
 - (i) the Income-tax Act, 1961 (the "Act") as amended by the Finance Act 2024, i.e., applicable for the Financial Year 2024-2025 relevant to the assessment year 2025-2026, presently in force in India;
 - (ii) the Central Goods and Services Tax Act, 2017 / the Integrated Goods and Services Tax Act, 2017 / respective State Goods and Services Tax Act (SGST) read with rules, circulars, and notifications ("**GST law**"), the Customs Acts, 1962 and the Customs Tariff Act, 1975 as amended by the Finance Act 2024 applicable for the Financial Year 2024-25 ("**Customs law**") and Foreign Trade (Development and Regulation) Act, 1992 (read with the Foreign Trade Policy 2015-20 and Foreign Trade Policy 2023 (FTP) and Handbook of Procedures issued thereof, notifications and circulars, each as amended and presently in force in India);
 - (iii) The Act, the GST Act, Customs Act, Tariff Act and Foreign Trade (Development and Regulation) Act, 1992 as defined above, are collectively referred to as the "**Relevant Acts**".
 - (iv) This statement of possible special tax benefits is required as per Schedule VI (Part A) (9)(L) of the SEBI ICDR Regulations. While the term 'special tax benefits' has not been defined under the SEBI ICDR Regulations, for the purpose of this Statement, it is assumed that with respect to special tax benefits available to the Company, the same would include those benefits as enumerated in the **Annexure I**. Any benefits under the taxation laws other than those specified in **Annexure I** are considered to be general tax benefits and therefore not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in the **Annexure I** have not been examined and covered by this statement.
3. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Relevant Laws. Hence, the ability of the Company and / or its shareholders to derive the stated tax benefits is dependent upon their fulfilling such conditions, which, based on business imperatives the Company faces in the future, the Company or its shareholders may or may not choose to fulfil.
4. The benefits discussed in the enclosed Annexure are not exhaustive and the preparation of the contents stated in the Annexure is the responsibility of Company's management. We are informed that this Annexure is only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in

the proposed initial public offer (the “**Proposed IPO**”). Neither are we suggesting nor advising the investor to invest money based on this statement.

5. We do not express any opinion or provide any assurance as to whether:
 - i) the Company or its shareholders will continue to obtain these benefits in future; or
 - ii) the conditions prescribed for availing the benefits have been/would be met with; and
 - iii) the revenue authorities / courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

6. This statement is solely issued in connection with the Proposed IPO of the Company and is not to be used, referred to or distributed for any other purpose.

This certificate is issued for the purpose of the Offer and can be used, in full or part, for inclusion in the draft red herring prospectus, updated draft red herring prospectus, red herring prospectus, prospectus and any other material used in connection with the Offer (together, the “Offer Documents”) which may be filed by the Company with Securities and Exchange Board of India (“SEBI”), BSE Limited and National Stock Exchange of India Limited (collectively, the “Stock Exchanges”), Registrar of Companies (the “RoC”) and / or any other regulatory or statutory authority.

We hereby give our consent to include this report and the enclosed Annexure regarding the special tax benefits available to the Company and to its shareholders in the DRHP in relation to the Offer, which the Company intends to file with the Securities and Exchange Board of India and the stock exchange(s) provided that the below statement of limitation is included in the DRHP.

Our views expressed in the enclosed Annexure I are based on the facts and assumptions indicated above. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the existing provisions of tax laws in force in India and its interpretation, which are subject to change from time to time. We do not assume responsibilities to update the views consequent to such changes. Reliance on the statement is on the express understanding that we do not assume responsibility towards the investors and third parties who may or may not invest in the Offer relying on the statement.

This statement has been prepared solely in connection with the Offer, as required under the ICDR Regulations.

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY, ITS MATERIAL SUBSIDIARIES AND ITS SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA

Outlined below are the Special Tax Benefits available to the Company, its material subsidiaries and its shareholders under the Direct and Indirect Tax Laws in force in India

1. Special Direct Tax Benefits Available to the Company

A. Lower Corporate Tax Rate under Section 115BAA of the Income Tax Act, 1961

Section 115BAA, inserted with effect from 1 April 2020 (AY 2020-21), provides an option for a domestic company to pay corporate tax at a reduced rate of 22% (plus applicable surcharge and education cess). The applicable surcharge is 10% on the tax payable, further enhanced by an education cess of 4% on the total tax payable.

If the Company opts for the concessional income tax rate as prescribed under Section 115BAA of the Income Tax Act, it will not be allowed to claim the following deductions/exemptions:

- Deduction under the provisions of Section 10AA (deduction for units in Special Economic Zones);
- Deduction under clause (iia) of sub-section (1) of Section 32 (Additional depreciation);
- Deduction under Sections 32AD, 33AB, or 33ABA (Investment allowance in backward areas, Investment deposit account, Site restoration fund);
- Deduction under sub-clause (ii), sub-clause (iia), or sub-clause (iii) of sub-section (1), or sub-sections (2AA), (2AB) of Section 35 (Expenditure on scientific research);
- Deduction under Section 35AD or Section 35CCC (Deduction for specified business, agricultural extension project);
- Deduction under Section 35CCD (Expenditure on skill development);
- Deductions under any provisions of Chapter VI-A other than the provisions of Section 80JJAA (deduction in respect of employment of new employees), and Section 80M (deduction in respect of certain inter-corporate dividends);
- No set-off of any loss carried forward or depreciation from any earlier assessment year, if such loss or depreciation is attributable to any of the deductions referred to above;
- No set-off of any loss or allowance for unabsorbed depreciation deemed so under Section 72A, if such loss or depreciation is attributable to any of the deductions referred to above.

The provisions of Section 115JB regarding Minimum Alternate Tax ("MAT") are not applicable if the Company opts for the concessional income tax rate as prescribed under Section 115BAA of the Income Tax Act. Consequently, the Company will not be entitled to claim any tax credit relating to MAT.

The Company has opted for the concessional rate of tax for the first time in the return of income filed for FY 2019-20 (**AY 2020-21**), for which a declaration in the specified form (i.e., Form 10-IC) has been filed with the Income Tax Department.

B. Deduction in respect of employment of new employees under Section 80JJAA of the Act

Section 80JJAA states that where the gross total income of an assessee to whom section 44AB applies, includes any profits and gains derived from business, there shall, subject to the conditions specified in sub - section (2), be allowed a deduction of an amount equal to thirty per cent of additional employee cost incurred in the course of such business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

In accordance with and subject to the conditions specified under Section 80JJAA of the IT Act, a company is entitled to a deduction of an amount equal to 30% of additional employee cost incurred in the course of business in a financial year, for 3 consecutive assessment years including the assessment year relevant to the financial year in which such additional employment cost is incurred.

Additional employee cost means the total emoluments paid or payable to additional employees employed in the financial year. The deduction under section 80JJAA would continue to be available to the company even where the Company opts for the lower effective tax rate of 25.168% as per the provisions of section 115BAA of the IT Act (as discussed above).

The company should be eligible to claim this deduction in case it incurs additional employee cost within the meaning of Explanation (i) to sub - section (2) of section 80JJAA of the IT Act and satisfies the conditions as mentioned in the said section.

C. Deduction with respect to inter-corporate dividends under Section 80M of the Act

As per the provisions of section 80M of the IT Act, a domestic company shall be allowed to claim a deduction of divided income earned from any other domestic company or a foreign company or a business trust, to the extent such dividend is distributed by it on or before the due date. In this case, due date means one month prior to the date for furnishing the return of income under sub - section (1) of section 139 of the Act.

The amount of deduction so claimed should not exceed the amount of dividend distributed by it and is subject to fulfilment of other conditions laid down therein.

2. Special Indirect Tax Benefits Available to the Company

A. As per the GST law (vide GST Notification no 12/2017- Central Tax (Rate) dated 28 June 2017), income earned out of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount is exempted from payment of GST. Thus, interest income earned by the company from Banks or Financial Institutions is exempted from payment of GST.

B. Zero rated benefit under GST on export of services

The specific tax benefit of not charging GST on supply of services considered as 'export of services' in terms of Section 2(6) of the IGST Act is available to the Company under Section 16 of the IGST Act upon fulfilment of the specified conditions.

As per Section 2(6) of the IGST Act, the services shall qualify as 'export of services' when:

- a) the supplier of service is located in India;
- b) the recipient of service is located outside India;
- c) the place of supply of service is outside India;
- d) the payment for such service has been received by the supplier of service in convertible foreign exchange or in Indian rupees wherever permitted by the Reserve Bank of India; and
- e) the supplier of service and the recipient of service are not merely establishments of a distinct person in accordance with Explanation 1 in section 8.

3. Special Direct Tax Benefits Available to the Material Subsidiaries of the Company are –

- i. Forin Container Line Private Limited
- ii. Rahat Continental Private Limited

A. Lower Corporate Tax Rate under Section 115BAA of the Income Tax Act,1961

Section 115BAA, inserted with effect from 1 April 2020 (AY 2020-21), provides an option for a domestic company to pay corporate tax at a reduced rate of 22% (plus applicable surcharge and

education cess). The applicable surcharge is 10% on the tax payable, further enhanced by an education cess of 4% on the total tax payable.

If the Company opts for the concessional income tax rate as prescribed under Section 115BAA of the Income Tax Act, it will not be allowed to claim the following deductions/exemptions:

- Deduction under the provisions of Section 10AA (deduction for units in Special Economic Zones);
- Deduction under clause (iia) of sub-section (1) of Section 32 (Additional depreciation);
- Deduction under Sections 32AD, 33AB, or 33ABA (Investment allowance in backward areas, Investment deposit account, Site restoration fund);
- Deduction under sub-clause (ii), sub-clause (iia), or sub-clause (iii) of sub-section (1), or sub-sections (2AA), (2AB) of Section 35 (Expenditure on scientific research);
- Deduction under Section 35AD or Section 35CCC (Deduction for specified business, agricultural extension project);
- Deduction under Section 35CCD (Expenditure on skill development);
- Deductions under any provisions of Chapter VI-A other than the provisions of Section 80JJAA (deduction in respect of employment of new employees), and Section 80M (deduction in respect of certain inter-corporate dividends);
- No set-off of any loss carried forward or depreciation from any earlier assessment year, if such loss or depreciation is attributable to any of the deductions referred to above;
- No set-off of any loss or allowance for unabsorbed depreciation deemed so under Section 72A, if such loss or depreciation is attributable to any of the deductions referred to above.

The provisions of Section 115JB regarding Minimum Alternate Tax ("MAT") are not applicable if the Company opts for the concessional income tax rate as prescribed under Section 115BAA of the Income Tax Act. Consequently, the Company will not be entitled to claim any tax credit relating to MAT.

Both the Material Subsidiaries have opted for the concessional rate of tax for the first time in the return of income filed for FY 2021-22 (**AY 2022-23**), for which a declaration in the specified form (i.e., Form 10-IC) has been filed with the Income Tax Department.

B. Deduction in respect of employment of new employees under Section 80JJAA of the Act

Section 80JJAA states that where the gross total income of an assessee to whom section 44AB applies, includes any profits and gains derived from business, there shall, subject to the conditions specified in sub - section (2), be allowed a deduction of an amount equal to thirty per cent of additional employee cost incurred in the course of such business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

In accordance with and subject to the conditions specified under Section 80JJAA of the IT Act, a company is entitled to a deduction of an amount equal to 30% of additional employee cost incurred in the course of business in a financial year, for 3 consecutive assessment years including the assessment year relevant to the financial year in which such additional employment cost is incurred.

Additional employee cost means the total emoluments paid or payable to additional employees employed in the financial year. The deduction under section 80JJAA would continue to be available to the company even where the Company opts for the lower effective tax rate of 25.168% as per the provisions of section 115BAA of the IT Act (as discussed above).

The company should be eligible to claim this deduction in case it incurs additional employee cost within the meaning of Explanation (i) to sub - section (2) of section 80JJAA of the IT Act and satisfies the conditions as mentioned in the said section.

4. Special Indirect Tax Benefits Available to the Material Subsidiaries

- A. As per the GST law (vide **GST notification no 12/2017- Central Tax (Rate) dated 28 June 2017**), income earned out of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount is exempted from payment of GST. Thus, interest income earned by the company from Banks or Financial Institutions is exempted from payment of GST.
- B. Zero rated benefit under GST on export of services

The specific tax benefit of not charging GST on supply of services considered as 'export of services' in terms of Section 2(6) of the IGST Act is available to the Company under Section 16 of the IGST Act upon fulfilment of the specified conditions.

As per Section 2(6) of the IGST Act, the services shall qualify as 'export of services' when:

- a) the supplier of service is located in India;
- b) the recipient of service is located outside India;
- c) the place of supply of service is outside India;
- d) the payment for such service has been received by the supplier of service in convertible foreign exchange or in Indian rupees wherever permitted by the Reserve Bank of India; and
- e) the supplier of service and the recipient of service are not merely establishments of a distinct person in accordance with Explanation 1 in section 8.

5. Special Direct Tax Benefits Available to the Shareholders

- A. Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in the case of a domestic corporate shareholder, benefit of deduction under Section 80M of the IT Act would be available on fulfilling the conditions.
- B. As per section 2(29AA) read with section 2(42A) of the IT Act, a listed equity share is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer.
- C. As per Section 112A of the IT Act, long-term capital gains arising from the transfer of an equity share on which securities transaction tax ("STT") is paid at the time of acquisition and sale, shall be taxed at the rate of 12.5% (plus applicable surcharge and cess) (without indexation) of such capital gains. This is subject to fulfilment of prescribed additional conditions as per Notification No. 60/2018/F. No.370142/9/2017-TPL dated 01 October 2018. It is worthwhile to note that tax shall be levied where such aggregate capital gains exceed INR 1,25,000/- in a year.
- D. In case the listed equity shares are held for period less than 12 months preceding the date of their transfer, the listed equity shares will be treated as short-term capital asset. Short term capital gains arising on transfer of shares on which Securities Transactions Tax has been paid will be subject to tax in the hands of shareholders as per the provisions of Section 111A of the IT Act at 20% (plus applicable surcharge and cess).
- E. As per Section 90(2) of the IT Act, non-resident shareholders will be eligible to take the beneficial provisions under the respective Double Taxation Avoidance Agreement ("DTAA"), if any, applicable to such non-residents. This is subject to fulfilment of conditions prescribed to avail treaty benefits.

Further, any income by way of capital gains accruing to non-residents may be subject to withholding tax per the provisions of the Act or under the relevant DTAA, whichever is more

beneficial to such non-residents. However, where such non-resident has obtained a lower withholding tax certificate from the tax authorities, the withholding tax rate would be as per the said certificate. The non-resident shareholders can also avail credit of any taxes paid by them, subject to local laws of the country in which such shareholder is resident.

Except for the above, the Shareholders of the Company are not entitled to any other special tax benefits under the Act by virtue of their investment in the Company.

6. Special Indirect Tax Benefits Available to the Shareholders

The shareholders of the Company are not eligible to any special tax benefits under Indirect Tax Regulations.

Notes:

- a. The above Statement of Tax benefits sets out the special tax benefits available to the Company, its material subsidiaries, and its shareholders under the tax laws mentioned above.
- b. The above Statement covers only above-mentioned tax laws benefits and does not cover any general tax benefits under any other law.
- c. The statement of tax benefits enumerated above is as per the Direct Tax and Indirect Tax laws and including amendments as set out in the Finance Act, 2024.
- d. This statement is intended only to provide general information to the investors and is neither designed nor intended to be substituted for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax consequences of his/her participation in the scheme.
- e. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

GLOBAL MACROECONOMIC LANDSCAPE

The global economy, which recorded GDP growth at 3.3% in CY 2024, is expected to show resilience at 2.8% in CY 2025. This marks the slowest expansion since 2020 and reflects a 0.5%-point downgrade from January 2025 forecast. Moreover, the projection for CY 2026 has also reduced to 3.0%. This slowdown is majorly attributed due to numerous factors such as high inflation in many economies despite central bank effort to curb inflation, continuing energy market volatility driven by geopolitical tensions particularly in Ukraine and Middle East, and the re-election of Donald Trump as US President extended uncertainty around the trade policies as well as overall global economic growth. High inflation and rising borrowing costs affected the private consumption on one hand while fiscal consolidation impacted the government consumption on the other hand. As a result, global GDP growth is estimated to moderation by 2.8% in CY 2025 as compared to 3.3% in CY 2024.

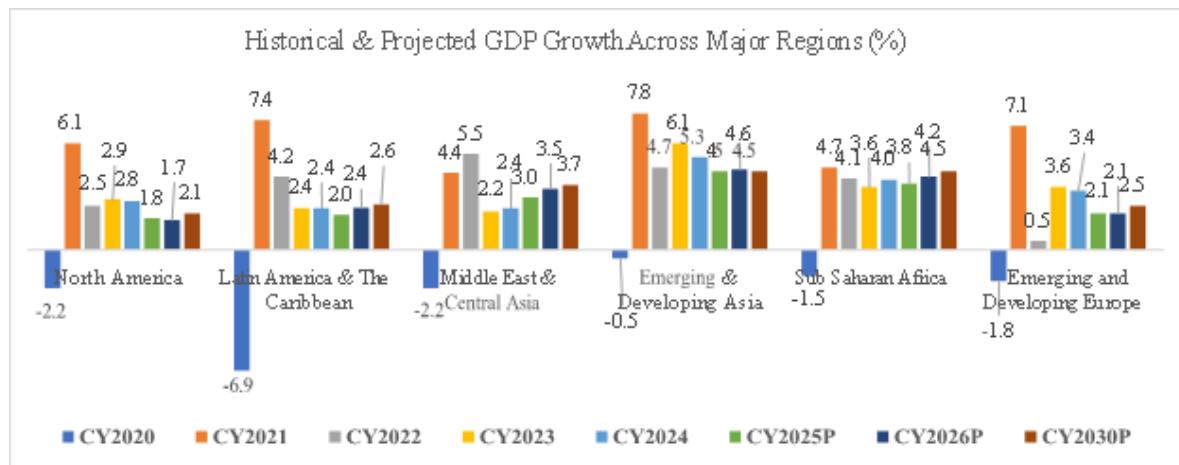

Source – IMF Global GDP Forecast Release April 2025

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and

developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

HISTORICAL AND PROJECTED REGIONAL GDP GROWTH

GDP growth across major regions exhibited a mixed trend between 2022-23, with GDP growth in many regions including North America, Emerging and Developing Asia, and Emerging and Developing Europe slowing further in 2024. In 2025, GDP growth in Emerging and Developing Asia (India, China, Indonesia, Malaysia, etc.) moderate further to 4.5% from 5.3% in the previous year, while in the North America, it is expected to moderate to 1.8% in CY 2025 from 2.8% in CY 2024.

Source-IMF World Economic Outlook April 2025 update

Except Middle East & Central Asia, all other regions like Emerging and Developing Asia, Emerging and Developing Europe, Latin America & The Caribbean, Sub Saharan Africa and North America, are expected to record a moderation in GDP growth rate in CY 2025 as compared to CY 2024. Further, growth in the United States is expected to come down at 2.71% in CY 2025 from 2.80% in CY 2024 due to lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labour markets slowing aggregate demand.

GLOBAL ECONOMIC OUTLOOK

The global economy is navigating a period of exceptional uncertainty. Policy shifts, particularly those reshaping trade, have alarmed financial markets and bruised business sentiment. The U.S.'s reciprocal tariffs, which represent additional costs for businesses from almost all countries with which the U.S. trades, charge trade partners an import duty at a discounted rate of approximately half the rate that the trade partner currently imposes on the U.S. According to U.S. President Donald Trump, reciprocal tariffs, ranging from 10% to 50%, are meant to address trade barriers limiting U.S. exports. The effective tariff rate includes other tariffs imposed at an earlier date and cumulatively may now be higher than duties charged on U.S. imports. It is unclear whether the reciprocal tariffs represent a negotiating tool, and may therefore be temporary, or form part of broader long-term protectionist measures and industrial strategy.

Responses to reciprocal tariffs have varied, with some economies promising swift countermeasures. More than 50 markets have sought negotiations with the US. While Malaysia is seeking a united response across ASEAN, the Chinese Mainland has retaliated with duties on all imports from the U.S., declaring it will "fight to the end". In early April, the U.S. confirmed the most aggressive steps yet, with a cumulative 145% tariff on some products imported from the Chinese Mainland. Brazil has readied itself by passing a bill allowing for retaliation, Australia has ruled out retaliatory levies, and the EU remains open to negotiation while preparing a package of countermeasures.

Tariffs and their unpredictable applications have weighed on consumer and business sentiment, sunk global stock markets, raised recession risks, and made a global slowdown more likely. Our latest Global Business Optimism Insights report indicates a further decline in business optimism as firms continue to grapple with trade-related policy uncertainty and its broader economic implications. Export-driven sectors reported sharp declines in optimism. Financial risk perceptions remain elevated as businesses contend with high borrowing costs and persistent inflation expectations. More broadly, the uncertainty is reflected in delayed capital expenditure and a pullback in hiring.

Tariffs have begun to exert pressure on central banks by contributing to inflationary pressures and increasing financial market volatility. Central banks are adjusting forward guidance and policy frameworks and may begin to consider the likelihood of softer growth being a bigger priority than high inflation by starting to cut interest rates to support economies. For businesses, this uncertainty translates into unpredictable cost structures, fluctuating credit availability, and the management of operational costs through diversified supply networks.

The latest Dun & Bradstreet Global Business Optimism Insights report reveals that there may be a decline in business optimism, though at a more moderate pace than in the prior quarter, as businesses continued to grapple with trade-related policy uncertainty and its broader economic implications. Export-driven sectors such as automotives, electricals, and metals saw sharp declines in optimism, particularly in the U.S., Mexico, South Korea, and Japan, where rising tariffs and shifting trade policies have fueled cost pressures and demand volatility. Financial risk perceptions remain elevated.

GLOBAL GROWTH PROJECTION

At a broader level, the global economy is expected to experience a slowdown in 2025, with GDP growth projected to decline to 2.8%, down from 3.3% in 2024. This deceleration reflects persistent inflationary pressure, geopolitical uncertainties and tightened monetary policies. However, a slight recovery is anticipated in 2026, with growth projected to improve to 3.0%. Global inflation is expected to decline steadily, to 4.3% in 2025 and to 3.6% in 2026. Inflation is projected to converge back to the target earlier in advanced economies, reaching 2.2% in 2026, whereas in emerging market and developing economies, it is anticipated to decrease to 4.6% during the same period. Trade tariffs function as a supply shock for the countries imposing them, leading to a decrease in productivity and an increase in unit costs. Countries subject to tariffs experience a negative demand shock as export demand declines, placing downward pressure on prices. In each scenario, trade uncertainty introduces an additional layer of demand shock since businesses and households react by delaying investment and spending, and this impact could be intensified by stricter financial conditions and heightened exchange rate volatility. Moreover, Global trade growth is expected to slow down in 2025 to 1.7%. This forecast reflects increased tariff restrictions affecting trade flows and to a lesser extent the waning effects of cyclical factors that have underpinned the recent rise in goods trade. Geopolitical tensions as seen in the past such as the wars in Ukraine and the Middle East could exacerbate inflation volatility, particularly in energy and agricultural commodities.

INDIA MACROECONOMIC ANALYSIS

India emerged as one of the fastest growth economies amongst the leading advanced economies and emerging economies. In CY 2024, even amidst geopolitical uncertainties, particularly those affecting global energy and commodity markets, India continues to remain one of the fastest growing economies in the world and is expected to grow by 6.2% in CY 2025 and 6.3% in 2026.

The Government stopped spending on infrastructure projects to boost the economic growth and had a positive impact on economic growth. The capital expenditure of the central government increased by an average of 26.52% during FY 2023-FY 2024 which slowed to 7.27% in FY 2025, which is expected to translate into moderating GDP growth of 6.5% in 2024. In the Union Budget 2025-2026, the government announced INR 11.21 billion capex on infrastructure (10.12% higher than previous year revised estimates) coupled with INR 1.5 trillion in interest-free loans to states. This has provided much-needed confidence in the private sector, and in turn, expected to attract the private investment.

HISTORICAL GDP AND GVA GROWTH TREND

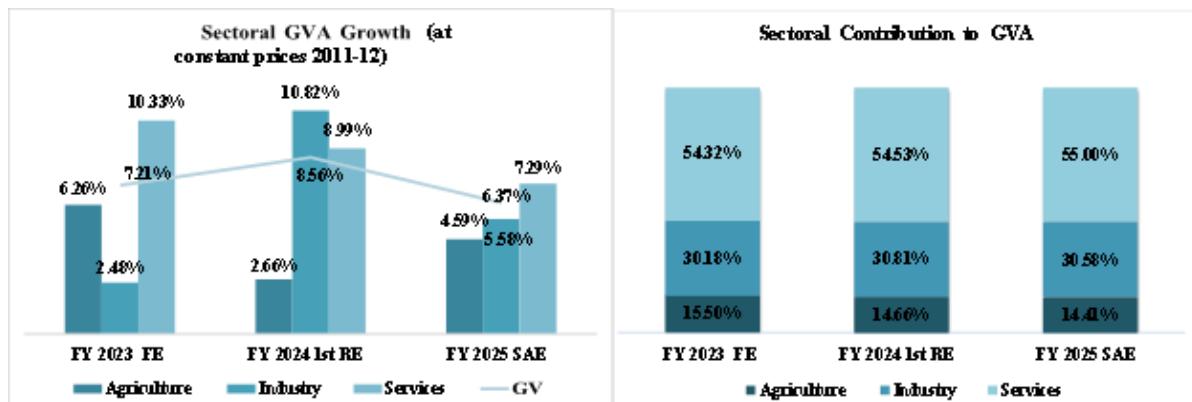

As per the latest estimates, India's GDP at constant prices is estimated to grow to INR 187.95 trillion in FY 2025 (Second Revised Estimates) with the real GDP growth rates estimated to be 6.48% for FY 2025. Similarly, real Gross Value Added (GVA) growth stood is estimated to have moderated to 6.37% in FY 2025. Even amidst global economic uncertainties, India's economy exhibited resilience supported by robust consumption and government spending.

Sectoral analysis of GVA reveals that the industrial sector experienced a moderation in FY 2025, recording a 5.58% y-o-y growth against 10.82% year-on-year growth in FY 2024. Within the industrial sector, growth moderated across sub sector with mining, manufacturing, and construction activities

growing by 2.76%, 4.29%, and 8.64% respectively in FY 2025, compared to 3.21%, 12.30%, and 10.41% in FY 2024. Growth in the utilities sector moderated to 6.03% in FY 2025 from 8.64% in the previous year. The industrial sector's contribution to GVA moderate marginally from 30.81% in FY 2024 to 30.58% in FY 2025.

The services sector continued to be the main driver of economic growth, although its pace moderated. It expanded by 7.29% in FY 2025 from 8.99% in FY 2024. The services sector retained its position as the largest contributor to GVA, rising from 54.32% in FY 2023 to 54.53% in FY 2024, with a further increase to 55.00% in FY 2025. The agriculture sector saw an acceleration, with growth increasing from 2.66% in FY 2024 to 4.59% in FY 2025. However, its contribution to GVA declined marginally from 14.66% in FY 2024 to 14.41% in FY 2025. Overall, Gross Value Added (GVA) growth moderated to 6.37% in FY 2025 from 8.56% in FY 2024.

ANNUAL AND MONTHLY IIP GROWTH

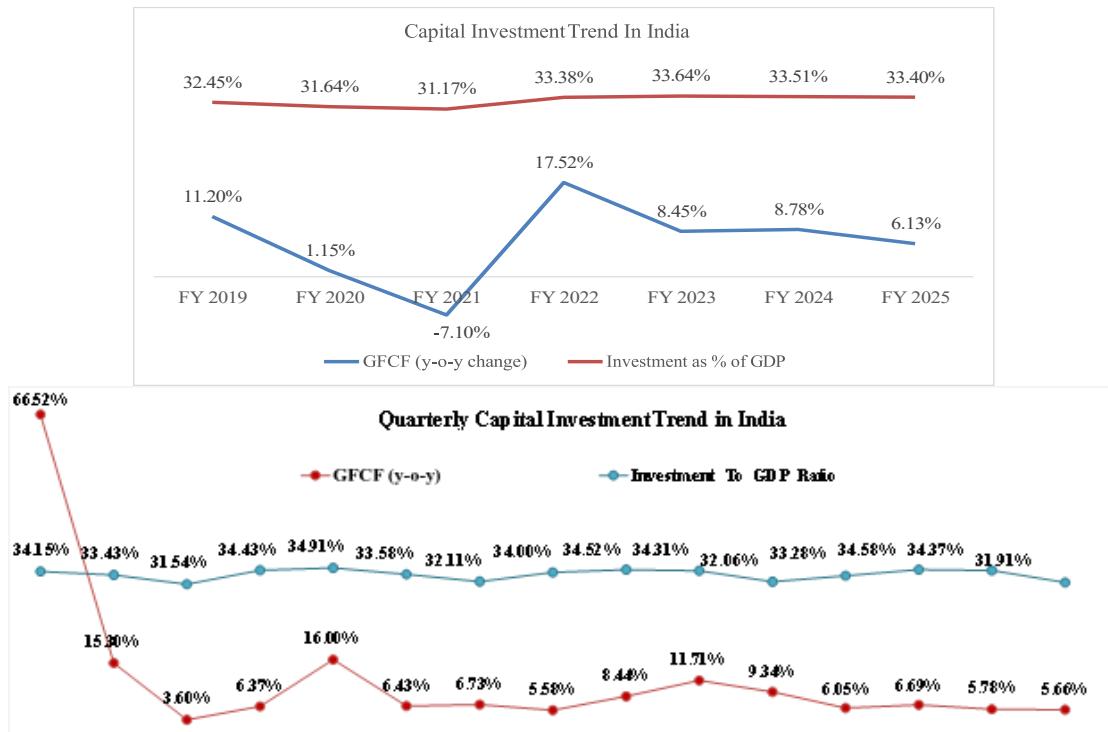

Industrial sector performance as measured by IIP index exhibited moderation in FY 2025, recording a 3.95% y-o-y growth against 5.92% increase in the previous year. The manufacturing index showed moderation and grew by 3.94% in FY 2025 against 5.54% in FY 2024. Mining sector index too moderated and exhibited a growth of 2.95% in FY 2025 against 7.51% in the previous years while the Electricity sector Index, also witnessed moderation of 5.09% in FY 2024 against 7.07% in the previous year.

Overall month IIP index growth grew by 6.5% in March 2025 against 2.1% growth in the February 2025. Both manufacturing and mining index witnessed an improvement in March 2025 over the previous month as well as against January 2025 while electricity Index improved considerably but remained in negative growth trajectory.

ANNUAL AND QUARTERLY: INVESTMENT AND CONSUMPTION SCENARIO

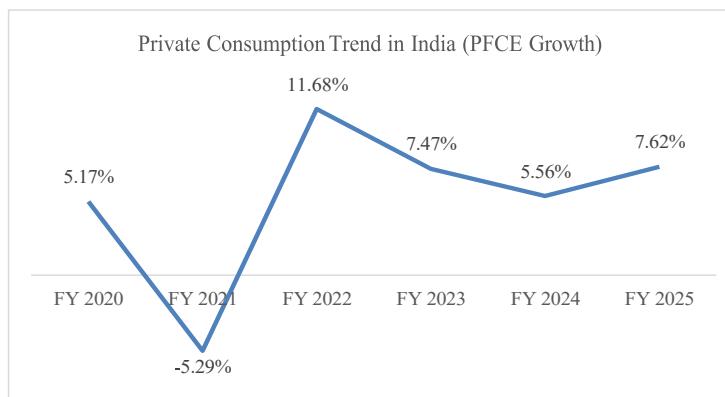

Other major indicators such as Gross fixed capital formation (GFCF), a measure of investments, has shown fluctuation during FY 2025 as it registered 6.13% year-on-year growth against 8.78% yearly growth in FY 2024, taking the GFCF to GDP ratio measured to 33.40%.

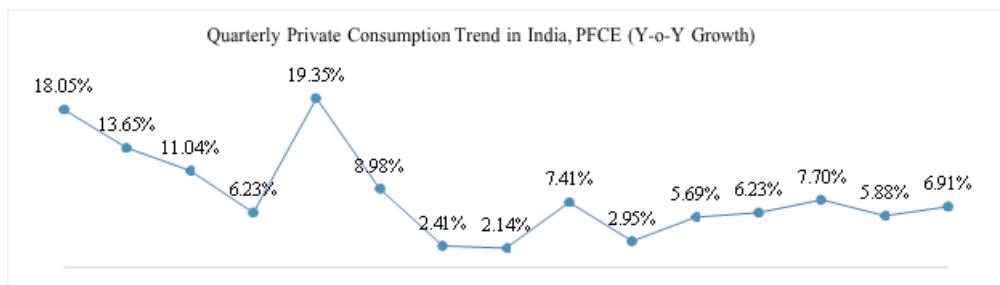

Source: Ministry of Statistics & Programme Implementation (MOSPI)

On a quarterly basis, GFCF exhibited a fluctuating trend in quarterly growth over the previous year in the same quarter. In FY 2024, the growth rate moderated to 6.05% in March quarter against the previous two quarters as government went slow on capital spending amidst the 2024 general election while it observed an improvement in Q1 FY 2025 by growing at 6.69% against 6.05% in the previous quarter and moderated in the subsequent two quarters. On a yearly basis, the growth rate remained lower compared to the same quarter in the previous year during FY 2025. The GFCF to GDP ratio measured 31.91% in Q3 FY 2025.

Private Consumption Scenario

Sources: MOSPI

Private Final Expenditure (PFCE) is a realistic proxy to gauge household spending, observed growth in FY 2025 as compared to FY 2024. However, quarterly data indicated some improvement in the current fiscal as the growth rate improved over the corresponding period in the last fiscal.

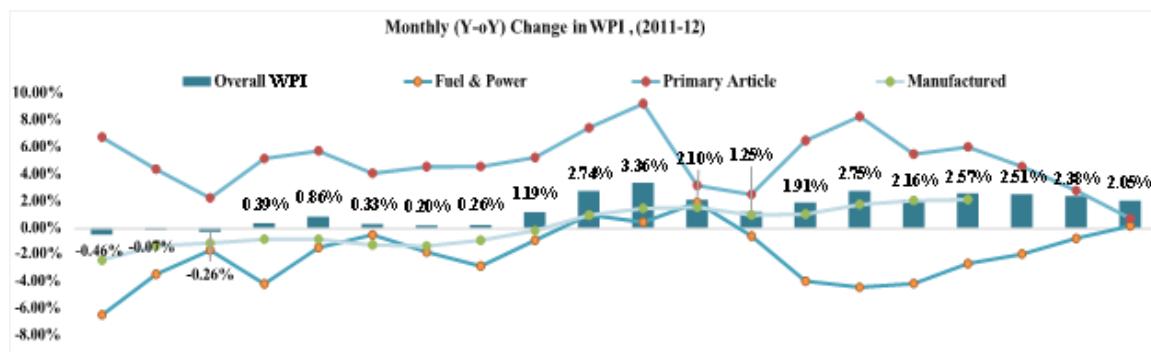

Inflation Scenario

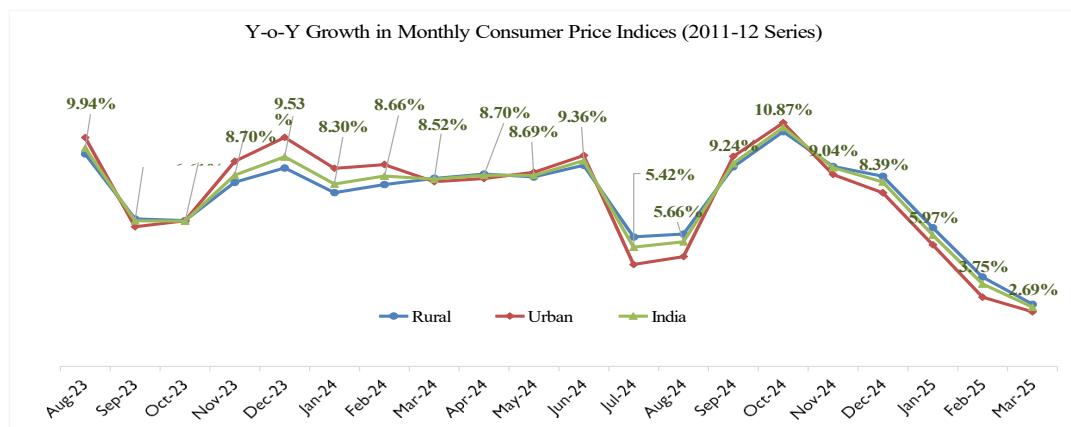

The inflation rate based on India's Wholesale Price Index (WPI) exhibited significant fluctuations across different sectors from August 2023 to March 2025. The annual rate of inflation based on all India Wholesale Price Index (WPI) number is 2.05% (provisional) for the month of March 2025 (over March 2024). Positive rate of inflation in March 2025 is primarily due to increase in prices of manufacture of food products, other manufacturing, food articles, electricity and manufacture of textiles etc.

By March 2025, Primary Articles (Weight 22.62%), The index for this major group decreased by 1.07% to 184.6 (provisional) in March 2025 from 186.6 (provisional) for the month of February 2025. Price of crude petroleum & natural gas (-2.42%), non-food articles (-2.40%) and food articles (-0.72%) decreased in March 2025 as compared to February 2025. The price of minerals (0.31%) increased in March 2025 as compared to February 2025.

Moreover, power & fuel, the index for this major group decreased by 0.91% to 152.4 (provisional) in March 2025 from 153.8 (provisional) for the month of February 2025. Price of electricity (-2.31%) and mineral oils (-0.70%) decreased in March 2025 as compared to February 2025. The price of coal remained the same as in the previous month.

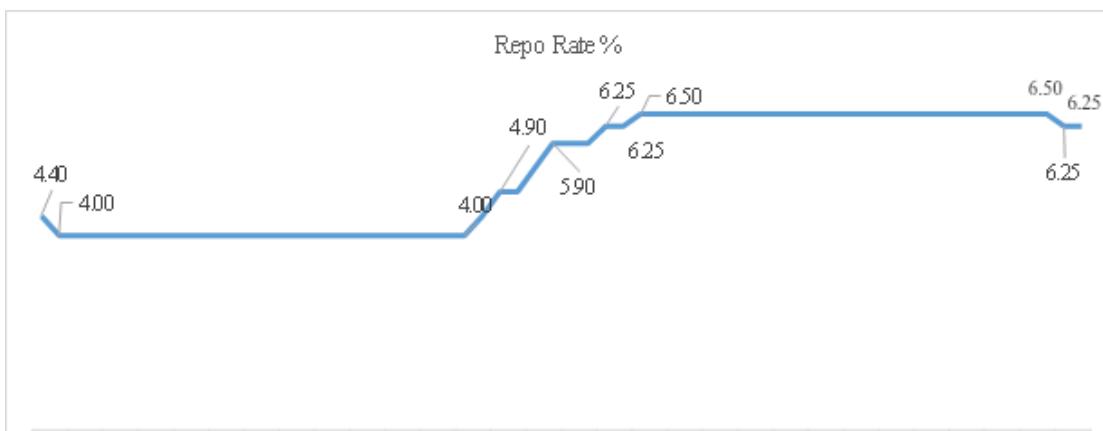

Furthermore, Manufactured Products (Weight 64.23%), the index for this major group increased by 0.42% to 144.4 (Provisional) in March 2025 from 143.8 (Provisional) for the month of February 2025. Out of the 22 NIC two-digit groups for manufactured products, 16 groups witnessed an increase in prices, 5 groups witnessed a decrease in prices and 1 group witnessed no change in prices. Some of the important groups that showed a month-over-month increase in prices were manufacturers of basic metals; food products; other transport equipment; other manufacturing and machinery and equipment etc. Some of the groups that witnessed a decrease in prices were manufacturers of textiles; chemicals and chemical products; computer, electronic and optical products; printing and reproduction of recorded media and furniture etc. in March 2025 as compared to February 2025.

Source: MOSPI, Office of Economic Advisor

Retail inflation rate (as measured by the Consumer Price Index) in India showed notable fluctuations between August 2023 and March 2025. Overall, the national CPI inflation rate moderated to 2.69% by March 2025, indicating a gradual easing of inflationary pressures across both rural and urban areas. Rural CPI inflation peaked at 9.67% in August 2023, declining to 2.82 % in March 2025. Urban CPI inflation followed a similar trend, rising to 10.42% in August 2023 and then dropping to 2.48% in March 2025. CPI measured above 6.00% tolerance limit of the central bank since July 2023. As a part of an anti-inflationary measure, the RBI has hiked the repo rate by 250 bps since May 2022 and 8 Feb 2023 while it held the rate steady at 6.50 % till January 2025. In February, RBI reduced the repo rate for the first time in the last 5 years by 25 basis points to 6.25% from 6.50% previously.

GROWTH OUTLOOK

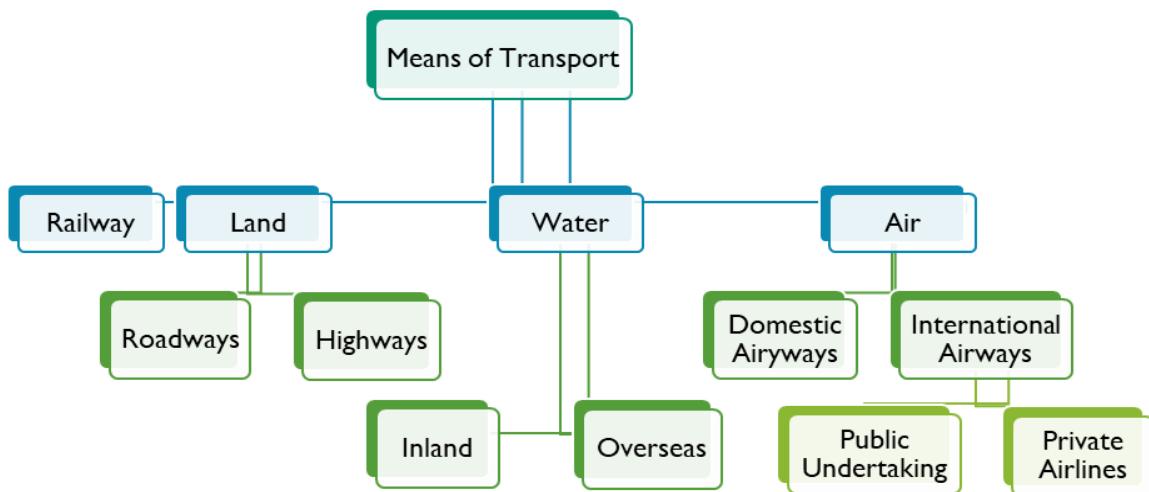

The Union Budget 2025-26 has laid the foundation for sustained growth by balancing demand stimulation, investment promotion and inclusive development. Inflation level is reaching within the central bank's target; the RBI may pursue further monetary easing that will support growth. The medium-term outlook is bright, fueled by the emphasis on physical and digital infrastructure spending. With a focus on stimulating demand, driving investment and ensuring inclusive development, the budget introduces measures such as tax relief, increased infrastructure spending and incentives for manufacturing and clean energy. These initiatives aim to accelerate growth while maintaining fiscal discipline, reinforcing India's long-term economic resilience. The expansion of tax relief i.e. zero tax liability for individuals earning up to INR 12 lacs annually under the new tax regime is expected to strengthen household finances and, consequently, boost consumption.

The external sector remains resilient, and key external vulnerability indicators continue to improve. However, tariff-related uncertainty is likely to weigh on exports and investment, prompting us to cut our FY26 GDP growth forecast to 6.3%.

LOGISTICS INDUSTRY IN INDIA

An Industry Overview and Genesis of Logistics Market: Road Transport, Air Transport, Sea Transport and Rail Transport

Logistics plays a crucial role in a country's economic development by ensuring the efficient movement of goods. An advanced logistics network enhances productivity, reduces costs, and supports industries such as manufacturing, retail, agriculture, and e-commerce. In India, the logistics sector is essential for domestic and international trade, leveraging the country's strategic geographical location. The industry comprises multiple segments, including transportation, warehousing, freight forwarding, and third-party logistics (3PL) services. Economic reforms, globalization, and the rise of e-commerce have accelerated the demand for efficient logistics services, making the sector a critical component of India's infrastructure.

Genesis of Indian Logistics

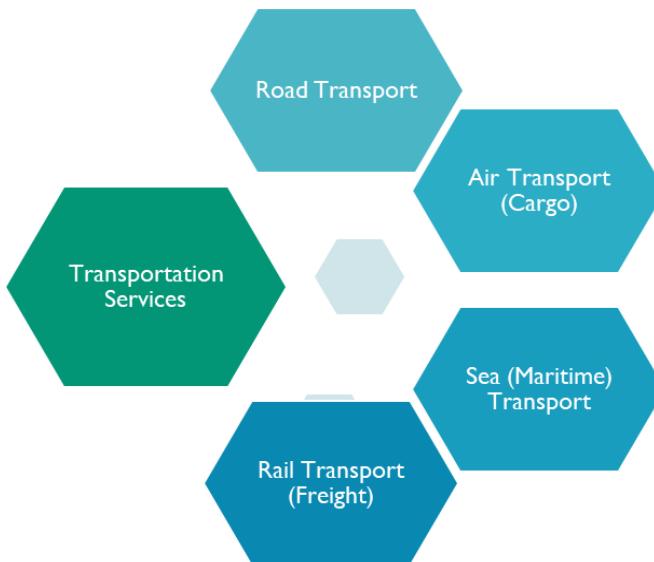

The evolution of India's logistics industry can be traced back to the economic liberalization of the 1990s. This period marked a shift toward global supply chain integration, attracting foreign investments and modernizing logistics operations. Before liberalization, the sector was highly fragmented, labor-intensive, and reliant on outdated infrastructure and technology.

The rapid expansion of e-commerce, manufacturing, and retail sectors has further fuelled the need for streamlined supply chains. Foreign investments have introduced advanced technologies and best practices, significantly enhancing the capabilities of Indian logistics providers.

Recognizing the importance of infrastructure, the Indian government has heavily invested in roads, railways, ports, and airports. Key initiatives like the Goods and Services Tax (GST) and the Dedicated Freight Corridor (DFC) project have improved goods movement efficiency, reduced transit times, and strengthened India's logistics ecosystem.

- Transportation Services:** Transportation is the backbone of logistics, ensuring the movement of goods across the country. India's transportation network is shaped by historical developments, geography, and cultural influences. While transportation contributes significantly to economic growth, it also impacts the environment due to emissions and climate change. Advancements in technology have made transportation more cost-effective and efficient.

India's transportation system is classified into four primary modes:

1. Road Transport

Road transport is a vital component of India's logistics sector, offering flexibility and extensive connectivity, including access to remote areas. India has an extensive road network spanning approximately 6.2 million km, which supports trade and commerce.

Key Features of Road Transport:

- **Connectivity:** Links urban and rural areas, ensuring seamless movement of goods.
- **Flexibility:** Provides route flexibility and vehicle options to suit various logistics needs.

Types of Roads in India:

- **Golden Quadrilateral & Superhighways:** Connects major cities like Delhi, Kolkata, Chennai, and Mumbai, along with North-South and East-West corridors.
- **National Highways:** Maintained by the Central Public Works Department, connecting major cities and economic centres.
- **State Highways:** Links state capitals with district headquarters, managed by state authorities.
- **District Roads:** Connects district headquarters to smaller towns and villages.
- **Rural Roads:** Developed under schemes like the Pradhan Mantri Grameen Sadak Yojana.
- **Border Roads:** Constructed by the Border Roads Organisation to improve connectivity in strategic areas.

2. Air Transport (Cargo)

Air freight is essential for transporting time-sensitive and high-value goods. Major airports in India serve as key hubs for domestic and international air cargo operations.

Development of Air Transport:

- Nationalized in 1953, leading to state-owned carriers like Indian Airlines and Air India.
- Private airlines and non-scheduled operators now enhance domestic air cargo connectivity.
- Helicopter services, such as Pawan Hans, facilitate transport to remote areas like the Northeast, Jammu & Kashmir, and Himachal Pradesh.

Although air transport is more expensive than other modes, it offers unmatched speed and accessibility, making it crucial for industries requiring fast delivery.

1. Sea (Maritime) Transport

Maritime transport is one of the oldest and most cost-effective modes of transportation, ideal for moving bulk goods over long distances. India has an extensive coastline of **7,516.6 km**, with **12 major ports** and around **200 minor ports** that handle approximately **95% of India's international trade**.

Key Maritime Transport Features:

- Inland Waterways: India has 14,500 km of inland waterways, but only 5,685 km are navigable.
- Major National Waterways:
 - Ganga Waterway (Allahabad – Haldia, 1,620 km)
 - Brahmaputra Waterway (Sadiya – Dhubri, 891 km)
 - West Coast Canal (Kerala, 205 km)
 - Godavari-Krishna Waterway (1,078 km)
 - Brahmani-Mahanadi Waterway (588 km)

Major Sea Ports in India:

- Kandla (Deendayal Port): First port built after independence, located in Gujarat.
- Mumbai Port: Largest and most important natural harbour.
- Marmagao (Goa): Handles around 50% of India's iron ore exports.
- Chennai Port: One of the oldest artificial ports, second busiest after Mumbai.
- Visakhapatnam Port: A deep inland port with excellent connectivity.
- Kolkata Port: A tidal river port requiring regular dredging.

2. Rail Transport (Freight)

Indian Railways plays a crucial role in bulk transportation, offering a cost-effective and energy-efficient mode for moving goods over long distances. The railway network is divided into **16 zones** and significantly impacts India's industrial and economic activities.

Factors Affecting Railway Development:

- **Flat Terrain (Northern Plains):** Ideal for railway expansion due to high population density and agricultural activity.
- **Difficult Terrain (Hills & Deserts):** Rail construction is challenging in hilly regions, deserts, and dense forests.
- **New Railway Projects:** The Konkan Railway has improved connectivity in western India but faces challenges like landslides.

Rail transport is a weather-resistant mode of transportation compared to road and air, making it a reliable choice for freight movement. Indian Railways continues to modernize with Dedicated Freight Corridors (DFC) and high-speed rail projects to enhance efficiency.

MARKET SCENARIO: ESTIMATED MARKET SIZE OF LOGISTICS INDUSTRY IN TERMS OF VALUE

The Indian logistics sector is among the largest in the world, offering significant opportunities for growth. This sector is an integral part of the national GDP value chain, as it connects various components of the economy and encompasses transportation, warehousing, and other supply chain solutions for both suppliers and end customers. The efficient logistics industry is a critical component as it secures better market access for goods and services, and boosts consumption growth. Acknowledging the need to strengthen logistics infrastructure, the sector has attracted the attention of government and even private participants.

India's logistics industry is thus poised to achieve significant milestones in 2024 due to a surge in e-commerce, government initiatives, and technological advancements. As the Indian economy expands, the logistics sector is expected to see unprecedented growth, driven by a range of factors including enhanced infrastructure and evolving market demands.

Market Size of Indian Logistic Market (USD Bn)

The boom in e-commerce has led to increased demand for efficient logistics solutions, particularly in last-mile delivery and rural expansion. This trend opens up substantial investment opportunities in warehousing, transportation, and technology-driven solutions. Government initiatives and major infrastructure projects such as Bharatmala and Sabarmati, aim to streamline operations and improve connectivity. Technological advancements, including IoT, AI, blockchain, and automation technologies such as drones and driverless vehicles, are revolutionizing logistics operations by enhancing efficiency and reducing costs.

India's logistics market was valued at USD 317 Bn in 2024. The sector contributes 5% to India's GDP and employs approximately 22 Mn people, underscoring its significant role in the national economy.

FREIGHT FORWARDING SERVICES

Freight forwarding involves the coordination and management of shipments on behalf of shippers. Freight forwarders play a crucial role in selecting optimal transportation routes, handling documentation, and ensuring the timely movement of goods. Their key responsibilities include warehouse planning, customs brokerage, and cargo insurance facilitation. For businesses looking to expand, international trade offers a valuable opportunity to reach a broader customer base. However, navigating global logistics can be complex. Freight forwarders simplify this process by ensuring that shipments comply with regulations, are transported efficiently, and reach their destination on time.

Freight Forwarding and Logistics: Key Service Providers:

International Freight Forwarding:

- As India's trade expands globally, international freight forwarding services are essential for coordinating shipments between countries, dealing with customs regulations, and managing cross-border logistics.

Third-Party Logistics (3PL) and Fourth-Party Logistics (4PL):

- 3PL and 4PL providers offer comprehensive logistics solutions to businesses, allowing them to outsource various aspects of their supply chain management:

3PL Providers:

- These companies offer services like transportation, warehousing, distribution, and inventory management. By outsourcing these services, businesses can focus on their core operations.

4PL Providers:

- Going a step further, 4PL providers not only offer logistics services but also manage and optimize the entire supply chain, including selecting other logistics service providers. This strategic approach enhances efficiency and cost-effectiveness

India's Logistics performance index (LPI)

The country successfully ascended from the 44th to the 38th position in the World Bank's Logistics Performance Index (LPI) 2023, demonstrating notable progress. Logistic cost in India currently stands between 7.8-8.9% of GDP,² intriguingly closer to a level seen in developed nations.

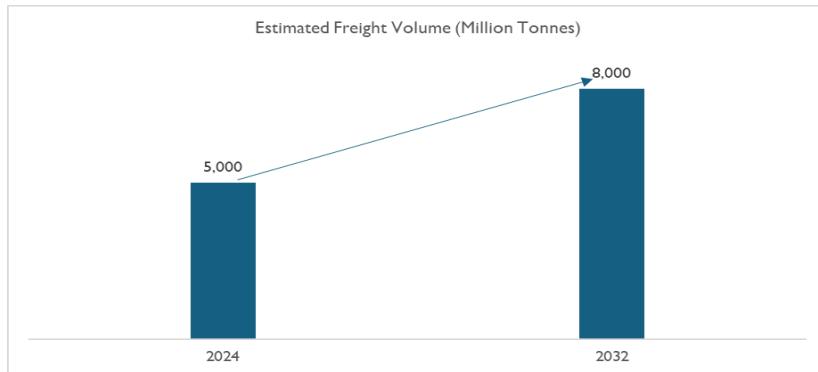

Parameter	Rank 2023 (Out Of 398 Countries)	Rank 2018 (Out Of 160 Countries)	Rank 2016 (Out Of 160 Countries)
Overall LPI Rank	38	44	35
Custom	38	40	38
Infrastructure	47	52	36
International Shipments	22	44	39
Logistics Quality & competence	38	42	32
Tracking & tracing	41	38	33
Timeliness	35	52	42

Source: World Bank

This advancement is largely due to strategic government initiatives such as the PM GatiShakti National Master Plan and the National Logistics Policy, which have enhanced logistics efficiency and infrastructure. Investments in trade-related infrastructure and the adoption of digital technologies such as the Unified Logistics Interface Platform (ULIP) and the Logistics Data Bank have also played a crucial role. Additionally, the establishment of an Inter-Ministerial team and the National Committee for Trade Facilitation (NCTF) to address key logistics parameters have contributed to this progress. Notable improvements include India's climb in international shipment rankings from 44th to 22nd and an enhancement in infrastructure scores from 52nd to 47th.

ESTIMATED VOLUME OF FREIGHT CARRIED IN INDIA

The freight transportation industry in India has grown significantly due to increasing industrial activity, urbanization, and e-commerce expansion.

Current Scenario (2024):

- The total freight volume in India is estimated to be **5,000 million tonnes** as of 2024.
- This includes transportation through multiple modes such as road, rail, waterways, and air.
- The growth is driven by increasing demand in manufacturing, construction, and the retail sector.

Future Projection (2032):

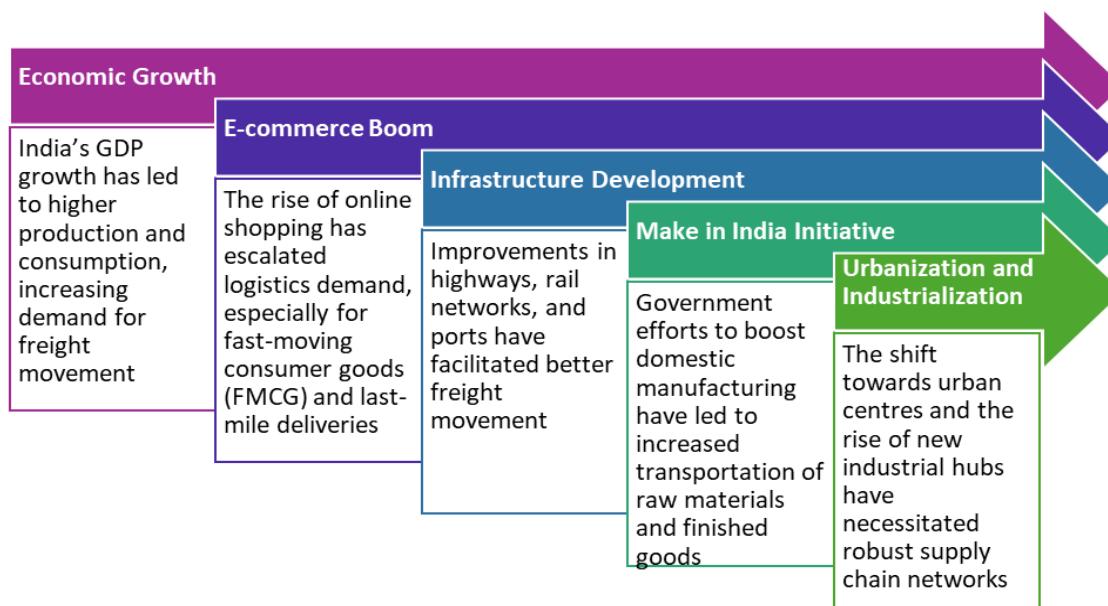

- The total freight volume is expected to reach **8,000 million tonnes** by 2032.
- This indicates a substantial increase of **60% over eight years**.
- Government initiatives like the **PM Gati Shakti National Master Plan**, investment in dedicated freight corridors, and improved infrastructure are expected to support this growth.

KEY FACTORS DRIVING FREIGHT GROWTH

- **Economic Expansion:** India's GDP growth directly contributes to higher freight demand.
- **Urbanization & Industrialization:** Increased production and consumption lead to greater freight movement.
- **E-commerce Boom:** The rise of online shopping has increased demand for fast and efficient logistics.
- **Government Policies:** Infrastructure investments, multimodal logistics parks, and policy reforms support logistics efficiency.

India's freight transportation sector is poised for significant growth, with an expected increase from **5,000 MT in 2024 to 8,000 MT by 2032**. This reflects a growing economy, improved logistics infrastructure, and a shift toward more efficient supply chain mechanisms. However, challenges such as congestion, environmental concerns, and the need for sustainable logistics solutions must be addressed. Investments in green logistics, technology-driven solutions, and infrastructure upgrades will be key in ensuring efficient and sustainable freight movement in the coming years.

FACTORS DRIVING FREIGHT GROWTH:

AIR TRANSPORTATION IN LOGISTICS

Overview of Air Transportation: Significance of air transportation in Logistics, Airports Infrastructure Scenario in India

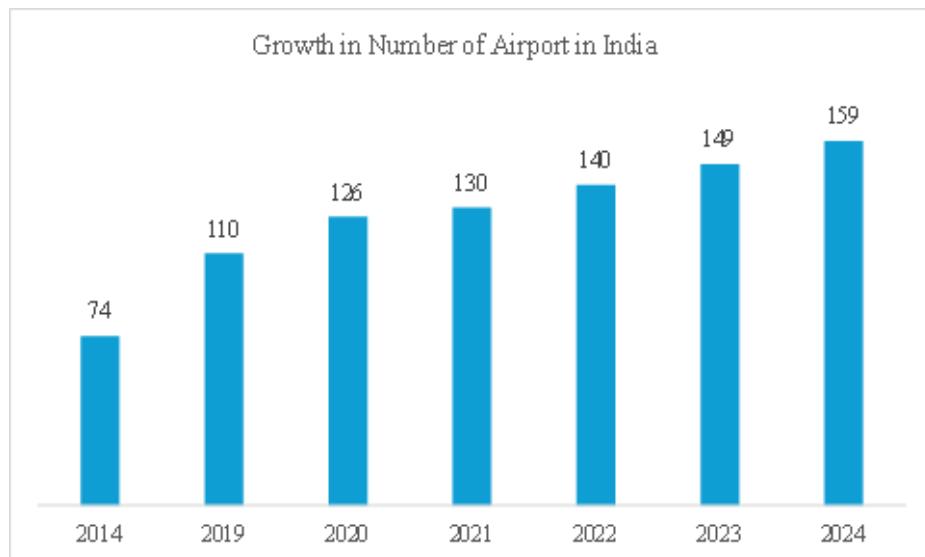

Air transportation plays a pivotal role in modern logistics, offering unparalleled speed and efficiency in the movement of goods across global markets. In India, the significance of air transport has grown substantially, supported by expansive airport infrastructure developments and strategic initiatives aimed at enhancing connectivity and trade.

Significance of Air Transportation in Logistics

- **Speed and Efficiency:** Air Transport is the fastest mode of freight movement, often delivering international shipments within 24-48 hours. This rapid transit is crucial for time-sensitive goods such as perishables, pharmaceuticals, and high-value items, ensuring they reach markets promptly and in optimal condition.
- **Global Reach:** Air freight enables businesses to access international markets swiftly, facilitating global trade and commerce. The ability to transport goods quickly across continents allows companies to respond effectively to market demands and maintain competitive advantages.
- **Supply Chain Optimization:** Utilizing air transport allows businesses to adopt just-in-time delivery models, reducing the need for extensive warehousing and minimizing inventory costs. This efficiency enhances overall supply chain management, allowing for better responsiveness to consumer needs and market fluctuations.

Airports Infrastructure Scenario in India: Current Landscape

As of 2024, India boasts 159 operational airports, a significant increase from 74 in 2014. This expansion reflects the country's commitment to enhancing its aviation infrastructure to support growing passenger and cargo demands.

Source: Airports Authority of India (AAI), as on 31.12, 2024

India's aviation industry has experienced significant growth in the past 10 years. The number of operational airports in the country has doubled from 74 in 2014 to 159 in 2024 and the aim is to increase this number to 350-400 by 2047. The domestic air passengers have more than doubled in the past decade, with Indian airlines significantly expanding their fleets. Indian air cargo to handle 5.8 million tonnes by 2029. The Indian international air cargo market outperformed both the global and Asia Pacific average and is on track for around 19% growth in 2024.

Over the next five years, Indian air cargo traffic is expected to grow from 3.7 million tonnes in FY25 to between 5 and 5.8 million tonnes by 2029 or about 6-9% per year. The forecast range for Indian air cargo volumes in the next five years is between 6.2% and 9.1%. This is higher than recent performance, but in

line with longer-term performance through 2019, according to the India Air Cargo Outlook 2025-2029 by Trade Data Service by Trade and Transport group published in January 2025.

Government Initiatives and Investments:

- The Indian government plans to invest approximately ₹920 billion (USD 11 billion) to increase the number of operational airports to 200 by 2025. This investment aims to bolster connectivity, stimulate economic growth, and accommodate the rising air traffic in the country.
- This has come amid a surge in the aviation sector in India. Shri. Kinjarapu Rammohan Naidu said that airlines increased their capacity by about 9% this year, totaling 240 million seats across domestic and international markets. Earlier this year, data from aviation analytics firm OAG showed that India is the third-largest domestic aviation market as its domestic airline capacity increased from 8 million in April 2014 to 15.6 million this year.

Challenges and Future Outlook:

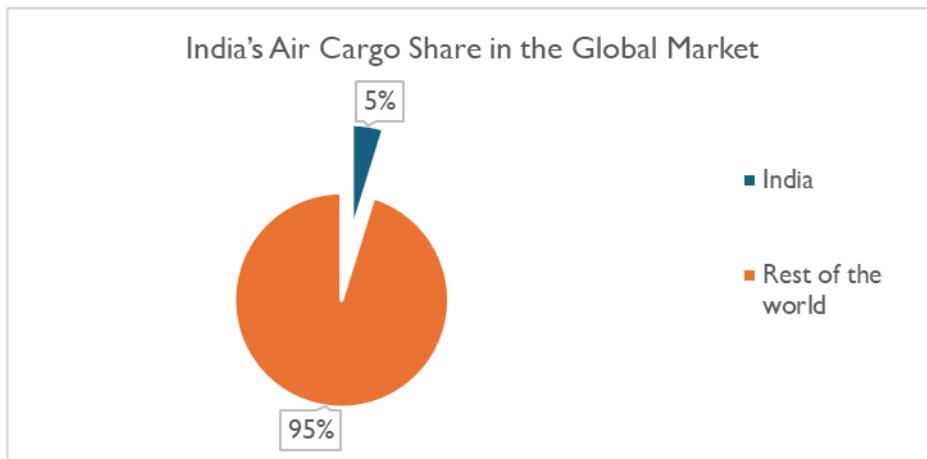

Despite significant advancements, India's aviation sector faces challenges, including the need for over \$170 billion in investments by 2030 to fund further expansion and address capacity constraints. Domestic passenger traffic is projected to double to 300 million, necessitating substantial enhancements in airport infrastructure and fleet capacity.

Total Cargo carried by Air in terms of volume (historical growth trend)

Air cargo serves as a critical pillar of global trade, ensuring the efficient and timely movement of goods across international markets. Over the years, the total volume of cargo transported by air has demonstrated a steady upward trajectory, driven by various factors such as economic expansion, technological advancements, and shifting trade patterns.

Air cargo volumes are projected to rise by 5.8% year-on-year, reaching 72.5 million tonnes globally by 2025. This growth is largely fuelled by increasing global e-commerce activity and supply chain adjustments, particularly due to disruptions in traditional maritime routes, such as the Red Sea crisis. The rise in air freight demand reflects businesses' strategic shift towards faster and more reliable logistics solutions to counter delays in ocean shipping.

India's aviation sector has experienced a significant recovery, reinforcing its role as a crucial hub for global trade. In 2023, Indian airports handled approximately 3.3 million tonnes of air cargo, demonstrating the increasing reliance on air transport for imports and exports. The resurgence in the aviation sector is evident in the air traffic movement, which saw a substantial rise from 188.89 million in FY22 to 327.28 million in FY23. This growth underscores the renewed strength of the post-pandemic industry, further bolstering air cargo transportation.

India has emerged as a key player in global air cargo logistics, reflecting the country's growing trade and economic activities. In 2023, Indian airports handled approximately 3.3 million tonnes of air cargo, contributing significantly to the nation's import and export volumes. When compared to the estimated global air cargo volume of 68.5 million tonnes in 2023, India's share in the global market stands at approximately 4.8%.

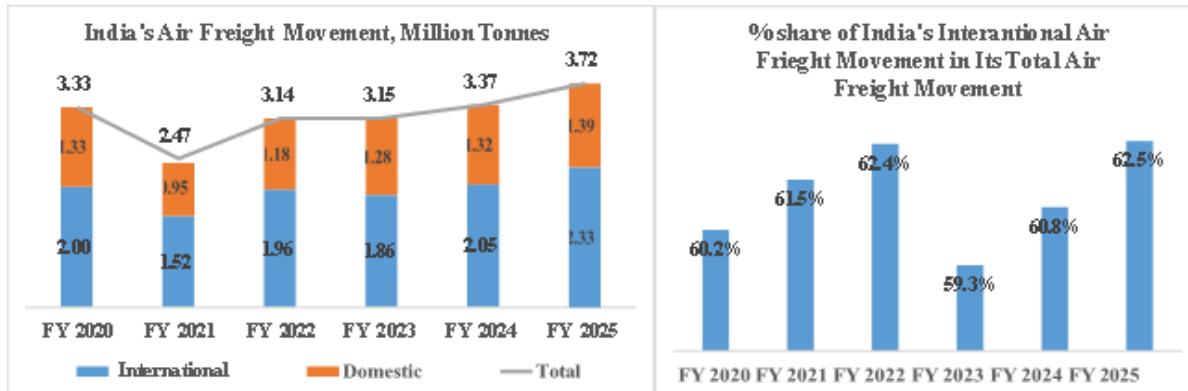

Key Drivers of Air Cargo Growth

- **E-commerce Expansion:** With the rapid rise of online shopping, the demand for express delivery services has significantly increased, contributing to higher air cargo volumes.
- **Supply Chain Disruptions:** Challenges such as the Red Sea crisis have led businesses to pivot towards air freight for urgent and time-sensitive shipments.
- **Post-Pandemic Recovery:** The strong rebound in passenger air traffic has also positively impacted cargo movement, as more flights translate into enhanced freight capacity.
- **Infrastructure Development:** Improvements in cargo-handling facilities and airport expansions have further facilitated efficient air freight movement.

As global trade continues to evolve, the air cargo industry is expected to witness sustained growth. The projected 5.8% annual increase in cargo volumes indicates a promising future, with air freight becoming an increasingly vital component of global logistics. In India, the government's ongoing investments in aviation infrastructure and logistics hubs will further strengthen the country's role in the international air cargo ecosystem. Given the current trajectory, air transport will remain a crucial enabler of economic growth, ensuring seamless global trade and connectivity.

TRENDS IN EXPORTS LOGISTICS: AIR AND OCEAN FREIGHT IN INDIA

- **Air Freight:**

Sources: Airport Authority of India

India's air freight movement has increased steadily between FY 2020-25 at CAGR of 2.25%, increasing from 3.33 million tonnes to 3.72 million tonnes. On y-o-y basis, India's air freight movement grew by 11% on y-o-y basis in FY 2025 as compared to 7% y-o-y growth in the previous year. Within the total air freight movement, international freight movement contributed majority share ranging between 59.3% to 62.5% between the FY 2020-25 period.

The International air freight movement from India exhibited fluctuations due to external market condition. In FY 2021, it experienced a COVID induced decline of 24% (on y-o-y basis) and recovered in FY 2022 while in FY 2023 it again observed moderation of 5%. Thereafter, it observed a yearly growth of 10% and 14% in FY 2024 and FY 2025, respectively. Between FY 2020-25, the International air freight movement observed a growth of 3%.

Economic Activity: The overall growth in freight volume suggests increased economic activity. Higher freight volumes often correlate with increased production, consumption, and trade.

Global Trade Dynamics: The strong growth in international freight could indicate positive trends in international trade. This might be due to factors like increased exports/imports, new trade agreements, or shifts in global supply chains.

Domestic Market Growth: The moderate growth in domestic freight suggests a more stable but less dynamic domestic market. This could be influenced by factors such as internal demand, infrastructure development, or domestic production levels.

Sectoral Performance: Further analysis would be needed to understand which specific sectors are driving the freight growth. For example, growth in manufacturing, agriculture, or e-commerce could have different impacts on freight patterns.

Impact on Air Cargo Traffic: Increased Demand for Express Deliveries: The surge in e-commerce has escalated the need for expedited shipping solutions. Consumers now anticipate shorter delivery windows, prompting e-commerce platforms and logistics providers to utilize air cargo for its speed and efficiency. This shift is evident as express shipments are projected to constitute a significant portion of air cargo business in the coming decades.

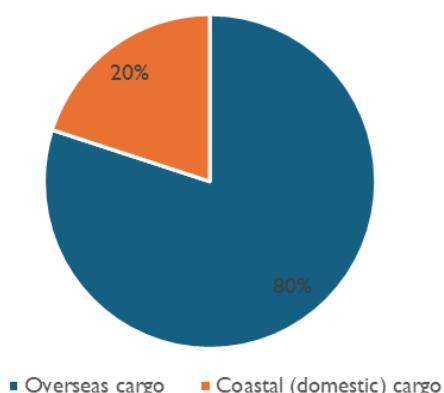

Cross-Border E-Commerce Growth: The expansion of cross-border online sales has further amplified the demand for air cargo services. Air freight is often the preferred mode for international shipments due to its ability to reduce transit times, thereby meeting customer expectations for prompt deliveries.

Infrastructure and Fleet Expansion: To accommodate the burgeoning e-commerce sector, logistics companies and airlines are investing in expanding their air cargo capacities. This includes acquiring additional aircraft, enhancing cargo handling facilities, and optimizing logistics networks to ensure efficient operations.

CARGO MOVEMENT AT INDIAN PORTS

Maritime transport in India is fundamentally driven by the expansion of global trade and economic output. With an extensive coastline stretching approximately 7,517 km (including island territories), ocean routes are instrumental to India's trade logistics. Notably, around **95% of the country's foreign trade by volume and 70% by value** is conducted via maritime channels. These routes not only facilitate international trade but also ensure connectivity between the Indian mainland and its island regions. India's maritime ecosystem encompasses ports, shipping services, shipbuilding and repair, as well as inland waterway networks. This sector supports a wide array of operations across **overseas trade, coastal trade, and inland transport**. In terms of cargo volume, Indian ports handled a mix of **international (overseas) and domestic (coastal) cargo**, accounting for approximately **80% and 20%**, respectively, of total seaborne traffic:

Overseas & Costal Traffic Handled at Indian Posrts (FY 2025)

Despite being one of the most cost-effective and environmentally sustainable modes of transportation, **coastal shipping in India remains underdeveloped**. To address this, several initiatives are underway to boost coastal cargo handling capacity, particularly at minor ports. For instance, in June 2024, the **Kerala Maritime Board launched infrastructure enhancements**—including the installation of berths and cargo-handling cranes—at ports such as **Kollam, Beypore, Azhikkal, and Vizhinjam**.

India's shipping services follow global maritime practices and are broadly classified into **tramp and liner services**. **Tramp services** operate on an ad-hoc basis without a fixed route or schedule, responding to market demand by transporting cargo wherever required. In contrast, **liner services** function on fixed schedules and predetermined routes, typically involving large ocean vessels offering regular service between ports.

In addition to cargo movement, a range of **marine support services**—including **tugboat operations, mooring and stevedoring, lighterage, barge operations, and dredging**—are essential for ensuring the smooth flow of vessel traffic. These auxiliary services are especially critical in India, where **port infrastructure remains underdeveloped**. Notably, in government-operated ports, these services are predominantly outsourced to **third-party providers**, with limited involvement from port authorities or shipping companies.

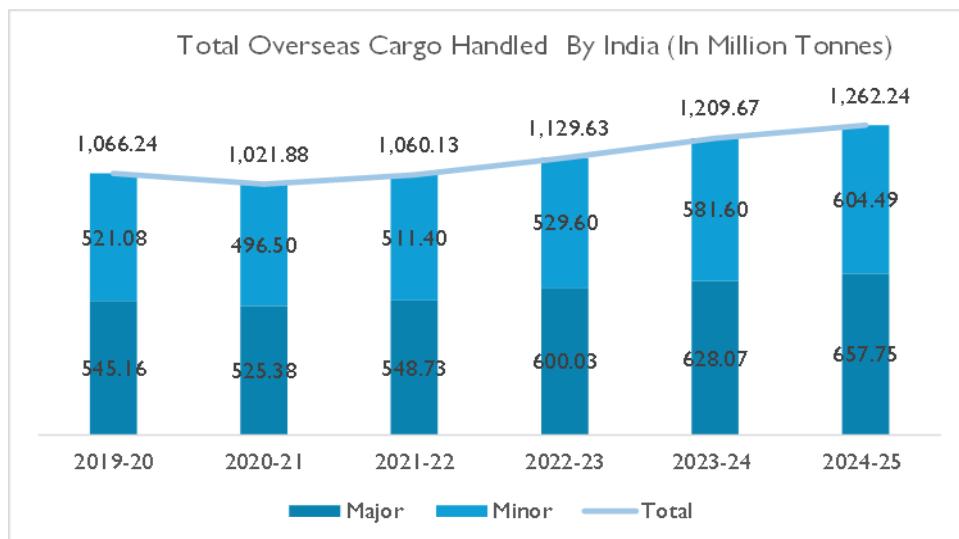

Historical Cargo Handling

Source: - Port Data Management Portal, Ministry of Ports, Shipping and Waterways

Between **FY 2020-25**, cargo volumes handled by Indian ports (Major and Minor) observed steady growth from FY 2022 onwards. In FY 2021, cargo volumes declined by **5.3%**, primarily due to the **COVID-19 pandemic**, which disrupted global supply chains, halted industrial activity, and impacted port operations. This marked the only year in the period with negative growth. A strong recovery was observed in **FY2022**, as cargo volumes rebounded to **1,576.98 Million tonnes**, registering a **5.98% CAGR** growth. This resurgence was driven by the revival in domestic industrial activity, improvement in global trade flows, and increased movement of key commodities such as coal, fertilizers, and crude oil, in tandem with infrastructure growth post-pandemic, however, the y-o-y growth momentum moderated in **FY2024-25** to **7.3% and 2.4% respectively from 8.4% in FY 2023**. The relatively slower pace suggests a **normalization of growth rates** post the high-recovery phase, and impact of **geopolitical tensions, volatile global trade routes, and tightening economic conditions** in key markets.

India's International Ocean (Overseas) Cargo Volume:

Between **FY 2020-25**, overseas cargo volumes handled by Indian ports (Major and Minor) observed steady growth from FY 2022 onwards. In FY 2021, India's ocean borne cargo volumes declined by **4.2%**, primarily due to the **COVID-19 pandemic**, which disrupted global supply chains, halted industrial activity, and impacted port operations. This marked the only year in the period with negative growth. A strong recovery was observed in **FY2022**, as cargo volumes rebounded to **1,262.24 Million tonnes**, registering a **5.4% CAGR** between FY 2021-25. This resurgence was driven by the revival in domestic industrial activity, improvement in global trade flows, and increased movement of key commodities such as coal, fertilizers, and crude oil, in tandem with infrastructure growth post-pandemic.

Belly Cargo Space

Belly cargo space, the underfloor cargo hold of an aircraft, plays a crucial role in air freight operations. While freighters are dedicated to carrying cargo, passenger aircraft also utilize their belly capacity to transport goods, providing an additional revenue stream for airlines. The efficiency of belly cargo utilization depends on factors such as aircraft type, baggage allowance, and overall cargo demand.

Utilization of Belly Cargo Space in Passenger Aircraft

- Passenger airlines maximize their revenue by optimizing available belly space for cargo transport. However, there are limitations to how much cargo can be carried, primarily due to the allocation of space for passenger baggage.
- Typically, airlines offer a baggage allowance of 15 kg per passenger in the domestic sector. For an aircraft carrying 200 passengers, this translates to 3,000 kg of baggage, reducing the available belly capacity for additional cargo. Despite this limitation, airlines have been making concerted efforts to enhance belly cargo efficiency, ensuring optimal utilization of available space.

Belly Cargo Capacity in Different Aircraft Types

The belly cargo capacity varies based on the type of aircraft:

- Narrow-body aircraft:** These aircraft, commonly used for domestic and short-haul international routes, can accommodate up to 6 tonnes of cargo in their belly compartments, depending on configuration and baggage load.
- Wide-body aircraft:** Used for long-haul and international flights, wide-body aircraft have significantly larger belly capacities, often exceeding 20 tonnes.
- Freight-dedicated aircraft:** Primarily focus on maximizing main deck capacity, with belly space serving as an additional cargo area.

Growth of Belly Cargo Utilization in India

In recent years, Indian airlines have significantly improved belly cargo utilization. There has been a steady increase in belly cargo utilization rates:

Year	Belly Cargo Utilization Rate %
2020-21	75.6%
2021-22	79.5%
2022-23	81.5%

Note: as per latest data of June 2024

This growth highlights the importance of belly cargo in the Indian air freight sector. With increasing demand for e-commerce and time-sensitive shipments, airlines continue to optimize cargo operations to enhance revenue potential.

GOVERNMENT INITIATIVES AND INFRASTRUCTURE DEVELOPMENT

• National Logistics Policy (2022)

- Launched in September 2022, the National Logistics Policy aims to optimize India's logistics landscape by improving multimodal transportation.
- A key focus is to increase the railways' share in freight movement, currently at 18%, through investments in Dedicated Freight Corridors (DFCs) and expanded inland waterways.
- As of April 2024, 96% of DFCs are complete, expected to enhance rail freight capacity and efficiency, thereby improving the modal mix.
- The government's push for port privatization has led to improved infrastructure and efficiency at Indian ports, benefiting major logistics operators.

• Logistics Costs and Modal Mix

- India's logistics cost as a percentage of GDP stands at 14%, significantly higher than the 8-9% seen in developed economies.
- The inefficiency is largely due to the skewed modal mix, where road transport accounts for 71% of freight movement, leaving railways and waterways with a smaller share.
- To address these issues, the government has implemented Goods and Services Tax (GST) and invested heavily in road infrastructure, inland waterways, and DFCs.

KEY MARKET SEGMENTS AND GROWTH TRENDS

The Indian logistics sector is highly diverse, covering road transport, rail transport, air cargo, multimodal logistics, and industrial warehousing.

1. Domestic Express Logistics

- The domestic express logistics segment is projected to grow at a CAGR of **14%** from FY23 to FY28, driven by the expansion of e-commerce.
- Organized players currently control **80%** of the market and are expected to strengthen their dominance by leveraging government policies such as GST and the e-way bill.

2. Less-Than-Truckload (LTL) Segment

The LTL segment in road transportation is expected to grow at a CAGR of 10% due to increasing demand for smaller, more frequent shipments that bypass warehouse storage to reach retailers directly.

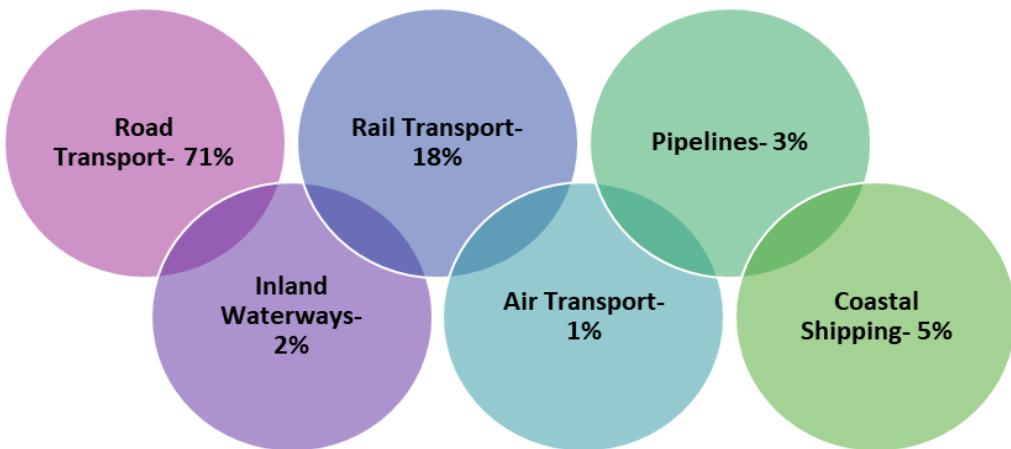

Growth Drivers of the Indian Logistics Market

- ❖ **Government Policies & Infrastructure** – National Logistics Policy (2022), 96% completion of Dedicated Freight Corridors (DFCs), road, rail, and port investments.
- ❖ **E-commerce & Digitalization** – Rising online shopping, AI, IoT, and automation adoption.

- ❖ **Logistics Cost Reduction** – Target to reduce cost-to-GDP ratio from 14% to 8-9% through GST, e-way bills, and digital freight solutions.
- ❖ **Multimodal Logistics** – Shift towards rail and inland waterways, reducing road transport dependence (currently 71% of freight movement).
- ❖ **Industrial & Warehousing Growth** – Expansion of automated warehouses due to e-commerce, retail, and FMCG demand.
- ❖ **Cold Chain Logistics Demand** – Increased need for refrigerated transport in pharmaceuticals, perishables, and food processing.

MARKET SEGMENTATION

India's freight transportation industry plays a crucial role in the nation's economy, facilitating the movement of goods across vast distances. The industry is dominated by road transport, followed by railways, waterways, and other transport modes. Below is a detailed breakdown of the freight market, highlighting the share of each mode and its significance.

1. Road Transport

- **Market Share:** Approximately **71%** of India's total freight movement relies on road transport.
- **Key Factors for Dominance:**
 - **Versatility:** Road transport supports diverse cargo types, including perishable goods, consumer products, and industrial materials.
 - **Last-Mile Connectivity:** It provides seamless door-to-door delivery, making it the preferred choice for businesses.
 - **Expanding Infrastructure:** Government initiatives like the **Bharatmala Project** are enhancing highway networks to improve efficiency.
- **Challenges:**
 - High fuel costs and dependency on fossil fuels contribute to **rising logistics expenses**.
 - Traffic congestion and inadequate road maintenance slow down freight movement.
- **Future Prospects:**
 - The adoption of **electric trucks and alternative fuels** can reduce logistics costs and environmental impact.
 - Technological advancements like GPS tracking and fleet management systems will enhance operational efficiency.

2. Rail Transport

- **Market Share:** Around **18%** of India's total freight traffic moves via railways.
- **Advantages:**
 - **Cost Efficiency:** Rail transport is **cheaper** for long-distance bulk shipments like coal, cement, and food grains.

- **Sustainability:** Lower carbon emissions compared to road transport make it an **eco-friendly alternative**.
- **Challenges:**
 - **Limited Availability:** Rail networks are often congested due to shared usage with passenger trains.
 - **Loading and Unloading Delays:** Time-consuming processes at terminals reduce efficiency.
- **Government Initiatives:**
 - The **Dedicated Freight Corridors (DFCs)** aim to improve speed and capacity, increasing the railway's freight share.
 - Investments in **private freight terminals (PFTs)** will enhance cargo handling capabilities.

3. Inland Water Transport (IWT)

- **Market Share:** Currently accounts for about **2%** of total freight movement.
- **Advantages:**
 - **Lower Costs:** Waterways offer a **cost-effective** alternative for bulk transportation over long distances.
 - **Energy Efficient:** Fuel consumption is significantly **lower** than road and rail transport.
- **Challenges:**
 - **Infrastructure Limitations:** Inadequate port facilities and limited navigability hinder the sector's growth.
 - **Seasonal Restrictions:** Low water levels in some rivers can disrupt freight operations.
- **Government Support:**
 - The **Sagarmala Programme** focuses on developing inland waterways and coastal shipping to increase their freight share.

4. Other Transport Modes (Coastal Shipping, Pipelines, Air Transport)

The remaining **9%** is distributed among various alternative freight modes.

- **Coastal Shipping (5% of Total Freight Movement)**
 - **Usage:** Primarily handles **bulk cargo** like coal, iron ore, crude oil, and fertilizers.
 - **Advantages:**
 - **Cost-effective** for long-distance freight movement along India's 7,500 km coastline.
 - **Energy-efficient** with lower carbon emissions compared to road and rail.
 - **Challenges:**
 - **Limited port infrastructure** and hinterland connectivity.
 - **Slow turnaround times** at ports due to congestion.
 - **Future Outlook:**
 - The **Sagarmala Programme** aims to increase coastal shipping's share by modernizing ports and improving connectivity.
- **Pipelines (3% of Total Freight Movement)**
 - **Usage:** Best suited for **liquids and gases**, including petroleum products, crude oil, and natural gas.
 - **Advantages:**
 - **Safe and cost-efficient** for transporting large volumes over long distances.

- **Minimal human intervention** reduces delays and operational risks.
 - **Challenges:**
 - **High capital investment** required for construction.
 - **Limited network expansion** restricts accessibility.
 - **Future Outlook:**
 - The Indian government is investing in **expanding the natural gas pipeline network**, which may increase pipeline freight's market share.
- **Air Transport (1% of Total Freight Movement)**
- **Usage:** Primarily for **high-value and time-sensitive goods** such as pharmaceuticals, electronics, and perishable items.
 - **Advantages:**
 - **Fastest mode of transport**, reducing lead times for urgent shipments.
 - **High security and minimal damage risk** for delicate cargo.
 - **Challenges:**
 - **High operational costs** make air freight impractical for bulk commodities.
 - **Limited cargo capacity** compared to other modes.
 - **Future Outlook:**
 While **road and rail** dominate India's freight market, **coastal shipping, pipelines, and air transport** serve specialized roles. **Coastal shipping** and **pipelines** hold significant potential for reducing logistics costs and congestion, while **air transport** will remain essential for express cargo and high-value goods. **Government initiatives and private sector investments** will be key in improving infrastructure and increasing the efficiency of these transport modes.

LOGISTICS INDUSTRY CONTRIBUTION TO ECONOMIC GROWTH

- **Contribution to GDP**

Logistics industry is a core support area of the Indian economy, generating 14.4% of the GDP as noted in the Economic Survey 2022-23 released by the Ministry of Finance. Its high share notwithstanding, inefficiencies in warehousing, transportation, and supply chain management have ensured that logistics costs remain disproportionately elevated at 13-14% of GDP, against the international benchmark of 8-10%. Proving to be aware of this challenge, the Government of India brought out the National Logistics Policy (NLP) in 2022 with the specific target of bringing down the cost of logistics to 8% of GDP by 2030. This decline is anticipated to increase the competitiveness of Indian industries and add a further 1.5-2% to GDP growth every year.

Supporting this endeavour is the PM Gati Shakti National Master Plan, a revolutionary effort that unites infrastructure development among 16 critical ministries, such as roads, railways, ports, and aviation. By aligning these projects, the plan seeks to do away with delays and minimize expenses, thus enhancing the overall efficacy of the logistics network.

For example, the Bharatmala Pariyojana, a flagship ministry of Road Transport and Highways highway development project, has already slashed freight travel time by 20%, and the Dedicated Freight Corridors (DFCs) being constructed by Indian Railways are expected to save ₹1.3 lakh crore in logistics costs annually once they become operational in full.

- **Employment Generation**

The logistics industry is one of India's biggest jobs creators, and it employs over 22 million people, as documented by the Ministry of Commerce and Industry in 2023. This staff is spread throughout several sub-industries, where road transportation covers 70% of employees, warehousing and cold storage take 15%, and last-mile delivery solutions cover 10%. The growth of online platforms such as Flipkart and Amazon at a faster pace has increased demand for well-skilled logistics professionals even more in urban and semi-urban cities.

In order to meet the skills gap, the National Skill Development Corporation (NSDC) undertakes the Skill India Mission that has trained 5 lakh workers for logistics-specific functions up to 2023. The emerging fields like drone-based delivery, which is being encouraged under the Drone Policy 2022, and AI-powered warehouse management systems, which form a part of the overall Digital India program, are the focus areas for training programs. Through the provision of contemporary skills to the workforce, the government hopes to boost productivity and make sure that the logistics industry remains a key driver of inclusive economic growth.

- **Promoting Trade and Exports**

Adequate logistics are vital to boost India's trade competitiveness because excessive logistics costs have in the past incurred \$180 billion in unnecessary expenses, as per the Logistics Ease Across Different States (LEADS) Report 2022. In a bid to mitigate this, the National Logistics Policy (NLP) 2022 and PM Gati Shakti program have been initiated with the aim of lowering export logistics costs by 30%. These initiatives are already beginning to bear fruit, with the overall port turnaround time increasing from 4.5 days in 2015 to 2.6 days in 2023, according to the Ministry of Ports, Shipping, and Waterways.

The Dedicated Freight Corridors (DFCs), the bedrock of India's logistics modernization, have decreased freight transit times considerably. For instance, Delhi-Mumbai freight corridor has reduced the travel time from 14 to 8 hours and resulted in saving INR 400 billion annually, according to the Dedicated Freight Corridor Corporation of India (DFCCIL) in 2023. Further, the Sagarmala Programme with its port-led development has brought the cost of coastal shipping down by 40%, improving the competitiveness of Indian exports in overseas markets. These gains are essential in helping the government realize its vision of USD1 trillion in merchandise exports by 2030.

- **Government Programs for Logistics Growth**

The National Logistics Policy (NLP) 2022 is a comprehensive effort to make India's logistics sector

more efficient. One of the main elements of this policy is the Unified Logistics Interface Platform (ULIP), which brings together 30+ digital platforms of railways, ports, and customs to track shipments in real-time. Another vital initiative is the creation of Multi-Modal Logistics Parks (MMLPs), which will cut freight costs by 10-12%, as projected by NITI Aayog in its 2023 report.

The Sagarmala Programme, initiated by the Ministry of Ports, Shipping, and Waterways, is another revolutionary initiative to maximize port efficiency and lower logistics costs. With 600+ projects totalling INR 8.5 trillion, the program aims to increase port connectivity, upgrade infrastructure, and encourage coastal shipping. In the same vein, the Bharatmala Pariyojana, under the Ministry of Road Transport and Highways, is building 12,000 km of new highways to enhance freight mobility. These initiatives together seek to make India a global logistics hub.

- **Foreign Direct Investment (FDI) in Logistics**

Foreign Direct Investment (FDI) in the logistics sector has become a cornerstone for enhancing global trade efficiency, infrastructure development, and technological advancement. Between 2000 and 2024, total FDI inflows reached USD 991 billion, with a significant 67% (USD 667 billion) of this investment occurring in the last decade (2014–2024), highlighting a sharp upward trend. Particularly notable is the manufacturing sector, which is closely linked to logistics and saw FDI equity inflows grow by 69%—from USD 98 billion in 2004–2014 to USD 165 billion in 2014–2024. This surge reflects the increasing focus of global investors on integrated supply chains, driving demand for modern warehousing, cold storage, freight networks, and last-mile delivery services.

Emerging markets in Asia-Pacific, the Middle East, and Africa have attracted strong FDI due to rising consumption, infrastructure gaps, and government-led policy reforms. Countries like India, supported by initiatives such as “Make in India” and Gati Shakti, have become key destinations for foreign investment in logistics. At the same time, developed regions in North America and Europe are channeling FDI toward digital logistics infrastructure, sustainability, and automation. Despite challenges such as regulatory barriers and capital-intensive entry, the logistics sector remains a magnet for foreign capital, driven by its critical role in global economic growth and the need for resilient, tech-enabled supply chain systems.

POSITIONING OF INDIA LOGISTICS INDUSTRY IN THE GLOBAL ECONOMY

India's logistics sector plays a critical role in the country's economic growth, global trade facilitation, and industrial competitiveness. The World Bank's Logistics Performance Index (LPI) 2023 report highlights significant advancements in India's logistics efficiency, with the country ranking 22nd globally in the International Shipments category and 38th in overall LPI score. This notable improvement is a testament to the government's continued emphasis on enhancing logistics infrastructure, digitization, and policy reforms.

The Logistics Performance Index (LPI) serves as a benchmark for evaluating the logistics capabilities of countries worldwide based on factors such as customs efficiency, infrastructure, international shipments, logistics quality, tracking and tracing, and timeliness. India's recent jump in rankings underscores its growing significance in global trade and supply chain networks.

One of the most noteworthy achievements is the reduction in port turnaround time, a critical indicator of logistics efficiency. As per the World Bank's LPI 2023 report, Indian ports recorded an average turnaround time of 0.9 days, outperforming several developed economies, including:

Sr no.	Country	Turnaround Time (Days)
1	India	0.9
2	Singapore	1
3	Malaysia	1
4	UAE	1.1
5	Indonesia	1.1
6	Ireland	1.2

Sr no.	Country	Turnaround Time (Days)
7	Belgium	1.3
8	Germany	1.3
9	USA	1.5
10	Australia	1.7
11	Russia	1.8
12	Canada	2
13	South Africa	2.8

Maritime Amrit Kaal Vision 2047 – A Blueprint for Future Growth

To further strengthen its logistics and maritime capabilities, India has developed the Maritime Amrit Kaal Vision 2047, aligning with the principles of the blue economy. This strategic roadmap outlines the long-term transformation of India's maritime sector, focusing on:

- Expansion of port capacity: Development of greenfield and brownfield ports to cater to rising trade volumes.
- Operational efficiency: Integration of automation, digitization, and advanced logistics technologies to improve supply chain management.
- Sustainability initiatives: Promotion of green logistics, establishment of hydrogen hubs, and enhancement of eco-friendly shipping practices.
- Boosting coastal tourism: Infrastructure development for island-based tourism and cruise shipping, strengthening India's position as a global maritime hub.
- Maritime capacity building: Investment in workforce training and skill development to create a future-ready logistics workforce.
- Shipbuilding and repair: Strengthening the domestic shipbuilding industry to reduce reliance on foreign manufacturing and boost India's shipping tonnage.
- Global engagement: Increasing participation in international maritime forums, reinforcing India's global maritime presence.

By executing this vision, India aims to position itself as a global logistics leader, ensuring seamless movement of goods, reduced transit costs, and enhanced trade efficiency.

1. Investment Commitments and Policy Reforms

The Global Maritime India Summit (GMIS) 2023 served as a major catalyst in attracting substantial investments in the logistics and maritime sectors. The summit resulted in ₹10 lakh crore worth of investment commitments, including:

- 360 Memorandums of Understanding (MoUs) signed, accounting for an investment of ₹8.35 lakh crore, including international collaborations.
- Additional investible projects worth ₹1.68 lakh crore were announced, further driving growth in logistics infrastructure.

These investments reflect India's commitment to modernizing its logistics ecosystem, ensuring seamless trade facilitation, and enhancing global supply chain integration.

India's ascent in the Logistics Performance Index (LPI) 2023 demonstrates its growing competitiveness in global logistics. The country's strong performance in port efficiency, logistics infrastructure development, and digital integration has positioned it as a critical player in international trade. With initiatives such as Maritime Amrit Kaal Vision 2047 and strategic investment inflows, India is well on track to becoming a global logistics powerhouse. Moving forward, continued policy reforms, technological advancements, and sustainability-driven strategies will be essential in sustaining this momentum and elevating India's position in the global logistics landscape.

AIR CARGO SEGMENTATION BY (HISTORICAL GROWTH TREND) – DOMESTICS/INTERNATIONAL

Domestic

Domestic air cargo refers to the movement of goods within a single country's borders, serving industries such as e-commerce, retail, healthcare, and perishables. Historically, this segment has shown steady growth, propelled by rising consumer demand for faster deliveries, regional trade expansion, and infrastructure improvements. The growth of domestic air cargo has been closely linked to the rise of logistics providers, such as FedEx, UPS, and DHL, which have optimized air freight operations through hub-and-spoke models. Additionally, the increasing adoption of express parcel services and the integration of digital tracking technologies have enhanced efficiency, making air transport a preferred mode for time-sensitive shipments. The demand for domestic air freight surged with the boom in online retail and urbanization, compelling cargo airlines and logistics firms to expand their networks and invest in automation.

International

International air cargo involves the transportation of goods across countries and continents, serving global industries such as electronics, pharmaceuticals, automotive, and cross-border e-commerce. Historically, this segment has exhibited fluctuating growth, influenced by global trade agreements, economic downturns, and geopolitical developments. The emergence of free trade zones, advancements in freight aircraft capacity, and the liberalization of air cargo markets have significantly bolstered international air freight movement. Major global hubs such as Hong Kong, Frankfurt, and Dubai have played a pivotal role in facilitating international cargo transit. However, international air cargo is highly sensitive to external factors, including fuel price volatility, trade disputes, and regulatory restrictions. Despite these challenges, the segment has remained resilient, adapting to new consumer trends such as the rise of cross-border online shopping and the demand for just-in-time inventory replenishment.

AIR CARGO SEGMENTATION BY HISTORICAL GROWTH TREND – DOMESTIC VS. INTERNATIONAL

Air cargo plays a crucial role in global trade, providing a fast and efficient means of transporting goods across vast distances. The market is broadly segmented into domestic and international air cargo, each exhibiting unique growth trends over the years. This chapter explores the historical growth patterns of these segments, considering key drivers such as economic fluctuations, technological advancements, trade agreements, and infrastructure developments.

Factor	Domestic Air Cargo	International Air Cargo
Growth Rate	Steady and resilient	Fluctuating due to economic cycles
Key Drivers	E-commerce, urbanization, logistics efficiency	Global trade agreements, supply chain evolution, economic policies
Challenges	High operational costs, regulatory constraints	Geopolitical instability, fuel price fluctuations
Recent Developments	Drone deliveries, last-mile logistics improvements	E-commerce-driven international shipping, sustainability initiatives

The historical growth trends of domestic and international air cargo reflect the dynamic nature of global logistics. Domestic air cargo has shown consistent growth, driven by e-commerce and urbanization, while international air cargo has been subject to economic cycles, trade agreements, and geopolitical events. As air freight continues to evolve, technological innovations and sustainability efforts will play a pivotal role in shaping the future trajectory of both segments.

Range of Services: Priority Overnight/ Same Day – Economy 2-5 days later

India's air cargo industry offers a range of services tailored to meet varying delivery timeframes and budget considerations. These services typically fall into two main categories:

- **Priority Services:** Designed for time-sensitive shipments requiring expedited delivery.
- **Same-Day Delivery:** Some logistics providers offer guaranteed same-day delivery within select cities. For instance, Delhivery launched a 'guaranteed' same-day delivery service across 15 key cities in India, enabling Direct-to-Consumer (D2C) brands to fulfil orders on the day they are received.
- **Next-Flight-Out (NFO) Services:** Companies like Bombax provide NFO options, ensuring urgent shipments are transported on the earliest available flight for swift delivery.
- **Express Services:** Airlines such as Air India offer express cargo services like 'Air India Rapid,' which guarantees uplift and provides priority handling for shipments, ensuring faster transit times.
- **Economy Services:** Aimed at less time-sensitive shipments, these services offer cost-effective delivery solutions with longer transit times.
- **Deferred Air Freight:** While specific delivery windows can vary, economy air cargo services typically deliver within 2-5 days, depending on factors such as distance and carrier schedules.

It's important to note that service offerings and delivery timeframes may differ among providers. For the most accurate and up-to-date information, it's advisable to consult directly with the respective logistics companies or airlines.

Types of Carriers: Scheduled Airlines/ Cargo Airlines

Scheduled Airlines

Scheduled airlines operate fixed-route commercial flights at regular intervals according to a published timetable. These airlines are primarily focused on passenger travel but also carry belly cargo, which is the freight transported in the lower deck of passenger aircraft. Airlines like Air India, IndiGo, Emirates, and British Airways operate scheduled services on both domestic and international routes.

Characteristics of Scheduled Airlines

- **Fixed Timetables** – Operate on predefined schedules, ensuring reliability for passengers and cargo.
- **Passenger & Cargo Services** – Primarily focused on passenger transport, but belly cargo is utilized for freight transportation.
- **Regulated Operations** – Must adhere to government and aviation authority regulations, such as the International Air Transport Association (IATA) standards.
- **Global & Regional Connectivity** – Serve major international hubs and smaller regional airports, enhancing trade and logistics networks.

Examples of Scheduled Airlines Handling Cargo:

- **Air India Cargo** – Uses belly space of passenger aircraft for freight.
- **IndiGo CarGo** – Offers scheduled belly cargo services across domestic and international routes.
- **Emirates SkyCargo** – A division of Emirates, specializing in scheduled air freight operations.

Facilities/ Advantages of Air Transport

Air transport plays a crucial role in modern logistics and global trade. Its unique characteristics make it an indispensable mode of transportation, offering unparalleled efficiency and reliability. Below are the key advantages and facilities that define the significance of air transport.

Advantages of Air Transport

Rapid Delivery

- One of the most significant benefits of air transport is its exceptional speed, making it the fastest mode of transportation.
- Frequent flight schedules further enhance delivery efficiency, ensuring timely shipment of goods.

Minimal Physical Constraints

- Unlike road or rail transport, air transport is not restricted by geographical barriers or infrastructure limitations.
- This enables uninterrupted services, making it a highly reliable option for businesses that require seamless logistics.

High Reliability

- Air transport is known for its punctuality and adherence to strict schedules, reducing the risk of delays.
- The chances of cargo misplacement or loss are minimal due to stringent security and tracking measures.

Long-Distance Connectivity

- No other mode of transport covers vast distances as efficiently as air transport.
- It is the most viable solution for international trade, bridging continents and enabling swift movement of goods and passengers.

Facilities of Air Transport

Cargo Handling & Storage Facilities

- **Dedicated Air Cargo Terminals** – Major international airports are equipped with specialized cargo terminals for streamlined processing and efficient handling.
- **Temperature-Controlled Warehousing** – Storage facilities for perishable goods such as fresh produce, pharmaceuticals, and vaccines ensure product integrity.
- **Advanced Security Measures** – X-ray scanners, screening procedures, and tracking systems enhance cargo safety and prevent unauthorized access.

Passenger & Aircraft Maintenance Facilities

- **Modern Airport Infrastructure** – Airports feature advanced runways, air traffic control (ATC) systems, and well-equipped maintenance hangars.
- **Passenger Amenities** – Comfortable waiting lounges, baggage handling services, and duty-free shopping enhance the travel experience.
- **Aircraft Servicing & Refuelling** – Airports provide on-site maintenance, fuelling stations, and technical support to ensure uninterrupted operations.

Multimodal Transport Connectivity

- **Integrated Transport Networks** – Efficient coordination between air, rail, and road networks allows seamless cargo and passenger movement.
- **Logistics & Express Cargo Hubs** – Leading logistics providers such as SpiceXpress, Blue Dart, and FedEx operate specialized hubs to enhance air cargo efficiency.

Air transport remains a cornerstone of global logistics, offering unmatched speed, reliability, and connectivity. Its well-established infrastructure and integrated services continue to drive economic growth and facilitate international trade.

Regulatory landscape specific to Aviation

India's aviation industry is governed by a comprehensive regulatory system aimed at providing safety, security, and efficiency in diverse areas such as commercial air transport, cargo aviation, and general aviation

- **Ministry of Civil Aviation (MoCA)**

The Ministry of Civil Aviation (MoCA) is the main government agency that makes policies and

regulates civil aviation in India. It manages the growth of aviation infrastructure, bilateral air service agreements, and airline operations. One of its major initiatives is the National Civil Aviation Policy (NCAP) 2016, which looks to promote regional connectivity under the UDAN (Ude Desh Ka Aam Nagrik) scheme by offering low fares for flying in smaller cities.

The policy also allows 100% Foreign Direct Investment (FDI) in scheduled airlines with up to 49% possible under the automatic route and over that through government approval. Apart from this, MoCA has also launched the DigiYatra program, which is a digital travel system based on biometrics aimed at streamlining the passenger processing in airports by eliminating the need for manual checks and bolstering security. The ministry also controls fares on some routes under the Route Dispersal Guidelines (RDG) for connecting remote and unserved areas.

- **Directorate General of Civil Aviation (DGCA)**

The Directorate General of Civil Aviation (DGCA) is India's central aviation safety regulatory, licensing, and airworthiness authority. It functions under the Aircraft Act, 1934, and the Aircraft Rules, 1937, enforcing Civil Aviation Requirements (CARs) that cover every aspect of civil aviation. The DGCA issues pilot licenses, such as Commercial Pilot Licenses (CPL) and Airline Transport Pilot Licenses (ATPL), and overseas medical standards compliance. It also issues Air Operator Certificates (AOC) to airlines, insisting on strict compliance with safety regulations, maintenance practices, and operating procedures.

The DGCA manages Flight Duty Time Limitations (FDTL) to avoid pilot fatigue and improve flight safety. It also monitors consumer protection practices, insisting that airlines pay compensation to passengers in case of flight cancellations, delays, or denied boarding according to specified guidelines. The DGCA also certifies aircraft types and ensures that the aircraft flying within India are internationally compliant with standards of safety approved by bodies such as the FAA and EASA.

- **Bureau of Civil Aviation Security (BCAS)**

The central organization for ensuring aviation security in India is the Bureau of Civil Aviation Security (BCAS). It functions under the Aviation Security Programme (ASP) and implements regulations according to ICAO Annex 17 (Security Standards). The BCAS develops the National Civil Aviation Security Programme (NCASP), which provides security procedures for airports, airlines, and passengers. Major duties are the conduct of Pre-Employment Background Checks (PEBC) for airport employees to secure sensitive areas against unauthorized entry. The BCAS requires rigorous passenger and baggage checks at airports to identify banned items and possible dangers. It also carries out anti-hijacking procedures under the Anti-Hijacking Act 2016, such as sending armed sky marshals on specific flights. The BCAS also carries out routine security audits and surprise checks in airports to monitor compliance with security standards and thwart possible violations.

- **Airports Authority of India (AAI)**

The Airports Authority of India (AAI) is charged with the management and development of civil aviation infrastructure in the country, such as air traffic control (ATC), navigation facilities, and airport management. Set up under the Airports Authority of India Act, 1994, the AAI is in charge of over 125 airports, ranging from international, domestic, to regional airports. Its key activities involve the provision of air traffic management (ATM) services, the safe movement of aircraft during take-off, landing, and in-route flight, respectively. The AAI also executes airport modernization schemes, terminal expansion, runway extension, and cargo terminals to meet increased passenger and freight traffic. In accordance with the Regional Connectivity Scheme (RCS-UDAN), the AAI develops and upgrades smaller airports to improve connectivity in remote locations. In addition, the AAI controls landing and parking fees at non-major airports, whereas the Airports Economic Regulatory Authority (AERA) controls tariffs at major airports such as Delhi and Mumbai.

- **Airports Economic Regulatory Authority (AERA)**

Airports Economic Regulatory Authority (AERA) is a statutory body set up under the AERA Act, 2008,

to regulate major airport tariffs and charges in India. Its main function is to maintain fair prices for aeronautical services such as landing fees, parking charges, and passenger service charges to keep airport operators from monopolizing activities. AERA fixes tariffs for airports with more than 1.5 million annual passenger traffic, including Delhi, Mumbai, Bangalore, and Hyderabad. The authority reviews airport revenue and expenditure from time to time to fix reasonable charges that reconcile the interests of airlines, passengers, and airport operators. Regulating economic aspects of airport operations, AERA encourages competition, efficiency, and investment in India's aviation infrastructure.

- **Cargo Aviation Regulations**

Open Sky Policy for Air Cargo: This policy, initiated in 1990, allows Indian as well as foreign airlines satisfying prescribed operation and safety norms to operate scheduled and non-scheduled cargo services to/from any airport having customs/immigration facilities. The policy was revised in September 2020 to limit foreign ad hoc and non-scheduled freighter charter services to six main airports: Bengaluru, Chennai, Delhi, Kolkata, Hyderabad, and Mumbai. The policy modification is to increase the demand for domestic freight charter services.

DRIVERS OF AIR CARGO TRAFFIC IN INDIA

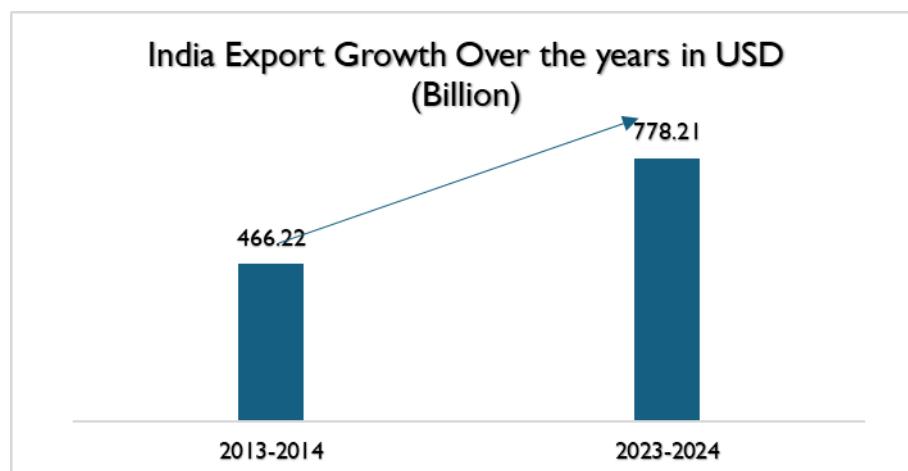

India's Foreign Trade Growth in the last 10 year

Over the past decade, India's foreign trade has experienced significant growth, marked by notable increases in both exports and imports. In the fiscal year 2013-14, India's exports were valued at approximately USD 466.22 billion. By 2023-24, this figure had surged to USD 778.21 billion, reflecting a 67% increase. Imports also saw substantial growth, with figures rising from USD 450.2 billion in 2013-14 to USD 672.6 billion in 2023. Despite this expansion, India has consistently maintained a trade deficit due to higher import values compared to exports. The country's trade balance was recorded at a deficit of USD 73.51 billion in 2023, a 38.5% decline from the previous year.

India's Export Growth and its share in global import

India's exports have seen a historic rise, reaching USD 778.21 billion in 2023-24. This marks a 67% increase from USD 466.22 billion in 2013-14. The growth reflects India's expanding role in global trade, driven by strong performances in both merchandise and services exports.

In 2023-24, merchandise exports stood at USD 437.10 billion, while services exports contributed USD 341.11 billion, demonstrating a well-balanced expansion. Key sectors like electronics, pharmaceuticals, engineering goods, iron ore, and textiles played a vital role in this surge. Strengthened by strategic policy measures, enhanced competitiveness, and broader market access, India's export ecosystem is now more resilient and deeply integrated into the global economy.

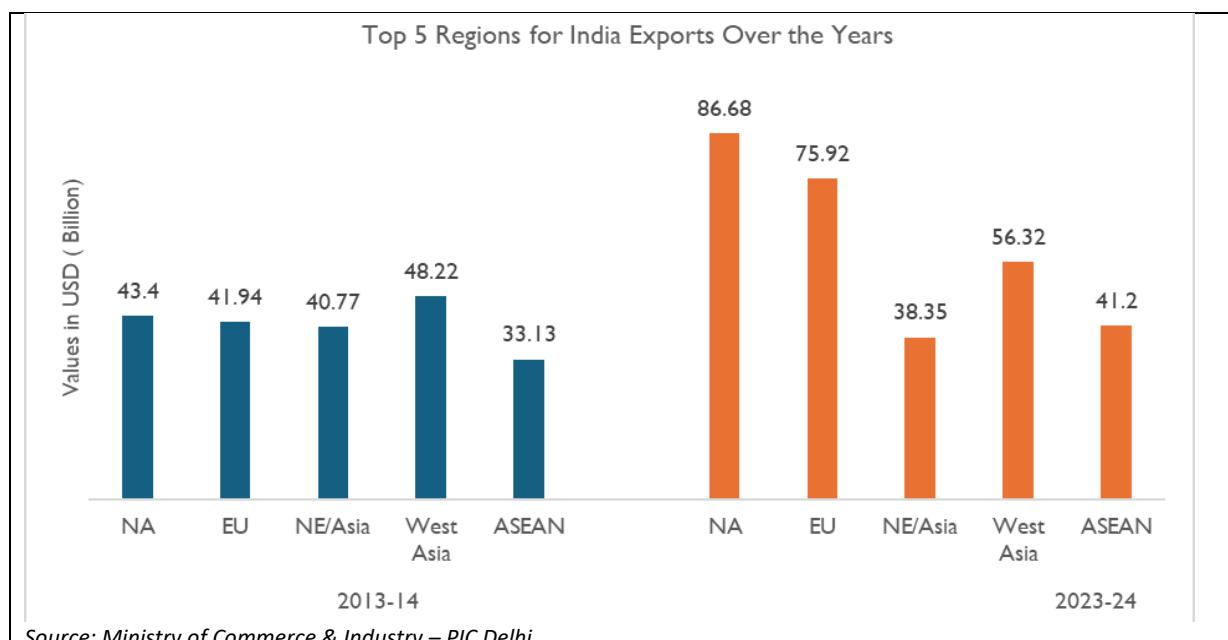

Source: Ministry of Commerce & Industry – PIC Delhi

The momentum has continued into FY 2024-25, with cumulative exports during April-December 2024

estimated at USD 602.64 billion, a 6.03% increase from USD 568.36 billion in the same period of 2023. Strengthened by strategic policy measures, enhanced competitiveness, and broader market access, India's export ecosystem is now more resilient and deeply integrated into the global economy.

Leading Export Regions Over the Years

In 2004-05, India's exports were predominantly directed to regions like North America, the European Union, North-East Asia, West Asia-Gulf Cooperation Council, and ASEAN. By 2013-14, there was a marked increase in export values across these regions, with North America, the EU, and West Asia seeing notable growth. Fast forward to 2023-24, and the export landscape shows continued expansion, with North America leading as the largest destination. The EU, West Asia, and ASEAN also experienced robust growth, illustrating India's diversified and strengthened global trade relationships over the years.

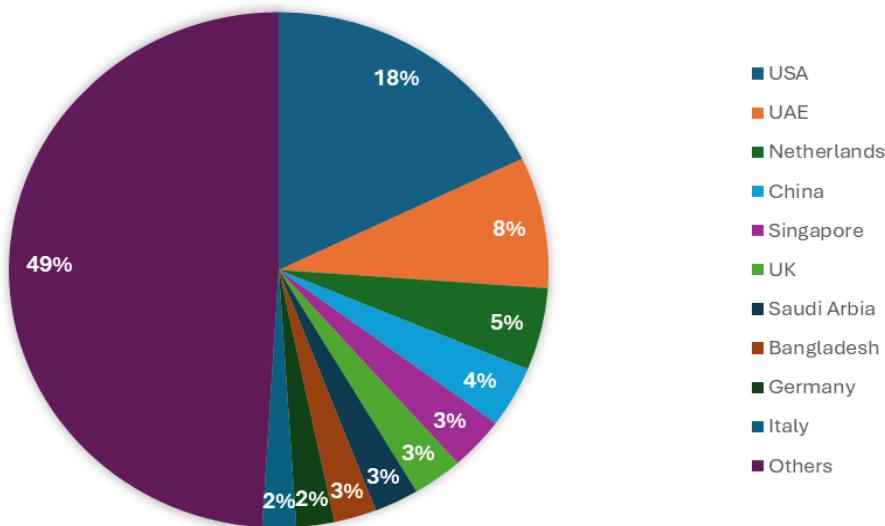

- The graph shows the top 5 regions for India's exports in 2013-14 and 2023-24, highlighting significant changes over the decade.
- North America (NA) saw the most substantial growth, nearly doubling from \$43.4 billion in 2013-14 to \$86.68 billion in 2023-24.
- The European Union (EU) exports also increased significantly from \$41.94 billion to \$75.92 billion, reflecting stronger trade ties.
- West Asia exports rose from \$48.22 billion to \$56.32 billion, indicating moderate growth.
- ASEAN (Southeast Asia) experienced slight growth from \$33.13 billion to \$41.2 billion.
- Northeast Asia (NE/Asia) exports declined slightly from \$40.77 billion to \$38.35 billion, potentially due to shifting trade policies or economic conditions.

Key Export Destinations in 2023-24

In 2023-24, the top merchandise export destinations for India included the USA (17.90%), UAE (8.23%), Netherlands (5.16%), China (3.85%), Singapore (3.33%), UK (3.00%), Saudi Arabia (2.67%), Bangladesh (2.55%), Germany (2.27%), and Italy (2.02%).

INDIA'S IMPORT GROWTH AND ITS SHARE IN GLOBAL EXPORT

Imports in India decreased to 50.96 USD Billion in February from 59.42 USD Billion in January of 2025. Imports in India averaged 11.71 USD Billion from 1957 until 2025, reaching an all-time high of 69.95 USD Billion in November of 2024 and a record low of 0.12 USD Billion in August of 1958.

India main imports are mineral fuels, oils and waxes and bituminous substances (27 percent of total imports); pearls, precious and semi-precious stones and jewellery (14 percent); electrical machinery and equipment (10 percent); nuclear reactors, boilers, machinery and mechanical appliances (8 percent); and organic chemicals (4 percent). India's major import partners are China (16 percent of total imports), the United States (6 percent), United Arab Emirates (6 percent), Saudi Arabia (5 percent) and Switzerland (5 percent).

Detail Import data from 2014-15 to 2023-24:

SR no.	Year	Import in USD (Billion)
1	2014	529.2
2	2015	465.10
3	2016	480.17
4	2017	582.02
5	2018	640.30
6	2019	602.32
7	2020	510.24
8	2021	760.90
9	2022	897.55
10	2023	850.64

Source-World Bank as per latest data

- 2014-2016:** Imports declined from \$529.2B (2014) to \$465.1B (2015) due to falling crude oil prices and weak demand, but slightly recovered to \$480.17B in 2016.
- 2017-2019:** Strong economic growth led to a steady rise, peaking at \$640.3B in 2018, before dropping to \$602.32B in 2019, likely due to trade tensions and economic slowdown.
- 2020:** Imports fell sharply to \$510.24B due to COVID-19, lockdowns, and reduced industrial activity.
- 2021-2022:** A strong rebound was seen, with imports surging to \$760.9B (2021) and further to \$897.55B (2022), driven by economic recovery and increased global trade.
- 2023:** Imports declined to \$850.64B, possibly due to global recession fears, inflation, and reduced demand for some commodities.

Hence, in conclusion, India's import trends have been shaped by various economic factors, including global commodity prices, trade policies, and macroeconomic conditions. The period from 2014 to 2016 saw a decline in imports due to falling crude oil prices, while strong economic growth drove a steady increase between 2017 and 2019. The COVID-19 pandemic caused a sharp decline in 2020, but imports rebounded significantly in 2021 and 2022, reflecting economic recovery and increased global trade. However, the decline in 2023 suggests the impact of global economic uncertainties, inflationary pressures, and shifting demand dynamics. Going forward, India's import trajectory will likely be influenced by global trade policies, domestic industrial growth, and currency fluctuations.

Globalization of Supply Chains

The globalization of supply chains has played a crucial role in driving air cargo growth in India. As businesses expand internationally, the need for fast and efficient transportation has increased, making air freight an essential part of global trade logistics.

- **Integration into Global Manufacturing Networks:** India's growing participation in global manufacturing has increased the need for quick transportation of raw materials and finished goods. Air freight is preferred for its speed and reliability. The sector is expected to grow annually by 6% to 9%, with cargo volumes projected to reach between 5 and 5.8 million tonnes by 2029.
- **Just-in-Time Production Models:** Many industries, especially automotive and electronics, follow just-in-time manufacturing, where materials must arrive precisely when needed. Air cargo enables this system by reducing delays and minimizing storage costs.
- **Diversification of Sourcing Strategies:** Companies are expanding their supplier networks globally to avoid disruptions. With India emerging as a key manufacturing hub, businesses rely on air cargo to transport critical goods quickly.
- **Government Support for Logistics:** The Indian government has introduced policies like the National Logistics Policy and PM Gati Shakti to enhance the efficiency of freight movement, benefiting air cargo operations.

Sectoral Growth: Pharmaceuticals Sector and Air Cargo Demand

The growth of India's air cargo traffic is significantly driven by key industries such as **pharmaceuticals, manufacturing, and agriculture**. These sectors rely heavily on-air freight due to the need for speed, efficiency, and global market integration. Air cargo plays a crucial role in ensuring timely delivery, maintaining product quality, and expanding India's trade presence worldwide.

Pharmaceuticals Sector and Air Cargo Demand

- **Why Air Cargo is Important for Pharmaceuticals?**
 - The pharmaceutical industry requires temperature-controlled and time-sensitive logistics to transport medicines, vaccines, and other medical supplies worldwide.
 - The demand for fast and secure transportation has increased, especially after the pandemic, with India emerging as a major supplier of essential drugs and vaccines.
- **Key Growth Indicators:**
 - **Surging Exports:** India's pharmaceutical exports grew by 9.67% in FY 2023-24, reaching \$27.9 billion. This surge highlights the growing international reliance on Indian pharma products.
 - **Major Global Supplier:** India supplies approximately 20% of the global generic drug market, making it a key player in international healthcare.
 - **Increase in Specialized Air Cargo:** Pharmaceutical shipments via air cargo increased by 22% in 2023, indicating the rising demand for temperature-controlled logistics.

Manufacturing Sector and Air Freight Growth

- **Why Air Cargo is Essential for Manufacturing?**

- Manufacturing companies depend on just-in-time (JIT) production, where components must arrive at the exact time they are needed.
- High-value and time-sensitive goods like electronics, auto components, and industrial machinery require air freight to maintain supply chain efficiency.
- **Key Growth Indicators:**
 - Growth in Export-Oriented Manufacturing: India's manufacturing exports have surged due to global supply chain shifts and trade agreements.
 - Air Freight Usage by Global Brands: Companies such as Inditex (Zara's parent company) increased their air freight shipments from India by 37% to avoid ocean shipping delays and meet fast-fashion demands.
 - Make in India & PLI Schemes Boosting Air Cargo: Government initiatives like Make in India and Production Linked Incentives (PLI) have driven manufacturing growth, increasing demand for faster international shipments.

Agriculture Sector and Air Freight Expansion

- **Why Air Cargo is Vital for Agriculture?**
 - Agricultural products such as perishable fruits, vegetables, seafood, dairy, and flowers require quick transportation to international markets to maintain freshness.
 - India's growing Agri-export market benefits from air cargo services, ensuring reduced transit times and better market access.
- **Key Growth Indicators:**
 - **Rising Agricultural Exports:** Since FY2020, India's agricultural exports have grown by 47.3% in volume and 41.5% in value, reaching new global markets.
 - **Government's Agriculture Export Policy:** The policy aims to double agricultural exports by 2030, enhancing India's position as a leading food supplier.
 - **Development of Agri-Air Corridors:** The Indian government is developing dedicated air freight corridors to improve agricultural exports, reducing spoilage and increasing efficiency.

Disruptions in Ocean Shipping

The global shipping industry has faced multiple disruptions in recent years, leading to significant shifts in freight transport trends. These disruptions have had a direct impact on India's air cargo industry, as businesses seek faster and more reliable alternatives to ocean shipping. Factors such as **port** congestion, geopolitical conflicts, capacity shortages, and supply chain delays have driven an increasing number of exporters and importers to choose air freight over traditional sea routes.

Key Factors Driving the Shift from Ocean to Air Freight

- **Port Congestion and Capacity Constraints**
 - Major seaports worldwide, including those in Asia, have experienced severe congestion, resulting in long delays for cargo shipments.
 - Container shortages and lack of available shipping slots have further increased wait times, affecting supply chains that depend on predictable schedules.
 - To mitigate these delays, businesses have turned to air freight, which, despite being more expensive, offers a faster and more reliable delivery alternative.
 - Reports indicate that ocean freight disruptions have had a direct impact on air cargo demand, with companies increasing their reliance on air shipments to avoid supply chain bottlenecks.
- **Geopolitical Conflicts and Trade Route Disruptions**
 - Geopolitical tensions and conflicts, such as those affecting the Red Sea and Suez Canal, have caused shipping diversions, longer transit times, and increased costs.

- The recent crisis in the Red Sea region has significantly impacted sea trade routes, forcing businesses to seek alternative transport methods.
- Global brands, including Inditex (Zara's parent company), have increased air freight shipments from India by 37% to avoid the risks associated with sea freight disruptions.
- **Rising Air Cargo Demand Due to Ocean Shipping Delays**
 - International air cargo volumes from India have surged as exporters shift from sea to air transport.
 - In Ahmedabad, international air cargo volumes rose by 33% from April to October 2024 compared to the same period the previous year, showing a significant shift in logistics trends.
 - Sectors such as electronics, pharmaceuticals, and fast fashion are particularly affected, as they require time-sensitive shipments that cannot afford prolonged ocean transit times.
- **Shift in Logistics Strategy: From Ocean to Air Freight**
 - Due to continued uncertainties in ocean freight, businesses are modifying their logistics strategies and incorporating air freight into their supply chain planning.
 - Companies that previously relied heavily on sea transport are now diversifying their shipping methods, ensuring they have air freight options available in case of further maritime disruptions.
 - Analysts predict that the increased reliance on air cargo due to ocean shipping issues will continue, potentially reshaping long-term logistics trends.

Government Initiatives

The Indian government has implemented several policies and infrastructure development projects to boost air cargo traffic. These initiatives aim to enhance logistics efficiency, improve airport infrastructure, and support trade and manufacturing growth. By addressing bottlenecks in cargo handling, streamlining customs procedures, and fostering private sector participation, the government is positioning India as a key player in global air freight.

National Civil Aviation Policy (NCAP) 2016

The **NCAP 2016** was introduced to promote the aviation sector, including air cargo. It includes several measures to improve cargo operations:

- **Air Cargo Logistics Promotion Board (ACLPB):** Established to facilitate faster movement of cargo by reducing clearance times and enhancing coordination between various regulatory bodies.
- **Air Cargo Community System (ACCS):** A digital platform to streamline documentation and reduce paperwork delays, ensuring quicker cargo processing.
- **Service Delivery Modules (SDMs):** Implemented to monitor cargo handling performance and minimize inefficiencies.

These reforms have contributed to **reducing air cargo dwell times and increasing efficiency at airports**, making air freight a more attractive option for businesses.

Make in India Initiative

The Make in India program was launched to boost domestic manufacturing, which has directly impacted air cargo demand.

- Encouragement of exports: By expanding industrial production, the program has led to increased shipments of electronics, pharmaceuticals, and textiles—sectors that heavily rely on air freight.
- Development of the Maintenance, Repair, and Overhaul (MRO) sector: This has reduced India's reliance on foreign MRO facilities for aircraft maintenance, increasing domestic cargo movement.
- Promotion of indigenous manufacturing in high-tech industries, which has driven air freight shipments of precision components and machinery to global markets.

Infrastructure Development for Air Cargo

The Indian government is investing **approximately \$1.83 billion in airport modernization and cargo infrastructure expansion** by 2026. Some key developments include:

- Upgrading 150 airports to improve cargo handling efficiency, including the establishment of cold storage facilities for perishable goods.
- Expansion of dedicated air freight corridors, ensuring faster movement of high-value goods.
- Development of satellite freight cities near major airports to improve connectivity and reduce congestion.

• National Logistics Policy (NLP)

The **National Logistics Policy**, launched to enhance supply chain efficiency, has played a crucial role in strengthening India's air cargo sector:

- Reducing logistics costs by integrating different modes of transport (air, rail, road, and waterways).
- Development of multimodal logistics parks to facilitate seamless cargo movement.
- Simplification of regulatory procedures and digitalization of logistics operations to boost efficiency.

• Open Sky Policy

The **Open Sky Policy** has **liberalized cargo movement**, allowing **foreign airlines to operate unrestricted freighter services**.

- This has increased competition, leading to better pricing and improved services in the air cargo sector.
- The policy has also helped Indian exporters access more international markets through expanded air connectivity.

• Regional Connectivity Scheme (RCS) – UDAN Cargo

The **UDAN (Ude Desh Ka Aam Nagrik) Cargo Scheme** aims to **enhance air connectivity for smaller cities and improve last-mile logistics**.

- Establishment of air cargo terminals at smaller airports, reducing dependence on metropolitan hubs.
- Encouraging e-commerce logistics through air transport, benefiting businesses in remote locations.
- Boosting agricultural exports by providing better access to international markets for perishable goods.

• Stakeholder Collaboration and Industry Consultations

The government is actively **engaging with logistics companies, airlines, and exporters** to simplify air cargo operations.

- The goal is to handle 10 million tonnes of air cargo annually by 2030.
- Policies are being refined based on feedback from industry leaders, ensuring practical implementation of reforms.

Additional Key Drivers of Air Cargo Traffic in India

• Rise of the Defence and Aerospace Sector

India's growing investment in defence and aerospace manufacturing has led to increased air cargo movement of military equipment, aircraft components, and drones. With initiatives promoting indigenous production, exports in this sector are rising, necessitating efficient air freight solutions.

- **Growth in Space Technology and Satellite Exports**

The expansion of India's space sector, led by ISRO and private players, has resulted in frequent air shipments of satellite components and research equipment. The commercialization of satellite launches is further boosting the demand for specialized air cargo services.

- **Surge in Luxury Goods and Consumer Electronics**

The increasing demand for high-end electronics, luxury fashion, and premium automobiles has driven higher air cargo imports. Global brands expanding their presence in India rely on air freight for quick market replenishment, ensuring timely availability of their products.

- **Regional Airports Enhancing Air Cargo Connectivity**

The development of tier-2 and tier-3 city airports under government schemes has expanded the reach of air cargo services. These airports are emerging as regional logistics hubs, improving connectivity and reducing dependency on major metro airports.

- **Medical Tourism and Healthcare Logistics**

India's position as a global medical tourism destination has led to greater demand for air freight in pharmaceuticals, biotech, and organ transplant logistics. The need for fast and temperature-controlled cargo solutions has increased as a result.

- **Expansion of Dedicated Freighter Services**

Airlines are investing in dedicated freighters and cargo terminals to meet rising air freight demand. The establishment of exclusive cargo airports and specialized infrastructure is streamlining cargo handling and improving overall logistics efficiency.

- **Consumer Shift Towards Faster Deliveries**

The demand for same-day and next-day deliveries, particularly in urban markets, has accelerated the use of air cargo. E-commerce giants and hyperlocal delivery platforms are increasingly relying on air freight to fulfil customer expectations for rapid shipments.

- **AI and Automation in Air Cargo Operations**

The integration of artificial intelligence, automated warehouses, and real-time tracking systems is enhancing air freight efficiency. Advanced logistics technology is optimizing cargo handling, reducing delays, and improving supply chain visibility.

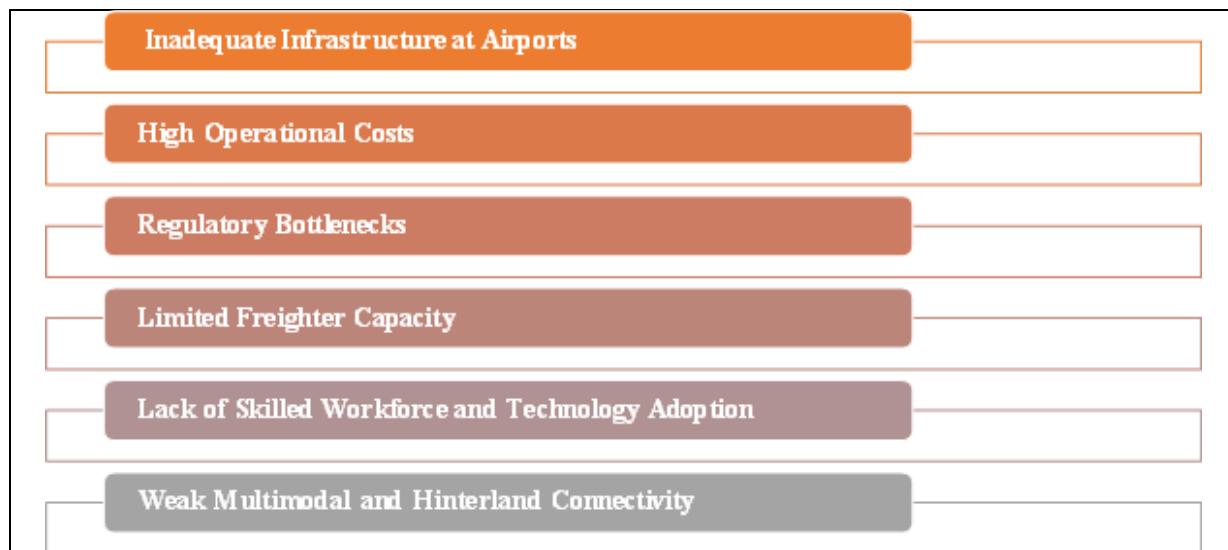

- **Growth of Semiconductor and EV Battery Manufacturing**

With India promoting semiconductor and electric vehicle (EV) battery production, air cargo is becoming crucial for the transport of high-value and sensitive components. The need for safe and fast logistics solutions is driving specialized air freight services in this sector.

Challenges for Air Cargo Traffic in India

India's air cargo sector is steadily growing, driven by rising e-commerce, pharmaceutical exports, and demand for time-sensitive logistics. Despite its vast potential, air cargo contributes only around 1% of total cargo volume by weight, though it accounts for a significant share in terms of value. Key airports like Delhi, Mumbai, and Bengaluru handle most of the cargo traffic, while regional connectivity remains limited. Government initiatives like Gati Shakti, PM Gati Shakti Master Plan, and the National Air Cargo Policy aim to improve infrastructure and reduce logistics costs. However, the sector continues to face several operational and systemic challenges.

Below are the key challenges for Air Cargo Traffic In India:

- **Inadequate Infrastructure at Airports:** Many Indian airports, especially Tier-2 and Tier-3 cities, lack dedicated cargo terminals, cold storage, and automated handling systems. This leads to inefficient cargo movement and increased dwell time. Even major hubs face congestion due to limited warehousing and apron space. The disparity in infrastructure between passenger and cargo services hampers overall cargo throughput. Without seamless multimodal connectivity, the logistics chain remains fragmented. Upgrading infrastructure is capital-intensive and slow-moving, often delayed by regulatory and land acquisition hurdles.
- **High Operational Costs:** Air cargo in India faces high costs due to expensive ground handling charges, fuel prices, and airport tariffs. These expenses reduce competitiveness, especially against surface transport modes. Fragmentation among service providers increases logistics costs and adds to the complexity. Additionally, high warehousing rentals and lack of economies of scale further push up the overall cost. Small and medium exporters often find it unaffordable to use air freight regularly. Cost rationalization through policy and private sector collaboration is essential for sustained growth.
- **Regulatory Bottlenecks:** The air cargo sector in India is burdened with complex documentation and slow customs clearance procedures. Despite the implementation of digitization initiatives like e-freight and Single Window Clearance, adoption remains inconsistent. Multiple clearances from different authorities create delays and add to compliance costs. Regulatory uncertainty also discourages private investment in cargo infrastructure. The lack of harmonization between various ministries and departments results in a fragmented policy framework. Simplifying processes and ensuring inter-agency coordination is vital for efficiency.
- **Limited Freighter Capacity:** India's air cargo network relies heavily on belly space in passenger aircraft due to limited dedicated freighter services. This restricts capacity, especially for bulky, time-sensitive, or specialized cargo. The availability of freighter aircraft is also skewed toward a few major routes, leaving secondary markets underserved. High aircraft leasing and maintenance costs discourage airlines from expanding freighter fleets. The lack of incentives or a national cargo airline strategy adds to the problem. Enhancing freighter operations would unlock growth for sectors like e-commerce, pharma, and perishables.
- **Lack of Skilled Workforce and Technology Adoption:** Air cargo logistics require specialized handling, especially for hazardous, perishable, or high-value goods. However, there is a shortage of skilled manpower trained in cargo-specific operations. Limited use of automation and AI-based cargo

tracking systems further impacts operational efficiency. The sector lags behind in adopting global best practices in digitization, warehouse robotics, and real-time visibility tools. Training programs are fragmented and lack industry-academia collaboration. Investing in workforce development and tech adoption is crucial for modernization.

- **Weak Multimodal and Hinterland Connectivity:** Poor road and rail links between airports and key production or consumption centres affect the seamless flow of goods. Cargo often gets delayed due to traffic bottlenecks, lack of last-mile connectivity, and poor integration between modes. Inland Container Depots (ICDs) and logistics parks are not efficiently connected to airports, impacting the supply chain. This is especially critical for time-sensitive goods like pharmaceuticals and perishables. Addressing multimodal connectivity is key to improving air cargo efficiency and reducing costs.

Infrastructure: An Overview of Warehousing Infrastructure in India

India's air cargo traffic plays a crucial role in facilitating trade and economic growth, yet it faces significant challenges due to inadequate warehousing infrastructure. Many airports lack dedicated cargo handling facilities, leading to congestion, inefficiencies, and delays in shipment processing. The absence of modern storage solutions, including temperature-controlled warehouses for perishable goods, further hampers the efficiency of air cargo logistics. Additionally, limited multimodal connectivity between airports and other logistics hubs restricts the seamless movement of goods, increasing transportation costs and turnaround times. Despite government initiatives to improve infrastructure, the existing warehousing facilities remain insufficient to meet the growing demands of e-commerce, pharmaceuticals, and international trade.

Another major challenge is the high logistics cost associated with inefficient warehousing operations. India's logistics expenses account for nearly 13-14% of GDP, significantly higher than the global average. This is largely due to outdated warehouse management systems, manual cargo handling processes, and cumbersome customs clearance procedures. Regulatory hurdles and complex documentation requirements further slowdown air cargo movement, increasing operational costs for businesses. Additionally, the sector faces a shortage of skilled professionals trained in cargo handling and digital logistics, limiting the potential for automation and technology adoption. These inefficiencies make India's air cargo sector less competitive compared to global standards.

To overcome these challenges, India must prioritize investments in modernizing warehousing infrastructure, integrating digital technologies, and improving regulatory frameworks. The adoption of artificial intelligence, automated cargo handling systems, and real-time tracking can significantly enhance operational efficiency. Furthermore, strengthening multimodal connectivity and streamlining customs clearance processes can reduce delays and lower logistics costs. Encouraging private sector participation and foreign direct investment in airport warehousing can also accelerate infrastructure development. By addressing these challenges, India can enhance its air cargo capabilities, supporting its ambition to become a global trade and logistics hub.

Major Gaps in Indian Warehousing Sector

The Indian warehousing sector plays a critical role in the country's logistics and supply chain ecosystem. However, despite significant growth in recent years, several major gaps hinder its efficiency and global competitiveness. Compared to international benchmarks, Indian warehouses are estimated to be 40-50% less productive due to various structural, technological, and operational inefficiencies. These deficiencies lead to increased costs, longer processing times, and higher error rates in inventory management. This chapter explores the key gaps in the Indian warehousing sector and their impact on the overall supply chain.

1. Technology Deficiency and Automation Gap

One of the most significant shortcomings in Indian warehousing is the lack of advanced technology

and automation. In global markets, warehouses leverage robotic automation, artificial intelligence (AI)-driven inventory management, and Internet of Things (IoT)-enabled real-time tracking. In contrast, many Indian warehouses still rely on manual processes and outdated software, leading to:

- **Longer Order Processing Times:** Without automation, warehouses require extensive human intervention, slowing down order fulfilment.
- **Higher Error Rates:** Manual inventory tracking results in frequent discrepancies, increasing stockouts and overstocking.
- **Limited Real-time Visibility:** The absence of IoT-based tracking and cloud integration hampers real-time inventory monitoring, leading to inefficiencies in supply chain coordination.

2. Poor Infrastructure and Inadequate Storage Facilities

The Indian warehousing landscape is plagued by substandard infrastructure, including:

- **Outdated Storage Systems:** Many warehouses lack high-rise racking systems, automated retrieval systems, and temperature-controlled storage, affecting the handling of perishable and high-value goods.
- **Unorganized and Scattered Warehouses:** A significant portion of the sector is still unorganized, with fragmented and small-scale warehouses operating with limited capacity.
- **Inadequate Transportation Connectivity:** Poor last-mile connectivity and inefficient road infrastructure lead to delays in goods movement.

3. Regulatory and Policy Challenges

Despite government initiatives such as the Goods and Services Tax (GST) and the National Logistics Policy, regulatory bottlenecks continue to impede warehousing growth. Key issues include:

- **Complex Land Acquisition Procedures:** Setting up modern warehouse facilities requires navigating lengthy legal and bureaucratic hurdles.
- **High Compliance Costs:** Multiple regulatory approvals and licensing requirements increase operational costs.

4. Skilled Workforce Shortage

Warehousing operations demand specialized skills in inventory management, material handling, and data analytics. However, India faces a shortage of trained warehouse professionals due to:

- **Limited Training and Skill Development Programs:** Most warehouse workers receive minimal technical training, affecting operational efficiency.
- **High Dependence on Manual Labor:** A lack of skilled automation specialists prevents the adoption of advanced warehouse management systems.

5. Inefficient Supply Chain Integration

A well-integrated supply chain requires seamless coordination between warehouses, transporters, and retailers. Indian warehouses often struggle with:

- **Poor Data Synchronization:** The lack of real-time data exchange leads to stock mismatches and delayed order fulfilment.
- **Fragmented Logistics Ecosystem:** Small and medium-sized enterprises (SMEs) often face difficulties in accessing efficient warehousing solutions due to high costs and limited infrastructure.

6. Limited Adoption of Sustainable Practices

Environmental concerns and sustainability measures are gaining prominence in global warehousing. However, India lags in implementing green warehousing practices, including:

- **Low Usage of Renewable Energy:** Warehouses rarely utilize solar panels or energy-efficient lighting.
- **High Carbon Footprint:** Inefficient logistics and outdated equipment contribute to excessive emissions.
- **Waste Management Issues:** Poor recycling and disposal mechanisms lead to increased environmental degradation.

Bridging these gaps is essential for India to enhance its warehousing sector's productivity and competitiveness. By investing in technology, improving infrastructure, simplifying regulations, upskilling the workforce, and promoting sustainable practices, the country can develop a more efficient and globally aligned warehousing ecosystem. Addressing these challenges will not only reduce operational costs but also strengthen India's position as a global logistics hub.

Capex Trend and other initiative to strengthen the Warehousing Infrastructure in India

India's warehousing infrastructure is undergoing rapid transformation, driven by increasing capital expenditure (Capex), government policies, and technological advancements. The sector is a critical component of India's logistics ecosystem, influencing supply chain efficiency, trade competitiveness, and economic growth. To enhance warehousing capacity and optimize storage and distribution networks, India is implementing large-scale infrastructure projects, production-linked incentives (PLI) schemes, and policy-driven investments. These initiatives aim to position India as a global manufacturing and logistics hub by fostering innovation, improving multimodal connectivity, and promoting sustainable storage solutions.

The Indian government and private sector players have significantly increased investments in warehousing infrastructure to meet the growing demands of e-commerce, manufacturing, and cold chain logistics. Some key trends in Capex allocation include:

1. Large-Scale Investments in Multi-Modal Logistics Parks (MMLPs)

The PM Gati Shakti National Master Plan, launched in 2021, has accelerated Capex deployment in warehousing and logistics infrastructure. This initiative integrates 16 ministries to create 35 Multi-Modal Logistics Parks (MMLPs), reducing transit time, optimizing resource utilization, and improving last-mile connectivity.

- **Chennai MMLP:** A ₹7,200 crore investment with 5 million sq. ft. of automated warehousing, linked to Chennai Port via dedicated rail corridors.
- **GIS-Based Planning:** AI-powered site selection optimizes warehouse locations, reducing duplication and improving operational efficiency.
- **Investment Inflow:** Over ₹1.2 lakh crore has been committed, leading to a 40% decline in warehouse-to-port transit times, as per the PM Gati Shakti Progress Report (Q1 2024).

2. Production-Linked Incentive (PLI) Scheme Driving Investment

The PLI scheme is a transformative policy designed to boost domestic manufacturing and enhance warehousing capabilities. With ₹1.61 lakh crore in investment approvals and ₹14 lakh crore in production output, this scheme is strengthening warehousing through:

- **Capacity Expansion:** Increased investment in automated storage and retrieval systems (ASRS), high-density racking, and cold storage to support high-value manufacturing sectors.
- **Export-Oriented Growth:** Warehousing facilities designed to meet international standards, ensuring smooth trade flow and regulatory compliance.
- **Job Creation:** Over 11.5 lakh new jobs generated, expanding the logistics workforce and skill development opportunities.

3. Rise of Private Sector Investments in Grade-A Warehousing

Private investments in Grade-A warehouses (large, modern, tech-enabled facilities) have surged, particularly in high-demand regions such as Delhi-NCR, Mumbai, Bengaluru, and Chennai. Key drivers include:

- **Institutional Funding & REITs:** Warehousing-focused Real Estate Investment Trusts (REITs) and global private equity firms have injected billions into the sector.
- **E-Commerce Boom:** Increasing demand for fulfilment centres and just-in-time inventory management has led to 10-12% annual growth in warehouse leasing.
- **Sustainability Focus:** Green warehousing initiatives with solar-powered storage, thermal energy storage (TES) backup, and rainwater harvesting are gaining traction.

Key Initiatives to Strengthen Warehousing Infrastructure

1. Solar-Powered Cold Storage Systems with TES Backup

To address energy inefficiencies in cold chain logistics, the government has introduced new guidelines regulating solar-powered cold storage systems. These systems incorporate thermal energy storage (TES) backup, reducing reliance on conventional power grids and enhancing operational efficiency.

- **Impact:** Lower energy costs, increased uptime, and improved cold storage capacity for perishable goods, benefiting the pharmaceutical and food sectors.
- **Scalability:** Encouraging private investments in renewable energy-powered warehousing infrastructure.

2. Logistics Vision 2030 – Attracting \$50 Billion in FDI

The NITI Aayog's Logistics Vision 2030 aims to attract \$50 billion in foreign direct investment (FDI) in warehousing and logistics by:

- **Policy Reforms:** Streamlining land acquisition, reducing regulatory bottlenecks, and offering tax incentives.
- **Technological Integration:** AI-driven warehouse management systems (WMS) and IoT-enabled tracking to optimize storage operations.
- **Global Competitiveness:** Positioning India as a preferred destination for third-party logistics (3PL) and contract warehousing solutions.

3. Digital & Smart Warehousing Development

The government is promoting **smart warehousing solutions** that integrate:

- **Automated Guided Vehicles (AGVs) and Robotics:** Enhancing efficiency in sorting, picking, and packaging.
- **Blockchain for Supply Chain Transparency:** Ensuring traceability of goods, reducing fraud, and improving compliance.
- **5G & IoT Connectivity:** Real-time inventory monitoring and predictive analytics to minimize disruptions.

India's warehousing infrastructure is undergoing a structural transformation with high Capex allocations, government-driven policies, and technological innovations. The convergence of initiatives such as PM Gati Shakti, PLI schemes, solar-powered cold storage, and smart warehousing solutions is set to elevate India's logistics ecosystem to global standards. With sustained investment momentum, India is well-positioned to enhance supply chain resilience, boost exports, and emerge as a logistics powerhouse by 2030.

REGULATORY HURDLES

1. Land Acquisition and Zoning Issues

The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (LARR Act) imposes huge hurdles for warehouse development. Section 4 prescribes a compulsory Social Impact Assessment (SIA) for all acquisitions over 50 acres in urban/100 acres in rural regions, taking 6-9 months. The Act's Section 10 requires 80% of landowners' consent for private projects and 70% for PPP projects, causing huge delays.

State-level differences add to these hindrances:

- **Maharashtra Land Revenue Code (1966):** Section 42 requires 50-75% ready reckoner rate conversion fees for agricultural land conversion
- **Haryana Development and Regulation of Urban Areas Act (1975):** Section 3 demands NOCs from 5+ departments for developing industrial zones
- **Karnataka Town and Country Planning Act (1961):** Section 14A necessitates additional zoning clearances that take 120-180 days.

2. Multi-Layered Approval Framework

Warehouse projects need to abide by 47 individual approvals according to Ease of Doing Business Report 2023:

Fire Safety Compliance: National Building Code 2016 (Part IV): Mandates

- Minimum 6m wide motorable access (Clause 3.4.2)
- Automatic sprinklers for storage >500m³ (Clause 5.2)
- Fire NOC process takes 90-120 days (Source: BIS Notification No. CD-1/2023)

Environmental Clearances: Environment Impact Assessment Notification (2006)

- Category B2 projects need EC for >20,000m² built-up
- Form I and IA applications require 6 months of processing

Municipal Approvals: Model Building Bye-Laws 2016:

- Extra 2% of project cost as scrutiny fee
- 45-day compulsory waiting period for objections

PERFORMANCE STANDARD

1. Structural & Safety Standards

- Structural building standards provide assurance that warehouses can withstand mechanized handling and heavy loads. The National Building Code 2016 requires a minimum ceiling height of 9 meters to support modern stacking equipment such as high-reach forklifts and automated storage systems (BIS SP 7:2016, Part IV). For heavy-duty flooring, floors need to be able to support 5-7.5 metric tons per square meter load capacity according to WDRA specifications, essential for the storage of industrial products or bulk commodities. Earthquake resistance standards conform to IS 1893:2016, necessitating certain structural reinforcements dependent upon seismic zones - with the most protection being required for Zone V.
- Fire safety measures are also stringent. Automatic smoke detection systems need to cover all spaces according to NBC Part IV requirements, with heat/smoke detectors at 9m intervals. Hydrant systems as per IS 3844:2019 standards need to be installed every 30 meters with sufficient water pressure. These are supplemented by mandatory Fire NOCs from local authorities, which include inspections of emergency exits (at least two per warehouse), fire extinguisher locations (one per 500 sqm), and electrical safety compliance.

2. Cold Chain Standards

- Temperature regulation is critical for perishable items. FSSAI Regulation 4.1.5 allows only ±2°C deviation from specified temperatures, with the need for precision cooling systems and digital monitoring. Frozen foods require -18°C to -25°C conditions according to NCCD TS-102, with ongoing temperature recording. Pharmaceutical warehouses require even more stringent controls - the CDSCO requires ±1°C for vaccines with backup power for cooling equipment.
- Cold storage design specifications ensure proper air circulation. The mandated 0.5-1.0 m/s airflow velocity (IS 14812) prevents hot spots while minimizing product dehydration. Pharma facilities require dual redundant cooling systems - if primary fails, backup must activate within 90 seconds. All units need temperature mapping reports showing uniform distribution across storage zones.

3. Technology Compliance

- Automation grading divides facilities into capability. Grade-A warehouses employ Automated Storage/Retrieval Systems (ASRS) with less than 5% manual handling - including robotic pallet movers, conveyor systems, and automated guided vehicles. Grade-B facilities combine Warehouse Management Systems (WMS) with barcode scanners and semi-automated picking.

- Data reporting requirements harmonize synchronizations with taxation systems. Real-time GSTN portal updates monitor inventory movements, while E-way bill integration provides automatic documentation for dispatches. Cybersecurity standards (ISO 27001) require encrypted databases, biometric access controls, and penetration testing once a year - particularly essential for e-commerce warehouses dealing with customer data.

4. Environmental & Sustainability Standards

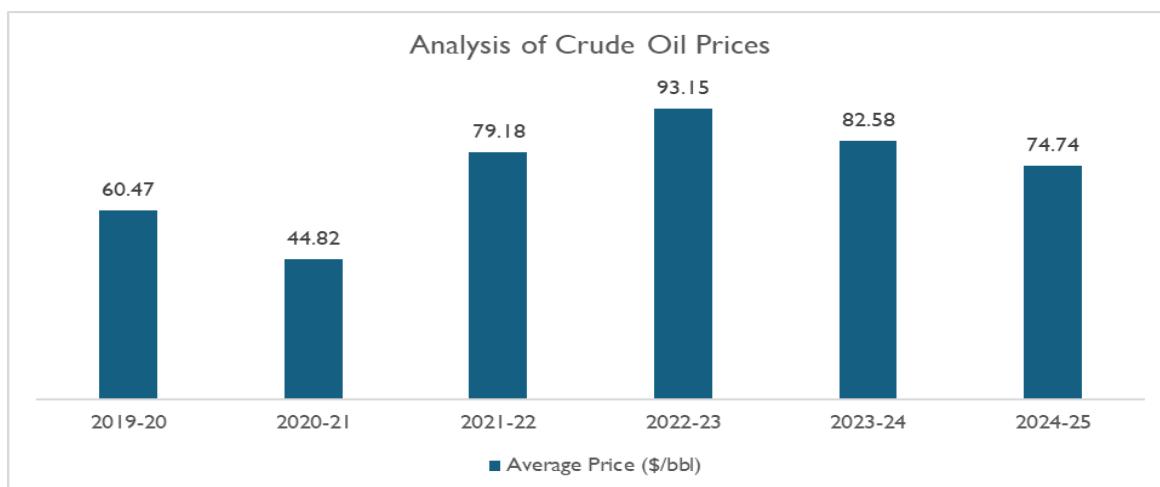

- Energy efficiency standards conform to climate objectives. The 1-star BEE rating (ECBC 2017) mandates LED lighting, insulated panels, and energy-efficient HVAC systems. Big warehouses (50,000+ sqft) have to get 15% of the power from on-site solar as per SECI guidelines, usually through rooftop installations.
- Water management adheres to CPWD standards with no liquid discharge - treating and reusing all wastewaters. Rainwater collection systems require at least 50,000-liter capacity for every acre of roofing area. Handling of materials moves to electric fleets - the NITI Aayog 2025 target eliminates diesel-operated forklifts with a carbon-reduction of 8-10 tons per warehouse per year.

5. Labor & Safety Standards

- Work conditions laws strike a balance between production and well-being. The 48-hour work week maximum (OSH Code 2020) supports 8-hour shifts with 30-minute mandatory meal breaks. For material handlers, 15-minute breaks each 2 hours avoid musculoskeletal damage - a requirement from the Ergonomics Code (DGMS Circular 5/2021).
- Safety gear regulations prescribe ANSI-quality hard hats, high-stacking full-body harnesses, and NFPA-approved PPE kits. Biennial medical screening tests for hearing loss (due to conveyor noise) and respiratory problems. The 100-hour biennial training (NSDC Standards) involves equipment operation, first aid, and computer systems for inventory.

Impact of Crude Oil Volatility on Logistics Cost Structures

An analysis of Crude Oil Prices impact on Overall Logistic industry and Post Covid impact of Crude oil Prices on Logistic sector.

Crude oil prices play a pivotal role in shaping the logistics industry, as fuel costs directly impact transportation expenses for shipping, trucking, aviation, and rail. A surge in oil prices leads to increased freight rates, affecting supply chains, consumer prices, and overall business profitability. The data from 2019 to 2025 reveals significant fluctuations, with a sharp dip in 2020-21 due to COVID-19, followed by a steep rise in subsequent years. These price movements have forced logistics companies to adopt fuel-efficient technologies, optimize routes, and explore alternative energy sources to mitigate cost pressures.

The COVID-19 pandemic had a profound impact on crude oil prices, with an unprecedented collapse in demand during 2020-21, driving prices to record lows. This decline provided temporary relief for logistics firms but was overshadowed by global supply chain disruptions, labour shortages, and reduced consumer demand. However, the post-pandemic recovery saw a dramatic rebound in oil prices due to supply chain constraints, geopolitical tensions, and increased energy demand. The logistics industry faced higher operating costs, forcing companies to adjust freight pricing, implement fuel surcharges, and enhance supply chain resilience through digital transformation.

Looking ahead, while crude oil prices have shown signs of stabilization in 2024-25, they remain a key factor in logistics profitability and inflationary pressures. The transition towards sustainable logistics, including electric vehicles (EVs) and alternative fuels, is gaining traction to counter oil price volatility. Additionally, governments and businesses are focusing on energy efficiency and policy interventions to ensure cost-effective logistics operations. The long-term impact of fluctuating crude oil prices will continue to shape industry strategies, with an emphasis on sustainability, resilience, and cost optimization.

Challenges and Future Prospects

Despite its advantages, belly cargo space has some challenges:

- Limited Capacity: Passenger baggage reduces the space available for cargo, especially on high-density routes.
- Load Balancing: Cargo distribution must align with aircraft weight and balance requirements to maintain safety.
- Regulatory Compliance: Cargo transport regulations, including weight restrictions and security screening, impact operational efficiency.

Going forward, advancements in cargo handling technology, automated loading systems, and real-time tracking solutions will further enhance belly cargo efficiency. Additionally, airlines may introduce flexible baggage policies to optimize space utilization while maintaining passenger convenience. Belly cargo space remains a vital component of air cargo operations, providing a cost-effective way to transport goods alongside passengers. As airlines continue to refine cargo strategies, the utilization of belly capacity is expected to grow, contributing to overall industry efficiency and revenue generation.

Others: Regulatory and Procedural Challenges

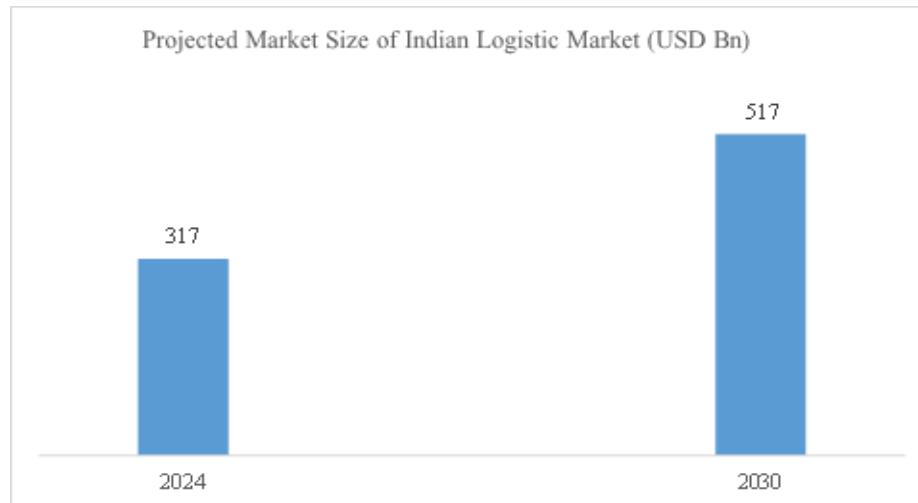

- Complex Customs Procedures: Lengthy and intricate customs clearance processes can lead to delays in cargo movement, affecting the efficiency of supply chains.
- Compliance with International Standards: Ensuring adherence to global aviation and security standards requires continuous updates to policies and procedures, posing a challenge for regulatory bodies and industry players.

Growth Scenario

By nature, logistic demand corresponds to the healthy economic GDP growth which facilitates demand of goods in domestic as well as in the global market. Economic growth is expected to augment the freight movement. India's has emerged as one of the fastest growing countries globally even amidst challenging operating environment driving the demand for logistics services. The necessity of having improved logistic services to have an efficient supply chain management which fulfils the growing need of economy has made government undertake several focused initiatives in terms of improving road infrastructure, power supply, policy reforms etc. Increasing government spending on infrastructure is expected to support the growth of the logistic sector in the long run.

The Indian government's Union Budget aims to achieve inclusive and sustainable growth while adhering to the fiscal glide path. The growth in coming years would be majorly backed by growing freight traffic,

substantial government spending planned under the PM Gati Shakti scheme, Comprehensive Logistics Action Plan, the National Logistics Policy, and other projects like Sagarmala and Bharatmala. Additional efforts like DFC, the e-way bill, introduction of lead index and technological advancement are expected to streamline the logistic operations translating in reduce cost and enhanced efficiency of the freight movement across the country.

Source: India Brand Equity Foundation

Several factors are fuelling this market expansion:

- Government Reforms and Infrastructure Development:** Investments in highways, rail freight corridors, airports, and ports have significantly improved logistics efficiency.
- Growing Trade and Manufacturing:** The rise in domestic manufacturing under initiatives like *Make in India* and an increase in imports and exports have driven logistics demand.
- Booming E-Commerce Sector:** Online shopping has created a need for advanced supply chain management and last-mile delivery solutions.
- Technological Integration:** Digital solutions like AI, IoT, and blockchain have revolutionized supply chain visibility, tracking, and inventory management.

1. Infrastructure Development

- The Bharatmala Project is enhancing road connectivity, with initiatives like the Delhi-Mumbai Industrial Corridor facilitating faster freight movement between industrial hubs.
- The Sagarmala Project focuses on port-led development, modernizing ports and integrating them with special economic zones to improve maritime logistics.
- The Dedicated Freight Corridors, such as the Delhi-Mumbai and Amritsar-Kolkata corridors, are expanding rail freight infrastructure, reducing transportation costs, and boosting trade efficiency.

2. E-Commerce Expansion

- India's quick commerce sector, led by Blinkit and Swiggy Instamart, accounted for over two-thirds of all e-grocery orders in 2024, reflecting the growing demand for rapid delivery services.
- Companies like Swiggy have invested heavily in logistics, with a 115-million-dollar investment in its supply chain subsidiary, Scootsy, to support its expanding Instamart operations.

3. Implementation of the Goods and Services Tax (GST)

- The GST reform has streamlined tax structures, reduced logistics costs and increasing the average daily distance travelled by trucks from 225 kilometres to 300-325 kilometres, significantly enhancing efficiency in goods transportation.

4. Technological Advancements

- Rivigo, a logistics startup, has integrated IoT technology to enable real-time tracking of truck metrics like fuel levels and engine temperature, improving operational efficiency.

- Companies are increasingly exploring blockchain technology to enhance transparency and secure documentation in supply chains, ensuring trust and efficiency.

5. Growing Demand for Cold Chain Logistics

- India's cold storage capacity has expanded to 39.37 million metric tons, with Uttar Pradesh and West Bengal leading due to their strong agricultural production.
- The COVID-19 vaccination drive required over 2,000 ultra-low temperature freezers, emphasizing the critical role of cold chain logistics in distributing temperature-sensitive vaccines.

Future Trends and Opportunities in the Indian Logistics Market

The Indian logistics industry presents immense opportunities for growth and innovation in the coming years. Several key trends will shape the future of the sector:

1. Adoption of 3PL and 4PL Services

- Companies are increasingly outsourcing their logistics operations to third-party (3PL) and fourth-party (4PL) logistics providers to enhance efficiency and reduce costs.
- This shift allows businesses to focus on core competencies while leveraging professional logistics expertise.

2. Sustainable and Green Logistics

- With growing concerns about carbon emissions, companies are shifting toward electric vehicles (EVs), eco-friendly packaging, and energy-efficient warehouses.
- The Indian government is promoting green supply chain initiatives to achieve sustainability goals.

3. Expansion of Cold Chain Logistics

- Rising demand for perishable food, dairy products, and pharmaceuticals will drive investments in temperature-controlled warehouses and refrigerated transport.
- The Indian government is offering incentives and subsidies to support the expansion of cold storage facilities.

4. Smart Warehousing and Automation

- Adoption of AI-driven inventory management, automated storage systems, and robotics is enhancing warehouse productivity.
- Smart warehouses equipped with IoT sensors and predictive analytics improve real-time stock monitoring and reduce wastage.

5. Investment in Multi-Modal Transportation

- Integration of road, rail, air, and water transport will optimize freight movement and reduce transit times.
- The expansion of logistics parks and inland container depots (ICDs) will further facilitate seamless goods transportation.

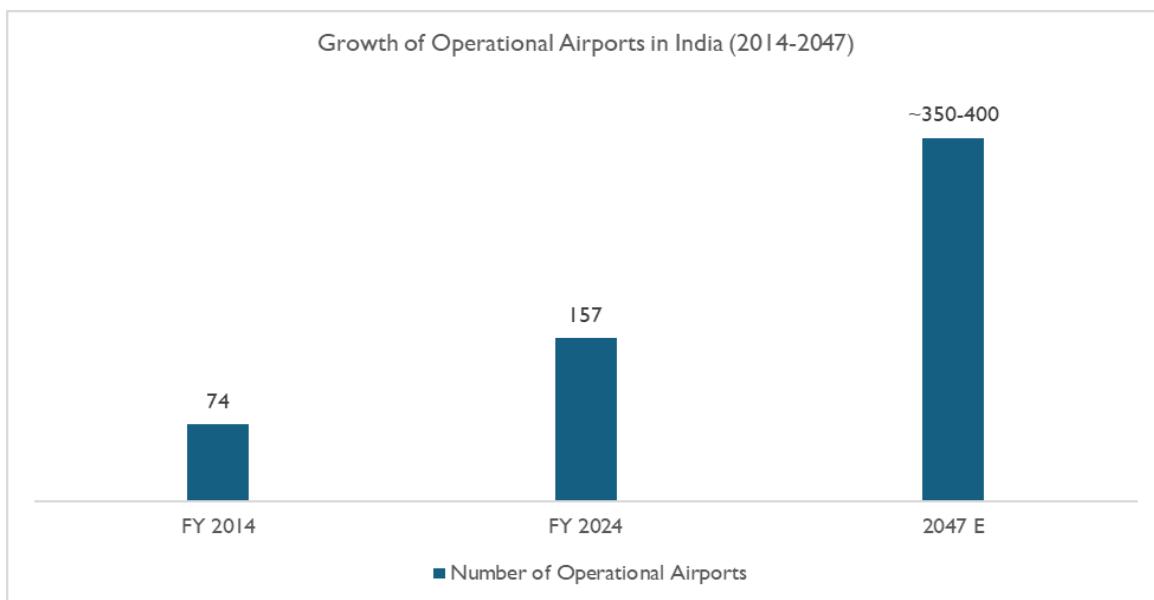

The Indian logistics industry is undergoing rapid transformation, fuelled by technological advancements, policy reforms, and infrastructure investments. While the market is set to grow at a CAGR of 10.7%, addressing high logistics costs, regulatory challenges, and infrastructure gaps remain crucial for sustainable development. With continued investments in digitalization, automation, green logistics, and multi-modal transport, India is well-positioned to emerge as a global logistics hub in the near future. Strengthening supply chains, streamlining operations, and fostering collaborations between government and private players will be key to unlocking the full potential of India's logistics sector.

Air Transportation

India's aviation industry has undergone a remarkable transformation in the past decade, emerging as one of the fastest-growing air transport markets globally. The sector has seen a surge in domestic air travel, infrastructure expansion, and fleet growth. The rapid expansion of operational airports and an increase in air passengers underscore the industry's bright future.

India's aviation industry has witnessed rapid growth, with the number of operational airports more than doubling from 74 in 2014 to 157 in 2024. The government's expansion plan aims to reach 350-400 airports by 2047, significantly improving regional connectivity.

By 2030, the number of airports is expected to cross 200, driven by increasing air travel demand. By 2040, around 300 airports are projected, aligning with India's infrastructure growth. The long-term goal of 350-400 airports by 2047 highlights strong government commitment to making India a global aviation hub. This expansion will enhance connectivity, boost economic development, and support India's growing air passenger market, which is set to become the third-largest globally by 2030.

Key factors affecting Air Transport Industry:

➤ Growth in Air Passenger Traffic

Over the past decade, domestic air passenger traffic in India has more than doubled, reflecting the increasing affordability and accessibility of air travel. According to the International Air Transport Association (IATA), India is poised to become the third-largest air passenger market by 2030, surpassing China and the United States. This growth is fuelled by rising middle-class incomes, improved regional connectivity, and government initiatives such as the UDAN (Ude Desh Ka Aam Nagrik) scheme, which promotes affordable regional air travel.

➤ Fleet Expansion

To meet growing passenger demand, Indian airlines have significantly expanded their fleets. Major airlines like IndiGo, Air India, and Akasa Air have placed large aircraft orders, ensuring fleet modernization and increased capacity. The increase in fleet size will enhance connectivity, reduce congestion, and improve service efficiency across domestic and international routes.

➤ Future Growth Prospects

India's commitment to increasing its number of operational airports to 350-400 by 2047 suggests a strong focus on infrastructure development. The expansion of airports in tier-2 and tier-3 cities will

play a crucial role in enhancing regional air connectivity, reducing dependency on metro hubs, and promoting economic growth in smaller cities.

Rising Passenger Demand

- India's domestic air passenger traffic is projected to grow at a CAGR of 8-10% over the next decade.
- By 2030, India will become the third-largest air passenger market, overtaking the U.S. and China.
- Increased disposable incomes, business travel, and tourism will continue to fuel this demand.

➤ Increase in Aircraft Fleet

With rising passenger demand, Indian airlines are expected to double their fleet size by 2035. Fleet expansion will enable greater connectivity between domestic and international destinations, reinforcing India's position as a key global aviation hub. India's aviation industry is on a robust growth trajectory, driven by increasing airport infrastructure, rising passenger traffic, and fleet expansion. Government policies, economic growth, and technological advancements will further enhance connectivity and efficiency in the sector. With the projected increase in operational airports and air passenger traffic, India is set to become one of the world's leading aviation markets in the coming decades.

Factors and Trends Impacting the Growth of Air Transportation of India

1. Infrastructure Development

- The Bharatmala Project is enhancing road connectivity, with initiatives like the Delhi-Mumbai Industrial Corridor facilitating faster freight movement between industrial hubs.
- The Sagarmala Project focuses on port-led development, modernizing ports and integrating them with special economic zones to improve maritime logistics.

- The COVID-19 vaccination drive required over 2,000 ultra-low temperature freezers, emphasizing the critical role of cold chain logistics in distributing temperature-sensitive vaccines.

THREATS AND CHALLENGES

India's logistics sector is undergoing a transformation driven by rising demand from manufacturing, e-commerce, and international trade. The government's infrastructure push, digitalization efforts, and

policy interventions like the National Logistics Policy (NLP) and Gati Shakti are steps toward streamlining operations and reducing logistics costs. Despite these positive developments, the sector remains complex, with operational inefficiencies, cost pressures, and infrastructural constraints impacting its full potential. Air cargo logistics, in particular, has emerged as a crucial mode for time-sensitive and high-value shipments, yet it faces specific hurdles that distinguish it from surface logistics.

Key Threats

- **Fuel Price Volatility**

Crude oil price movements have a direct and substantial impact on air logistics. Jet fuel accounts for a large portion of air cargo operating expenses, and fluctuations can sharply erode margins. For instance, the dramatic rise in fuel prices in 2022 following the Russia-Ukraine conflict significantly increased freight costs for air cargo operators, prompting them to introduce fuel surcharges or renegotiate rates. While some large players could partially absorb or pass on the cost, mid-sized firms like SASL had to optimize routes and reduce non-essential legs to stay competitive.

- **Geopolitical and Global Trade Risks**

Disruptions like the COVID-19 pandemic, U.S.-China trade tensions, and the Suez Canal blockage in 2021 have highlighted how fragile global supply chains can be. These events had cascading effects on international cargo schedules, customs clearance times, and freight pricing, particularly for air shipments requiring just-in-time delivery.

- **Climate Change and Environmental Concerns**

The global shift toward sustainable logistics is placing pressure on air cargo operators to lower emissions and carbon footprints. European regulations, for example, are increasingly favoring low-emission freight alternatives, which could marginalize non-compliant air carriers. Companies like Lufthansa Cargo and FedEx have started integrating Sustainable Aviation Fuel (SAF), while Indian players are still in early stages, indicating a widening technology gap.

- **Cybersecurity Threats**

The logistics sector is increasingly reliant on digital tools for inventory management, cargo tracking, and customs documentation. However, this reliance exposes firms to data breaches and cyber-attacks. In 2021, global shipping giant CMA CGM suffered a ransomware attack that disrupted its booking systems. For Indian firms transitioning to digital platforms, a lack of robust cybersecurity measures makes them vulnerable to similar threats.

Major Challenges

- **Fragmented Industry Structure**

India's logistics space remains dominated by small, unorganized players lacking integrated systems. This fragmentation leads to inefficiencies in cargo handling, poor intermodal coordination, and limited scalability. For air cargo, which demands time-bound and precision-driven execution, working with multiple disconnected vendors increases risks of delay and service inconsistency.

- **Infrastructural Gaps**

While metro cities like Delhi and Mumbai have reasonably advanced cargo facilities, many secondary airports lack dedicated air freight terminals, cold-chain support, and night-handling capabilities. For example, a pharma shipment requiring temperature control may get delayed or damaged in Tier-2 airports due to lack of cold storage or skilled handling staff.

- **Regulatory Complexity**

Logistics players often deal with overlapping regulations from customs, aviation, and GST departments. Delays in customs clearances, frequent changes in documentation requirements, and inconsistent enforcement across states result in operational bottlenecks. For instance, exporters

frequently report delays in DGFT approvals or scanning clearances, even when shipments are time-sensitive.

- **Limited Skilled Workforce**

Specialized logistics—especially air freight involving hazardous or perishable goods—requires trained manpower in cargo handling, packaging, documentation, and compliance. The industry currently suffers from a shortage of such skilled professionals, increasing reliance on on-the-job training and risking errors or shipment rejections.

- **Technology Adoption Gap**

Although many large logistics firms are adopting AI, IoT, and blockchain solutions to enhance efficiency, smaller and mid-tier companies often struggle with the cost and complexity of implementing these systems. As a result, companies like Skyways may find it difficult to offer end-to-end visibility or real-time tracking at the level of global competitors.

COMPETITIVE LANDSCAPE

Overview:

India's air cargo logistics sector forms a vital link in the broader supply chain, facilitating the rapid movement of time-sensitive and high-value goods across domestic and international markets. As the economy grows and global trade volumes increase, the demand for efficient air freight services continues to rise. Sectors such as pharmaceuticals, electronics, automotive components, and e-commerce are increasingly reliant on the speed and reach that air cargo offers.

The segment is also witnessing structural improvements driven by government support, including logistics infrastructure development, cargo-specific airport terminals, and digital initiatives aimed at enhancing transparency and turnaround time. While air cargo represents a smaller share compared to surface freight, its significance lies in handling urgent consignments and servicing regions with limited access.

Operational complexity, infrastructure limitations at key airports, and the need for specialized handling remain challenges in this space. However, advancements in cargo tracking technologies, growing adoption of multimodal logistics models, and the expansion of express logistics services are steadily reshaping the sector. Service providers are focusing on improving agility, optimizing capacity, and ensuring reliability to meet evolving client expectations.

Key players in the Indian air cargo logistics segment include a mix of specialized freight forwarders and diversified logistics providers. Companies like **Skyways Air Services Ltd.** focus primarily on air freight and international cargo movement, offering tailored solutions for time-sensitive shipments. On the other hand, larger integrated logistics firms such as **Delhivery Ltd**, **Mahindra Logistics Ltd**, and **TVS Supply Chain Solutions Ltd** incorporate air cargo as part of a broader multimodal logistics portfolio, combining it with surface transport, warehousing, and last-mile delivery. These companies leverage scale, technology, and a pan-India presence to serve varied industry verticals. Together, they shape a competitive market where niche specialization and end-to-end service capabilities both find relevance depending on client needs.

Analysis of Key Factors shaping competition in the air transportation sector

The Indian air transportation sector is a dynamic and evolving industry, influenced by various competitive factors and dominated by key players who shape its trajectory.

1. Market Structure and Dominant Players:

- **IndiGo Airlines:** Holding over 60% of India's domestic market share, IndiGo has established itself as the largest carrier in the country. The airline is transitioning from its budget airline image by

expanding internationally and introducing business-class seating, aiming to compete with global long-haul carriers.

- **Air India:** Under the ownership of the Tata Group, Air India is undergoing modernization efforts. The airline is in discussions with Boeing and Airbus for a substantial order of 30 to 40 widebody jets, aiming to elevate its modernization efforts and recapture market share lost to global rivals.

2. Fleet Expansion and Modernization:

Airlines are investing heavily in expanding and modernizing their fleets to meet growing demand and enhance competitiveness. For instance, Air India's potential order of widebody jets from Airbus and Boeing is part of its strategy to modernize its fleet and expand its international presence.

3. Infrastructure Development:

The Indian government has been investing in airport infrastructure to support the burgeoning aviation sector. This includes the development of new airports and the expansion of existing ones to accommodate increased air traffic.

4. Regulatory Environment:

The regulatory framework in India has been evolving to support the growth of the aviation sector. Policies aimed at enhancing safety, improving passenger experience, and encouraging investment have been implemented to create a more competitive environment.

5. Pilot Shortage:

India's aviation sector is facing a critical pilot shortage, with a deficit of about 12-15% of trained pilots. Despite having 4,000-5,000 newly licensed pilots unemployed, airlines prefer experienced candidates due to the high costs and lengthy training associated with new pilots.

6. Technological Advancements:

Airlines are increasingly investing in technology to enhance the passenger experience. From mobile check-in to in-flight Wi-Fi, technology is playing a crucial role in improving efficiency and convenience for travellers.

7. Sustainability Initiatives:

With growing concerns about climate change, airlines are under pressure to reduce their carbon footprint. Many airlines, including Air India, are investing in more fuel-efficient aircraft and exploring sustainable aviation fuel options.

The competitive landscape of India's air transportation sector is shaped by a combination of market dominance by key players, strategic fleet expansions, infrastructure developments, regulatory changes, workforce challenges, technological innovations, and sustainability efforts. These factors collectively influence the strategies adopted by airlines to maintain and enhance their competitive positions in this rapidly growing market.

8. Market Dominance by Foreign Carriers

Foreign airlines command a substantial share of India's international air cargo market, accounting for approximately 94-95% of the total volume. This dominance is largely due to their extensive fleets, global networks, and capacity to operate dedicated freighter aircraft, enabling them to serve long-haul destinations effectively.

PEER PROFILING: DELHIVERY LIMITED

Overview:

Established in 2011 and headquartered in Gurgaon, Haryana, Delhivery Limited is a leading logistics and supply chain services provider in India. The company has developed a wide-reaching pan-India presence, servicing over 18,700 pin codes with infrastructure comprising 24 automated sort centres, 94 gateways,

and 2,880 direct delivery centres. As of August 2023, Delhivery has fulfilled over 2 billion orders and employs a workforce of more than 57,000 individuals. The company's logistics network operates year-round, offering uninterrupted service across all days of the year.

Delhivery's logistics capabilities are designed to cater to businesses of all sizes, from small and medium enterprises to large-scale e-commerce platforms. Its infrastructure is supported by robust automation and process engineering that facilitate high-speed, accurate order sorting, tracking, and delivery. The company has built strategic partnerships both domestically and globally, enabling seamless cross-border and multi-modal transportation options.

The firm's operational footprint extends beyond metropolitan hubs, reaching Tier 2 and Tier 3 cities to provide inclusive logistics coverage. With significant investments in technology and process innovation, Delhivery has positioned itself not only as a service provider but also as an enabler of modern commerce. It continues to expand its infrastructure, including warehousing space and transport fleet, to support a growing and diverse customer base.

Product & Service Offerings

Delhivery provides a wide range of logistics and supply chain services designed to meet the diverse needs of its customers across various sectors:

- **Express Parcel:** Time-bound delivery services for high-volume e-commerce and direct-to-consumer shipments, covering first mile, line haul, and last-mile logistics.
- **Part Truckload (PTL):** Freight solutions that allow multiple clients to share space on a single vehicle, offering cost efficiency and regular dispatches across key routes.
- **Full Truckload (FTL):** Dedicated truck services for businesses with bulk transportation needs, providing direct connectivity between manufacturing units, warehouses, and retail points.
- **Warehousing & Fulfilment:** A network of warehousing facilities offering inventory management, order processing, packaging, and fulfilment services. These are supported by technology platforms for inventory visibility and control.
- **Cross-border Services:** International shipping solutions including import/export clearance, freight forwarding, and last-mile delivery in select markets through global partnerships.
- **Supply Chain Software:** A proprietary logistics operating system enabling shipment tracking, network optimization, demand forecasting, and operational analytics.
- **Data Intelligence Solutions:** Technology-driven insights for customers to optimize their logistics planning, demand prediction, and cost structures.
- **Solutions for D2C and SMEs:** Customizable logistics services to support direct-to-consumer brands, small sellers, and businesses with flexible scale requirements.

Key Customer Segments Serviced

Delhivery caters to a broad and diversified customer base across industries, offering tailored logistics solutions to meet varying supply chain needs:

- **E-commerce Marketplaces:** Serves some of India's largest online platforms by providing high-frequency express parcel and reverse logistics services across the country.
- **Direct-to-Consumer (D2C) Brands:** Supports digitally native and emerging consumer brands with scalable fulfilment and delivery services, enabling faster market reach and customer responsiveness.
- **Small and Medium Enterprises (SMEs):** Offers flexible warehousing, PTL, and last-mile solutions to SMEs across sectors, helping streamline logistics and improve delivery timelines.
- **Large Enterprises:** Works with established firms in automotive, retail, FMCG, and manufacturing sectors, providing end-to-end transportation and supply chain management solutions tailored to complex business needs.
- **Consumer Durables & Electronics:** Facilitates safe and timely movement of high-value and bulky goods, leveraging tracking systems and secure delivery protocols.
- **Retail Chains:** Enables intra-city and inter-city movement of inventory for organized retail outlets through structured warehousing and FTL services.

Key Strengths

- **Integrated Multi-Modal Logistics Network:** Delhivery's extensive infrastructure includes road, air, and cross-border logistics capabilities, allowing it to offer express parcel, part-truckload (PTL), full-truckload (FTL), and warehousing services. Its ability to manage multi-modal movement enhances network flexibility.
- **Proprietary Technology Platform:** The company's logistics operating system integrates warehousing, last-mile delivery, order management, and real-time visibility. This tech-led approach supports dynamic routing, shipment optimization, and predictive analytics, improving service performance and cost efficiency.
- **Diverse Customer Base:** With over 30,000 active customers as of FY24, Delhivery supports a varied clientele ranging from new-age e-commerce startups to traditional enterprises, enabling it to mitigate demand concentration risk and maintain a balanced business portfolio.
- **Strong Emphasis on Automation and Scale:** The company continues to invest in automation across its sortation centers and delivery operations. These investments are aligned with cost management goals and operational scalability.
- **Strategic Partnerships and Expansions:** Delhivery has partnered with several international logistics providers and also engages with ONDC (Open Network for Digital Commerce), allowing it to explore collaborative opportunities in both B2B and B2C segments.

MAHINDRA LOGISTICS LIMITED

Overview

Mahindra Logistics Limited (MLL), founded in 2008, is based in Mumbai, Maharashtra. It provides integrated logistics and mobility solutions across India and is part of the Mahindra Group. The company operates a non-asset-based model to offer supply chain management and people transport services. MLL has established a broad network of over 500 business partners, supported by advanced digital systems to optimize operations.

The company focuses on delivering efficient and practical logistics solutions through the application of technology. MLL also offers end-to-end logistics consulting and design through its integrated service platform.

Key Customer Segments Serviced

Mahindra Logistics serves a wide range of customer segments across various industries, providing logistics and mobility solutions tailored to specific needs. Key customer segments include:

- **Automotive Industry:** Serving original equipment manufacturers (OEMs) and component suppliers with transportation, warehousing, and distribution services.
- **E-Commerce:** Providing end-to-end logistics solutions to e-commerce platforms, including fulfillment, last-mile delivery, and reverse logistics.
- **Consumer Goods & Retail:** Offering supply chain management services for fast-moving **consumer goods (FMCG) companies and retail networks.**
- **Pharmaceuticals & Healthcare:** Ensuring efficient and safe transportation of pharmaceutical products, medical devices, and healthcare equipment.
- **Engineering & Manufacturing:** Delivering project logistics, specialized transport services, and warehouse management solutions for industrial sectors.

Key Strengths

Integrated Logistics Platform: Mahindra Logistics provides a range of services across the supply chain, including transportation, warehousing, and fulfillment. This integration helps streamline operations and improve efficiency for various industries.

Technology-Driven Operations: The company uses technologies like AI, IoT, and automation to optimize routes, manage inventory, and enhance tracking. These tools help improve operational performance and provide valuable insights for decision-making.

Asset-Light Business Model: Operating with a non-asset-based model, Mahindra Logistics avoids heavy investments in infrastructure, relying on a network of partners and technology to offer scalable and flexible logistics solutions.

Sustainability Focus: Mahindra Logistics integrates electric vehicles into its fleet and focuses on green logistics practices, such as energy-efficient warehouses and optimized routing, to reduce the environmental impact of its operations.

Strong Parentage and Brand Equity: As part of the Mahindra Group, the company benefits from brand recognition and access to a wide network of resources, which strengthens its position in the logistics market.

Experienced Workforce and Operational Expertise: Mahindra Logistics invests in its workforce by providing ongoing training, ensuring that its team is equipped to handle the complexities of logistics and supply chain management.

Customer-Centric Approach: The company focuses on understanding and addressing the unique needs of its customers, offering tailored solutions for industries such as automotive, e-commerce, and healthcare.

TVS SUPPLY CHAIN SOLUTIONS LTD

Overview

TVS Supply Chain Solutions Ltd. (TVS SCS), established in 2004, is headquartered in Chennai, India. It operates as part of the TVS Mobility Group and offers comprehensive supply chain solutions both domestically and internationally. The company has expanded its presence across 26 countries, serving customers in automotive, industrial, consumer goods, technology, healthcare, and defense sectors.

The organization manages over 100 operating facilities globally and has built capabilities in integrated supply chain and network-based solutions. Its services are tailored to support varying customer needs, from managing complex in-plant logistics to handling cross-border freight movements. With a workforce of over 18,000, TVS SCS focuses on improving operational efficiency through technology-driven platforms and process optimization.

The company emphasizes long-term partnerships and operational resilience by developing customized service models for its clients. Its approach integrates physical logistics with digital systems, enabling better visibility and control over supply chain processes. In India, TVS SCS caters to both public and private sector enterprises and is also engaged in government contracts, particularly in defense logistics. TVS SCS has also grown organically through strategic acquisitions in Europe, the UK, and the US. These acquisitions have strengthened its presence in time-critical services and international freight forwarding. The global operating structure enables collaboration between regional teams to ensure service consistency and scalability.

Product & Service Offerings

TVS SCS delivers supply chain solutions under two key business segments:

- **Integrated Supply Chain Solutions (ISCS):** Includes inbound logistics, outbound distribution, warehousing, inventory planning, packaging, and in-factory logistics operations.
- **Network Solutions (NS):** Covers international freight forwarding (air, sea, road), express logistics, time-sensitive final mile deliveries, and aftermarket support including spare parts logistics and returns management.

The company also offers industry-specific solutions with a strong emphasis on technology integration to streamline operations and improve turnaround time.

Key Customer Segments Serviced

TVS SCS serves a wide spectrum of industries including:

- Automotive and Auto Components
- Engineering and Industrial Equipment
- Consumer Electronics and Appliances
- Retail and E-commerce
- Pharmaceuticals and Healthcare
- Aerospace and Defense
- Utilities and Infrastructure

Key Strengths

- **Global Reach with Local Expertise:** Operates in over two dozen countries with an ability to localize services to meet specific market needs. This enables the company to offer consistent service quality while adapting to regional regulatory and logistical requirements.
- **Multi-Sector Experience:** Provides supply chain solutions across varied industries, enabling adaptability and scalability. The cross-industry exposure supports process innovation and allows transfer of best practices across segments.
- **Technology-Driven Operations:** Leverages proprietary digital tools to improve visibility, enhance control, and drive data-informed logistics planning.
- These platforms also facilitate performance tracking, automated reporting, and predictive analytics.
- **Tailored Logistics Models:** Designs solutions that align with customer-specific operational challenges and regulatory environments. This customization helps improve turnaround time and ensures alignment with client objectives.
- **Integrated Capabilities:** Offers a seamless supply chain experience by combining warehousing,

transportation, freight forwarding, and aftermarket services.

- Such integration simplifies vendor management and improves coordination across the supply chain.
- Focus on Efficiency:** Works toward optimizing logistics networks and operational processes to support cost-effective service delivery. Continuous improvement initiatives and lean practices help in minimizing waste and reducing delivery timelines.

INDUSTRY SWOT ANALYSIS

The Indian logistics industry is a cornerstone of the nation's economy, ensuring the seamless movement of goods across its vast and diverse landscape. A detailed SWOT analysis—examining Strengths, Weaknesses, Opportunities, and Threats—offers a comprehensive understanding of the industry's current state, with a particular emphasis on airways logistics.

Strengths:

- **Strategic Geographic Position:**
India's central location in South Asia positions it as a crucial hub for international trade routes connecting the East and West. This strategic advantage facilitates efficient distribution channels for both domestic and international markets.
- **Robust Economic Growth:**
India's consistent economic expansion drives demand for sophisticated logistics services. As industries grow and consumer markets expand, the need for timely and reliable transportation, especially via air freight, becomes increasingly critical.
- **Expanding Air Cargo Market:**
The Indian air cargo market has demonstrated significant growth, reaching approximately USD 13.44 billion in 2024. Projections indicate a compound annual growth rate (CAGR) of 5.80% between 2025

and 2034, potentially attaining a market value of USD 23.62 billion by 2034. This growth is fuelled by factors such as increased export activities and advancements in airport infrastructure.

- **Technological Integration:**

The adoption of advanced technologies, including automation, real-time tracking, and data analytics, has enhanced operational efficiency within the air cargo sector. These innovations lead to improved cargo handling, reduced turnaround times, and increased customer satisfaction.

Weaknesses:

- **Infrastructure Limitations:**

Despite growth, many Indian airports face challenges like inadequate cargo handling facilities, limited warehousing space, and outdated equipment. These limitations can cause delays and increase operational costs.

- **Regulatory Challenges:**

Complex customs procedures and bureaucratic hurdles often impede the swift movement of goods. Lengthy clearance processes can diminish the advantages of air freight's speed, affecting overall supply chain efficiency.

- **High Operational Costs:**

Air freight is inherently more expensive than other transportation modes. Factors such as volatile fuel prices, high airport charges, and maintenance expenses contribute to elevated operational costs, which can deter price-sensitive customers.

- **Limited Domestic Connectivity:**

While major metropolitan areas are well-served, regional connectivity remains underdeveloped. This gap restricts the reach of air cargo services, particularly affecting businesses in remote or underserved regions.

Opportunities:

- **E-commerce Expansion:**

The rapid rise of e-commerce in India has escalated demand for quick and reliable delivery services. Air cargo is uniquely positioned to meet these needs, offering expedited shipping that aligns with consumer expectations for speed.

- **Government Initiatives:**

The Indian government has launched several initiatives aimed at bolstering the logistics sector. Policies focused on modernizing infrastructure, streamlining regulations, and promoting public-private partnerships are set to enhance the efficiency and capacity of air cargo operations.

- **Investment in Infrastructure:**

Ongoing and planned investments in airport infrastructure, including the development of dedicated cargo terminals and integrated logistics parks, present opportunities to alleviate current bottlenecks and improve service delivery.

- **Regional Trade Agreements:**

India's participation in regional trade agreements can open new markets and increase cargo volumes. Strengthening ties with neighbouring countries and trading blocs can lead to enhanced cross-border air cargo movement.

Threats:

- **Intense Competition:**

The air cargo sector faces stiff competition from other modes of transport, such as road, rail, and sea, which may offer more cost-effective solutions for certain types of cargo. Additionally, international carriers operating in India add to the competitive pressure.

- **Environmental Concerns:**

The environmental impact of air freight, particularly its carbon footprint, is under increasing scrutiny. Regulatory measures aimed at reducing emissions and promoting sustainability could impose additional costs and operational constraints on air cargo operators.

- **Global Economic Fluctuations:**

The air cargo industry is vulnerable to global economic downturns, trade restrictions, and geopolitical tensions. Such factors can disrupt supply chains, reduce trade volumes, and impact profitability.

- **Pandemic and Health Crises:**

Health crises, like the COVID-19 pandemic, have demonstrated the potential for severe disruptions in air cargo operations. Travel restrictions, reduced flight frequencies, and lab or shortages can significantly impact the industry's ability to function effectively during such events.

OVERVIEW

Established in 1984, Skyways Air Services Limited (SASL), is a long-standing participant of India's air freight forwarding and logistics sector. Our Company is consistently ranked No. 1 "**Air Freight Forwarder**" in terms of AWBs generation by World ACD for the calendar year 2024, 2023 and 2022. It means our company handles maximum number of air cargo consignments from India to worldwide. We are actively engaged in providing a comprehensive suite of services, including air freight forwarding, ocean freight forwarding, trucking, warehousing, custom broking, technology driven express cargo and parcel delivery and a wide range of Value-Added Services (VAS) to support the diverse needs of our clientele across domestic and international markets. Our company began its operations as a Custom House Agent (CHA)—now known as a Custom Broker License holder—and has progressively expanded its service offerings over the years in response to evolving market requirements and international trade

dynamics. With over four decades of industry experience, SASL has built a well-integrated logistics infrastructure that offers end-to-end support across the supply chain. Its value-added services encompass:

- **Logistics planning and management**, facilitated through a robust, IT-enabled operational model
- **Logistics solutions**, designed to accommodate varied cargo movement requirements
- **Cargo handling operations**, ensuring timely and secure processing of shipments
- **Warehousing solutions**, supporting storage, inventory management, and last-mile distribution
- **Documentation and customs clearance services**, ensuring regulatory compliance across borders
- **Global connectivity and operational reach**, supported by strategic international tie-ups, network subsidiaries, and collaborative arrangements with other logistics providers—enabling service delivery even in remote and hard-to-access regions.

Our company maintains strategic alliances with a diverse range of international air freight carriers, enabling enhanced service capabilities and global reach. We have performance-based agreements with several leading global airlines, including Saudi Cargo, Air India Cargo, Turkish airlines and Lufthansa. These partnerships not only strengthen our access to key international routes and cargo capacities but also contribute to improved service reliability and competitive transit times for our clients.

In addition to these performance-based agreements, the company is an active member of multiple global logistics networks, which serve as structured platforms for cooperation among international freight forwarders and logistics service providers.

Our Company maintains active affiliations with several globally recognized logistics and freight forwarding networks, including the World Cargo Alliance (WCA), Air & Ocean Partners (AOP), Combined Logistics Networks (CLN), Multi Group Logistics Network (MGLN), Global Freight Alliance (GFA), and the Transport Worldwide International Group (TWIG). Participation in these established networks offers extensive global exposure and opens up access to a wide spectrum of international business opportunities, enabling us to operate efficiently in both established and emerging markets.

By aligning with these well-established networks, we reinforce our positioning as a globally connected and operationally agile organization within the freight forwarding sector. These affiliations not only expand our international reach but also enhance our capability to deliver consistent service quality, regardless of destination, cargo type, or complexity of shipment. Such strategic collaborations contribute to the company's resilience and sustainable growth in the face of evolving market conditions and dynamic trade environments.

Over the decades, we have significantly expanded its service offerings beyond air freight forwarding and custom broking service, evolving into a multi-modal logistics service provider. Today, our portfolio includes ocean freight forwarding, trucking, comprehensive warehousing solutions, technology driven express cargo and parcel delivery service and continued excellence in customs broking services, thereby offering an integrated logistics platform for a diverse range of clients.

With the continuous expansion of our service portfolio and the establishment of a broad international presence, the scope and scale of our business operations witnessed consistent growth. In response to the evolving dynamics and increasing competitiveness of the global freight forwarding industry, our company adopted a proactive strategy aimed at enhancing operational efficiency, broadening market access, and delivering comprehensive, integrated logistics solutions to our customers through a combination of backward and forward integration.

To support this strategic vision, our company incorporated and acquired multiple subsidiary entities, both within India and across key international markets. These subsidiaries were established with specific mandates—either to offer specialized value-added services or to cater to niche product segments within

the freight forwarding domain. This approach allowed us to strengthen our presence across the logistics value chain and deliver end-to-end freight forwarding solutions, tailored to the diverse needs of our clientele. Below is a comprehensive overview of the business activities conducted by our subsidiaries and associates, along with the value-added services they provide to enhance operational efficiency and drive the sustained expansion of the Skyways Group:

Our business operations are supported by a strategically established network of 15 branch offices located across India, enabling us to manage international logistics flows with consistency, reliability, and local expertise.

We leverages advanced technology to transform and optimize the freight forwarding process—making the movement of goods across international borders more efficient, faster, and cost-effective. Through the automation of critical functions such as quotation generation, shipment tracking, and route optimization, we significantly reduce operational costs, minimize manual errors, and enhance customer satisfaction by providing real-time updates and seamless online booking capabilities.

Our technology subsidiary, sGate Tech Solutions, plays a pivotal role in this digital transformation by developing tailored software solutions that streamline logistics operations and deliver actionable insights for smarter, data-driven decision-making. Among its flagship products are SLS HIKE and SLS 100X.

- **SLS HIKE** is an end-to-end logistics management platform designed to oversee the entire shipping lifecycle. It features real-time shipment tracking, interactive dashboards, and automated workflow management, enabling greater transparency, efficiency, and control throughout the supply chain.
- **SLS 100X** is a dynamic booking engine that allows users to quickly compare and book competitive air freight rates ensuring faster turnarounds and enhanced pricing visibility.

In addition, our fully automated accounting system simplifies and accelerates financial operations by efficiently managing invoicing, reconciliations, and reporting tasks—further reducing manual effort and improving overall operational productivity.

Our company is committed to maintaining the best possible standards of quality, compliance, and operational excellence. As part of this commitment, we have earned several prestigious industry certifications and recognitions that reflect our adherence to globally recognized best practices and quality benchmarks. These accreditations not only reinforce our credibility within the logistics and supply chain sector but also demonstrate our ongoing dedication to delivering reliable, secure, and efficient services.

The certifications and recognitions awarded to our company include the following:

S. No.	Certification	Validity
1.	ISO 9001:2015 in recognition of the organization's Quality Management System.	17/01/2027

OUR COMPETITIVE STRENGTHS

- Experienced Promoters
- Comprehensive range of Logistics Solutions
- Broad network of partners that enhances reach
- Strong collaborations with a diverse and wide-ranging customer base
- Information Technology and its Infrastructure driving Operational Effectiveness
- Long-standing business relationships with clientele

- ***Experienced Promoters:***

Our group is led by experienced promoters Mr. Yashpal Sharma and Mr. Tarun Sharam, having a cumulative experience of more than two decades in logistics industry. The deep understanding of trade dynamics, regulatory framework and cargo operations has been instrumental in building the business over the years. Their leadership ensures strategic decision making, risk mitigation and ability to foresee and act upon emerging global trade trends thus giving a long-term competitive edge.

- ***Comprehensive Range of Logistics Solutions***

We provide a comprehensive suite of services that includes air cargo, ocean cargo, express cargo and parcel delivery, customs clearance, transportation of heavy goods, warehousing and inventory management, tailored supply chain solutions, cross-border express and freight services, as well as advanced supply chain management software. This wide-ranging service portfolio is one of our key differentiators and strategic value propositions.

By adopting a diversified and customer-centric approach, we significantly enhance client retention and satisfaction. Our clients benefit from a seamless logistics experience, as they can access all essential services under one roof, eliminating the complexity and inefficiencies associated with coordinating multiple vendors. This integrated model not only optimizes service delivery but also reinforces our position as a trusted, full-spectrum logistics partner.

In recognition of our commitment to quality and operational excellence, our company has been accredited by United Accrediting Services Limited (UASL) for compliance with the Quality Management System standards in accordance with ISO 9001:2015. This certification, bearing registration number 7477/QMS/0121, remains valid through January 2027 and serves as a testament to our adherence to global best practices and continuous improvement.

Furthermore, our integrated business model allows us to strategically leverage synergies across our extensive network and infrastructure, thereby reducing dependence on any single service line. This diversification enhances our operational resilience by mitigating the effects of sector-specific or client-specific business cycles, ensuring greater consistency and stability in performance.

- ***Broad network of partners that enhances our reach.***

We have cultivated enduring, long-term partnerships with our carriers by consistent business dealings and adapting to their evolving logistics requirements. Our secure time-tested relationship with major international and regional airlines forms a backbone of our company's efficient air freight operations. These partnerships have translated into preferred capacity allocations, better rates, priority handling and dependable services even during high demand or capacity constraint periods.

Our company maintains strategic affiliations with several prominent global logistics networks, including the World Cargo Alliance (WCA), Air & Ocean Partners (AOP), Combined Logistics Networks (CLN), Multi Group Logistics Network (MGLN), Global Freight Alliance (GFA), Transport Worldwide International Group (TWIG), and Parnity. Collectively, these networks encompass over 26,300 logistics partners and exclusive agents worldwide, providing us with extensive reach and collaborative capabilities across key international trade lanes.

Through these global partnerships, we are able to significantly broaden our international service footprint without incurring the additional burden of fixed infrastructure costs. By leveraging the established global presence and operational capabilities of our network partners, we can deliver efficient, scalable, and cost-effective logistics solutions that meet the diverse and evolving needs of our clients around the world.

- Strong collaboration with a diverse and wide-ranging customer base**

We serve a diverse and wide-ranging clientele across multiple industry verticals, including Textile & Apparels, consumer durables, electronics, lifestyle and fashion, fast-moving consumer goods (FMCG), industrial products, automotive, healthcare, and retail. Our integrated logistics capabilities allow us to effectively address the unique supply chain needs of each of these sectors, positioning us as a preferred logistics partner for businesses of varying scale and complexity.

In addition to serving large enterprises, we cater to a broad network of smaller air freight forwarders, sub-agents, and logistics firms that typically manage lower-volume shipments for airlines and carriers. By acting as a freight consolidator, we aggregate these smaller volumes to create significant shipment loads, thereby unlocking greater operational efficiency and cost advantages. This consolidation model enables us to secure highly competitive freight rates through our strong relationships and extensive network of airline partners—rates that would otherwise be challenging for individual operators to obtain on their own.

- Information Technology and its Infrastructure driving Operational Effectiveness.**

We have strategically integrated advanced information technology into our comprehensive supply chain solutions, thereby substantially enhancing the value proposition we offer to our clients. One of the key features of our technological infrastructure is the ability to provide container-wise tracking, enabling customers to monitor the real-time status and location of their shipments with precision and transparency.

Currently, our proprietary software platform, SLS 100x, is actively deployed by a robust user base comprising 2,088 registered users, including both direct customers and authorized agents. This extensive adoption underscores the platform's reliability and effectiveness in meeting diverse operational needs across the supply chain.

In addition to our proprietary platform, we leverage sophisticated business intelligence tools, such as Microsoft Power BI, to aggregate, analyze, and visualize complex data sets through interactive graphical dashboards. These dashboards offer actionable insights that support data-driven decision-making for both our internal teams and customers.

Through the integration of cutting-edge technology and analytics, we continuously strive to optimize operational efficiency, enhance customer experience, and foster informed strategic planning across the entire logistics ecosystem.

Our IT system significantly enhances operational efficiency and reliability. It features:

- Robust Credit Control Mechanisms:** We implement stringent credit control protocols designed to uphold financial integrity across all transactions. These controls are augmented by comprehensive exception reporting and real-time alert systems, which proactively detect and

flag any operational or financial irregularities related to shipments, thereby enabling timely intervention and risk mitigation.

- **Direct Airline Integrations:** Our logistics platform is directly integrated with Qatar Airways for booking, pricing and tracking capabilities. In addition to our direct integration, we are also integrating our platform with all other major airlines through third party service provider. This seamless integration facilitates efficient booking through our proprietary portal and provides real-time shipment tracking capabilities, significantly enhancing the overall efficiency and transparency of our logistics operations.
- **Advanced Technology Adoption:** Our system harnesses cutting-edge technologies such as Optical Character Recognition (OCR), Robotic Process Automation (RPA), and machine learning algorithms to automate data capture and processing. This technological integration substantially reduces the need for manual data entry, thereby improving accuracy, accelerating workflows, and increasing operational productivity.
- **Employee Empowerment via Digital Tools:** Our internal employee application, “Theo,” serves as a comprehensive self-service portal that empowers our workforce of over 400 employees. The platform provides easy access to essential resources, facilitating knowledge sharing, training, and streamlined communication to enhance overall employee engagement and operational effectiveness.
- **Safety and Operational Excellence:** To further ensure safety and regulatory compliance, we employ driver behaviour monitoring systems that provide continuous oversight and promote responsible driving practices. Moreover, our system offers dynamic pricing integration across multiple service operators and enables in house team to generate direct airway bills (AWBs) through our portal, thereby increasing operational flexibility.

These integrated features collectively position our IT system as a powerful tool for operational excellence and competitive advantage.

- ***Long-standing business relationships with the clientele***

We are committed to cultivating enduring, long-term partnerships with our clients by consistently anticipating and adapting to their evolving logistics requirements through the delivery of innovative, market-responsive solutions. Our comprehensive expertise in logistics is underpinned by the integration of cutting-edge technology, a steadfast commitment to quality assurance, reliable and timely delivery performance, and the implementation of cost-efficient operational processes. This holistic approach has been instrumental in securing a high rate of repeat business and fostering strong loyalty among our core clientele. The accompanying table provides a detailed illustration of the sustained and trusted relationships we have nurtured with our clients since the inception of our company, reflecting our unwavering dedication to service excellence and customer satisfaction.

Our longstanding partnerships with clients provide us with profound insights into their diverse logistics requirements, enabling us to design and deliver customized freight solutions that are precisely aligned with their operational objectives. This deep understanding not only enhances our

ability to consistently meet and exceed client expectations but also serves as a strong foundation for attracting new business opportunities from prospective clients within the same industry verticals. By leveraging these established relationships and sector-specific expertise, we continue to expand our footprint and reinforce our position as a trusted logistics partner.

OUR BUSINESS STRATEGIES

- ***Keep growing and strengthening the scope of our current business operations.***

Offering quality services at attractive prices is a key aspect of maintaining and expanding our relationships with our customers. To that end, we have adopted several initiatives designed to improve our cost efficiency, and as one of our primary business strategies, we intend to continue improving our cost efficiency. According to the **D&B Report**, the logistics market in India was valued at USD 107.16 billion (INR 9 trillion) in FY23 and is projected to reach USD 159.54 billion (INR 13.4 trillion) by FY28, growing at a compounded annual growth rate (CAGR) of 8-9%.

We are committed to continuously enhancing our operational efficiencies through the implementation of diverse supply chain management and cost optimization strategies. Our ongoing initiatives include improving process efficiency and workforce optimization to maximize productivity while minimizing overhead. We actively pursue cost reduction measures, incorporating value analysis techniques across our service offerings to identify and eliminate non-essential expenses without compromising quality or service standards.

Leveraging our proprietary software platforms, SLS 100X and SLS Hike, we streamline customer inquiry management and maintain a comprehensive database of Master Airway Bills. This technological integration significantly reduces reliance on manual intervention, thereby improving accuracy, accelerating response times, and enhancing overall customer satisfaction.

Furthermore, we are dedicated to sustained investment in operational excellence programs throughout the organization, fostering a culture of continuous improvement and innovation that drives long-term value creation for both our clients and stakeholders.

As a comprehensive logistics solutions provider, we strategically leverage both backward and forward integration to optimize cost efficiencies and streamline service delivery across the supply chain. By internalizing critical functions such as last-mile delivery and customer support, we significantly reduce reliance on external courier services and call centre providers, thereby eliminating associated fees while ensuring a consistently high standard of service reliability and responsiveness.

This end-to-end control over upstream procurement and downstream distribution operations enables us to retain greater revenue within the organization, uphold uniform quality standards, and deliver holistic logistics solutions that address the full spectrum of our clients' needs.

Our implementation strategy includes the phased acquisition of key operational assets, targeted investments in scalable and innovative technologies, and comprehensive training programs designed to empower our workforce. Through these initiatives, we aim to establish ourselves as a cost-effective, integrated logistics provider capable of delivering seamless, value-driven services that enhance customer satisfaction and competitive advantage.

- ***Increase the development of infrastructure.***

Our company is focused on strengthening its operations by investing in infrastructure, improving efficiency, and expanding our global and regional networks to better meet customer needs and respond to emerging market opportunities. Our primary objectives focus on augmenting capacity to handle higher freight volumes and a wider range of cargo types, strengthening connectivity through the development of additional hubs and strategic partnerships, advancing operational efficiency via automation and cutting-edge technologies, and positioning the company for sustainable growth

within rapidly expanding sectors such as emerging markets and e-commerce.

Currently, we operate three strategically located warehouses encompassing a total area of 30,000 square feet. These facilities are meticulously designed to maximize efficiency, ensure full compliance with regulatory standards, and uphold reliability throughout the freight forwarding process. Cargo handling is conducted with the utmost care to prevent damage, ensuring integrity throughout the logistics cycle.

Our dedicated team manages the comprehensive documentation process, including the accurate filing of Shipping Bills with Indian Customs and overseeing all requisite regulatory compliance. For courier shipments, we perform thorough X-ray screening and prepare all necessary customs clearance documentation at the Courier Terminal, coordinating closely with relevant authorities to facilitate timely delivery.

Additionally, we meticulously schedule customs clearance and logistics operations to guarantee the prompt loading and dispatch of shipments, thereby consistently delivering enhanced value to our clients and stakeholders through reliable and efficient service execution.

- ***Strengthen and enhance our connections with customers.***

Our strategic objective is to expand our business share within the existing client base by delivering customized, comprehensive supply chain solutions that precisely address their unique operational requirements and industry-specific demands. We leverage valuable insights and best practices acquired through our engagements with diverse clients to continuously refine and enhance these solutions. For example, we have successfully standardized and integrated high-quality cargo handling protocols—initially developed for select clients—across the broader supply chains of multiple customers, thereby elevating overall service excellence. Additionally, by implementing distributed order fulfilment strategies, we have enabled certain automotive spare parts manufacturers to achieve delivery speeds comparable to those of leading e-commerce platforms, significantly enhancing their competitive positioning.

Concurrently, we are actively pursuing market penetration into new industry sectors to diversify and strengthen our client portfolio. Our forward and backward integration initiatives have effectively expanded our customer network, creating additional avenues for growth and collaboration.

Looking ahead, we plan to introduce an expanded range of services and operational capabilities, including traditional non-express freight, domestic air cargo, urban last-mile distribution, and specialized temperature-controlled logistics solutions. These enhancements are designed to augment the value proposition we offer, ensuring comprehensive support for both our existing clientele and prospective customers in an increasingly dynamic and competitive marketplace.

- ***Improve and strengthen our technological abilities, including both software and hardware.***

We remain steadfast in our commitment to driving innovation by continuously advancing our technological capabilities and data management systems, supported by the recruitment of top-tier engineering talent. Our strategic focus encompasses the development and deployment of sophisticated software solutions tailored to optimize and streamline our operational processes.

Our subsidiary, SGate Tech Solutions Pvt Ltd., has successfully developed two proprietary technology platforms, namely SLS Hike and SLS 100x, which have significantly enhanced our operational efficiency and customer experience. Currently, we are in the advanced stages of developing the next-generation platform, SLS 100x 2.0, which promises to deliver even greater functionality and performance.

This innovative system facilitates seamless real-time integration with major carriers, including airlines and shipping lines, enabling instantaneous booking, dynamic rate comparisons, and comprehensive end-to-end shipment tracking. The platform empowers customers with self-service capabilities,

allowing them to independently manage bookings, evaluate competitive rates, access detailed schedules and transit times, and oversee shipment progress with minimal manual intervention, thereby enhancing transparency, accuracy, and operational agility.

- Venture into rapidly developing global markets**

Our company is methodically targeting high-growth emerging markets with strong GDP growth, increasing trade volumes, and infrastructure challenges to drive revenue and build an international presence. Through thorough market research and competitor analysis, we identify service gaps and tailor our freight forwarding solutions—offering flexible transportation, last-mile delivery, and advanced digital tools like real-time tracking and route optimization. This positions us as a trusted partner adept at managing complex logistics environments.

To ensure efficient market entry, we prioritize forming strategic partnerships with local logistics providers, customs brokers, and government agencies. These collaborations provide vital market insights, ensure regulatory compliance, and reduce initial investment costs, enabling us to establish and grow sustainably in these emerging regions.

We'll expand our foreign network by forging partnerships with local logistics providers, shipping lines, and airlines, establishing regional hubs in high-growth areas like Southeast Asia or the Middle East, and creating urban micro-hubs to strengthen last-mile delivery for e-commerce and urgent shipments. Currently, our company, along with its subsidiaries and associate entities, maintains operations across ten countries: Thailand, Bangladesh, the United Kingdom, Cambodia, Vietnam, Hong Kong, Dubai (UAE), United State of America (USA) Canada and Germany. The revenue contributions from these regions, as reflected in the Restated Consolidated Financial Information for the period ended December 31, 2024 and for the Fiscal Years ended March 31, 2024, 2023, and 2022, are detailed below:

Our company air freight forwarding service encompasses the end-to-end management of cargo transportation by air, facilitating the shipment of goods across domestic and international locations. Air freight forwarding is particularly suited for time-sensitive consignments, high-value products, or shipments requiring expedited delivery. Our expertise in air freight logistics ensures optimized routing, carrier selection, and compliance with aviation regulations, thereby enabling our clients to benefit from

reduced transit times and enhanced supply chain responsiveness.

Our comprehensive air freight operations encompass the transportation of a wide spectrum of cargo types, ranging from routine consignments such as textiles and household goods to specialized shipments including hazardous materials and perishable products. For details of type of cargo handled by us, please refer to table titled "Details of commodities (industry wise) handled by our company for the period ending on 31st December 2024 and for the fiscal year ending on 31st March 2024, 2023 and 2022" on page no.

We manage end-to-end logistics—from the collection of cargo at warehouses or manufacturing facilities to delivery at shipping terminals—while meticulously overseeing customs clearance procedures, preparing all requisite documentation, and generating airway bills. Furthermore, we offer customized warehousing and cargo handling solutions tailored to the specific requirements of our clients, guaranteeing the secure, efficient, and timely delivery of goods across diverse supply chain scenarios. Our business process flow is demonstrated as under

We provide the following air freight solutions, depending on our customer's requirements:

- **Door-to-Airport Service:** We assume full responsibility for the secure and timely collection of shipments directly from our clients' premises, followed by efficient delivery to the designated import/export warehouses, ensuring seamless handover for subsequent air freight processing.
- **Airport-to-Airport Service:** We facilitate the transportation of cargo from the origin airport or customs-bonded warehouse to the corresponding import/export warehouse at the destination airport, managing all logistical and regulatory requirements to ensure smooth transit between key international hubs.
- **Value Added Services:** Our company also provides supply chain consulting services and value-added services such as Logistics Planning and Management, Technology Integration, Entry strategies into various countries, Cost Optimization and Data Management Strategies.

In response to the escalating demands of cross-border e-commerce, we have introduced comprehensive port-to-port freight forwarding services to and from India. Our integrated logistics platform seamlessly connects a vast network of global carriers and airlines, providing shippers with a unified, transparent view of both express and freight shipments on a worldwide scale. This holistic approach enables efficient management and tracking of cargo, ensuring timely and reliable delivery across international markets.

To support our expanding global footprint, we have established eight strategically located subsidiary companies across key international markets, dedicated to managing freight forwarding, customs clearance, pickup, and last-mile delivery services. Notably, our subsidiary Skyways SLS Cargo Services LLC, launched in 2021, has significantly extended our operational reach into the Middle East, granting customers direct access to our robust Indian logistics network. Furthermore, we have strengthened our presence in Europe and Asia by incorporating subsidiaries in Germany, Hong Kong, Vietnam, Cambodia,

and the United Kingdom, complemented by two associate partnerships in Bangladesh and Thailand. Our company is also a registered partner in six prominent international logistics networks, enhancing our capability to provide comprehensive, globally coordinated freight solutions.

Cold Storage

Our cold storage facilities, located at ACLC 2, 60 meters from the air cargo terminal at Indira Gandhi International (IGI) Airport, provide a practical solution for storing pharmaceuticals and other temperature-sensitive cargo. With 375 square feet of space, the facility is designed to maintain the quality and security of stored goods. Its location supports efficient handling, transportation, and distribution, suitable for businesses needing reliable access to global supply chains.

The facility is equipped with advanced features to guarantee consistent and optimal storage conditions. It is hermetically sealed to prevent contamination by dust, pollutants, or external environmental factors, thereby safeguarding the cargo from potential degradation. The structure incorporates termite-proof construction to eliminate risks associated with pest infestations. Additionally, an integrated moisture control system meticulously regulates humidity levels to prevent condensation and maintain dryness, ensuring that all packages remain intact and in optimal condition throughout storage and handling.

Security and monitoring are of paramount importance at our facility. The facility is equipped with a 24/7 video surveillance system, featuring strategically positioned cameras that provide full coverage to ensure the utmost protection of stored goods. Continuous temperature regulation is maintained through advanced sensor technology and automated control systems, which enable real-time monitoring and data logging. This system promptly issues alerts in the event of any temperature deviations, thereby guaranteeing strict compliance with the regulatory standards required for pharmaceuticals and other perishable products.

Our cold storage facility stands as a reliable and secure solution, leveraging its strategic proximity to Indira Gandhi International (IGI) Airport to optimize operational efficiency. Designed to accommodate critical medical supplies and a wide range of temperature-sensitive cargo, it ensures the preservation of product integrity throughout the entire storage and delivery process. Consistent environmental controls, combined with an advantageous location, position this facility as an essential asset for businesses demanding the highest standards in cold chain logistics.

Custom Broking Services

Our dedicated customs brokerage team meticulously prepares and verifies all necessary documentation well in advance of import and export deadlines to ensure seamless compliance with regulatory requirements. We expertly manage the end-to-end process of export and import cargo handling, including customs clearance formalities and associated logistics operations at strategically located Container Freight Stations (CFS). These CFS facilities, situated in close proximity to major ports and key inland trade hubs across India, have played a vital role in facilitating efficient and timely EXIM (export-import) trade for numerous years. Our expertise in navigating complex customs procedures ensures

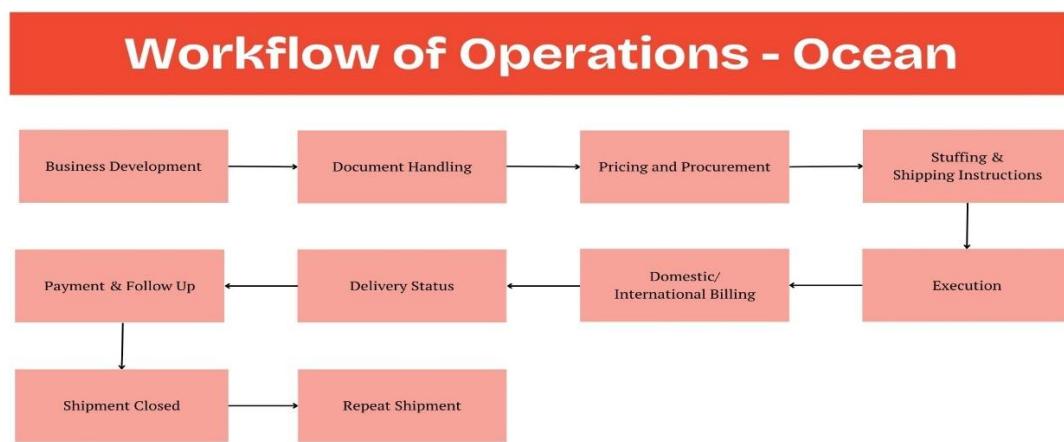

that shipments are processed promptly, minimizing delays and optimizing the overall supply chain performance for our clients.

INFORMATION TECHNOLOGY

In 2020, our Company undertook a strategic acquisition of sGate Tech Solutions Pvt. Ltd., a move aimed at substantially augmenting our technological capabilities and accelerating the digital transformation of our supply chain solutions. This acquisition has enabled us to leverage sGate's proprietary, in-house developed platforms—namely "SLS HIKE," "Cargo Dash," and "SLS 100X"—which collectively serve as powerful tools that elevate both operational performance and customer experience.

These advanced platforms provide real-time shipment tracking, comprehensive order management, scheduling of booking, and streamlined operational workflows, thereby significantly enhancing efficiency across all facets of freight forwarding. Designed with the objective of revolutionizing traditional logistics processes, these solutions deliver actionable data-driven insights, enhance operational flexibility, and empower our teams and clients alike to optimize decision-making and drive sustained business growth. Through this integration of cutting-edge technology, we reaffirm our commitment to innovation and excellence within the global supply chain landscape.

Our competitive advantage is founded upon the strategic integration of cutting-edge technology, extensive industry expertise, and a broad global footprint. We specialize in delivering bespoke, agile, and scalable logistics solutions meticulously designed to empower enterprises to excel within complex, large-scale supply chain environments.

Our proprietary digital platforms leverage a cloud-native, microservices-based architecture, which ensures exceptional scalability, robustness, and rapid deployment capabilities. This technological foundation allows us to efficiently implement innovative logistics solutions across varied geographic regions and industry sectors. Moreover, it enables us to seamlessly transfer and adapt technological advancements and best practices from one domain to another, thereby consistently generating enhanced value and operational excellence for our clients.

Through seamless integration with clients' existing IT infrastructures, our solutions facilitate the development of long-term, collaborative partnerships that significantly enhance operational performance and business outcomes. Leveraging a demonstrated history of delivering measurable improvements in efficiency, innovation, and process optimization, we are uniquely positioned to spearhead transformative advancements within the logistics sector. We are committed to embracing agility and supporting sustainable growth, with a focus on building resilience and adaptability to navigate future challenges and opportunities.

- **SLS HIKE**

SLS HIKE is a customized iteration of the Cargo Dash platform, developed exclusively for use by our Company. This comprehensive, all-encompassing software solution is meticulously engineered to optimize and streamline the entire freight forwarding lifecycle. Constructed on a robust, secure, and widely trusted technology foundation utilizing the LAMP (Linux, Apache, MySQL, PHP) stack, HIKE empowers our operations by efficiently managing every phase of the shipping process—from initial shipment identification through to final delivery completion.

The platform offers real-time shipment tracking and status updates, coupled with an advanced pricing engine that supports instant price quotations for air freight services. This includes seamless handling of bulk cargo, special equipment bookings, and dynamic pricing adjustments tailored to diverse logistical requirements. In addition to automating the digitization and secure management of shipping documents, HIKE facilitates the generation of electronic Air Waybills (eAWBs), further enhancing operational accuracy and compliance.

By integrating these capabilities, HIKE significantly elevates operational efficiency, transparency, and responsiveness, positioning our company at the forefront of innovative freight forwarding technology solutions.

- **Real-Time Shipment Tracking:** Our platform offers a highly intuitive, user-friendly interface that provides comprehensive visibility into shipment details, invoicing status, and real-time tracking updates. This enables stakeholders to monitor cargo movement with precision and transparency throughout the supply chain.
- **Seamless Integration and Digital Document Management:** The system is seamlessly integrated with over 52 leading shipping lines through secure API connections, ensuring end-to-end supply chain visibility. It supports fully digitized, paperless document workflows, enhancing security, reducing processing times, and facilitating effortless compliance with regulatory requirements.
- **Advanced Automation and Business Intelligence:** Leveraging cutting-edge technologies such as Optical Character Recognition (OCR), Robotic Process Automation (RPA), and Machine Learning, our platform minimizes manual intervention, streamlines operations, and improves accuracy. Additionally, integrated Power BI analytics empower users with actionable insights into revenue trends, cost optimization, and overall profitability.
- **Role-Based Custom Reporting and Alerts:** The system provides tailored reports and automated alerts aligned with user roles, enabling precise monitoring of shipment statuses and adherence to Standard Operating Procedures (SOPs). This ensures operational consistency and proactive issue resolution.

- **Comprehensive Performance Analytics and Interactive Dashboards:** Detailed analytics track the performance of sales personnel, branches, and carriers, offering valuable metrics to drive operational improvements. Real-time, visually rich dashboards facilitate informed strategic decision-making and strengthen negotiation leverage with stakeholders.

- **SLS 100X**

SLS 100X is a smart, user-friendly platform allows customers to easily manage both air and ocean shipments through one simple interface, focusing on speed, clarity, and giving users full control over their logistics process.

- **Unified Query and Real-Time Chat Support:** Our platform offers a centralized system for managing all air and ocean freight-related queries, providing users with instant access to real-time chat functionality. This enables prompt communication for shipment modifications, issue resolution, and ongoing assistance, ensuring enhanced customer engagement and operational responsiveness.
- **Competitive Bidding Mechanism:** The system intelligently routes freight service requests concurrently to multiple vetted providers, facilitating a competitive bidding environment. This approach ensures the selection of the most cost-effective rates and optimal turnaround times, thereby maximizing value and efficiency for our clients.
- **Seamless ERP Integration and Centralized Document Management:** Fully integrated with leading Enterprise Resource Planning (ERP) systems, our platform centralizes document processing and management. This integration streamlines query handling, accelerates workflow execution, reduces administrative overhead, and enhances overall operational accuracy and transparency.

- **SLS 100X 2.0**

The upcoming SLS 100X 2.0 takes digital freight forwarding to new heights with:

- **Comprehensive Carrier Integration and Real-Time Shipment Tracking:** Our platform is seamlessly integrated with leading airlines and direct shipping lines, providing access to real-time freight rates, booking capabilities, and comprehensive end-to-end shipment status updates. This integration ensures enhanced visibility, precise scheduling, and proactive management of logistics operations.
- **Automated Self-Service Booking System:** Empowering users with instantaneous access to comparative freight rates, transit schedules, and turnaround times from multiple service providers, our system facilitates seamless and fully automated booking processes. This capability streamlines decision-making, accelerates transaction times, and enhances overall operational efficiency.

In the contemporary landscape dominated by artificial intelligence and automation, our organization has implemented a fully integrated Enterprise Resource Planning (ERP) accounting system designed to optimize and streamline our financial operations with exceptional precision and efficiency. This advanced system automatically captures and records all pertinent financial transactions into our accounting software at the close of each business day, subsequent to the generation of essential documentation including invoices, delivery orders, air waybills, and other critical shipping and billing records. By automating these journal entries, we substantially minimize manual intervention and processing time, thereby empowering our finance professionals to redirect their focus toward strategic initiatives and value-driven activities that are fundamental to advancing our business objectives.

In addition, our organization has secured exclusive deployment rights to a proprietary suite of next-generation software solutions developed by our wholly owned subsidiary, sGate Tech Solutions Pvt. Ltd.

This robust and innovative technology portfolio includes highly specialized applications such as **Hike** and **SLS 100X**, both of which play a pivotal role in significantly enhancing our operational workflows and elevating the quality of service delivered to our clients.

These advanced digital platforms are engineered to offer clients a seamless and fully integrated user experience. Among their many features, they provide real-time access to comprehensive transaction histories, including granular data on shipment tracking at the individual container level. This high level of transparency and detail enables our clients to maintain greater control over their operations, reduce manual intervention, and streamline decision-making processes.

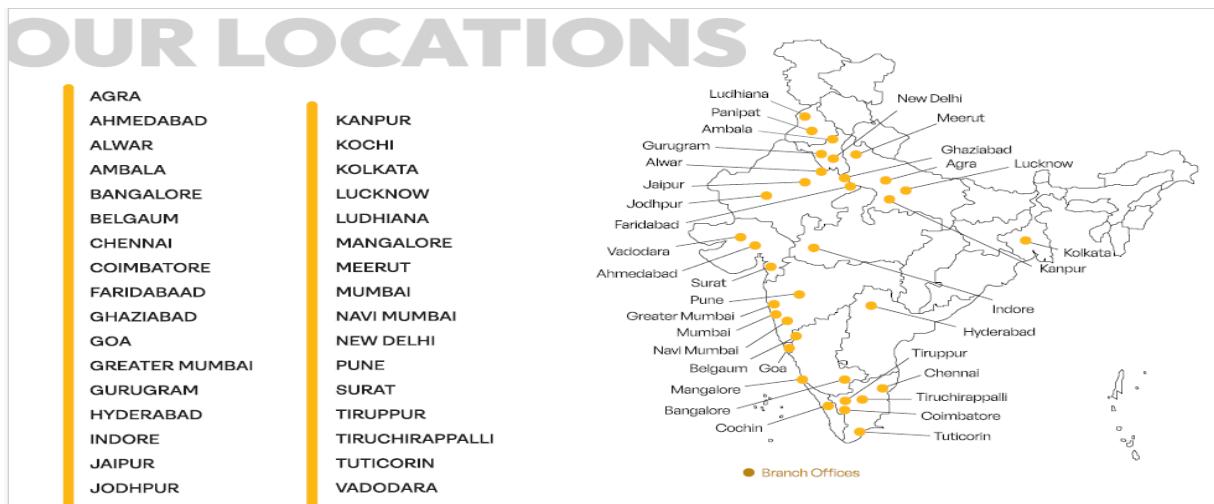

Moreover, the software solutions are designed to work in tandem with industry-leading business intelligence tools such as **Microsoft Power BI**. Through this integration, users gain access to customizable and visually intuitive dashboards, which not only present key performance metrics but also support in-depth, data-driven analysis. This empowers stakeholders to make well-informed strategic decisions based on accurate, up-to-date insights.

Collectively, the deployment of this cutting-edge technological ecosystem underscores our commitment to innovation, operational excellence, and customer-centric digital transformation.

UTILITIES AND INFRASTRUCTURE FACILITIES

Our warehouse operations are meticulously structured to optimize efficiency, regulatory compliance, and operational reliability at every stage of the freight forwarding cycle, thereby delivering measurable value to both our clients and stakeholders. These operations are not merely functional but strategically aligned with our commitment to service excellence and process integrity.

The warehousing process begins with the systematic offloading of cargo, during which shipments are received from a wide range of domestic and international sources. Each consignment is handled with precision and care, following rigorous handling protocols specifically designed to mitigate the risk of damage and ensure safe transfer into storage.

Our warehousing infrastructure is equipped to support segmented and specialized storage solutions, tailored to accommodate the distinct requirements of various cargo types. General cargo is stored under standard warehousing conditions, ensuring accessibility and protection. Perishable goods are maintained in temperature-controlled environments, preserving their integrity and freshness. Hazardous or dangerous goods are handled and stored in accordance with strict safety and compliance standards, as per the relevant regulatory frameworks, including adherence to national and international guidelines for dangerous goods management.

Prior to dispatch, all shipments undergo a detailed verification process, where dimensions, weight, labeling, and packaging standards are cross-checked against applicable transport and regulatory requirements. This step ensures that shipments are compliant, clearly identifiable, and safely prepared for the next leg of their journey.

Documentation plays a foundational role in our warehouse operations. Our experienced team is proficient in preparing and filing all necessary export documentation, most notably the Shipping Bill with Indian Customs, ensuring complete and timely compliance with legal and procedural mandates. For courier shipments, an additional layer of scrutiny is applied through mandatory X-ray screening, followed by the preparation of appropriate documentation at the Courier Terminal. We then facilitate hand-over to authorized customs personnel for clearance and onward delivery, ensuring a seamless and compliant process.

The final phase of the warehousing operation involves shipment loading and dispatch, which is conducted through a well-coordinated system of scheduling and logistics. This phase includes aligning dispatch timelines with customs clearance procedures, ensuring minimal delays and guaranteeing timely departures.

To support our operations, we manage two strategically located warehouses with a combined total area of 12,111 square feet, offering ample capacity and geographic flexibility. These facilities serve as vital nodes in our logistics network, enabling us to manage high volumes with agility while maintaining operational consistency across all service lines.

One of our warehouse facility is strategically located at ACLC 2, Opp. Gate no. 6, Cargo Terminal, Near New Custom House, IGI Airport, New Delhi – 110037 which is in close proximity to the Delhi Airport Cargo Terminal. Spanning 10,975 square feet, this warehouse is designed to support efficient logistics and distribution operations, ensuring seamless handling of goods. This facility is also equipped with a dedicated cold storage facility having a area of 318 square feet. This facility is staffed by a team of 25 specialized personnel which plays a critical role in supporting our operations.

In addition to our core warehousing capabilities at Delhi, we also operate a strategically located at the General warehouse building, Kempegowda International airport. Spanning an area of 1136 square feet and staffed by a team of 4 specialized personnel, this facility plays a critical role in supporting our south India operations.

Power

Our business operations involve substantial energy consumption due to the continuous functioning of critical infrastructure such as lighting systems, IT hardware, servers, and various facility utilities. To meet these power requirements, we primarily rely on the respective State Electricity Boards, sourcing electricity through conventional state grid channels and local power distribution networks at each of our operational sites across India.

Recognizing the critical importance of uninterrupted power supply—especially in a high-dependence logistics and technology-driven environment—our organization has implemented a comprehensive energy backup strategy to mitigate the impact of potential power disruptions. This strategy includes the deployment of solar energy systems, diesel generator (DG) sets, inverters, and uninterruptible power supply (UPS) units at key branch locations.

As part of our sustainability and energy resilience initiatives, our Company has installed two solar panel systems with capacities of 17.5 kW and 15.3 kW respectively. These solar installations not only provide an environmentally friendly power alternative but also reduce dependency on conventional grid-based electricity, enhancing operational continuity and cost efficiency.

To further safeguard against unexpected power outages, we have installed five high-capacity diesel generator (DG) sets, with a combined maximum output of up to 320 KVA. These generators are strategically located to ensure rapid activation during outages, thereby maintaining seamless operations and avoiding downtime in mission-critical processes.

This integrated approach to power management—comprising both renewable and conventional backup solutions—demonstrates our commitment to operational resilience, sustainability, and infrastructure readiness. It reflects our proactive stance in ensuring energy security while aligning with broader environmental responsibility goals.

SALES AND MARKETING SETUP

Marketing constitutes a vital pillar of our business strategy, playing a central role in driving growth, strengthening brand equity, and fostering long-term client relationships. Our company fully acknowledges the strategic importance of marketing and has accordingly built a dedicated, skilled team of marketing professionals focused on the effective promotion of our services and the enhancement of our brand presence in both domestic and international markets.

The cornerstone of our sustained success lies in the strong and enduring relationships we have nurtured over time with our long-standing clients. These relationships have been further solidified under the leadership of our Promoter, Mr. Yash Pal Sharma, who brings to the organization deep industry experience and an extensive network of professional contacts. His ability to combine these connections with our unwavering commitment to providing high-quality, safe, and timely solutions has significantly strengthened our operational framework and opened up new avenues for business expansion.

To ensure continued customer satisfaction and retention, our marketing and client servicing teams maintain regular and proactive engagement with clients. These interactions are aimed at understanding and anticipating their evolving requirements, preferences, and business challenges, thereby enabling us to offer tailored and value-driven solutions that foster loyalty and long-term partnerships.

Strategically, we have expanded our market presence across select domestic and international geographies based on thorough analysis of sales potential, availability of cost-efficient infrastructure, and access to skilled human resources. This targeted expansion has allowed us to optimize resource deployment while capturing new growth opportunities in high-potential regions.

Our experienced and forward-thinking management team plays an important role in this journey. Through strong leadership, clear communication, and active mentorship, they align the efforts of teams at all levels with the organization's strategic objectives. Their ability to motivate and empower subordinates creates a cohesive and performance-driven culture, making them instrumental in steering the company toward its broader goals of sustainable development and long-term prosperity.

ENVIRONMENT SOCIAL AND CORPORATE GOVERNANCE INITIATIVES

We have established a **Corporate Social Responsibility (“CSR”) Policy** in strict compliance with the provisions of the Companies Act, 2013 and the corresponding rules framed thereunder. This policy outlines our commitment to responsible corporate citizenship and serves as a guiding framework for planning, executing, and monitoring initiatives that contribute to the welfare of society.

To oversee the implementation of our CSR strategy, our Board of Directors has constituted a Corporate Social Responsibility Committee (**“CSR Committee”**). This Committee is entrusted with the responsibility of formulating and recommending CSR initiatives, proposing the annual CSR budget, and monitoring the progress and impact of ongoing projects. The CSR Committee also ensures that all initiatives are aligned with our policy objectives and comply with the applicable legal and regulatory requirements. For detailed information on the composition and functioning of the CSR Committee, please refer to the section titled **“Our Management – Board Committees – Corporate Social Responsibility Committee”** on page 301.

At the core of our CSR philosophy lies a deep commitment to the upliftment and empowerment of the communities in which we operate. One of our key focus areas is education for underprivileged children, which we believe is foundational to long-term societal development. In line with this objective, we have implemented programs that provide free access to quality education, including free tuition, school uniforms, textbooks, and transportation facilities. These initiatives are designed not only to reduce the financial burden on families but also to promote inclusive and sustained educational outcomes for children from economically weaker sections.

In recognition of the importance of consistent funding for such social impact initiatives, the Board of Directors, in its meeting held on May 20, 2024, approved an annual contribution of up to INR 83 lakhs for the financial year 2024–25 towards CSR activities. The total CSR expenditure obligation for the period ending December 31, 2024, has been determined at ₹ 60.97 lakhs, in accordance with statutory requirements.

Through these efforts, our Company continues to contribute meaningfully to the well-being of society while fulfilling its responsibilities as a conscientious and forward-thinking corporate entity.

COMPETITION

We operate within a highly competitive and dynamic business environment, contending with a broad range of companies that provide freight forwarding, supply chain, and integrated logistics solutions. The level of competition we face is influenced by several interrelated factors, including the type and sensitivity of cargo, the overall contract value, anticipated profit margins, the complexity of logistical operations, destination-specific requirements, and the associated risks in revenue realization.

In the competitive bidding process—particularly for large-scale logistics contracts—clients typically assess a variety of criteria to evaluate and select service providers. These factors include, but are not limited to, the quality and consistency of service delivery, technical capabilities, proven track record, depth of industry experience, compliance with health and safety standards, and access to a pool of trained and qualified personnel. While all these elements are important in influencing client decisions, pricing often becomes the decisive factor, especially in tenders and procurement processes, significantly impacting the ability to secure contracts.

We acknowledge that some of our competitors may possess greater financial resources, wider service networks, advanced technological infrastructure, or more established brand recognition than we currently command. These competitive advantages may enable them to offer more aggressive pricing, broader service portfolios, or more flexible contract terms, thereby posing challenges to our market penetration and client retention strategies.

Our most direct competitive pressures stem from companies that operate in the same geographic and operational regions as we do, including well-established industry players such as Delhivery Ltd., TVS Supply Chain Solutions Ltd., Mahindra Logistics Ltd., Flomic Global Logistics Ltd., as well as a host of regional and niche service providers. The presence of these firms intensifies the competitive landscape and increases the complexity of sustaining and expanding our market share.

We recognize that the inability to effectively compete in this environment—whether due to pricing pressures, service limitations, or operational constraints—could materially affect our business operations, financial performance, and long-term growth prospects. For further discussion of these challenges, please refer to ***"Risk Factor No. 47 – We operate in a highly fragmented and competitive industry, and increased competition or improved performance by our competitors may adversely affect our business, financial condition, results of operations, and cash flows."*** on page 70.

DATA SECURITY

We are committed to protecting our systems, data, and communications through a comprehensive, multi-layered cybersecurity framework designed to ensure the confidentiality, integrity, and availability of our digital assets. This framework integrates advanced technical controls, stringent access policies, and proactive risk management strategies aligned with industry best practices. Regular reviews, audits, and employee training further enhance our security posture and operational resilience.

To safeguard our internal networks against unauthorized access and external threats, we deploy enterprise-grade firewalls at all office locations. These firewalls serve as a critical first line of defense by

continuously monitoring and filtering network traffic to prevent intrusions and maintain secure connectivity. Together, these measures reinforce our commitment to maintaining robust digital security and fostering trust among our stakeholders.

At the forefront of our cybersecurity strategy is the comprehensive protection of all endpoint devices, achieved through the deployment of **Kaspersky Endpoint Detection and Response (EDR)**. This state-of-the-art security solution offers continuous, real-time monitoring of our entire device ecosystem, enabling the early identification and rapid mitigation of emerging cyber threats. By leveraging sophisticated detection algorithms and behavioural analysis, Kaspersky EDR effectively identifies and neutralizes a wide spectrum of risks, including malware infections, ransomware attacks, and advanced persistent threats, thereby significantly reducing the potential for operational disruptions.

Beyond mere detection, Kaspersky EDR provides automated response capabilities that enable swift containment and remediation of security incidents without compromising business continuity. This proactive approach to endpoint security ensures that vulnerabilities are addressed promptly, maintaining the integrity and confidentiality of critical systems and data. Through rigorous endpoint oversight, we uphold a secure and resilient operational environment, fostering confidence among our stakeholders and reinforcing our commitment to safeguarding digital assets against an ever-evolving threat landscape.

Our server and web platforms are fortified through Cloudflare's comprehensive security suite, which includes:

- Distributed Denial of Service (DDoS) mitigation to maintain service availability.
 - A Web Application Firewall (WAF) to protect against application-layer attacks.
 - SSL/TLS encryption to secure data in transit.
 - A Content Delivery Network (CDN) to enhance performance while bolstering security.
- These measures collectively ensure that our infrastructure remains resilient against evolving threats.

Our Company ensures the integrity of critical data and the continuity of business operations through the implementation of a comprehensive, multi-tiered backup strategy. This strategy encompasses snapshot-based backups of all servers, providing rapid recovery points, alongside secure cloud-based backups facilitated by Acronis, which offer reliable off-site data storage and protection against localized disruptions. Additionally, we maintain manual encrypted backups on external hard drives, which are stored offline in highly secure, access-controlled environments to safeguard against potential cyber threats and physical damage. To further mitigate risks, we conduct regular and rigorous testing of our data recovery processes, thereby minimizing the likelihood of data loss and ensuring swift and effective restoration of systems in the event of an incident.

Complementing our data protection measures, we maintain a strict access control policy grounded in the principle of least privilege, restricting user permissions to only what is necessary for their roles. This is supported by the enforcement of robust password management protocols, which include mandatory periodic password rotations, adherence to stringent complexity requirements, and a rigorous password hygiene policy. These controls collectively fortify our system access points, significantly reducing the risk of unauthorized access and enhancing our overall cybersecurity posture.

Our communication infrastructure, facilitated through Google Workspace (Gmail Suite), is secured by multiple, robust layers of protection to safeguard sensitive information and maintain operational integrity. We enforce mandatory Two-Factor Authentication (2FA) for all users, which serves as a critical control in preventing unauthorized access. This is complemented by a stringent password rotation policy, requiring regular updates to credential credentials to reduce vulnerability to compromise. Furthermore, we are in the process of integrating Advanced Threat Protection (ATP) capabilities designed to shield our email communications from sophisticated cyber threats, including phishing attacks, email spoofing, and advanced malware, thereby reinforcing the security of all sensitive exchanges.

Our cybersecurity framework remains dynamic and adaptive, evolving continuously to meet the challenges posed by an ever-changing threat landscape and to remain in full alignment with prevailing industry standards and best practices. Through the deployment of these comprehensive security measures, we demonstrate our unwavering commitment to the protection of critical data and IT assets, thereby preserving the confidence of our customers, partners, and stakeholders while ensuring the sustained resilience and reliability of our business operations.

INDUSTRY/BUSINESS/TRADE RELATED LAWS

The National Logistics Policy, 2022 ("NLP")

The NLP was approved by the Union Cabinet on September 21, 2022, in furtherance to the P M GatiShakti National Master Plan ("NMP"). While the NMP is directed towards development of integrated infrastructure and network planning, the NLP provides for efficiency in services (processes, digital systems, regulatory framework) and human resources. Key objectives of the NLP are:

- (a) **Integration:** To promote inter-modality and multi-modality through seamless integration of processes, digital systems, policies and legislative requirements.
- (b) **Optimization:** To promote and ensure the optimal utilisation of logistics infrastructure through synergistic usage.
- (c) **Standardization:** To standardize physical assets, processes, taxonomy, benchmarking of service quality standards, in the logistics sector.
- (d) **Modernization:** To promote greater adoption of information communication technology, upgraded infrastructure, use of drones, automation, innovation, green logistics, international best practices and to facilitate integration with the global value chain.
- (e) **Formalisation:** To reduce fragmentation in the sector, promote excellence, mainstream logistics in higher education, up skilling and re-skilling of existing workforce.
- (f) **Democratization:** To promote inclusivity by addressing needs of logistics supply and user side (agriculture and manufacturing sector and internal and external trade) and encourage public-private participation.

As a strategy to reduce logistics costs, the NLP proposes to:

- (i) enhance the efficiency of transport systems by promoting the development of multimodal, interconnected infrastructure;
- (ii) improve warehousing through development of warehouses with optimal spatial planning and facilitating private investment in warehouses;
- (iii) strengthen inventory management by improving supply chain reliability through promotion of digitalisation in different aspects of inventory management; and
- (iv) improve efficiency in regulatory matters and order processing to facilitate development of a regulatory and policy environment wherein government policies would not act as an impediment to infrastructure development in the country, and also to promote and support investments by all stakeholders including the private sector.

The Customs Act, 1962 ("Customs Act")

The Customs Act came into force on February 1, 1963, and has been enacted for the purpose of consolidating and amending the law relating to customs along with the levy of duty of customs. The Customs Act deals with appointment of customs ports, airports, warehousing stations, etc. The Central Board of Indirect Taxes and Customs ("CBIC") has the power to appoint ports and airports as customs ports and customs airports and inland container depots for the loading of export goods and unloading of import goods or any class of such goods. CBIC also has powers to appoint places that can be designated as land custom stations, routes by which goods specified by notification under the Customs

Act may pass. The Commissioner of Customs has been conferred power under the Customs Act to approve proper places in any customs port or airport or coastal port for the unloading and loading of goods and specify the limits of any custom area. CBIC also has the power to declare places to be warehousing stations where public warehouses may be appointed and private warehouses be licensed. The Commissioner of Customs also under the Customs Act has a power to appoint boarding stations in or near any customs port and for the purpose of boarding or disembarkation from vessels by officers of customs.

The Customs Act also stipulates provisions relating to clearance of imported goods and export goods. For the clearance of imported goods, certain restrictions have been imposed on the custody and removal of imported goods. The Customs Act sets out the procedure to be followed in case of goods which are not cleared, warehoused or transhipped within 30 days after unloading and for storage of imported goods in warehouses pending clearance. Procedure has been laid down under the Customs Act for clearance of export goods.

Further, the act includes provisions for goods in transit, the transit and transshipment of certain goods without payment of duty, liability of duty on goods transited / transhipped and the transport of certain classes of goods subject to prescribed conditions.

The Customs Act prescribes provisions for appointment of public warehouses, licensing of private warehouses, warehousing bond and permission for deposit of goods in a warehouse. It also deals with the period for which goods can remain in the warehouse, control over warehouse goods, payment of rent and warehouse charges, owner's right to deal with warehoused goods, manufacture and other operations in relation to goods in a warehouse.

The Customs Act prescribes rules and regulations governing Custom Brokers Power to exempt imported materials used in the manufacture of goods in warehouse, removal of goods from one warehouse to another, clearance of warehoused goods for home consumption / exportation, allowance in case of volatile goods and cancellation and return of warehousing bond has also been made clear by the Customs Act. Goods must not be taken out from the warehouse except as provided by the Customs Act or improperly removed from the warehouse, etc.

Further, the Customs Act deals with stores- defined as goods intended for use on vessels or aircraft. Such stores may be allowed to be warehoused without assessment to duty. Provisions have also been made regarding transit and transshipment of stores. Imported stores may be consumed on board a foreign going vessel or aircraft without payment of duty. Similarly, goods produced or manufactured in India and required as stores on any foreign going vessel or aircraft may be exported free of duty.

Additionally, the Customs Tariff Act of 1975 establishes applicable rates for the imposition of customs duties as per the provisions outlined in the Customs Act of 1962.

Customs Brokers Licensing Regulations, 2018 and amendments thereunder

In exercise of the powers conferred by sub-section (2) of Section 146 of the Customs Act, 1962 (52 of 1962), and in supersession of the Customs House Agents Licensing Regulations 2004, the Customs Brokers Licensing Regulations, 2013 were notified vide Notification no.65/2013-Customs (N.T) dated 21.06.2013, as amended by Notification no. 01/2016 dated January 5, 2016. This regulation is one of the principal legislations for the purpose of governing the regulation of customs house agents. No person shall engage in the business of a custom broker in connection with the entry or departure of a conveyances or the import or export of goods at any customs station within the country unless it holds license granted under these regulations. However, such license is not transferable. No separate license shall be required in cases where in addition to a customs house handling imports by sea, there is also an international airport to handle imports by air, even if both facilities fall under the jurisdiction of a different Commissioner of Customs. Each customs broker is required to enrol as a member of the Customs Brokers' Association at every jurisdiction he operates, provided such an Association registered

in the customs station, where the customs broker is operating and recognised by the Principal Commissioner of Customs or Commissioner of Customs, as the case may be.

International Commercial Terms (“Incoterms”)

Incoterms are standardized trade definitions most commonly used in international sales contracts. Devised and published by the International Chamber of Commerce (“ICC”), incoterms play a vital role in facilitating global trade by clearly defining the responsibilities of buyers and sellers in cross-border transactions. The ICC introduced the first version of Incoterms in 1936 and has since periodically updated them to reflect evolving trade practices and logistics frameworks. The most recent version, Incoterms 2020, came into effect on January 1, 2020. It supersedes earlier versions, including Incoterms 2000 and Incoterms 2010. However, earlier versions may still be applicable if expressly incorporated into valid contracts.

Proper use of Incoterms helps avoid misunderstandings and disputes by specifying the allocation of risk, delivery obligations, and cost responsibilities between contracting parties. This fosters legal clarity and promotes mutual confidence in international trade relationships.

Some of the widely used Incoterms include:

- **EXW (Ex Works)**
- **FOB (Free on Board)**
- **CIF (Cost, Insurance and Freight)**
- **CPT (Carriage Paid To)**
- **DDP (Delivered Duty Paid)**

Users of Incoterms should always reference the applicable edition (e.g., “Incoterms 2020”) in their contracts to ensure consistency and legal enforceability.

Montreal Convention 1999 (“MC99”)

The Montreal Convention 1999 establishes a modern compensatory regime in respect of passengers who suffer death or injury caused by an accident during international carriage by air. It also provides a simplified liability regime for baggage and air cargo where it also facilitates the use of electronic documents of carriage in place of paper. MC99 sets liability limits for airlines, ensuring fair compensation for consumers in cases of injury, death, delay, baggage and cargo issues. Additionally, it allows for the use of electronic tickets and air waybills, significantly reducing paperwork and operational costs for airlines. This modernization has simplified processes and enabled more efficient risk management. As per the latest liability limits for passenger and cargo claims under MC99, increased as of 28 December 2024, as announced by the International Civil Aviation Organisation (ICAO), limit for destruction, loss, damage, or delay of baggage is set to 1,519 SDRs. The limit for destruction, loss, damage, or delay of cargo is set to 26 SDRs per kilogram. A 6-month grace period after 8 December 2024 was provided to give air carriers the ability to properly manage their AWB stock. Editorial changes have been made to all affected IATA Resolutions and Recommended Practices to reflect the revised liability limits without further Conference action required. As of the date of DRHP, 1 SDR is equivalent to 122.51 Indian Rupees.

Motor Vehicles Act, 1988 (“Motor Vehicles Act”) and Central Motor Vehicles Rules, 1989

The Motor Vehicles Act, along with the rules prescribed thereunder, regulate all aspects of motor vehicles in India. This includes the licensing of drivers, registration of motor vehicles, control of motor vehicles through permits, special provisions relating to state transport undertakings, insurance, liabilities, offences, and penalties. Accordingly, the Motor Vehicles Act places a liability on every owner of, or person responsible for, a motor vehicle to ensure that every person who drives a motor vehicle holds an effective driving license. Further, the Motor Vehicles Act requires that an owner of a motor vehicle bear the responsibility of ensuring that the vehicle is registered in accordance with the provisions of the Motor Vehicles Act and that the certificate of registration of the vehicle has not been suspended or cancelled. Further, the Motor Vehicles Act prohibits a motor vehicle from being used as a transport vehicle unless the owner of the vehicle has obtained the required permits authorizing him/her to use the vehicle for transportation purposes. Under the 2019 amendment to the Motor Vehicles Act, the

penalties for violating the provisions of the Act have been further increased and are slated to increase by 10% every three years. The Central Motor Vehicles Rules, 1989, is a set of rules prescribed under the Motor Vehicles Act, which lay down the procedures for licensing of drivers, driving schools, registration of motor vehicles and control of transport vehicles through issue of tourist and national permits. It also lays down rules concerning the construction, equipment and maintenance of motor vehicles and insurance of motor vehicles against third party risks.

The Motor Transport Workers Act, 1961 (“MTW Act”)

The MTW Act regulates the welfare of motor transport workers and governs the conditions of their employment. Every motor transport undertaking employing five or more motor transport workers is required to comply with the provisions of the MTW Act. Among other provisions, the MTW Act stipulates compliances related to working hours, payment of wages and protection of the welfare and health of employees. Any contravention of a provision regarding employment of motor transport workers is punishable with imprisonment, a fine, or both.

Information Technology Act, 2000 (“IT Act”) and Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011.

Our Company specializes in developing software solutions for various industries, focusing primarily on education, travel, and enterprise resource planning (“ERP”). Our offerings include University Resource Planning (URP) systems, which streamline educational administration, as well as travel solutions, enhancing travel agency operations. During providing digital learning platforms, online exam systems, and customized ERP solutions tailored to specific business needs. Our Company and its operations are governed by IT Act. The IT Act provides legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as electronic commerce. It also gives legal recognition to digital signatures and facilitates storage of data. The IT Act applies to offences or contraventions committed outside India as well. If the conduct of person constituting the offence involves a computer, a computerized system, or network located in India, then irrespective of the nationality of the person involved, the individual is punishable under the IT Act.

Digital Personal Data Protection Act, 2023 (“DPDP Act”)

The DPDP Act was first introduced in 2019 as the Personal Data Protection Bill, 2019 (“Bill”). The Bill was introduced in Lok Sabha by the Minister of Electronics and Information Technology, Ravi Shankar Prasad, on December 11, 2019. The DPDP Act received the President assent on the August 11, 2023, and will come into force upon government notification. The DPDP Act aims to:

- i) provide for protection of the privacy of individuals relating to their personal data
- ii) specify the flow and usage of personal data
- iii) create a relationship of trust between persons and entities processing the personal data
- iv) protect the fundamental rights of individuals whose personal data are processed
- v) create a framework for organizational and technical measures in processing of data
- vi) lay down norms for social media intermediary, cross-border transfer, accountability of entities processing personal data
- vii) remedies for unauthorized and harmful processing, and
- viii) establish a Data Protection Authority of India for the said purposes and for matters connected therewith or incidental thereto.

The DPDP Act will come into effect upon government notification and will repeal the Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011.

STATUTORY AND COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, replaced the Companies Act, 1956, in a phased manner. The Companies Act, 2013 received the assent of the President of India on August 29, 2013. At present, almost all the

provisions of this law have been made effective except a few to which extent the Companies Act, 1956, is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act, 2013, primarily regulates the formation, financing, functioning, and winding up of companies. It prescribes regulatory mechanisms covering all relevant aspects including organizational, financial, and managerial aspects of companies.

Indian Contract Act, 1872 (“Contract Act”)

The Contract Act codifies the way in which a contract is entered into, executed, and implemented as well as the implications of a breach of contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breached, as amended from time to time. It determines the circumstances in which a promise made by the parties to a contract shall be legally binding on them. Each contract creates some rights and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment, and agency. Provisions relating to the sale of goods and partnerships which were originally in the Act are now the subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act, 1932. The primary objective of the Contract Act is to ensure that the rights and obligations arising out of contracts are honoured and that legal remedies are made available to those affected by a breach.

Specific Relief Act, 1963 (“Specific Relief Act”)

The Specific Relief Act is complimentary to the provisions of the Contract Act, and it applies to movable property as well. The Specific Relief Act is applicable in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights, and not merely enforcing a civil law. ‘Specific performance’ means that the court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

The Insolvency and Bankruptcy Code, 2016 (“IBC”)

The IBC, covers Insolvency of companies, Limited Liability partnerships (LLPs), unlimited liability partnerships, and individuals. The IBC has laid down a collective mechanism for resolution of insolvencies in India, by maintaining a delicate balance for all stakeholders to preserve the economic value of the process in a time bound manner. The code empowers any creditor of a Corporate Debtor (CD), irrespective of it being a Financial Creditor (FC) or an Operational Creditor (OC) or a secured or unsecured creditor, or the Corporate Debtor itself, to file an application before the Adjudicating Authority (AA) to initiate Corporate Insolvency Resolution Process (CIRP) against a Corporate Debtor, at their discretion, in the event of there being a default by the Corporate Debtor in payment of their dues for an amount as specified from time to time. Upon the initiation of the said CIRP, a resolution plan is required to be formulated and approved within a time-bound period of 180 days, extendable in certain circumstances as provided under the code.

The Arbitration & Conciliation Act, 1996 (“A&C Act”)

The A&C Act provides a legal framework for the resolution of disputes through arbitration and conciliation. The primary objective of A&C Act is to promote alternative dispute resolution mechanisms and offer cost-effective, and private alternative to court litigation. Arbitration or conciliation is initiated based on an agreement between the parties or by a court order. In arbitration proceedings, the arbitral tribunal conducts hearings, gathers evidence, and issues an award based on the proceedings. In conciliation proceedings, the conciliator engages with the parties to help them reach a mutually acceptable resolution. The arbitral award is the final decision of the arbitrator(s) and is binding on the parties. The arbitral award has the same force of decree as that the court decree.

Consumer Protection Act, 2019 (“Consumer Act”)

The Consumer Act, 2019 has repealed Consumer Protection Act, 1986 and provides for the protection of the interest of the consumers and the settlement of disputes raised by the consumers. The provisions

of the Consumer Act have been made effective vide Notification No. F. No. J-9/1/2020-CPU dated July 23, 2020, and Notification No. F. No. J-9/1/2020-CPU dated July 15, 2020, as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, inter alia, service providers in cases of deficiencies in services, unfair or restrictive trade practices, and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state, and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce, and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to inter alia remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant, and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-compliance with such orders of the authorities may result in criminal penalties, in the form of fines and/or imprisonment.

Competition Act, 2002

The Competition Act, 2002 aims to anti-competitive practices that cause, or are likely to cause, an appreciable adverse effect on competition in the relevant market in India. The act deals with the prohibition of agreements and anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the act. The *prima facie* duty of the Competition Commission of India established under the act is to eliminate practices having adverse effects on competition, promote and sustain competition, protect the interests of the consumer, and ensure freedom of trade.

Indian Stamp Act, 1899 ("Stamp Act")

Under the Stamp Act, and various other state-specific stamp legislations, stamp duty is payable on instruments evidencing a transfer, creation, or extinguishment of any right, title or interest in immovable property as well as on other instruments specified therein. Stamp duty must be paid on all such instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments that are chargeable with duty under the Stamp Act but are not duly stamped are inadmissible as evidence in the court for the transaction recorded therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

The Registration Act, 1908

The purpose of the **Registration Act**, among other things, is to provide a legal framework for the public registration of documents so as to give information to people regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud.

The Negotiable Instruments Act, 1881 ("NI Act")

In India, the laws governing monetary instruments such as cheques are contained in the NI Act. The NI Act provides effective legal provision to restrain persons from issuing cheques without having sufficient funds in their account and any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the NI Act specifically creates a statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker.

Limitation Act, 1963

The law governing the limitation of legal actions in India is currently codified under the Limitation Act, 1963 which was enacted on 5th of October, 1963, and came into force from 1st of January 1964. It replaced the earlier Limitation Act, 1859, with the objective of consolidating and amending the legal principles relating to the limitation of suits and other legal proceedings. . The basic concept of limitation is relating to fixing or prescribing of the time period for barring legal actions. According to Section 2 (j) of the Limitation Act, 1963, period of limitation means the period of limitation prescribed for any suit, appeal or application by the Schedule, and prescribed period means the period of limitation computed in accordance with the provisions of this Act.

LEGISLATIONS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948 (“ESI Act”)

The ESI Act, as amended, provides for certain benefits to employees in cases of sickness, maternity, and employment-related injury. All employees working in establishments covered under the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register their establishments under the ESI Act and to maintain the necessary records and registers as specified under the applicable rules and regulations.

Employees Provident Fund and Miscellaneous Provisions Act, 1952, and the schemes formulated there under (“EPF Act”)

The EPF Act provides for the institution of provident funds, family pension funds, and deposit-linked insurance funds for the employees in factories and other specified establishments. In accordance with the Act, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this scheme, a provident fund is constituted , to which both employer and employee are required to contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees’ Pension Scheme, 1995:** The employees’ pension scheme is designed to provide pension benefits to survivors, senior citizens, and persons with disabilities. This scheme derives its financial resources by partial diversion from the provident fund contribution; the rate is 8.33%. Thus, a part of the contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employee’s pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.
- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The SHWW Act provides for the protection of women at the workplace and the prevention of sexual harassment at the workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment, under the SHWW Act, includes one or more of the following acts or behaviours namely, physical contact and advances; a demand or request for sexual favours; making sexually coloured remarks; showing pornography; or any other unwelcome physical, verbal or non-verbal conduct of a sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an internal complaints committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the internal complaints committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the local complaints committee. Non-compliance with the provisions of the SHWW Act is punishable with a fine of up to ₹50,000 (Rupees Fifty Thousand only). .

The Payment of Wages Act, 1936 (“Wages Act”)

The Wages Act applies to persons employed in factories and to those employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than ₹ 24,000/- . The Wages Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

In order to rationalize and reform all labour laws in India, the Government of India has notified four labour codes that are yet to come into force as of the date of this Draft Red Herring Prospectus, which are as follows:

- (i) The Code on Social Security, 2020*
- (ii) The Code on Wages, 2019*
- (iii) Industrial Relations Code, 2020*
- (iv) Occupational Safety, Health and Working Conditions Code, 2020*

** These codes have become partly applicable and shall become fully effective on the day that the Government shall notify for this purpose.*

Shops and Establishment Laws

The shops and establishment laws regulate the functioning of businesses in the states where a company operates offices, godowns, or shops. It governs the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work.

The Payment of Bonus Act, 1965 (“PoB Act”)

The PoB Act, provides for payment of minimum bonuses to employees working in factories, and every other establishment where 20 or more persons are employed and requires maintenance of certain books and registers and filing of annual returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due. The minimum bonus to be paid to each employee is 8.33% of the annual salary or wage or ₹100, whichever is higher.

The Maternity Benefit Act, 1961 (“Maternity Act”)

The Maternity Act, provides for leave and the right to maternity benefits for women employees in the event of confinement, miscarriage, or other related circumstances. The Maternity Act is applicable to every establishment, including factories, mines, and plantations inter alia to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months. provided that the State Government may, with the approval of the Central Government, after giving at least two months' notice shall apply any of the provisions of the Maternity Act to any specific establishments or class of establishments, industrial, commercial, agricultural or otherwise. The Maternity Benefit (Amendment) Act, 2017 amended the Maternity Act to provide for the increase of paid maternity leave from 12 to 26 weeks (except where the mother has two or more surviving children). and the amendment also introduced a mandatory provision for creche facilities for employers with more than 50 employees.

The Minimum Wages Act, 1948 (“Minimum Wages Act”)

The Minimum Wages Act, provides a framework for State Governments to stipulate the minimum wage applicable to various industries. The minimum wage may consist of a basic rate of wages and a special allowance; or a basic rate of wages and the cash value of concessions in respect of supplies of essential commodities; or an all-inclusive rate allowing for the basic rate, the cost of living allowance and the cash value of the concessions, if any. Additionally, workmen are entitled to overtime pay at rates specified by the appropriate government.

Contract Labour (Regulation and Abolition) Act, 1970 (“CLRA”) as amended

The CLRA requires establishments that employ or have employed on any day in the previous 12 months, 20 or more workmen as contract labour to be registered and prescribes certain obligations with respect to the welfare and health of contract labour. The CLRA places an obligation on the principal employer of an establishment to which the CLRA applies to make an application for registration of the establishment. In the absence of registration, contract labour cannot be employed in the establishment. Likewise, every contractor to whom the CLRA applies is required to obtain a licence and not to undertake or execute any work through contract labour except under and in accordance with the licence issued. To ensure the welfare and health of contract labour, the CLRA imposes certain obligations on the contractor including the establishment of canteens, rest rooms, washing facilities, first aid facilities, and provision of drinking water and payment of wages. In the event that the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period.

- (iv) The Employees’ Compensation Act, 1923;
- (v) The Apprentices Act, 1961
- (vi) The Industries (Development and Regulation) Act, 1951;
- (vii) Equal Remuneration Act, 1976;
- (viii) Workmen's Compensation Act, 1923;

TAX LAWS

The Income Tax Act, 1961 (“Tax Act”)

The Tax Act, governs the taxation of individuals, corporate, partnership firms, and other entities. As per the provisions of the Tax Act, the rates at which taxes are to be paid are determined based on the income declared by the taxpayers or assessed by the authorities, after availing or allowing the deductions and concessions accorded under the Act. The maintenance of books of accounts, along with the relevant supporting documents and registers, is mandatory under the Tax Act. Filing of returns of income is compulsory for all assesses.

Goods and Services Tax (“GST”)

GST is levied on the supply of goods or services, or both, jointly by the Central and State Governments. It was introduced as the Constitution (One Hundred and First Amendment) Act, 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and is levied by the Centre on intra-state supply of goods or services, and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination-based consumption tax GST would be a dual GST system with the central and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder.

Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central or State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen-digit registration numbers known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. Once registered, the assessee is then required to pay GST as per the rules

applicable thereon and file the appropriate returns as applicable thereon. GST has replaced several indirect taxes and duties at the central and state levels.

The Professional Tax

Professional tax in India is applicable to individuals engaged in any profession, trade, calling, or employment. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. Professional tax is levied on the income of individuals, profits from business, or gains from vocations, and is governed under List II (State List) of the Seventh Schedule of the Constitution of India. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

INTELLECTUAL PROPERTY LAWS

The Trademarks Act, 1999 (“TM Act”)

The TM Act provides for the process for making an application and obtaining registration of trademarks in India. The primary objective of the TM Act is to grant exclusive rights over marks such as brands, logos, labels, used in the course of trade, and to provide legal remedies in case of infringement. The TM Act prohibits the registration of deceptively similar trademarks and provides for penalties for infringement, falsifying, and falsely applying trademarks.

Copyright Act, 1957 (“Copyright Act”)

The Copyright Act, governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical, or artistic works, as well as in cinematograph films, and sound recordings.

While a copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favouring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years from the beginning of the next calendar year, following the year in which the work is first published.

The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies including imprisonment of the accused and the imposition of fines and seizure of infringing copies.

FOREIGN INVESTMENT REGULATIONS

Foreign Trade (Development and Regulation) Act, 1992 (“FTA”) and the Foreign Trade Policy of India, 2023 (“Policy, 2023”)

The FTA seeks to increase foreign trade by regulating imports and exports to and from India. It authorizes the Government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The Foreign Trade Policy of India, 2023 is notified by Central Government, in the exercise of powers conferred under Section 5 of the FTA, as amended. In accordance with Policy 2023, an entity is required to mandatorily apply for the Importer-Exporter Code for undertaking import/export activities.

Foreign Exchange Management Act, 1999, and rules and regulations framed thereunder (“FEMA”)

Foreign investment in India is governed primarily by the provisions of FEMA which relates to regulation primarily by the RBI and the rules, regulations, and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations (as defined hereunder), no prior consents and approvals are required from the RBI, for foreign direct investment (“FDI”) under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in the exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 vide notification F.No. 1/14/EM/2015 dated October 17, 2019 (“**FEMA Regulations**”) which governs transfer by or issue security to a person resident outside India. These FEMA Regulations superseded and repealed the earlier:

- i) Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017; and
- ii) Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Foreign Direct Investment Policy, 2020

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology, and skills, for accelerated economic growth. The Government of India has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable, and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which is typically updated annually, to capture and keep pace with the regulatory changes, effected in the interregnum. The Department of Industrial Policy and Promotion (“DIPP”), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through press notes or press releases which are notified by the RBI as amendments to the Foreign Exchange Management (Transfer or Issue of Security by Persons Resident Outside India) Regulations, 2000. These notifications take effect from the date of issue of press notes/ press releases unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the RBI vide A.P. (DIR Series) Circulars. The regulatory framework, over a period, thus, consists of Acts, Rules, Regulations, Press Notes, Press Releases, Clarifications, Circulars etc.

DIVIDEND POLICY

The Board of Directors at its meeting held on **June 10, 2025**, has adopted a dividend distribution policy. The declaration and payment of dividend on our Equity Shares, if any, will be recommended by our Board and approved by our Shareholders, at their discretion, in accordance with provisions of our Articles of Association and applicable law, including the Companies Act (together with applicable rules issued thereunder).

Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, profits earned and available for distribution during the Financial Year, accumulated reserves, including retained earnings, earning stability, mandatory transfer of profits earned to specific reserves, crystallization of contingent liabilities of our Company. In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under our current or future loan or financing documents. For more information on restrictive covenants under our current loan agreements, see "**Financial Indebtedness**" beginning on page 416. Our Company may pay dividend by cheque, or electronic clearance service, as will be approved by our Board in the future. Our Board may also declare interim dividend during the Financial Year, between two annual general meetings as and when they consider fit. We may retain our earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run.

Pursuant to the Companies (Indian Accounting Standard) Second Amendment Rules, 2015, the Company adopted December 31, 2024, as reporting date for first time adoption of Ind-AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and consequently April 01, 2023, is the transition date for preparation of its statutory financial statements as at and for the period ended December 31, 2024. Hence, the financial statements as at and for the period ended December 31, 2024, were the first financials, prepared in accordance with Ind-AS. Upto the financial year ended March 31, 2024, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, ("Indian GAAP" or "Previous GAAP").

The Restated Consolidated Summary Statement:

- a) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the nine months period ended December 31, 2024 and financial years ended March 31, 2024, March 31, 2023 and March 31, 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the nine months period ended December 31, 2024; and
- b) do not require any adjustment for modification as there is no modification in the underlying audit reports. However, those qualifications in the Auditor's report and Annexure to the auditors' report issued under Companies (Auditor's Report) Order, 2020, issued by the Central Government of India in terms of sub section (11) of section 143 of the Act, as applicable, on the financial statements for the years ended March 31, 2024, March 31, 2023 and March 31, 2022 which do not require any corrective adjustments in the Restated Consolidated Financial Information have been disclosed in Annexure VI to the Restated Consolidated Summary Statement.

2.02 Basis of presentation and preparation of Restated Consolidated summary statements

The restated consolidated summary statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated summary statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 'Leases' and measurements that have some similarities to fair value but are not fair value or value in use in Ind AS 36 'Impairment of Assets'.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.03 Basis of measurement

The restated consolidated summary statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting.

2.04 Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Current assets/liabilities include current portion of non-current financial assets/liabilities respectively. All other assets/ liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

2.05 Recent accounting pronouncement

The Ministry of Corporate Affairs has amended the Companies (Indian Accounting Standards) Rules, 2015. These amendments are as follows:

(i) Lease liability in sale and leaseback transaction- Amendments to Ind AS 116:

The amendment to Ind AS 116 introduces new guidance for seller-lessees in sale and leaseback transactions. It specifies that after the commencement date, seller-lessees must apply certain paragraphs to the right-of-use asset and lease liability, ensuring no gain or loss is recognized for the right of use retained. Additionally, the amendment includes new paragraphs in Appendix C, effective from April 1, 2024, requiring retrospective application to relevant transactions. This aims to standardize the accounting treatment and enhance clarity in financial reporting for these transactions.

(ii) Introduction of new Ind AS 117, Insurance contracts:

The amendment introduced new Ind AS 117, which provides comprehensive guidance on the accounting for insurance contracts. This new standard is to apply for annual reporting periods starting on or after April 1, 2024. Ind AS 117 aims to enhance transparency and comparability in financial statements by standardising the recognition, measurement, presentation, and disclosure of insurance contracts.

The amendments had no significant impact on the Group's summary statements.

2.06 Basis of consolidation

The restated consolidated summary statements comprise the restated summary statements of the Holding Company, its subsidiaries and associates as at December 31, 2024. Control is achieved when the Group is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements
Notes forming part of the Restated Consolidated Summary Statements

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period/year are included in the restated consolidated summary statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Restated consolidated summary statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated summary statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The restated summary statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., period ended on December 31, 2024 and year ended on March 31, 2024, March 31, 2023 and March 31, 2022.

2.07 Consolidation Procedure

(A) Subsidiaries:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the restated consolidated summary statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and Property, plant and equipment, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated summary statements. Ind AS - 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the summary statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

When the proportion of the equity held by non-controlling interests changes, the Group adjust the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interests in the subsidiary. The Group recognises directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the owners of the parent.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amount at the date when control is transferred
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

(B) Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in its associates are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements
Notes forming part of the Restated Consolidated Summary Statements

The statement of profit and loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If Group's share of losses of an associate equals or exceeds its interest in the associate (which includes any long term interest that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit and loss.

The restated summary statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment less cost to sell is recognised in profit or loss.

The Group discontinue the use of equity method from the date the investment is classified as held for sale in accordance with Ind AS 105 - Noncurrent Assets Held for Sale and Discontinued Operations and measures the interest in associate held for sale at the lower of its carrying amount and fair value less cost to sell.

2.08 Business combination and goodwill

Business combinations other than those under common control transactions are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. In respect to the business combination for acquisition of subsidiary, the Group has opted to measure the non-controlling interests in the acquiree at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed in the year in which the cost are incurred and the services are received, with the exception of the costs of issuing debt or equity securities that are recognised in accordance with Ind AS 32 "Financial Instruments: Presentation" and Ind AS 109 "Financial Instruments".

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated as mentioned hereinafter

- (a) Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 "Income Tax" and Ind AS 19 "Employee Benefits" respectively.
- (b) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- (c) Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 "Non-current Assets Held for Sale" and Discontinued Operations are measured in accordance with that standard.
- (d) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract.
Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

2.09 Functional and presentation currency

These restated consolidated summary statements are presented in Indian rupee (INR), which is the functional currency of the Group.

2.10 Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customers.

Performance obligation

At contract inception, the Group assess the goods and services promised in contracts with customers and identifies various performance obligations to provide distinct goods and services to the customers.

The transaction price of goods sold and services rendered is net of variable consideration on account of various elements like discounts etc. offered by the Group as part of the contract.

Sale of services

Revenue from multimodal transport services, IT Services, Digital marketing services, training services rendered are recognised on the completion of the services as per the terms of contract. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of services rendered is net of variable consideration on account of various discounts offered by the Group as part of the contract.

Sale of Products

Revenue from contracts with customers in respect of sale of products is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation.

The Group considers, whether there are other promises in the contract in which separate performance obligations, to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of products, the Group allocates a portion of the transaction price to goods bases on its relative standalone prices.

Interest

Interest income is recognised when it is probable that the economic benefits will flow to the Group and amount of income can be measured reliably. Interest income is included under the head "other income" in the consolidated statement of profit and loss.

2.11 Cash flow statement

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit/loss before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements

2.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

2.13 Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, wherever applicable. Items such as spares are capitalized when they meet the definition of property, plant and equipment.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, on initial recognition, expenditure to be incurred towards major inspections and overhauls are identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

Subsequent costs and disposal

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing asset beyond its previously assessed standard of performance/life. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss.

Capital work in progress

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised until the period of commissioning has been completed and the asset is ready for its intended use.

Depreciation and amortisation

Depreciation on Property, plant and equipment has been provided on the straight-line method (SLM) to allocate their cost, net of their residual values, as per useful life prescribed in Schedule II to the Act. Management's assessment of independent technical evaluation/advice takes into account, inter alia, the nature of the assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support. The depreciation method, asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period prospectively.

Depreciation on property, plant and equipment is calculated on straight-line method using the useful lives of the assets estimated by management. The useful life is as follows:

Assets	Useful Life
Building	60 years
Plant & Machinery	15 years
Furniture & Fixtures	10-15 years
Vehicles	08 years
Electrical Equipment	10 years
Office Equipment	03-15 years
Computer	03-06 years
Leasehold Improvements	Over lease period or life of assets

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements

Notes forming part of the Restated Consolidated Summary Statements

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Depreciation methods, useful lives and residual values are reviewed at each financial year and changes in estimates, if any, are accounted for prospectively.

2.14 Intangible assets

Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the fair value of net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses, if any. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquire are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually or earlier, when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Other intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life. Software is amortised using the straight-line method over the estimated useful life of six years or the tenure of the respective software license, whichever is lower.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is revised to reflect the changed pattern, if any.
Subsequent costs and disposal

Subsequent expenditure related to an item of an intangible assets is added to its book value only if it increases the future economic benefits from the existing asset beyond its previously assessed standard of performance/life.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is derecognised.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements
Notes forming part of the Restated Consolidated Summary Statements

2.15 Impairment of tangible and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of all of its tangible and intangible assets to determine whether there is any indication based on internal/ external factors that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the assets (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

Borrowing costs directly relating to the acquisition, construction or production of a qualifying capital project under construction are capitalised and added to the project cost during construction until such time that the assets are substantially ready for their intended use i.e. when they are capable of commercial production. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the Group during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

2.16 Foreign currency transactions and translations

Items included in the restated consolidated summary statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Group's restated consolidated summary statements are presented in Indian rupee (INR) which is also the Holding Company's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rate prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are generally recognised in the statement of profit and loss.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

On consolidation, the results and financial position of foreign operations that have a functional currency different from the presentation currency (INR) are translated to the presentation currency (INR) in the following manner:

- (a) Assets and liabilities are translated at the rate of exchange prevailing at the reporting date.
- (b) Their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions.

Notes forming part of the Restated Consolidated Summary Statements

- (c) All resulting exchange differences arising on translation of restated summary statement of foreign operations for consolidation are recognised in other comprehensive income.
- (d) On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in statement of profit or loss.
- (e) Any Goodwill arising on the acquisition/ business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.
- (f) Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

2.17 Non-current assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense. Any expected loss is recognized immediately in the statement of profit and loss.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the assets is available for immediate sale in its present condition. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale and the sale expected within one year from the date of classification.

The Group treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset
- An active programme to locate a buyer and complete the plan has been initiated (if applicable)
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

Assets and liabilities classified as held for sale are presented separately as current items in the balance sheet.

2.18 Borrowing Costs

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to statement of profit & loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

2.19 Inventories

Inventories are valued at lower of cost and net realisable value. Cost is determined on first in first out basis. Inventory cost includes purchase price and other directly attributable costs (such as taxes other than those subsequently recovered from the tax authorities), freight inward and other related incidental expenses incurred in bringing the inventory to its present condition and location.

Net realisable value is the estimated selling price in the ordinary course of business less estimated cost necessary to make the sale.

2.20 Retirement and other employee benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined contribution plans

The Group's contribution to provident fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

The Group has a defined benefit plan (the "Gratuity Plan"). The Gratuity Plan provides a lump sum payment to employees who have completed five years or more of service at retirement, disability or termination of employment, being an amount based on the respective employee's last drawn salary and the number of years of employment with the Group.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in employee benefit expense in the statement of profit and loss.

The liability or asset recognised in the balance sheet in respect of gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date on the basis of actuarial valuation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income and are never reclassified to statement of profit and loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

2.21 Dividend

The Group recognizes a liability to pay dividend to equity holders of the Group, when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.22 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group's lease asset classes primarily comprise of lease for land and building. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) **Right-of-use assets**

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the building (i.e. 30 and 60 years).

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as a lessor:

Leases for which the Group is a lessor is classified as finance or operating lease. Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Determining whether an arrangement contains a lease

An arrangement, which is not in the legal form of a lease, should be accounted for as a lease, if:

- i) fulfilment of the arrangement is dependent on the use of a specific asset or assets (the asset); and
- ii) the arrangement conveys a right to use the asset.

At inception of an arrangement, the Group determines whether the arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Group separates payments and other consideration required by the arrangement into those for the lease and those for other elements on the basis of their relative fair values. If it is impracticable to separate the payments reliably, then a finance lease receivable is recognised at an amount equal to the fair value of the underlying asset; subsequently, the receivable is reduced as payments are made and a finance income is recognised using the interest rate implicit in the lease.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis over the lease term.

2.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company is responsible for allocating resources and assessing performance of the operating segments.

Annexure V

2.24 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

2.25 Taxes on income

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset only if, the Group:

- i) has a legally enforceable right to set off the recognised amounts; and
- ii) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the Balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax for the year

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.26 Provisions and contingencies

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements

Notes forming part of the Restated Consolidated Summary Statements

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the restated consolidated summary statements.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as Contingent liabilities and disclosed in the notes but are not reflected as liabilities in the restated consolidated summary statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Group involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingent assets are not recognised but disclosed in the restated consolidated summary statements when an inflow of economic benefits is probable.

2.27 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.28 Financial instruments

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through statement of profit and loss are recognised immediately in statement of profit and loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss (except for debt investments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the Statement of Profit and Loss.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss is included in the 'other gains and losses' line item.

Changes in the carrying amount of FVTOCI monetary financial assets relating to changes in foreign currency rates are recognised in profit or loss. Other changes in the carrying amount of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Changes in the carrying amount of FVTOCI monetary financial assets relating to changes in foreign currency rates are recognised in profit or loss. Other changes in the carrying amount of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

Impairment of financial assets

The Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

However, for trade receivables or contract assets that result in relation to revenue from contracts with customers, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Group uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements **Notes forming part of the Restated Consolidated Summary Statements**

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL. However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Group, and commitments issued by the Group to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a Group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the Group is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in statement of profit and loss. The net gain or loss recognised in statement of profit and loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements
Notes forming part of the Restated Consolidated Summary Statements

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in statement of profit and loss. The remaining amount of change in the fair value of liability is recognised in statement of profit and loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to statement of profit and loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Group that are designated by the Group as at fair value through profit or loss are recognised in statement of profit and loss.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in the 'other gains and losses' line item in the statement of profit and loss.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in the statement of profit and loss.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in statement of profit and loss.

Derivative financial instruments

The Group uses derivative forward contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

2.29 Operating cycle

Based on the nature of the operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current non-current classification of assets and liabilities.

2.30 Critical accounting judgements and key sources of estimation uncertainty

The preparation of these restated consolidated summary statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these restated consolidated summary statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the restated consolidated summary statements are included in the following accounting policies and/or notes:

Critical estimates and judgements in applying accounting policies

The following are the critical judgements, apart from those estimations that the management has made in the process of applying the Group Accounting Policies and that have most significant effect on the amounts recognised in the restated consolidated summary statements.

Provisions and contingencies

The significant capital commitments in relation to various capital projects are not recognized in the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the restated consolidated summary statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Group involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Fair value measurement of financial instruments

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. The fair values of financial assets and financial liabilities recorded in the balance sheet in respect of which quoted price in active markets are available are measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of assets

In assessing the property, plant and equipment and intangible assets for impairment, factors leading to significant reduction in profits such as changes in commodity prices, the Group's business plans and changes in regulatory environment are taken into consideration. The carrying value of the assets of a cash generating unit (CGU) is compared with the recoverable amount of those assets, that is, the higher of fair value less costs of disposal and value in use. Recoverable value is based on the management estimates of commodity prices, market demand and supply, economic and regulatory climates, long-term plan, discount rates and other factors. Any subsequent changes to cash flow due to changes in the abovementioned factors could impact the carrying value of the assets.

Annexure V

Significant Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements **Notes forming part of the Restated Consolidated Summary Statements**

Useful life of property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets as disclosed above are depreciated over their useful economic lives. Management reviews the useful economic lives at least once a year and any changes could affect the depreciation rates prospectively and hence the asset carrying values. The Group also reviews its property, plant and equipment, for possible impairment if there are events or changes in circumstances that indicate that carrying values of the assets may not be recoverable. In assessing the property, plant and equipment for impairment, factors leading to significant reduction in profits such as changes in commodity prices, the Group's business plans and changes in regulatory environment are taken into consideration.

The carrying value of the assets of a cash generating unit (CGU) is compared with the recoverable amount of those assets, that is, the higher of fair value less costs of disposal and value in use. Recoverable value is based on the management estimates of commodity prices, market demand and supply, economic and regulatory climates, long-term plan, discount rates and other factors. Any subsequent changes to cash flow due to changes in the above mentioned factors could impact the carrying value of the assets.

Contingencies and commitments

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Group. A tax provision is recognised when the Group has a present obligation as a result of a past event, it is probable that the Group will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the restated consolidated summary statements.

When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax.

2.31 Key sources of estimation uncertainty

(a) Fair value measurements and valuation processes

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. The Board of directors of the Group has designated the Chief Financial Officer of the Group determines the appropriate valuation techniques and inputs for fair value measurements.

(b) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The firm establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(c) Impairment of Financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The firm uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on firm's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(d) Impairment of non-Financial assets

The firm assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the firm estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's CGU's fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or firm's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

The Company performs test for goodwill impairment at least annually on 31st March, or if indicators of impairment arise, such as the effects of obsolescence, demand, competition and other economic factors or on occurrence of an event or change in circumstances that would more likely than not reduce the fair value below its carrying amount. When determining the fair value, we utilize various assumptions, including operating results, business plans and projections of future cash flows. Any adverse changes in key assumptions about our businesses and their prospects or an adverse change in market conditions may cause a change in the estimation of fair value and could result in an impairment charge.

The recoverable amount tests of Cash Generating Units (CGUs) are based on value-in-use, which are determined based on three year business plans that have been approved by management for internal purposes. The said planning horizon reflects the assumptions for short-to-mid term market developments. Considering this and the consistent use of such robust three-year information for management reporting purposes, the Group uses three-year plans for the purpose of impairment testing. Management believes that this planning horizon reflects the assumptions for the expected performance in the markets in which the Group operates.

Assumptions considered while performing goodwill impairment testing are as follows:

EBITDA	The EBITDA margins have been estimated based on past experience after considering the impact of incremental revenue and synergies benefits that the Group will get in future due to increase in process efficiencies. Margins will be positively impacted from the efficiencies, growth in top line and cost rationalisation / others initiatives driven by the Group.
Discount Rate	Discount rate reflects the current market assessment of the risks specific to a CGU based on the weighted average cost of capital for respective CGU. Pre-tax discount rates used for the year ended (March 31, 2024: 15.30%, March 31, 2023: 16.30%, March 31, 2022: 18.00%).
Growth Rates	The growth rates used are in line with the long-term average growth rates of the respective industry and country in which the entity operates and are consistent with the internal/ external sources of information. The average terminal growth rate used in extrapolating cash flows beyond the planning period for the year ended (March 31, 2024: 5%, March 31, 2023: 5%, March 31, 2022: 5%).
Capital Expenditure	The cash flow forecasts of capital expenditure are based on experience after considering the additional capital expenditure required to meet the business growth.

Balance at the end of the period/year	6.77	135.88	135.88	917.13
Nature and purpose of reserve:	Under the erstwhile Companies Act 1956, General Reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Group for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to General Reserve has been withdrawn. However, the amount previously transferred to General Reserve can be utilised only in accordance with provisions of the Companies Act, 2013.

35 Gratuity and other post-employment benefit plans

Disclosures pursuant to Ind AS - 19 "Employee Benefits" (notified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act) are given below :

a. Contribution to Defined Contribution Plan, recognised as expense for the period/year is as under:

The Group makes contributions towards provident fund and employee state insurance scheme to a defined contribution retirement benefit plan for qualifying employees. The Group's contribution to the Employees Provident Fund and Employees State Insurance scheme is deposited with the Regional Provident Fund Commissioner. Under the scheme, the Group is required to contribute a specified percentage of payroll cost to the retirement benefit scheme to fund the benefits.

During the year, the Group has recognised INR 134.95 Lacs (March 31, 2024: INR 107.97 lacs; March 31, 2023: INR 102.01 lacs and March 31, 2022: INR 92.64 lacs) for Employer's contributions to the Provident Fund and (INR 5.31 Lacs (March 31, 2024: INR 5.50 lacs; March 31, 2023: INR 7.91 lacs and March 31, 2022: INR 9.36 lacs) for Employee State Insurance Scheme contribution in the Statement of Profit and Loss. The contribution payable to the plan by the Group is at the rate specified in rules to the scheme.

b. Defined benefit plan - Gratuity plan

The gratuity liability arises on retirement, withdrawal, resignation and death of an employee. The assessed liability is calculated on the basis of fifteen days salary (i.e. last drawn basic salary) for each completed year of service subject to completion of five years service.

(i) Risks associated with Plan Provisions

Risks associated with the plan provisions are actuarial risks. These risks are:- (i) investment risk, (ii) interest rate risk (discount rate risk), (iii) mortality risk and (iv) salary growth risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.
Interest rate risk (discount rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability
Mortality risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-14) ultimate table.
Salary growth risk	A change in mortality rate will have a bearing on the plan's liability.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at December 31, 2024. The present value of defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

(ii) Principal actuarial assumptions:

Principal actuarial assumption used to determine the present value of the benefit obligation are as follows:

S. No.	Particulars	Refer note below	As at December 31, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
i.	Discount rate (p.a.)	1	7.00% - 7.22%	7.22% - 7.25%	7.38% - 7.50%	7.18%
ii.	Rate of return on assets	2	12.00%	12.00%	12.00%	12.00%
iii.	Salary escalation rate (p.a.)	3	5.00%-6.00%	5.00%-6.00%	5.00%-6.00%	6.00%

Notes

1. The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of obligations.

2. The expected return is based on the expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations.

3. The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

f. Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period/year, while holding all other assumptions constant.

Particulars	Funded plan				Unfunded plan			
	As at December 31, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022	As at December 31, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
(i). Impact of change in the discount rate								
a) Impact Due to Increase of	(20.76)	(18.88)	(18.09)	(16.70)	(10.15)	(7.80)	(5.12)	(5.27)
b) Impact Due to Decrease of	22.70	20.62	19.73	18.23	10.94	8.41	5.62	5.79
(ii). Impact of change in the Salary Increase								
a) Impact Due to Increase of	19.41	16.91	15.92	14.73	8.37	7.12	5.66	5.02
b) Impact Due to Decrease of	(17.85)	(15.57)	(14.71)	(13.78)	(7.79)	(6.76)	(4.72)	(4.90)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit liability recognized in the Balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

g. The expected maturity analysis of undiscounted defined benefit obligation is as follows:

	As at December 31, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
Expected cash flows over the next				
Within the next 12 months	109.12	89.12	51.90	36.23
Between 2 and 5 years	134.79	124.96	91.70	78.75
More than 5 years	571.01	478.43	320.69	306.20

h. Expected Group contributions for the next year

i. Actuarial assumptions on compensated absences

S. No	Particulars	Refer note below	As at December 31, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
i.	Discount rate (p.a.)	1	7.00%	7.22%	7.36%	-
ii.	Salary escalation rate (p.a.)	2	5.00%	6.00%	6.00%	-

Notes

1 The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of obligations.

2 The compensated absences plan is unfunded.

3 The estimates of future salary increase considered takes into account the inflation, seniority, promotion and other relevant factors.

B. Fair value measurements

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables, other current financial assets, loans and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the other financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1) The fair value of unquoted instruments, loans from banks, other non-current financial assets and non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

2) The fair values of the group's interest-bearing borrowings are determined by using effective interest rate (EIR) method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.

3) Long-term receivables/payables are evaluated by the Group based on parameters such as interest rates, risk factors, individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

4) Fair value hierarchy

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Risk management objectives

Risk management framework

The Group has exposure to the following risks arising from financial instruments:

- Market risk
- Liquidity risk
- Credit risk

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the Group's activities. The Group, through its training, standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

a) Market risk :

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments , and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of December 31, 2024, March 31, 2024, March 31, 2023 and March 31, 2022.

(i) Price risk

The Group manages surplus funds through investments in mutual fund plans. The NAV declared by Asset Management Companies (AMC) has generally remained constant on the mutual fund plans taken by the Group. However, if the NAV of the fund is increased/decreased by 5%, the sensitivity analysis has been mentioned below:

	As at	Closing balance	Impact on profit or loss	
			5% increase	5% decrease
Investments in mutual funds (Impact on profit and loss)	December 31, 2024	2,598.86	129.94	(129.94)
Investments in mutual funds (Impact on profit and loss)	March 31, 2024	1,952.36	97.62	(97.62)

Investments in mutual funds (Impact on profit and loss)	March 31, 2022	-	-	-

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in foreign currency). The group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Foreign currency risk sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, JPY, NPR, SEK, AED, AUD, CHF, HKD, DKK, GBP & SGD exchange rates, with all other variables held constant. The impact on the Group profit before tax and equity is due to changes in the fair value of monetary assets and liabilities. Foreign currency exposures recognised by the Group that have not been hedged by a derivative instrument or otherwise are as under:

(iii) Interest Rate Risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The exposure of the Group's financial liabilities to interest rate risk is as follows:

	As at	Closing balance	Impact on profit or loss	
			1% increase	1% decrease
Borrowings (Impact on profit and loss)	December 31, 2024	39,232.82	(392.33)	392.33

Borrowings (Impact on profit and loss)	March 31, 2022	15,863.51	(158.64)	158.64

b) Liquidity risk

Liquidity risk is defined as the risk that the group will not be able to settle or meet its obligations on time or at reasonable price. The group's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits, mutual funds and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the group's liquidity position through rolling forecasts on the basis of expected cash flows. The group assessed the concentration of risk with respect to its debt and concluded it to be low. The group remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet. The maturity profile of the group's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the group.

c) Credit risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Possible credit risk	Credit risk management
Credit risk related to trade receivables and loans	<p>Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The loans advanced by the Group carries interest and are granted after evaluating the purpose and credit worthiness of the counter party.</p> <p>Moreover, given the diverse nature of the Group's businesses trade receivables are spread over a number of customers with no significant concentration of credit risk. No single customer accounted for 10% or more of trade receivable on a % basis in any of the years indicated.</p> <p>Receivables are deemed to be past due or impaired with reference to the Group's normal terms and conditions of business. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. Receivables that are classified as 'past due' in the above tables are those that have not been settled within the terms and conditions that have been agreed with that customer.</p> <p>An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.</p>
Credit risk related to bank balances	<p>Group holds bank balances with reputed and creditworthy banking institution within the approved exposures limit of each bank. None of the Group's cash equivalents, including time deposits with banks, are past due or impaired. Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made in mutual funds, bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.</p> <p>The Group's maximum exposure to credit risk for the components of the balance sheet at December 31, 2024 is the carrying amounts. The Group's maximum exposure relating to financial instrument is noted in liquidity table below.</p>
	<p>Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Group.</p>

Credit risk related to investments				
The Group has made investments in highly liquid public sector mutual funds to meet their short term liquidity objectives. The Group analyses the credit worthiness of the party before investing their funds.				
The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Group does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Note:

During the year ended March 31, 2024, the holding company has split its equity share capital from face value of INR 100 per share to face value of INR 10 per share vide shareholders' approval at Extraordinary General Meeting (EGM) held on June 26, 2023. As prescribed under Ind AS 33, 'Earnings per Share' the holding company has presented basic and diluted earnings per share on considering the aforementioned share split for the current as well as previous years. Further, During the period ended December 31, 2024 and year ended March 31, 2023, the holding company has allotted 4,17,45,920 equity shares of INR 10 each and 7,81,250 equity shares of INR 100 each respectively as bonus shares to existing shareholders.

45 There were no amounts which were required to be transferred to the investor education and protection fund by the Group.

46 The Holding Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income Tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Holding Company is in the process of updating the documentation for the transactions covered under transfer pricing regulations entered into with the associated enterprises during the period and expects such records to be in existence latest by such date as required under the law. The management of the Holding Company is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

These are the Company's first financial statements prepared in accordance with Ind AS. The accounting policies set out in note 2 have been applied in preparing the financial statements for the period/year ended December 31, 2024, March 31, 2024, March 31, 2023, March 31, 2022 and in the preparation of an opening Ind AS balance sheet at April 01, 2021 (the Company's date of transition).

For all periods upto and including the year ended March 31, 2024, the Company prepared its financial statements in accordance with Generally Accepted Accounting Principles (GAAP) and complied with accounting standards as notified under Section 133 of the Companies Act 2013, read together with rule 7 of the Companies (Accounts) Rules, 2014 ('previous GAAP' or 'IGAAP') to the extent applicable and the presentation requirements of the Companies Act, 2013.

The transition of Ind AS was carried out in accordance with Ind AS 101, with April 01, 2021 being the date of transition. This note explains the exemptions on the first-time adoption of Ind AS availed in accordance with Ind AS 101 and an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Exemptions availed and mandatory exceptions

Ind AS 101 'First-time Adoption of Indian Accounting Standards' allows first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A) Ind AS optional exemptions

A.1 Investments in subsidiaries, joint ventures and associates

Ind AS 101 permits a first-time adopter to measure its investments in subsidiaries and associates at deemed cost. The deemed cost of such an investment shall be either (a) its fair value at the date of transition; or (b) previous GAAP carrying amount at that date. Either (a) or (b) can be chosen to measure the investment in each subsidiary, joint venture or associate, that it elects to measure using a deemed cost.

Accordingly, the Company has opted to measure its investment in subsidiaries and associate at deemed cost, i.e. previous GAAP carrying amount at the transition date.

A.2 Carrying value as deemed cost for property, plant and equipment and investment property

Ind AS 101 permits, where there is no change in the functional currency on the date of transition to Ind ASs, a first time adopter to Ind AS may elect to continue with the carrying value for all of its property, plant and equipment and investment properties defined as per IND AS 40 as recognised in the financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP and use that as its deemed cost as at the date of transition except to the extent of capitalisation of the government grant as at transition date.

Accordingly, the Company has elected to use the carrying value for all of its property, plant and equipment and investment property on the date of transition and designate the same as deemed cost on the date of transition.

A.3 Right of use assets and Lease liabilities

Ind AS 116 permits a first time adopter to apply this standard to its leases either retrospectively to each prior reporting period presented applying Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors; or retrospectively with the cumulative effect of initially applying the Standard recognised at the date of initial application.

Accordingly, the Company has opted to represent the Right of use assets and lease liabilities retrospectively to each prior reporting period presented.

B) Ind AS mandatory exceptions

B.1 Accounting estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were an error.

Ind AS estimates as at April 1, 2021 are consistent with the estimates as at the same date made in conformity with previous GAAP.

B.2 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

B.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets bases on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

Notes to first-time adoption of Ind-AS

- 1 **Investments in mutual funds measured at fair value:** Under the previous GAAP, investments in mutual funds were measured at lower of cost or fair value. Under Ind AS, these investments are required to be measured at fair value through profit or loss. The resulting fair value changes of these investments are recognised in the retained earnings as at the date of transition.
- 2 **Remeasurement of the defined benefit plan:** Ind AS 19 Employee Benefits requires the impact of re-measurement in net defined benefit liability (asset) to be recognized in other comprehensive income (OCI). Remeasurement of net defined benefit liability (asset) comprises actuarial gains and losses, return on plan assets (excluding interest on net defined benefit asset/liability). This was being recognised in the statement of profit and loss in Statement of profit and loss in previous GAAP.
- 3 **Deferred Tax:** Previous GAAP required deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under previous GAAP.
- 4 **Right of use assets:** Ind AS 116 requires the following accounting treatment in the books of the lessee, on the commencement of the lease:
 - A lessee recognises a Right of Use (ROU) asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.
 - A lessee measures the ROU asset at cost less accumulated depreciation and accumulated impairment losses.

PROFORMA CONSOLIDATED FINANCIAL INFORMATION

INDEPENDENT AUDITOR'S ASSURANCE REPORT ON THE COMPIRATION OF UNAUDITED PROFORMA CONSOLIDATED FINANCIAL INFORMATION

To,

The Board of Directors

Skyways Air Services Limited

(formerly known as Skyways Air Services Private Limited)

RZ 128-129A, Mahipalpur Extension,

NH-8, New Delhi-110037, India.

Dear Sir(s),

1. We have completed our assurance engagement to report on the compilation of Unaudited Pro forma Financial Information of Skyways Air Services Limited. The Unaudited Pro forma Financial Information consists of the Unaudited Pro forma Condensed Combined Balance Sheet as at December 31, 2024 and March 31, 2024, the Unaudited Pro forma Condensed Combined Statement of Profit and Loss for the period ended December 31, 2024 and year ended March 31, 2024, and related notes thereon (hereinafter referred as 'Pro forma Financial Information') as approved by the Board of Directors of the company at their meeting held on June 23, 2025. The applicable criteria on the basis of which the management has compiled the Pro forma Financial Information are specified in the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("SEBI Regulations"), as amended from time to time.

2. The Unaudited Pro forma Financial Information has been compiled by Management to illustrate the impact of acquisition of Odyssey Logistics Private Limited (the "Acquired Enterprise") subsequent to December 31, 2024 and as set out in note 2 of the Pro forma Financial Information on the Group's financial position as at December 31, 2024 and March 31, 2024 and its financial performance for the period ended December 31, 2024 and year ended March 31, 2024 as if the acquisition had taken place at the beginning of the earliest reported year presented i.e., April 01, 2023.

3. As part of this process, Information about the Group's financial position and financial performance has been extracted by the Company from the Restated Consolidated Financial Statement of the Company as of and for the nine months period ended December 31, 2024 and as of and for the fiscal year ended March 31, 2024 on which we have issued an Examination report dated June 23, 2025. The Information about the financial position and financial performance of the Acquired Enterprise have been extracted by the management of the Company from the unaudited Special purpose Ind AS Consolidated financial statements of the Acquired Enterprise as of and for the nine months period ended December 31, 2024 and unaudited Special purpose Converged Ind AS Consolidated financial statements as of and for the year ended March 31, 2024.

Management's Responsibility for the Pro forma Financial Information

4. The Management is responsible for compiling the Pro forma Financial Information on the basis stated in Note 2 to the Pro forma Financial Information and the same has been approved by the Board of Directors of the Company. The Management's responsibility includes the responsibility for designing, implementing and maintaining internal control relevant for compiling the Pro forma Financial Information on the basis stated in Note 2 to the Pro forma Financial Information that is free from material misstatement, whether due to fraud or error. The Management is also responsible for identifying and ensuring that the Group complies with the laws and regulations applicable to its

activities, including compliance with the provisions of the laws and regulations for the compilation of Pro forma Financial Information.

Auditor's Responsibilities

5. Our responsibility is to express an opinion, about whether the Pro forma Financial Information of the Group has been compiled, in all material respects, by the Management on the basis stated in Note 2 to the Pro forma Financial Information.

6. We conducted our engagement in accordance with Standard on Assurance Engagements (SAE) 3420, Assurance Engagements to Report on the Compilation of Pro forma Financial Information Included in a Prospectus, issued by the Institute of Chartered Accountants of India. This Standard requires that the practitioner comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether the Management has compiled, in all material respects, the Pro forma Financial Information on the basis stated in Note 2 to the Pro forma Financial Information.

7. For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information / Restated Consolidated financial information / Special purpose financial statements used in compiling the Pro forma Financial Information, nor have we, in the course of this engagement, performed an audit or review of the Financial Information used in compiling the Pro forma Financial Information.

8. For our assurance engagement, we have placed reliance on the following:

- a. the restated consolidated summary statements of the Group as of and for the year ended March 31, 2024 and for the nine-month period ended December 31, 2024 and the relevant supporting information; and
- b. the Special Purpose Ind AS Converged Consolidated Financial Statements of the Acquired Enterprise as of and for the year ended March 31, 2024 and Special Purpose Ind AS Consolidated Financial Statements for the nine-month period ended December 31, 2024.

9. The purpose of Pro forma Financial Information included in the Draft Red Herring Prospectus ("DRHP") is solely to illustrate the impact of combining the financial information of the Group as at December 31, 2024, and March 31, 2024 as if these entities had been undertaken at an earlier date. Accordingly, we do not provide any assurance that the actual outcome of the event or transaction at December 31, 2024 and March 31, 2024 would have been, as presented.

10. A reasonable assurance engagement to report on whether the Pro forma Financial Information has been compiled, in all material respects, on the basis of applicable criteria stated in note 2 to the Pro forma Financial Information, involves performing procedures to assess whether the applicable criteria used by the Management in the compilation of the Pro forma Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

- a. The related Pro forma adjustments give appropriate effect to those applicable criteria; and
- b. The Pro forma Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

11. The procedures selected depend on the Auditor's judgment, having regard to the Auditor's understanding of the nature of the group, the event or transaction in respect of which the Pro forma financial information has been compiled, and other relevant engagement circumstances. The engagement also involves evaluating the overall presentation of the Pro forma Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

12. Our work has not been carried out in accordance with auditing or other standards and practices generally accepted in other jurisdictions and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices.

Opinion

13. In our opinion, the Pro forma Financial Information has been compiled, in all material respects, on the basis stated in Note 2 to the Pro forma Financial Information.

Restrictions on Use

14. This report should not in any way be construed as a re-issuance or re-dating of any of the previous audit report issued by us or other Auditors. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

15. Our report is intended solely for use of the Board of Directors for inclusion in the Draft Red Herring Prospectus ("DRHP") to be filed with the Securities and Exchange Board of India, National Stock Exchange of India Limited, BSE Limited and the Registrar of Companies in connection with the proposed initial public offering of the Company. Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

The assumptions and estimates underlying the adjustments to the unaudited proforma consolidated financial information are described hereinafter which should be read together with the unaudited proforma consolidated combined statement of profit and loss and unaudited proforma consolidated combined balance sheet

The unaudited proforma consolidated financial information should be read together with the Groups 's restated consolidated summary statements and the special purpose consolidated financial statements of Odyssey Group

The business combination has been accounted for under the acquisition method in accordance with Ind AS 103 'Business Combinations'. Accordingly, Group has provisionally allocated the purchase consideration to the estimated fair value of assets acquired and liabilities assumed and recognised the difference between purchase consideration and net assets as goodwill in the unaudited proforma consolidated combined balance sheet as at December 31, 2024 and March 31, 2024

Because of their nature, the unaudited proforma consolidated financial information addresses a hypothetical situation and therefore, do not represent Group's factual financial position or results. Accordingly, the unaudited proforma consolidated financial information does not necessarily reflect what the Group's financial condition or results of operations would have been had the acquisitions occurred on the dates indicated and is also not intended to be indicative of expected financial position or results of operations in future periods. The actual balance sheet and statement of profit and loss may differ significantly from the proforma amounts reflected herein due to variety of factors.

The proforma adjustments are based upon available information and assumptions that the management of the Company believes to be reasonable. Further, such unaudited proforma consolidated financial information has not been prepared in accordance with standards and practices acceptable in any other jurisdiction and accordingly, should not be relied upon as if it had been carried out in accordance with standards and practices in any other jurisdiction. Accordingly, the degree of reliance placed by anyone on such unaudited proforma consolidated financial information should be limited. In addition, the rules and regulations related to the preparation of unaudited proforma consolidated financial information in other jurisdictions may also vary significantly from the basis of preparation as set out in paragraphs above to prepare these unaudited proforma consolidated financial information.

The restated consolidated summary statements have been adjusted in the unaudited proforma consolidated financial information to give effect to the proforma event that are (1) directly attributable to such acquisition and (2) factually supportable.

The adjustments made to the unaudited proforma consolidated financial information are included in the following sections.

The unaudited proforma consolidated financial information is based on:

- a) the restated consolidated summary statement of assets and liabilities as at March 31, 2024 and as at December 31, 2024 and restated consolidated profit and loss accounts of the Group for the year ended March 31, 2024 and for nine months period ended December 31, 2024; and

3 Proforma Adjustments

The Special Purpose Consolidated Financial Statements of Odyssey Group have been prepared in accordance with the measurement and recognition principles of Ind AS and the management of Skyways has adjusted the unaudited proforma consolidated financial information to comply with the Group's accounting policies in all material aspects (collectively referred to as "Group accounting policies" as appearing in Restated Consolidated Summary Statements). Such financial information has been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis.

The following adjustments have been made to present the unaudited proforma consolidated financial information:

Acquisition related adjustments:

(i) For unaudited proforma consolidated combined balance sheet as at March 31, 2024 and as at December 31, 2024 the total purchase consideration payable is INR 15,100.00, which includes the INR 15,100.00 paid in cash as part of the obligations undertaken by Skyways as per the contractual arrangement entered between the parties upon the acquisition, adjusted as below.

(a) The consideration for this acquisition has been financed through issue of equity share capital amounting to INR 7,577.45 lacs issued on January 30, 2025 and March 30, 2025. Accordingly, an amount of INR 806.11 lacs equivalent to face value of equity shares has been added in equity and INR 6,771.34 lacs has been added as share premium. Corresponding to the same, INR 7,577.45 lacs has been added to cash and cash equivalent. The aforesaid adjustment has been considered in unaudited proforma consolidated combined balance sheet as at March 31, 2024 and December 31, 2024.

(b) The consideration for this acquisition has been financed through borrowings taken from financial institutions amounting to INR 5,018.00 lacs. The aforesaid adjustment has been considered in unaudited proforma consolidated combined balance sheet as at March 31, 2024 and December 31, 2024.

Adjustments	Non Current Borrowings	Equity Share Capital	Other Equity	Other Bank balance	Cash & Cash Equivalent
Add: Amount raised by issue of equity share capital	-	806.11	6,771.34		7,577.45
Add: Amount arranged through redemption of Fixed deposits	-	-	-	2,424.00	2,424.00
Add: Borrowings taken by way for term loans	5,018.00	-	-	-	5,018.00
Less: Purchase consideration paid	-	-	-	-	(15,100.00)
Less: Share issue expenses	-	-	-	-	(824.50)
Total Adjustment	5,018.00	806.11	6,771.34	2,424.00	(905.05)

(c) The purchase price of INR 15,100.00 lacs as on the date of acquisition had been provisionally allocated to the acquired assets and liabilities as follows:

KEY FACTORS THAT MAY AFFECT OUR RESULTS OF SERVICES

Our results of services have been, and will be, affected by many factors, some of which are beyond our control. Our results of services and financial conditions are affected by numerous factors including the following:

1. Dependence on Trade Volumes and Economic Conditions

Our business operations and financial performance are closely linked to the volume of trade, both within India and globally. The demand for our freight forwarding and logistics services is primarily driven by the movement of goods across domestic and international markets. A slowdown in economic activity, whether due to declining industrial output, lower consumer demand, or reduced GDP growth can result in decreased cargo volumes, which may adversely affect our revenues and profitability.

We are also exposed to various external factors that influence global trade flows, including changes in international trade agreements, the imposition of tariffs or other trade restrictions, and evolving geopolitical developments. Events such as international conflicts, sanctions, or diplomatic tensions can disrupt established supply chains, alter trade routes, or delay shipments, thereby impacting our operations. In such scenarios, we may experience reduced demand for our services or face increased operational complexities and costs.

Our customer base spans several key sectors such as pharmaceuticals, textiles, automotive, electronics, and consumer goods. These industries are themselves influenced by broader economic conditions. Any contraction in production or a reduction in import-export activity in these sectors—resulting from weaker global demand, regulatory changes, or cost pressures—can lead to a decline in the cargo volumes we handle. In addition, our business is subject to seasonal fluctuations, with certain periods seeing higher volumes due to festivals, inventory cycles, or export deadlines. These

seasonal factors can contribute to variability in our operating performance across quarters.

2. Volatility in Fuel Prices and Exposure to Exchange Rate Fluctuations

Our cost structure is significantly influenced by the prices of fuel, including aviation turbine fuel (ATF), diesel, and marine fuel, which are essential inputs for the transportation and freight forwarding services we provide. Fuel-related expenses form a material component of the overall cost of operations, particularly in air and ocean freight forwarding.

The fuel price volatility directly impacts the operational costs of transportation providers we rely on, including airlines, shipping lines, and road freight operators. If these third-party providers increase their rates in response to rising fuel costs, we may face higher procurement expenses. Depending on market conditions, we may not be able to pass these increased costs onto our customers in a timely or full manner, depending on contractual arrangements, competitive pricing pressures, and prevailing market conditions. In such cases, our margins may be adversely affected. Even in instances where fuel surcharges are applicable, there may be a lag between the rise in fuel prices and the implementation or revision of corresponding surcharges, which could negatively impact our profitability during that interim period. The prices of these fuels are subject to frequent fluctuations due to various factors, including changes in global crude oil prices, regional supply-demand dynamics, taxation policies, and geopolitical events.

3. Exposure to Sectoral Trends and Shifts in Global Supply Chain Dynamics

Our business is directly influenced by the performance of key industries that form a significant part of our customer base, including pharmaceuticals, textiles, automotive, electronics, and consumer goods. These sectors are subject to cyclical trends and are sensitive to broader macroeconomic conditions, both in India and globally. Any reduction in production activity, imports, or exports in these sectors—arising from regulatory changes, declining demand, cost pressures, or supply disruptions—may lead to a corresponding decrease in freight volumes handled by us. Such reductions can adversely impact our revenue and operating margins.

We are also subject to the seasonal nature of trade activity. Certain periods, such as pre-festive seasons or financial year-end cycles, typically see increased cargo movement, while others may reflect lower volumes. These fluctuations in demand affect the utilisation of our infrastructure and resources and may lead to variations in our operational and financial performance across quarters.

4. Ability to keep a satisfied strong, experienced management team and qualified workforce:

One of the most demanding and challenging work is to keep satisfied with your entire workforce and entire management team. It's a very time-consuming process with a nonstop distribution of work assignment and planning operations. Besides, there are participating teams who also need supervision during the work, hence there is need for constant monitoring now & then.

A significant increase in our employees' attrition rate could also result in decreased operational efficiencies and productivity. Attracting and retaining experienced and qualified senior management could require increasing compensation and benefit payable to such personnel, which could affect our financial condition and results of operations.

KEY PERFORMANCE INDICATORS AND CERTAIN NON-GAAP MEASURES

In evaluating our business, we consider and use certain non-GAAP financial measures and key performance indicators that are presented below as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures and key performance indicators are not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We present these non-GAAP financial measures and key performance indicators because they are used by our management to evaluate our operating performance. These non-GAAP

financial measures are not defined under Ind AS and are not presented in accordance with Ind AS. The non-GAAP financial measures and key performance indicators have limitations as analytical tools. Further, these non-GAAP financial measures and key performance indicators may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these matrices should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation.

EBITDA and EBITDA Margin

EBITDA is defined as our profit/loss before tax less other income before finance cost and depreciation and amortization. Profit/loss before tax margin is defined as profit/loss before tax divided by revenue from operations. EBITDA margin is defined as our EBITDA as a percentage of revenue from operations.

The following table reconciles our profit/loss before tax (an Ind AS financial measure) to EBITDA for the periods indicated based on the Restated Consolidated Financial Statements.

2024, March 31, 2023, March 31, 2022, and the summary statement of material accounting Policies and Explanatory Information (Collectively, the 'Restated Consolidated Financial Information'). These Restated Consolidated Financial Information of our company has been approved by the Board of Directors of the Holding Company on June 23rd, 2025 and have been specifically prepared by the Management of the Holding Company for the purpose of inclusion in the Draft Red Herring Prospectus ('DRHP') in connection with the proposed Initial Public Offering ('IPO') of its equity shares (referred to as the 'Offer').

The Restated Consolidated Financial Information comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies Act, 2013 ('the Act'), read with Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other applicable guidance.

The Restated Consolidated Financial Information has been prepared by the Management of the Holding Company to comply in all material respects with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ('the Act').
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ('the SEBI ICDR Regulations'); and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended (the 'Guidance Note').

These Restated Consolidated Financial Information have been compiled by the Management from:

- a) Audited Special Purpose Consolidated Interim Financial Statements of our company as at and for the nine months period ended December 31, 2024 prepared in accordance with the Indian Accounting Standards ('Ind AS') 34 "Interim Financial Reporting", specified under Section 133 of the Act and other accounting principles generally accepted in India, except for the presentation of comparative financial information in accordance with Ind AS 34, (the "Special Purpose Consolidated Interim Financial Statements") which have been approved by the Board of Directors at their meeting held on June 23, 2025.
- b) Special Purpose Audited Consolidated Financial Statements of our Company as at and for years ended March 31, 2024, March 31, 2023 and March 31, 2022 prepared in accordance with the Indian Accounting Standards (referred to as 'Ind AS') as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meeting held on June 23, 2025.

The accounting policies have been consistently applied by the Holding Company in preparation of the Restated Consolidated Financial Information and are consistent with those adopted in the preparation of Audited Special Purpose Consolidated Interim Financial Statements as at and for the nine months period ended December 31, 2024.

In accordance with the principles of Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors and Paragraph 40A of Ind AS 1, Presentation of Financial Statements, the management has restated the comparative financial information for correction of certain material prior period errors pertaining to deferred tax liabilities on fair valuations of certain investments, offsetting of tax assets and tax liabilities, recognition of prepaid CSR expenses, related tax impact and certain balance sheet reclassifications/regroupings.

As required under Ind AS 33 - 'Earnings per share', the effect of such bonus issue is adjusted to the weighted average number of equity shares outstanding during the reporting periods for the purpose of computing earnings per equity share for all the period presented retrospectively. As a result, the effect

of such bonus issue has been considered in this Restated Consolidated Financial Information for the purpose of calculating earnings per equity share.

These Restated Consolidated Financial Information do not reflect the effects of the events that occurred subsequent to the respective dates of board meetings held for approval of Special Purpose Consolidated Interim Financial Statements as at and for the nine months period ended December 31st, 2024 and Statutory Purpose Consolidated Financial Statements as at and for years ended March 31, 2024, March 31, 2023 and March 31, 2022, except for the bonus issue as mentioned above

The Restated Consolidated Financial Information have been prepared so as to contain information / disclosures and incorporating adjustments set out below in accordance with the SEBI ICDR Regulations:

- Adjustments to the profits or losses of the earlier years for the changes in accounting policies if any to reflect what the profits or losses of those periods would have been if a uniform accounting policy was followed in each of these years and of material errors, if any;
- Adjustments for reclassification of the corresponding items of income, expenses, assets and liabilities, retrospectively in the period ended December 31, 2024 and March 31, 2024 and for the years ended March 31, 2023, March 31, 2022 and March 31, 2021, in order to bring them in line with the groupings as per the Restated Consolidated Financial Information for the period ended on December 31, 2024 and the requirements of the SEBI ICDR Regulations, if any; and

CHANGES IN ACCOUNTING POLICIES IN THE LAST THREE YEARS

There is no change in significant accounting policy of our Company in the last 3 Fiscal Years. For further details, please refer to chapter titled "**Restated Consolidated Financial Information**" beginning on page 317.

COMPARISON OF RESTATED CONSOLIDATED FINANCIALS FOR THE YEAR ENDED MARCH 31, 2024, WITH FISCAL YEAR ENDED MARCH 31, 2023

Total Revenue:

2023-24	2022-23	Variance in %
1,31,680.59	1,49,610.84	-11.98%

Our total revenue has decreased by 11.98 % to ₹ 1,31,680.59 Lakhs during Financial Year 2023-24 from ₹ 1,49,610.84 Lakhs during Financial Year 2022-23 bifurcated into revenue from operations and other income.

Revenue from Operations

2023-24	2022-23	Variance in %
1,28,911.01	1,48,412.31	-13.14%

Revenue from Operations has decreased by 13.14% to ₹1,28,911.01 Lakhs during the financial year 2023-24 from ₹1,48,412.31 Lakhs during the financial year 2022-23. The reason for the decrease in revenue from operations of our company is as under:

We are involved in the business of air and ocean freight forwarding, trucking, technology driven express door to door cargo & parcel. The details of the revenue breakup according to services provided by us during FY24 and FY23 are as under:

Particulars	FY 2023-24		FY 2022-2023	
	Amount	(%)	Amount	(%)
Air freight services	1,02,099.98	79.20%	1,15,081.84	77.54%

Total (A)	1,28,908.27	100.00%	1,48,412.31	100.00%
E-Commerce and Other Retail	2.74	100.00%	-	-
Total (B)	2.74	100.00%	-	-
Total (A+B)	1,28,911.01	100.00%	1,48,412.31	100.00%

As observed from the table above, the revenue from operations of our company declined by 13.14% from ₹ 1,48,412.31 Lakhs in FY 23 to ₹ 1,28,911.01 Lakhs in FY 24. The major reason behind the decrease in the revenue of the company is as under:

- Decrease in the crude oil prices in FY 24.

As a freight forwarder, our major cost relies upon the operations and rates per ton quoted by airline and shipping companies across the world. The quotation of these airline and costing companies are directly influenced by crude oil prices as the aviation turbine fuel (ATF) forms a significant part of their operating expenses. When fuel prices rise, airlines and shipping lines increase their cost per ton and pass these increased costs to freight forwarders who later pass it on to their customers as higher freight rates after adding their cost and profit margins. Through this mechanism, the shipping lines and freight forwarders ensured that fluctuations in air fuel charges are directly reflected in the prices which are paid by the end customers.

During FY24, according to US Energy Information administration (https://www.eia.gov/dnav/pet/pet_pri_spt_s1_m.htm), the average prices of per barrel of WTI crude oil decreased from **USD 90.19** per barrel in FY23 to **USD 78.01** per barrel in FY24, which constitute a decline of 13.51%. The details of the average monthly price per barrel of WTI Crude Oil during FY23 and FY24 is as under:

(USD per barrel)

Months	FY24	FY23
April	79.45	101.78
May	71.58	109.55
June	70.25	114.84
July	76.07	101.62
August	81.39	93.67
September	89.43	84.26
October	85.64	87.55
November	77.69	84.37
December	71.9	76.44
January	74.15	78.12
February	77.25	76.83
March	81.28	73.28
Average Price per Barrell	78.01	90.19

(Source: https://www.eia.gov/dnav/pet/pet_pri_spt_s1_m.htm)

Due to the decline in the prices of crude oil, the shipping companies decreased their price per ton, leading to decrease in the average cost per ton for our company. In order to maintain our competitive advantage over other air freight forwarders across the world, we also reduced our prices for our customers which led to a decrease in the average revenue generated per ton in FY24. Due to this despite there was an increase in the total volume of air cargo as well no of TEUs (*Twenty-foot Equivalent Unit*) in ocean cargo, the revenue of the company reduced in FY24. The details of the decrease in the average revenue generated per ton in air cargo and per TEUs in ocean cargo in FY23 and FY24 are as under:

Particular	FY24	FY23	%age Change
Air Cargo Volume Handled (in Tonnage)	48,013.15	41,155.79	16.66%
Ocean Containers Handled (No of TEUs)	16,294	15,478	5.27%
Average revenue per ton from air cargo (in Lakhs)	2.13	2.80	(23.93) %
Average revenue per TEUs from ocean cargo (in Lakhs)	1.01	1.86	(45.70) %

Therefore, despite an increase in our air and ocean cargo volumes by 16.66% and 5.27% respectively in FY24, the significant drop in WTI crude oil prices (from USD 90.19 to USD 78.01 per barrel, a 13.5% decline) triggered lower aviation turbine fuel and bunker-fuel surcharges—prompting airlines and shipping lines to reduce their tonnage charges, which compelled us to cut our freight rates to remain competitive, ultimately resulting in a revenue decline despite higher volumes.

a. Increase in Interest rates across the globe to curb inflation:

In FY22 due to COVID-19 pandemic, governments across the globe made massive reductions in the interest rates to provide necessary capital at a lower cost to businesses to reduce the impact of Covid 19 on various business. The monetary easing increased consumer spending boosting demand for goods globally. The reduced capacity by carriers coupled with lower inventory turnaround period of goods for manufacturers/ re-sellers led to an increase in the freight charges.

In FY 23, as the Covid-19 restriction was eased and movement of people and goods resumed to normal levels coupled with availability of excess capital in the economies across the globe, inflationary pressure increased. To manage inflationary levels, central banks across the globe including RBI (Reserve Bank of India) and US Federal Reserve, increased the interest rates to curb inflation. This monetary tightening resulted in reduced consumer spending and a contraction in global demand for goods.

A similar trend continued in FY24, RBI did not make any corrections to Repo rate and it remained at the higher end of 6.50% throughout FY24. The US Federal Reserve also continued their trend of increasing interest rates which rose from 5.00% in March 2023 to 5.50% in July 2023 and remained the same throughout FY24. Further with the increased cargo carrier capacities and flat demand of products

due to continued high interest rates led to a decrease in freight prices across the industry. With the decrease in demand, the inventory turnaround period for manufacturers increased, which led to a decrease in the logistics activities required by them.

The details of the interest rate increased by RBI and US Fed during FY23 in comparison to FY22 and FY24 in comparison to FY23 is as under:

Regulator	Period	Months	Repo Rate	% change in Repo Rate
Reserve Bank of India (RBI)	FY 23	May	4.40%	+0.40%
		June	4.90%	+0.50%
		August	5.40%	+0.50%
		September	5.90%	+0.50%
		December	6.25%	+0.35%
		February	6.50%	+0.25%
US Federal Reserve	FY23	May	1.00%	+0.50%
		June	1.75%	+0.75%
		July	2.50%	+0.75%
		September	3.25%	+0.75%
		November	4.00%	+0.75%
		December	4.50%	+0.50%
		February	4.75%	+0.25%
		March	5.00%	+0.25%
	FY 24	May	5.25%	+0.25%
		July	5.50%	+0.25%
		August to March	5.50%	-

The above factors coupled with decreasing crude oil prices, despite having increased volumes in FY24, the average revenue generated per ton in air cargo and average revenue generated per TEUs in ocean cargo fell by 21.13% and 21.85% respectively ultimately leading to a decline in the revenue of our company

Other Income

(₹ in lakhs)		
2023-2024	2022-23	Variance in %
2,769.58	1,198.53	131.08%

During the year 2023-24 the other income of our company increased to ₹ 2,769.58 Lakhs from ₹ 1,198.53 Lakhs in 2022-23, representing an increase of 131.08%. The increase is primarily attributable to a gain arising from the disposal of an investment in a subsidiary and due to interest received on bank deposits and income tax refund. This strategic divestment resulted in significant capital gain, thereby positively impacting the overall financial performance for the period.

Total Expense

(₹ in lakhs)		
2023-24	2022-23	Variance in %
1,26,843.23	1,44,321.46	-12.11%

The total expenditure for the Financial Year 2023-24 was decreased to ₹ 1,26,843.23 Lakhs from ₹ 1,44,321.46 Lakhs in 2022-23, representing a decrease of 12.11%, primarily owing to a decrease in cost of service by 13.58%. A further description is given as below:

Cost of Services

(₹ in lakhs)		
2023-24	2022-23	Variance in %
1,13,725.85	1,31,595.34	-13.58%

Cost of services for the Financial Year 2023-24 decreased to ₹ 1,13,725 Lakhs from ₹ 1,31,595.34 Lakhs in 2022-23, representing a decrease of 13.58%. This was primarily due to the decrease in operating costs of our freight, handling and servicing cost.

Changes in inventories of Stock in Trade.

0.10	-	-

The inventories of stock-in-trade for the financial year 2023–24 increased to ₹0.10 lakhs from Nil in 2022–23, primarily on account of purchases made during the year.

Employee benefits expenses

(₹ in lakhs)		
2023-24	2022-23	Variance in %
6,593.86	6,102.90	8.04%

Employee benefits expenses for the Financial Year 2023-24 increased to ₹ 6,593.86 Lakhs from ₹ 6,102.90 Lakhs in 2022-23, representing an increase of 8.04%. This is mainly due to more contribution to provident fund and other fund and increase in gratuity and staff welfare expenses.

Finance Cost

(₹ in lakhs)		
2023-24	2022-23	Variance in %
1,877.4	1,216.07	54.38%

Finance costs increased by ₹ 661.33 lakhs in 2023-24 over 2022-23, representing an increase of 54.38%. This increase was due to interest on secured and unsecured borrowings, interest on delay deposits of income tax, indirect tax and other bank charges.

Depreciation and Amortization expense

(₹ in lakhs)		
2023-24	2022-23	Variance in %
888.55	555.66	59.91%

Depreciation for the Financial Year 2023-24 stood at Rs 888.55 Lakhs as compared to Rs 555.66 Lakhs in 2022-23, showing an increase of 59.91% due to additions in fixed assets and intangible assets during the year.

Other Expense

(₹ in lakhs)		
2023-24	2022-23	Variance in %
3,755.54	4,851.49	-22.59%

Our company's other expenses saw a decrease of 22.59%, majorly due to a decrease in the following heads of expenses.

Particulars	2023-24	2022-23	Variance in %
Insurance	89.84	138.25	-35.02%
Rates and taxes	203.74	452.65	-54.99%

Allowance for expected credit loss on trade receivables	25.06	806.18	-96.89%
Miscellaneous expenses	199.38	247.06	-19.30%

The overall expenses have declined, primarily due to a reduction in key cost components such as insurance, rates and taxes, donations, legal and professional fees, allowance for expected credit loss on trade receivables, as well as advertisement and business promotion expenses aimed at enhancing sales.

Profit after tax

Particulars	2023-24	2022-23	(₹ in lakhs) Variance in %
Profit after Tax	3,449.35	3,790.27	-9.00%

Our profit after Tax for FY 2023-24 has decreased to Rs 3,449.35 Lakhs from ₹ 3,790.27 Lakhs in FY 2022-23 i.e. 9.00% due to decrease in revenue from operations. For the reasons behind the decrease in revenue of our company during FY24, please refer to section "**Comparison of Restated Consolidated Financials**" for the Year Ended March 31, 2024, With Year Ended March 31, 2023 on page 434.

Due to the decline in the prices of crude oil, the operating expenses of shipping and airline cargo carrier companies decreased leading them to reducing their freight charges. This led to a decrease in the cost of services for our company by 13.58%, the details of which are as under:

2023-24	2022-23	Variance in %	(in Lakhs)
1,13,725.85	1,31,595.34	-13.58%	

In order to maintain our competitive advantage over other freight forwarders across the world, we also reduced our prices for our customers which led to a decrease in the average revenue generated per ton in air cargo and average revenue generated per TEU in ocean cargo in FY24.

The details of the decrease in the average revenue generated per ton in air cargo and per TEUs in ocean cargo in FY23 and FY24 are as under:

Particular	FY24	FY23	%age Change
Air Cargo Volume Handled (in Tonnage)	48,013.15	41,155.79	16.66%
Ocean Containers Handled (No of TEUs)	16,294	15,478	5.27%
Average revenue per tonne from air cargo (in Lakhs)	2.13	2.80	(23.93) %
Average revenue per TEUs from ocean cargo (in Lakhs)	1.01	1.86	(45.70) %

Therefore, despite an increase in our air and ocean cargo volumes by 16.66% and 5.27% respectively in FY24, the significant drop in WTI crude oil prices (from USD 90.19 to USD 78.01 per barrel, a 13.5% decline) triggered lower aviation turbine fuel and bunker-fuel surcharges—prompting airlines and shipping lines to reduce their tonnage charges, leading us to cut our freight rates to remain competitive, ultimately reducing our revenue by 13.14% and profit after tax by 8.99% in FY24.

COMPARISON OF RESTATED CONSOLIDATED FINANCIALS FOR THE YEAR ENDED MARCH 31, 2023, WITH FINANCIAL YEAR ENDED MARCH 31, 2022

Total Revenue:

Total (B)	-	-	-	-
Total (A+B)	1,48,412.31	100.00%	1,65,856.31	100.00%

As observed from the table above, the revenue from operations of our company declined by 10.52% from ₹ 1,48,412.31 in FY22 to ₹ 1,65,856.31 Lakhs in FY 23 as per Restated Consolidated Financial Statements. The major reason behind the decrease in the revenue of the company is as under:

a. Increase in Interest rates across the globe to curb inflation:

In FY22, due to COVID-19 pandemic, governments across the globe made massive reductions in the interest rates in order to provide necessary capital at a lower cost to business to conduct ease of business. This monetary easing supported increased consumer purchasing power and higher demand for goods globally. Due to this the inventory turnaround and the freight movement increased.

In FY23, as the Covid-19 restriction were eased and movement of people and goods normalized, due to availability of excess capital in the economy, inflationary pressure increased. In order to manage inflationary levels, central banks across the globe including RBI (Reserve Bank of India) increased the interest rates to curb inflation. This monetary tightening resulted in reduced consumer spending and a contraction in global demand for goods.

The details of Interest rate increased by RBI and US Fed during FY23 in comparison to FY22 is as under:

Reserve Bank of India (RBI)	Period	Months	Repo Rate	% change in Repo Rate
	FY 22	Remained Same throughout the FY22	4.00%	-
FY 23	May		4.40%	0.4%
	June		4.90%	0.5%
	August		5.40%	0.5%

		September	5.90%	0.5%
		December	6.25%	0.35%
		February	6.50%	0.25%
Federal Reserve (US FED)	FY22	April to February	0.25%	-
		March	0.50%	+0.25%
	FY23	May	1.00%	+0.50%
		June	1.75%	+0.75%
		July	2.50%	+0.75%
		September	3.25%	+0.75%
		November	4.00%	+0.75%
		December	4.50%	+0.50%
		February	4.75%	+0.25%
		March	5.00%	+0.25%

With the decrease in the demand, the inventory turnaround period for manufacturers also increased, which led to a slowdown in international trade directly affecting the freight forwarding and logistics industry in FY23 ultimately reducing our revenue from operations.

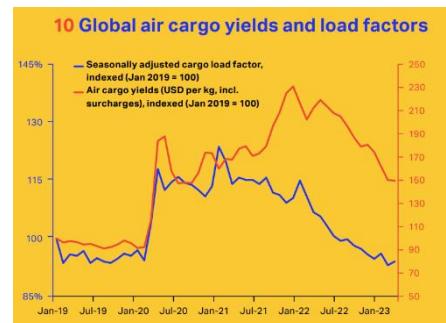

b. Declining cargo load factors and cargo yields:

According to IATA – Annual Review 2023 (<https://www.iata.org/contentassets/c81222d96c9a4e0bb4ff6ced0126f0bb/annual-review-2023.pdf>), with the decrease in the demand of goods all over the world, the cargo load factors (indicates the proportion of available cargo space that is actually utilized) and cargo yield (per kg) (indicates the revenue earned per unit of cargo transported) decreased during FY23.

Cargo Load factor refers to the proportion of available cargo space that is actually utilized. During FY22, due to lower interest rates and increased demand of products across the globe, the inventory turnaround period of goods was high and the volume of trade increased. To serve the growing demand and volume of trade, due to restriction in travel, some of the passenger planes were converted into “freighters” wherein they were used for shipment of cargo across globe. They transported about 16% of total international CTNs (cargo tonne-kilometres) in 2021.

But during FY23, the travel restrictions were lifted and human movement increased across the globe. This led to the resumption of passenger flights at normal capacity and the freighters were converted back to passenger planes. As air passenger demand recovered in 2022, however, freighters were phased out, and passenger aircraft only carried about 30% of total international CTNs. By December 2022, freighters accounted for just 1% of total international CTNs.

Further with an increase in the interest rates leading to a lower demand of goods across globe, the inventory turnaround period of manufacturers increased. The overall demand of products decreased which led to a decrease in the volume of trade. This coupled with ease in travel restriction led to an overcapacity of cargo load available with the airline and shipping companies ultimately leading to reduction in Cargo load factor in FY23. Abundance in supply of cargo space resulted in decline of cargo yield in overall air cargo sector in FY23.

The details of the same phenomena can be observed in the data of our company despite of increase in the overall volumes, the average revenue generated of per ton of air cargo decreased in FY23. The details are as under:

Particular	FY23	FY22	% of Change
------------	------	------	-------------

Air Cargo Volume Handled (in Tonnage)	41,155.79	38,757.22	6.19%
Ocean Containers Handled (No of TEUs)	15,478	11,054	40.02%
Average revenue per tonne from air cargo (in Lakhs)	2.80	3.55	(21.13) %
Average revenue per TEUs from ocean cargo (in Lakhs)	1.86	2.38	(21.85) %

Therefore, the decline in revenue from operations during FY23 was primarily due to macroeconomic factors, including tighter monetary policies aimed at managing inflation consequently reducing the demand of goods resulting in fall in global trade volumes. Additionally, factors such as lower cargo utilization rate and reduced cargo yields further contributed to the downturn, particularly in the air freight segment which constitutes a major portion of our revenue.

Other Income

2022-23	2021-22	Variance in %
1,198.53	575.32	108.32%

During the financial year 2022–23, the Company's other income increased to ₹ 1,198.53 lakhs from ₹ 575.32 lakhs in 2021–22, reflecting a growth of 108.32%. This increase was primarily driven by gains on foreign currency transactions, reversal of liabilities, as well as higher interest income and rental income earned during the year.

Total Expense

(₹ in lakhs)		
2022-23	2021-22	Variance in %
1,44,321.46	1,60,099.37	-9.86%

The total expenditure for the Financial Year 2022-23 decreased to ₹ 1,44,321.46 Lakhs from ₹ 1,60,099.37 Lakhs in 2021-22, representing a decrease of 9.86 %. This reduction is primarily attributable to a decline in the cost of services consumed during the year. The decrease in service-related expenses significantly contributed to the overall cost efficiency achieved.

Miscellaneous expenses	247.06	200.17	23.43%

The overall expenses have increased, primarily due to an increase in key cost components such as travelling and conveyance, donation and contributions, training and recruitment expenses, bank charges, allowance for expected credit loss on trade receivables, as well as advertising and business promotion expenses aimed at enhancing sales.

Provision for Tax

(₹ in lakhs)		
2022-23	2021-22	Variance in %
1,507.26	1,735.67	-13.16%

Taxable income of the company has decreased which has resulted to less payment of Income tax which has decreased by 13.16 % to ₹ 1,507.26 lakhs in the Financial Year 2022-23.

Profit after Tax

2022-23	2021-22	Variance in %
3,790.27	4,604.38	-17.68%

Our profit after Tax for FY23 has decreased to Rs 3,790.27 Lakhs from ₹ 4,604.38 Lakhs in FY 22 i.e. 17.68% majorly due to decrease in revenue from operations. For the reasons behind the decrease in revenue of our company during FY24, please refer to section "***Comparison of Restated Consolidated Financials***" for the Year Ended March 31, 2024, With Year Ended March 31, 2023 on page 434.

Due to the decline in the prices of cargo yield capacities and increasing interest rates across the globe, the operating expenses of shipping and airline cargo carrier companies decreased leading them to reducing their freight charges. This led to a decrease in the cost of services for our company by 13.58%, the details of which are as under:

(in Lakhs)		
FY23	FY22	Variance in %
1,31,595.34	1,50,967.69	-12.83%

In order to maintain our competitive advantage over other freight forwarders across the world, we also reduced our prices for our customers which led to a decrease in the average revenue generated per ton in air cargo and average revenue generated per TEU in ocean cargo in FY23.

The details of the decrease in the average revenue generated per ton in air cargo and per TEUs in ocean cargo in FY22 and FY23 are as under:

Particular	FY23	FY22	% Change
Air Cargo Volume Handled (in Tonnage)	41,155.79	38,757.22	6.19%
Ocean Containers Handled (No of TEUs)	15,478	11,054	40.02%
Average revenue per tonne from air cargo (in Lakhs)	2.80	3.55	(21.13) %
Average revenue per TEUs from ocean cargo (in Lakhs)	1.86	2.38	(21.85) %

Further as a freight forwarding company, we depend on our employees to manage key operational activities, such as coordinating shipments, handling customs clearances, maintaining regulatory compliance, client relationship management, business development activities and ensuring timely deliveries. Therefore, in order to expand our operations in FY23, we increased our employee base by 17.98% increasing it from 712 employees to 840 employees on a consolidated level in FY23. This expansion led an increase in the employee benefit expenses of our company during FY23 which increase by 32.05% in comparison to FY22. The details of the increasing employee benefit expenses and employee base of the company during FY23 and FY22 is as under:

Particulars	FY23	FY22	Variance in %
Employee Benefit Expenses (in ₹ Lakhs)	6,102.90	4,621.56	32.05%
Employee Base	840	712	17.98%

With an increase in the employee related expenses coupled with a decrease in the revenue from operations in FY23, our profits after tax declined from ₹ 4,604.38 Lakhs in FY22 to ₹ 3,790.27 Lakhs in FY23 hence decreasing our margins.

LIQUIDITY AND CAPITAL RESOURCES

We have historically financed the expansion of our business and operations primarily through debt financing and funds generated from our operations. From time to time, we obtained loan facilities to finance our short-term working capital requirements.

QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Credit Risk

Credit risk is the risk of financial loss to the Company, if a customer or the counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and from its investing activities, including deposits with banks. The carrying amounts of financial assets represent the maximum credit risk exposure.

Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Our Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Our working capital is sufficient to meet our current requirements.

Market Risks

We are exposed to various types of market risks during the normal course of business. Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Effect of Inflation

In recent years, India has experienced relatively high rates of inflation. While inflation had no any material impact on our business and results of operations, inflation generally impacts the overall economy and business environment and hence could affect us.

Unusual or infrequent events or transactions

Except as described in this Draft Red Herring Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent.

Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Other than as disclosed in the section titled "***Risk Factors***" beginning on page 45 to our knowledge there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

Future changes in relationship between costs and revenues

Other than as described in chapter titled "***Risk Factors***" beginning on page 45 and in this section, to our

knowledge there are no known factors that might affect the future relationship between cost and revenue. Our Company's future costs and revenues will be determined by demand/ supply situation, government policies, global market situation and cost of our services.

Significant economic changes that materially affected or are likely to affect income from continuing operations.

Indian rules and regulations as well as the overall growth of Indian economy have a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations.

Other than as described in the section titled "**Risk Factors**" beginning on page 45, to our knowledge there are no significant economic changes that materially affects or are likely to affect income of our Company from continuing operations.

The extent to which services increases in net sales or revenue are due to better content quality and increase in number of users.

Increase in revenue is by and large linked to increases in volume of business activity by the Company.

Total turnover each Major Industry Segment

Total turnover of our Company is generated from only one Industry segment.

Reservations, qualifications and adverse remarks

Except as disclosed in chapter titled "**Restated Consolidated Financial Information**" beginning on page 317, there have been no reservations, qualifications and adverse remarks.

Details of default, if any, including therein the amount involved, duration of default and present status, in repayment of statutory dues or repayment of debentures or repayment of deposits or repayment of loans from any bank or financial institution

Except as disclosed in chapter titled "**Restated Consolidated Financial Information**" beginning on page 317, there have been no defaults in payment of statutory dues or repayment of debentures and interest thereon or repayment of deposits and interest thereon or repayment of loans from any bank or financial institution and interest thereon by the Company.

Material Frauds

There are no material frauds, as reported by our statutory auditor, committed against our Company, in the last three Financial Years.

Status of any publicly announced new products / projects or business segments

Our Company has not announced any new projects or business segments, other than disclosed in the Draft Red Herring Prospectus. For details of our new projects or business segments please refer to the chapter titled "**Our Business**" beginning on page 214.

Increase in income

Increases in our income are due to the factors described above in this chapter under "**Key Factors that may affect our Results of Service**" and chapter titled "**Risk Factors**" beginning on page 424 and 45, respectively.

Competitive Conditions

We face competition from existing and potential organized and unorganized competitors which is common for any business. We have, over a period of time, developed certain competitive strengths which have been discussed in section titled "***Our Business***" beginning on page 214.

SECTION VI - LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except as stated below there are no outstanding (i) criminal proceedings (including matters which are at first information report ("FIR") stage even if no cognizance has been taken by any court) involving our Company, Directors, or Promoters and Subsidiaries ("Relevant Parties") and the Key Managerial Personnels and Senior Management Personnels; (ii) actions by statutory or regulatory authorities involving the Relevant Parties and the Key Managerial Personnels and Senior Management Personnels; (iii) outstanding claims relating to direct and indirect taxes against the Relevant Parties; and (iv) civil litigations (including arbitration proceedings) involving the Relevant Parties based on the Materiality Policy adopted by the Company; or (v) litigation involving our Group Company which has a material impact on our Company. Further, except as stated in this section, there are no disciplinary actions including penalties imposed by SEBI or stock exchanges against our Promoter in the last five Financial Years including any outstanding action.

For the purposes of (iv) above in terms of the Materiality Policy adopted by a resolution of our Board dated June 23, 2025, pending litigation would be considered 'material' if the monetary amount of claim by or against the entity or person in any such pending proceeding is in excess of ₹ 180/- and where the amount is not quantifiable, such pending cases are material from the perspective of the Company's business, operations, prospects or reputation.

The above threshold of ₹ 180 Lakhs is lower of the following:

- (i) Materiality policy as defined by the Board and disclosed in the Issue Document, which amounts to ₹ 180 Lakhs; or
- (ii) Litigations where the value or expected impact in terms of value, exceeds the lower of the following:
 - (a) Two (2) percent of turnover, as per the latest annual restated consolidated financial statements of the Company;
 - (b) Two (2) percent of net worth, as per the latest annual restated consolidated financial statements of the Company; or
 - (c) Five (5) percent of the average of absolute value of profit or loss after tax, as per the last three annual restated consolidated financial statements of the Company.

For the purposes of the above, pre-litigation notices received by the Relevant Parties from third parties (excluding those notices issued by statutory or regulatory or taxation authorities or notices threatening criminal action) have not and shall not, unless otherwise decided by our Board, be considered material until such time that any of the Relevant Parties or the Group Company, as the case may be, is impleaded as a defendant in litigation before any judicial or arbitral forum.

Further, in accordance with the Materiality Policy, our Company has considered such creditors 'material' to whom the amount due is equal to or in excess of ₹ 791.49 Lakhs/-.

Unless stated to the contrary, the information provided below is as of the date of this Draft Red Herring Prospectus. All terms defined in a particular litigation disclosure below are for that particular litigation only.

C. Outstanding material civil litigation

- (i) **Paul Deepak Rajaratnam & Ors. Vs. Surgeport Logistics Pvt. Ltd. & Anr [ARB. A. (COMM.) 5/2025]**

This appeal has been filed against our Subsidiary, SurgePort Logistics Private Limited (“**Respondent**”) by Paul Deepak Rajaratnam and others (“**Petitioners**”) before the Hon’ble High Court of Delhi under Section 37(2)(b) of the Arbitration and Conciliation Act, 1996, seeking to set aside the interim order dated December 16, 2024 (“**Interim Order**”), passed by the learned sole arbitrator in an international commercial arbitration seated in New Delhi.

The arbitral proceedings were initiated by our Subsidiary against the Petitioners for alleged breaches of a Shareholders Agreement dated April 28, 2018 (“**Agreement**”). It was alleged that the Petitioners, in their capacity as shareholders, had engaged in competing business activities through Accel Transport and Logistics, in violation of the non-compete and non-solicit obligations set out under clause 15 of the Agreement. By the Interim Order, the sole arbitrator granted an injunction restraining the Petitioners from directly or indirectly engaging in the business of international freight forwarding and logistics in breach of the Agreement and further directed them to file affidavits disclosing their business activities undertaken since the incorporation of Accel Transport and Logistics. Judgment in the matter has been reserved, and the matter is still pending before the Hon’ble High Court of Delhi.

Litigation by our Subsidiaries

A. Outstanding criminal proceedings

- (i) **Our subsidiary Company, Rahat Continental Private Limited, has filed the following cases against the parties mentioned in the table below under Section 138 and 142 of Negotiable**

These matters are currently pending for adjudication.

(ii) M/s Phantom Express Private Limited – Police Complaint filed with Station House Officer (“SHO”), Police Station Vasant Kunj (North), Delhi

Our Subsidiary, M/s Phantom Road Express Private Limited (*formerly known as Phantom Express Private Limited*) has filed a police complaint on September 20, 2024, before the SHO, Police Station Vasant Kunj (North), Delhi, seeking registration of an FIR and appropriate action against certain employees and external parties for alleged offences including cheating, forgery, impersonation, criminal breach of trust, and conspiracy.

Our Subsidiary alleged that two former employees of our Subsidiary, while in key operational and business development roles, conspired with certain vendors and customer representatives to create fictitious transactions and diverted the funds of company. It is alleged that the accused persons introduced fraudulent customers and vendors, falsified documentation (including E-way bills and invoices), and bypassed internal controls to execute over ₹2.65 crores of fraudulent vehicle placements. The funds were routed through a chain of sham vendors and ultimately traced back to entities linked to the accused, including a proprietorship named Fluxlite Co.

The complaint seeks action under multiple provisions of the Bhartiya Nyaya Sanhita, including Sections 316(4), 318(4), 319(2), 335, 336, 338, 340, 3(5), and 61, and requests registration of an FIR and initiation of investigation.

(iii) FIR No. 0373 of 2023 registered at PS Vasant Kunj by M/s Forin Container Line Pvt. Ltd against Mr. Chandan Jha and ors.

Our Subsidiary, M/s Forin Container Line Private Limited (“**Complainant**”) has filed and registered a first information report number 0373 dated December 22, 2023, before the Police Station Vasant Kunj, Delhi (“**FIR**”) against Chandan Jha, Sunil Jha and Ors. (“**Accused**”) for criminal breach of trust, forgery and cheating and criminal conspiracy. The Complainant alleged that the Accused siphoned the funds of the Complainant.

The matter was referred to a mediation centre by the Additional Sessions Judge, Patiala House Courts, New Delhi, pursuant to which the parties entered into a settlement agreement dated June 19, 2024 (“**Settlement Agreement**”) wherein the Accused agreed to pay an amount of Rs. 3,50,00,000/- to the Complainant in the manner as specified in the Settlement Agreement. As per the Settlement Agreement, upon receipt of the settlement amount, the Complainant will quash the FIR against the Accused.

Pursuant to the Settlement Agreement, the Complainant has recovered an amount of 3,00,00,000/- from the Accused and an amount of Rs. 50,00,000/- is yet to be received. Since the

full amount of settlement has not been recovered, therefore, FIR No. 0373 of 2023 is still pending before the Police Station, Vasant Kunj, Delhi for investigation.

B. Outstanding material civil litigation

(i) Hubload SLS Services Pvt Ltd Vs. Globestar Groupage Service Pvt Ltd & Ors. [Original Suit No. 5329/2023]

Our Subsidiary, M/s Hubload SLS Services Private Limited (“**Plaintiff**”), has filed this civil suit on August 10, 2023, before the Hon’ble City Civil Court, Chennai, against Mr. J. Nandha Kumar and Mr. K. Surendran (collectively, “**Former Employees**”) and M/s Globestar Groupage Services Private Limited (“**Respondent Company**”, and together with the Former Employees, “**Respondents**”) seeking a permanent injunction restraining the Respondents from soliciting Plaintiff’s clientele and damages of ₹40,00,000/-.

The Former Employees, while still in the employment of the Plaintiff, misused confidential business information and diverted business opportunities and client shipments to the Respondent Company, which operates in the same line of business. The Former Employees were appointed by Plaintiff on April 22, 2021 and May 4, 2021, and submitted their resignations on February 15, 2023. Prior to their resignations, the former employees used the Plaintiff’s confidential data to facilitate the diversion of multiple client consignments to the Respondent Company, including altering delivery documentation such as bills of lading. Pursuant to this a legal notice was issued by the Plaintiff on March 7, 2023, followed by a police complaint dated March 17, 2023. And only after such police complaint reply to the legal notice was received from the Former Employees on March 21, 2023, which the Plaintiff found unsatisfactory, leading to the institution of the present suit.

Plaintiff filled this suit seeking a permanent injunction to restrain the Respondents from directly or indirectly soliciting or engaging with the Plaintiff’s clients, as well as monetary damages of Rs 40,00,000/- for breach of contractual obligations, breach of trust, and unlawful diversion of business. The matter is currently pending adjudication before the Hon’ble City Civil Court, Chennai.

regional rural banks, co-operative banks (subject to RBI permission), or trusts under applicable trust law and who are authorised under their constitution to hold and invest in shares, state industrial development corporations, permitted insurance companies registered with IRDAI, public financial institutions as specified in Section 2(72) of the Companies Act, 2013, permitted provident funds (subject to applicable law) and pension funds, National Investment Fund, permitted insurance companies, insurance funds set up and managed by the army and navy or air force of Union of India and insurance funds set up and managed by the Department of Posts, India, systemically important NBFCs registered with the RBI and permitted Non-Residents including FPIs and Eligible NRIs, AIFs and other eligible foreign investors, if any, provided that they are eligible under all applicable laws and regulations to purchase the Equity Shares.

This Draft Red Herring Prospectus does not constitute an offer to sell or an invitation to subscribe or to purchase the Equity Shares offered hereby, in any jurisdiction, including India to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Invitations to subscribe to or purchase the Equity Shares in the Offer will be made only pursuant to the Red Herring Prospectus if the recipient is in India or the preliminary offering memorandum for the Offer, which comprises the Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient is outside India. No person outside India is eligible to Bid for Equity Shares in the Offer unless that person has received the preliminary offering memorandum for the Offer, which contains the selling restrictions for the Offer outside India.

Any person into whose possession this Draft Red Herring Prospectus comes is required to inform him or herself about, and to observe, any such restrictions.

Neither the delivery of this Draft Red Herring Prospectus or any Offer for Sale thereunder shall, under any circumstances, create any implication that there has been no change in the affairs of our Company from the date thereof or that the information contained herein is correct as of any time subsequent to this date.

ELIGIBILITY AND TRANSFER RESTRICTIONS

The Equity Shares have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any other applicable law of the United States, and, unless so registered, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold only (a) to persons in the United States who are “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act and referred to in this Draft Red Herring Prospectus as “U.S. QIBs” and, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Draft Red Herring Prospectus as QIBs) in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act in reliance on Rule 144A and (b) outside the United States in “offshore transactions” (as defined in Regulation S) in reliance on Regulation S and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made, by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.

Until the expiry of 40 days after the commencement of this Issue, an offer or sale of Equity Shares within the United States by a dealer (whether or not it is participating in this Issue) may violate the registration requirements of the U.S. Securities Act unless made pursuant to Rule 144A or Regulation S under the U.S. Securities Act or another available exemption from or in a transaction not subject to, the

registration requirements of the U.S. Securities Act and in accordance with applicable state securities laws in the United States.

The Equity Shares are being offered:

- i. in the United States to U.S. QIBs, in transactions exempt from or not subject to the registration requirements of the U.S. Securities Act in reliance on Rule 144A; and
- ii. outside the United States in “offshore transactions” in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur;

and in each case to investors who are deemed to have made the representations set forth immediately below.

Equity Shares offered and sold within the United States

Each purchaser that is acquiring the Equity Shares offered pursuant to this Offer within the United States, by its acceptance of the Draft Red Herring Prospectus and of the Equity Shares, will be deemed to have acknowledged, represented to and agreed with our Company and the BRLMs that it has received a copy of the Draft Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorized to consummate the purchase of the Equity Shares offered pursuant to this offer in compliance with all applicable laws and regulations;
2. the purchaser acknowledges that the Equity Shares offered pursuant to this Offer have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;
3. the purchaser (i) is a U.S. QIB, (ii) is aware that the sale to it is being made in a transaction exempt from or not subject to the registration requirements of the U.S. Securities Act, and (iii) is acquiring such Equity Shares for its own account or for the account of a U.S. QIB with respect to which it exercises sole investment discretion;
4. the purchaser is not an affiliate of our Company or a person acting on behalf of an affiliate;
5. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only (A) (i) to a person whom the beneficial owner and/or any person acting on its behalf reasonably believes is a U.S. QIB in a transaction meeting the requirements of Rule 144A under the U.S. Securities Act or (ii) in an “offshore transaction” complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act and (B) in accordance with all applicable laws, including the securities laws of the states of the United States. The purchaser understands that the transfer restrictions will remain in effect until our Company determines, in its sole discretion, to remove them;
6. the Equity Shares are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act and no representation is made as to the availability of the exemption provided by Rule 144 for resales of any such Equity Shares;
7. the purchaser will not deposit or cause to be deposited such Equity Shares into any depository receipt facility established or maintained by a depository bank other than a Rule 144A restricted depository receipt facility, so long as such Equity Shares are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act;
8. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any “directed selling efforts” as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares or any “general solicitation” or “general advertising” (as defined in Regulation D under the U.S. Securities Act) in the United States in connection with any offer or sale of the Equity Shares;

9. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless our Company determine otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

THIS EQUITY SHARES REPRESENTED HEREBY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT (1) IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A TO A U.S. QIB THAT IS ACQUIRING THE SECURITIES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A U.S. QIB, (2) IN AN "OFFSHORE TRANSACTION" AS DEFINED IN, AND IN RELIANCE ON, REGULATION S UNDER THE U.S. SECURITIES ACT (AND NOT IN A PRE-ARRANGED TRANSACTION RESULTING IN THE RESALE OF SUCH SECURITY IN THE UNITED STATES), IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES.

10. the Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; and
11. the purchaser acknowledges that our Company, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify the Company and the BRLMs, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

All Other Equity Shares offered and Sold in this Offer

Each purchaser that is acquiring the Equity Shares sold pursuant to this Offer outside the United States, by a declaration included in the Bid cum Application Form and its acceptance of this Draft Red Herring Prospectus and of the Equity Shares sold pursuant to this Issue, will be deemed to have acknowledged, represented to and agreed with the Company and the BRLMs that it has received a copy of this Draft Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorised to consummate the purchase of the Equity Shares offered pursuant to this Offer in compliance with all applicable laws and regulations;
2. the purchaser acknowledges that the Equity Shares issued pursuant to this Offer have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;
3. the purchaser is purchasing the Equity Shares issued pursuant to this Offer in an "offshore transaction" meeting the requirements of Rule 903 of Regulation S under the U.S. Securities Act;
4. the purchaser is not purchasing the Equity Shares as a result of any "directed selling efforts" (as such term is defined in Rule 902 of Regulation S under the U.S. Securities Act);
5. the purchaser and the person, if any, for whose account or benefit the purchaser is acquiring the Equity Shares issued pursuant to this Issue, was located outside the United States at each time (i) the offer was made to it and (ii) when the buy order for such Equity Shares was originated, and continues to be located outside the United States and has not purchased such Equity Shares for the account or benefit of any person in the United States or entered into any arrangement for the transfer of such Equity Shares or any economic interest therein any person in the United States;
6. the purchaser is not an affiliate of the Company or a person acting on behalf of an affiliate;

7. if, in the future, the purchaser decides to offer, resell, pledge or otherwise transfer such Equity Shares, or any economic interest therein, such Equity Shares or any economic interest therein may be offered, sold, pledged or otherwise transferred only (A) (i) to a person whom the beneficial owner and/or any person acting on its behalf reasonably believes is a U.S. QIB in a transaction meeting the requirements of Rule 144A under the U.S. Securities Act or (ii) outside the United States in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act and (B) in accordance with all applicable laws, including the securities laws of the states of the United States. The purchaser understands that the transfer restrictions will remain in effect until the Company determines, in its sole discretion, to remove them;
8. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any "directed selling efforts" as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares;
9. the purchaser understands that such Equity Shares (to the extent they are in certificated form), unless our Company determine otherwise in accordance with applicable law, will bear a legend substantially to the following effect:

THE EQUITY SHARES REPRESENTED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933 (THE "U.S. SECURITIES ACT") OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT (1) TO A PERSON WHOM THE SELLER OR ANY PERSON ACTING ON ITS BEHALF REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE U.S. SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE U.S. SECURITIES ACT, OR (2) IN AN "OFFSHORE TRANSACTION" AS DEFINED IN, AND IN RELIANCE ON, REGULATION S UNDER THE U.S. SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES.

10. the purchaser agrees, upon a proposed transfer of the Equity Shares, to notify any purchaser of such Equity Shares or the executing broker, as applicable, of any transfer restrictions that are applicable to the Equity Shares being sold;
11. the Company will not recognize any offer, sale, pledge or other transfer of such Equity Shares made other than in compliance with the above-stated restrictions; and
12. the purchaser acknowledges that our Company, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify our Company and the BRLMs, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

The Company, the BRLMs and their affiliates, and others will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

Bidders were advised to ensure that any Bid from them would not have exceeded the investment limits or the maximum number of Equity Shares that could be held by them under applicable law. Further, each Bidder where required agreed in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act.

MECHANISM FOR INVESTOR GRIEVANCES AND REDRESSAL SYSTEM

The agreement between the Registrar to the Offer and our Company provides for retention of records with the Registrar to the Offer for a period of at least eight years from the last date of listing and commencement of trading of the Equity Shares on the Stock Exchanges or any such period as prescribed under the applicable laws, to enable the investors to approach the Registrar to the Offer for redressal of their grievances. The Registrar to the Offer shall obtain the required information from SCSBs for addressing any clarifications or grievances of ASBA Bidders.

Our Company, Selling Shareholders, BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, or commission of any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. Investors can contact our Company Secretary and Compliance Officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode, etc.

All Offer related grievances other than that of Anchor Investors, may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, PAN, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder and ASBA Account number in which the amount equivalent to the Bid Amount was blocked or UPI ID (for UPI Bidders who make the payment of Bid Amount). The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove.

All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLMs with whom the Bid cum Application Form was submitted by the Anchor Investor.

In terms of SEBI ICDR Master Circular and subsequent circulars, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days.

Further, in terms of SEBI ICDR Master Circular read with the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 (to the extent not rescinded by the SEBI ICDR Master Circular), the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated by the intermediary responsible for causing such delay in unblocking in accordance with applicable law. Further, investors shall be entitled to compensation in the manner specified in the SEBI ICDR Master Circular in case of delays in resolving investor grievances in relation to blocking/unblocking of funds. The BRLMs, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Separately, pursuant to the SEBI ICDR Master Circular, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for public issues opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	<ul style="list-style-type: none"> ➤ Instantly revoke the blocked funds other than the original application amount; and ➤ ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher 	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	<ul style="list-style-type: none"> ➤ Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and ➤ ₹100 per day or 15% per annum of the difference amount, whichever is higher 	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted/ partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLMs shall be liable to compensate the investor ₹100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of the actual unblock.

STATUS OF INVESTOR COMPLAINTS

We confirm that we have not received any investor complaint during the three (3) years preceding the date of this Draft Red Herring Prospectus and hence there are no pending investor complaints as on the date of this Draft Red Herring Prospectus.

DISPOSAL OF INVESTOR GRIEVANCES BY LISTED COMPANIES UNDER THE SAME MANAGEMENT AS THE COMPANY

One of our Subsidiaries, namely Brace Port Logistics Limited, was listed on the EMERGE Platform of the National Stock Exchange of India Limited on August 26, 2024. During the subsequent quarters after listing of the said company, starting from October 01, 2024 to March 31, 2025, the said Subsidiary received one investor complaint, which was duly resolved within a period of 21 days. As on the date of filing this Draft Red Herring Prospectus, there are no pending investor complaints which are to be addressed by Brace Port Logistics Limited.

Except as stated above, our Company has no other listed Subsidiaries or Group Company as on the date of filling of this Draft Red Herring Prospectus.

DISPOSAL OF INVESTOR GRIEVANCES BY OUR COMPANY

Our Company has applied for authentication on the SCORES in terms of the SEBI circular no. CIR/OIAE/1/2013 dated April 17, 2013 and will comply with the SEBI circular (CIR/OIAE/1/2014) dated December 18, 2014 and SEBI master circular SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023 in relation to redressal of investor grievances through SCORES.

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be Seven (7) Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Each of the Selling Shareholders, severally and not jointly, has authorized the Company Secretary and the Compliance Officer of our Company, to deal with, on its behalf, any investor grievances received in the Offer in relation to such Selling Shareholder or its respective portion of the Offered Shares. . Our Company has not received investor complaints in relation to the Equity Shares for the three years prior to the filing of the Draft Red Herring Prospectus, hence no investor complaint in relation to our Company is pending as on the date of filing of the Draft Red Herring Prospectus. Investors can contact the Company Secretary and Compliance Officer, the BRLMs or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. Our Company has also appointed Anagha Bangur, as our Company Secretary and Compliance Officer. For details, see "**General Information – Company Secretary and Compliance Officer**" on page 91.

Our Company has also constituted a Stakeholders Relationship Committee which is responsible for redressal of grievances of security holders of our Company. For further details on the Stakeholders Relationship Committee, see "**Our Management – Committees of the Board – Stakeholders' Relationship Committee**" on page 299.

EXEMPTION FROM COMPLYING WITH ANY PROVISIONS OF SECURITIES LAWS, IF ANY, GRANTED BY SEBI

Our Company has not sought any exemption under Regulation 300 of the SEBI ICDR Regulations.

OTHER CONFIRMATIONS

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the initial public offer, except for fees or commission for services rendered in relation to the Offer.

- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive any surplus on liquidation subject to any statutory and preferential claims being satisfied;
- Right of free transferability of their Equity Shares, subject to applicable laws including and RBI rules and regulations; and
- Such other rights as may be available to a shareholder of a listed public company under the Companies Act 2013, the terms of the SEBI Listing Regulations and our Memorandum of Association and Articles of Association and other applicable laws.

For a detailed description of the main provisions of our Articles of Association of our Company relating to voting rights, dividend, forfeiture and lien, transfer, transmission, consolidation and splitting, see the chapter titled "***Description of Equity Shares and Terms of the Articles of Association***" beginning on page 525.

MARKET LOT AND TRADING LOT AND ALLOTMENT OF SECURITIES IN DEMATERIALISED FORM

In terms of Section 29 of the Companies Act 2013, and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialized form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form on the Stock Exchanges. In this context, tripartite agreements had been signed among the Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated **June 26, 2025** amongst our Company, NSDL and the Registrar to the Offer;
- Tripartite agreement dated **June 26, 2025** amongst our Company, CDSL and the Registrar to the Offer.

Our Company's Equity Share bear ISIN no. **INE0PX301025**.

Since trading of the Equity Shares is in dematerialized form, the tradable lot is one Equity Share. Allotment in the Offer will be only in electronic form in multiples of one Equity Shares, subject to a minimum Allotment of [●] Equity Shares. For further details, see the chapter titled "***Offer Procedure***" beginning on page 499.

JOINT HOLDERS

Subject to the provisions of the Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 of the Companies Act 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole or first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, will vest to the exclusion of the other persons, unless the nomination is varied or cancelled in the prescribed manner.

A person, being a nominee, entitled to the Equity by reason of the death of the original holder(s), will, in accordance with Section 72 of the Companies Act 2013, be entitled to the same benefits to which he or she will be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of the holder's death during minority.

A nomination may be cancelled or varied by nominating any other person in place of the present nominee, by the holder of the Equity Share(s) who has made the nomination, by giving a notice of such cancellation or variation to our Company in the prescribed form. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered and Corporate Office or to the registrar and transfer agents of our Company.

Further, any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, the Board may thereafter withhold payment of all dividends, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder would prevail. If Bidders want to change their nomination, they are requested to inform their respective Depository Participant. Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

The above timetable, other than the Bid/Offer Closing Date, is indicative and does not constitute any obligation or liability on our Company, the Selling Shareholders or the BRLMs.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid/Offer Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of the Bid/Offer Closing Date, the timetable may be extended due to various factors, such as extension of the Bid/Offer Period by our Company and the Selling Shareholders in consultation with the BRLMs, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

SEBI is in the process of streamlining and reducing the post offer timeline for IPOs. Any circulars or notifications from SEBI after the date of this Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the Offer procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Bid/Offer Period (except the Bid/Offer Closing Date)	
Submission and revision in Bids	Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time ("IST"))
Bid/Offer Closing Date*	
Submission and revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

*UPI mandate end time and date shall be at 5.00 pm on [●]

On the Bid/Offer Closing Date, the Bids shall be uploaded until:

- (i) In case of Bids by QIBs and Non-Institutional Bidders, the Bids and the revisions in Bids shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and uploaded by 4.00 p.m. IST, and
- (ii) In case of Bids by Retail Individual Bidders, the Bids and the revisions in Bids shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and uploaded until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs.

On Bid/Offer Closing Date, extension of time may be granted by Stock Exchanges only for uploading Bids received by Retail Individual Bidders, after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

The Registrar to the Offer shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid/Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLMs and the RTA on a daily basis, as per the format prescribed in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Offer. Bids will be accepted only during Working days.

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

Our Company and Selling shareholders in consultation with the Book Running Lead Managers, reserves the right to revise the Price Band during the Bid/Offer Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e., the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly, but the Floor Price shall not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be less than or equal to 120% of the Floor Price, provided that the Cap Price shall be atleast 105% of the Floor Price.

In case of any revision to the Price Band, the Bid/Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company and the Selling Shareholders in consultation with BRLMs, for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of three Working Days, subject to the Bid/Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Syndicate Members and by intimation to Self-Certified Syndicate Banks ("SCSBs"), other Designated Intermediaries and the Sponsor Bank, as applicable.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

PERIOD OF OPERATION OF SUBSCRIPTION LIST

For details please refer to "**Terms of the Offer**" beginning on page 489.

MINIMUM SUBSCRIPTION

If our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within 60 days from the date of Bid/Offer Closing Date on the date of closure of the Offer or; the minimum subscription of 90% of the fresh Issue on the date of closure of the Offer; or withdrawal of applications; or after technical rejections; or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares so offered under the Offer document, our Company shall forthwith refund the entire subscription amount received in accordance with applicable law including the SEBI circular bearing no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021. If there is a delay beyond two days after our Company becomes liable to pay the amount, our Company and our Directors, who are officers in default, shall pay interest at the rate of 15% per annum.

The requirement for minimum subscription is not applicable to the Offer for Sale. In the event of an undersubscription in the Offer, after meeting the minimum subscription requirement of 90% of the Fresh Issue, the balance subscription in the Offer will be met through the issuance of balance part of the Fresh Issue.

Undersubscription, if any, in any category except the QIB portion, would be met with spill-over from the other categories at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange.

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000.

ARRANGEMENTS FOR DISPOSAL OF ODD LOTS

Since our Equity Shares will be traded in dematerialized form only and the market lot for our Equity Shares will be one Equity Share. Henceforth, no arrangements for disposal of odd lots are required.

RESTRICTION, IF ANY, ON TRANSFER AND TRANSMISSION OF EQUITY SHARES

Except for lock-in of the pre-Offer capital of our Company, lock-in of the Promoter's minimum contribution under the SEBI ICDR Regulations and the Anchor Investor lock-in as provided in the chapter titled "**Capital Structure**" beginning on page 101, and except as provided in the Articles of Association as detailed in "**Description of Equity Shares and Terms of the Articles of Association**" beginning on page 525, there are no restrictions on transfers and transmission of Equity Shares and on their consolidation/splitting. Further, there are no restrictions on transmission of any shares of our Company and on their consolidation or splitting, except as provided in the Articles of Association.

WITHDRAWAL OF THE OFFER

Our Company in consultation with the BRLMs and the Selling Shareholders, reserves the right not to proceed with the Offer entire or portion of the Offer for any reason at any time after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers in which the pre- Offer advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. Further, the Stock Exchanges shall be informed promptly in this regard by our Company and the BRLMs. Also, BRLMs through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. In the event of withdrawal of the Offer and subsequently, plans of a fresh offer by our Company, a fresh draft red herring prospectus will be submitted again to SEBI.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days or such other period as may be prescribed, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company and the Selling Shareholders in consultation with the BRLMs withdraws the Offer after the Bid/Offer Closing Date and thereafter determines that it will proceed with a public offering of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with SEBI and the Stock Exchanges.

If Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded/unblocked within the time prescribed under applicable law.

OFFER PROCEDURE

All Bidders should read the General Information Document, which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations which is part of the Abridged Prospectus accompanying the Bid cum Application Form. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer, (ii) maximum and minimum Bid size, (iii) price discovery and allocation, (iv) payment instructions for ASBA Bidders, (v) issuance of Confirmation of Allocation Note (CAN) and Allotment in the Offer, (vi) general instructions (limited to instructions for completing the Bid cum Application Form), (vii) Designated Date, (viii) disposal of applications, (ix) submission of Bid cum Application Form, (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds), (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications, (xii) mode of making refunds, and (xiii) interest in case of delay in Allotment or refund.

SEBI through the SEBI UPI Circulars introduced an alternate payment mechanism using UPI and consequent reduction in timelines for listing in a phased manner. UPI has been introduced in a phased manner as a payment mechanism with the ASBA for applications by Retail Individual Bidders through intermediaries from January 1, 2019. The UPI Mechanism for Retail Individual Bidders applying through Designated Intermediaries, in phase I, was effective along with the prior process and existing timeline of T+6 days ("UPI Phase I"), until June 30, 2019. Subsequently, for applications by Retail Individual Bidders through Designated Intermediaries, the process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later ("UPI Phase II").

Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the COVID- 19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for UPI Phase II till further notice from SEBI. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders ("UPI Phase III"), and modalities of the implementation of UPI Phase III has been notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on or after May 1, 2021 except as set out in circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus.

Furthermore, pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism. This circular has come into force for initial public offers opening on or after May 1, 2022 and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75

dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 01, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). Pursuant to the SEBI master circular no. SEBI/HO/CFD/PoD-1/P/CIR/2024/0154 dated November 11, 2024, a chapter-wise framework for compliance with various obligations under the SEBI ICDR Regulations was introduced, including with regards to UPI Phase III.

The BRLMs shall be the nodal entity for any issues arising out of the public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and BRLMs shall continue to coordinate with intermediaries involved in the said process.

Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus.

Further, our Company, the Selling Shareholders and the Syndicate are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for application in this Offer.

BOOK BUILDING PROCEDURE

The Offer is being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer shall be available for allocation to QIBs on a proportionate basis, provided that our Company in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Offer Price. In the event of under- subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders of which one-third shall be available for allocation to Bidders with an application size more than ₹ 2.00 lakhs to ₹ 10.00 lakhs and two-thirds shall be available for allocation to Bidders with an application size of more than ₹ 10.00 lakhs in accordance with the SEBI ICDR Regulations, and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories of Bidders at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange subject to receipt of valid Bids received at or above the Offer Price. However, under subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized mode on the platform of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, PAN, and UPI ID (for Retail Individual Bidders Bidding through the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares

rematerialized subsequent to Allotment of the Equity Shares in the Offer, in compliance with Applicable Laws.

PHASED IMPLEMENTATION OF UPI MECHANISM

SEBI has issued the SEBI UPI Circulars in relation to streamlining the process of public Offer of, among others, equity shares. Pursuant to the SEBI UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public Offer closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the SEBI UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI, vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by UPI Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLMs will be required to compensate the concerned investor.

The Offer is made under UPI Phase III of the SEBI UPI Circulars, the same will be advertised in all editions of [●], the English national daily newspaper, all editions of [●], the Hindi national daily newspaper and [●] editions of [●], the Regional daily newspaper, (Hindi being the local language of Delhi, where our registered and corporate office is situated), each with wide circulation, on or prior to the Bid/ Offer Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public issues where the application amount is up to ₹500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- i. a Syndicate Member;
- ii. a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);
- iii. a Depository Participant (whose name is mentioned on the website of the stock exchange as eligible for this activity);
- iv. a registrar to an Offer and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity).

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

BID CUM APPLICATION FORM

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at relevant Bidding Centres and at the Registered Office. The electronic copy of the Bid cum Application Forms will also be available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid/Offer Opening Date.

For Anchor Investors, the Bid cum Application Forms will be available at the offices of the BRLMs. Bidders (other than Anchor Investors) must compulsorily use the ASBA process to participate in the Offer. Anchor Investors are not permitted to participate in this Offer through the ASBA process.

All ASBA Bidders must provide either, (i) bank account details and authorisation to block funds in the ASBA Form, or (ii) the UPI ID (in case of UPI Bidders), as applicable, in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details will be rejected. Applications made by the UPI Bidders using third party bank account or using third party linked bank account UPI ID are liable for rejection.

UPI Bidders Bidding using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bid cum Application Forms that do not contain the UPI ID are liable to be

rejected. UPI Bidders Bidding using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Further, Bidders shall ensure that the Bids are submitted at the Bidding Centres only on Bid cum Application Forms bearing the stamp of a Designated Intermediary (except in case of electronic Bid cum Application Forms) and Bid cum Application Forms not bearing such specified stamp maybe liable for rejection.

ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSBs or the Sponsor Bank(s), as applicable, at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked/ unblocked including details as prescribed in Annexure II of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

The prescribed colour of the Bid cum Application Forms for various categories is as follows:

Category	Colour of Bid cum Application Form ⁽¹⁾
Resident Indians, including resident QIBs, Non-Institutional Bidders, Retail Individual Bidders and Eligible NRIs applying on a non-repatriation basis ⁽²⁾	[●]
Eligible NRIs, FVCIs, FPIs and registered bilateral and multilateral institutions applying on a repatriation basis ⁽²⁾	[●]
Anchor Investors ⁽³⁾	[●]

⁽¹⁾ Excluding electronic Bid cum Application Forms

⁽²⁾ Electronic Bid cum Application forms and the abridged prospectus will also be available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).

⁽³⁾ Bid cum Application Forms for Anchor Investors shall be available at the offices of BRLMs.

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Subsequently, for ASBA Forms (other than UPI Bidders using UPI Mechanism), Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank and the issuer bank. The Sponsor Bank and the Bankers to the Offer shall provide the audit trail to the BRLMs for analysing the same and fixing liability.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock

Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the SEBI UPI Circulars. Sponsor Bank and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/ Offer Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/ Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Offer Bidding process.

Further, Intermediaries shall retain physical bid cum application forms submitted by Retail Individual Bidders with UPI as a payment mechanism, for a period of six months and thereafter forward the same to the issuer/ Registrar to the Offer. However, in case of electronic forms, “**printouts**” of such Bids need not be retained or sent to the issuer. Intermediaries shall, at all times, maintain the electronic records relating to such forms for a minimum period of three years.

ELECTRONIC REGISTRATION OF BIDS

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer.
- b) On the Bid/ Offer Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation /Allotment. The Designated Intermediaries are given till 5:00 pm for RIBs and 04:00 pm for NIIs and QIBs on the next Working Day following the Bid/ Offer Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/ Offer Period after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be issued or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being issued and sold outside the United States in offshore transactions as defined and in compliance with Regulation S and the applicable laws of the jurisdiction where those Offers and sales are made.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Important Information for Investors – Eligibility and Transfer Restrictions

Until the expiry of 40 days after the commencement of the Offer, an Offer or sale of the Equity Shares within the United States by a dealer (whether or not it is participating in the Offer) may violate the

registration requirements of the U.S. Securities Act, unless made pursuant to available exemptions from the registration requirements of the U.S. Securities Act and in accordance with applicable securities laws of any state or other jurisdiction of the United States. The Equity Shares have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Draft Red Herring Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision investor must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved.

Eligible Investors

The Equity Shares are being issued and sold outside the United States, in offshore transactions in reliance on Regulation S and the applicable laws of the jurisdiction where those issues and sales occur and who are deemed to have made the representations set forth immediately below.

Each purchaser that is acquiring the Equity Shares issued pursuant to the Offer outside the United States, by a declaration included in the Bid cum Application Form and its acceptance of the Red Herring Prospectus and of the Equity Shares issued pursuant to the offer, will be deemed to have acknowledged, represented and warranted to and agreed with our Company and the BRLMs that it has received a copy of the Red Herring Prospectus and such other information as it deems necessary to make an informed investment decision and that:

1. the purchaser is authorized to consummate the purchase of the Equity Shares issued pursuant to the Offer in compliance with all applicable laws and regulations;
2. the purchaser acknowledges that the Equity Shares have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and accordingly may not be issued or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act;
3. the purchaser is purchasing the Equity Shares issued pursuant to the offer in an offshore transaction meeting the requirements of Rule 903 of Regulation S under the U.S. Securities Act;
4. the purchaser is not an affiliate of our Company or a person acting on behalf of an affiliate;
5. the purchaser agrees that neither the purchaser, nor any of its affiliates, nor any person acting on behalf of the purchaser or any of its affiliates, will make any "directed selling efforts" as defined in Regulation S under the U.S. Securities Act in the United States with respect to the Equity Shares;
6. is not acquiring the Equity Shares as a result of any "directed selling efforts" (within the meaning of Rule 902(c) under the U.S. Securities Act);
7. the purchaser acknowledges that our Company, the BRLMs, their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations and agreements deemed to have been made by virtue of its purchase of such Equity Shares are no longer accurate, it will promptly notify our Company, and if it is acquiring any of such Equity Shares as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of such account.

PARTICIPATION BY THE PROMOTERS, THE MEMBERS OF THE PROMOTER GROUP, THE BRLMs, THE SYNDICATE MEMBER(S) AND PERSONS RELATED TO THE PROMOTERS/THE MEMBERS OF THE PROMOTER GROUP/THE BRLMs

The BRLMs and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Members may purchase Equity Shares in the Offer, either in

the QIB Category, where the allocation is on a proportionate basis, or the Non-Institutional Category, as may be applicable to such Bidders, and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLMs and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Except as stated below, neither the BRLMs nor any associate of the BRLMs can apply in the Offer under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the BRLMs;
- (ii) insurance companies promoted by entities which are associate of the BRLMs;
- (iii) AIFs sponsored by the entities which are associate of the BRLMs; or
- (iv) FPIs (other than individuals, corporate bodies and family offices) sponsored by the entities which are associate of the BRLMs.

Further, except to the extent of participation in offer for sale, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Offer. Further, persons related to the Promoters and the member of the Promoter Group shall not apply in the Offer under the Anchor Investor Portion.

However, a QIB who has any of the following rights in relation to our Company shall be deemed to be a person related to the Promoters or the members of the Promoter Group of our Company:

- (i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or the members of the Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on the Board.

Further, an Anchor Investor shall be deemed to be an "associate of the BRLMs" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, among the Anchor Investors and the BRLMs.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIS

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents ([●] in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents ([●] in colour). Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries.

Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorise their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External (“**NRE**”) accounts, or Foreign Currency Non-Resident (“**FCNR**”) Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/NRO accounts.

For details of restrictions on investment by NRIs, see “**Restrictions on Foreign Ownership of Indian Securities**” on page 423.

Participation of Eligible NRIs in the Offer shall be subject to the FEMA Rules.

BIDS BY HUFS

Bids by HUFs, should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or First Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY FPIS

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of the post- Offer Equity Share capital. Further, in terms of the FEMA Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company. With effect from April 1, 2020, the aggregate limit by FPIs shall be the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital on a fully diluted basis. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold

limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non- Residents ([●] in colour).

A FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments. FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

To ensure compliance with the applicable limits, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar to the Offer shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI, and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for Offer procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may Offer, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs, (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs, (iii) such offshore derivative instruments are issued after compliance with “know your client” norms, and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, among others, the following conditions:

- (a) each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Further, Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs may not be regarded as multiple Bids:

- FPIs which utilise the multi-investment manager (“**MIM**”) structure.
- Offshore derivative instruments (“**ODI**”) which have obtained separate FPI registration for ODI and proprietary derivative investments.
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration.
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs.
- Government and Government related investors registered as Category I FPIs.
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to the aforesaid seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilise any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation.

In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

BIDS BY SEBI REGISTERED AIFS, VCFs AND FVCIs

The SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs. Post the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs.

Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking.

The holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in initial public offerings.

Further, the shareholding of VCFs, Category I AIFs or Category II AIFs and FVCIs in a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months from the date of purchase by the VCF or AIF or FVCI. However, if such VCFs, Category I AIFs or Category II AIFs and FVCIs hold individually or with persons acting in concert, more than 20% of the pre- Offer shareholding of such company, this exemption from lock-in requirements will not be applicable.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs. All such Bidders will be treated on the same basis with other categories for the purpose of allocation. Participation of VCFs, AIFs or FVCIs in the Offer shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company in consultation with the BRLMs reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, ("**Banking Regulation Act**"), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act, (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company, (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank, and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap does not apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid up share capital and reserves.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed), and (ii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

BIDS BY SCSBS

SCSBs participating in the Offer are required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public Offers and clear demarcated funds should be available in such account for such Bids.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("**IRDAI Investment Regulations**"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- (a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- (b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- (c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹ 2,50,00,000 lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹ 50,00,000 lakhs or more but less than ₹ 2,50,00,000 lakhs.

Insurance companies participating in this Offer shall comply with all applicable regulations, guidelines and circulars issued by IRDAI, from time to time, including the IRDAI Investment Regulations for specific investment limits applicable to them.

BIDS BY SYSTEMICALLY IMPORTANT NON-BANKING FINANCIAL COMPANIES

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Offer shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

In accordance with existing regulations issued by the RBI, OCBs cannot participate in this Offer.

The above information is given for the benefit of the Bidders. Our Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable law or regulation or as specified in the Red Herring Prospectus.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹ 2,500 lakhs (subject to applicable laws) and pension funds with a minimum corpus of ₹ 2,500 lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the BRLMs, in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the BRLMs, may deem fit.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹ 2,500 lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid, without assigning any reason therefor.

BIDS BY ANCHOR INVESTORS

In accordance with the SEBI ICDR Regulations, in addition to details and conditions mentioned in this section the key terms for participation by Anchor Investors are provided below. Anchor Investor Application Forms will be made available for the Anchor Investor Portion at the offices of the BRLMs.

Except for Mutual Funds, AIFs or FPIs (other than individuals, corporate bodies and family offices) sponsored by entities which are associates of the BRLM or insurance companies promoted by entities which are associates of the BRLMs, no BRLM or its respective associates can apply in the Offer under the Anchor Investor Portion.

Further, an Anchor Investor shall be deemed to be an “associate of the BRLMs” if: (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other, or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other, or (iii) there is a common director, excluding nominee director, among the Anchor Investors and the BRLMs.

The Bid must be for a minimum of such number of Equity Shares so that the Bid Amount exceeds ₹ 1000.00 lakhs. A Bid cannot be submitted for over 60% of the QIB Category. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of ₹ 1000.00 lakhs.

One-third of the Anchor Investor Portion will be reserved for allocation to domestic Mutual Funds. Bidding for Anchor Investors will open one Working Day before the Bid/ Offer Opening Date and will be completed on the same day. Our Company, in consultation with the BRLMs may finalise allocation to the Anchor Investors on a discretionary basis, provided that the minimum number of Allottees in the Anchor Investor Portion will not be less than:

- (a) maximum of two Anchor Investors, where allocation under the Anchor Investor Portion is up to ₹ 1000.00 lakhs;
- (b) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹ 1000.00 lakhs but up to ₹ 25,000.00 lakhs, subject to a minimum Allotment of ₹ 500.00 lakhs per Anchor Investor; and
- (c) in case of allocation above ₹ 25,000.00 lakhs under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹ 25,000.00 lakhs, and an additional 10 Anchor Investors for every additional ₹ 25,000.00 lakhs, subject to minimum Allotment of ₹ 500.00 lakhs per Anchor Investor.

Allocation to Anchor Investors will be completed on the Anchor Investor Bidding Date. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation is made, will be made

available in the public domain by the BRLMs before the Bid/ Offer Opening Date, through intimation to the Stock Exchanges. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid. If the Offer Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Offer Price and the Anchor Investor Offer Price will be payable by the Anchor Investors on the Anchor Investor pay-in date specified in the CAN. If the Offer Price is lower than the Anchor Investor Offer Price, Allotment to successful Anchor Investors will be at the higher price.

50% of the Equity Shares Allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment and the remaining 50% shall be locked in for a period of 30 days from the date of Allotment.

Bids made by QIBs under both the Anchor Investor Portion and the QIB Category will not be considered multiple Bids.

INFORMATION FOR BIDDERS

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such acknowledgement slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier acknowledgement slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLMs are cleared or approved by the Stock Exchanges, nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company, nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Red Herring Prospectus, nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise their Bid(s) during the Bid/ Offer Period and withdraw their Bid(s) until Bid/ Offer Closing Date. Anchor Investors are not allowed to withdraw or lower the size of their Bids after the Anchor Investor Bidding Date.

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals;
2. Ensure that you have Bid within the Price Band;
3. Ensure that you (other than the Anchor Investors) have mentioned the correct ASBA Account number (for all Bidders other than UPI Bidders Bidding using the UPI Mechanism) in the Bid cum Application Form and such ASBA account belongs to you and no one else. Further, UPI Bidders using the UPI Mechanism must also mention their UPI ID and shall use only their own bank account which is linked to their UPI ID;

4. UPI Bidders Bidding using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
5. UPI Bidders Bidding using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on SEBI website. UPI bidders shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on SEBI website is liable to be rejected;
6. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
7. Ensure that the details about the PAN, DP ID, Client ID and UPI ID (where applicable) are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in dematerialised form only;
8. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the Bidding Centre within the prescribed time. UPI Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate Members, Registered Brokers, CRTAs or CDPs and should ensure that the Bid cum Application Form contains the stamp of such Designated Intermediary;
9. In case of joint Bids, ensure that First Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the First Bidder is included in the Bid cum Application Form;
10. If the First Bidder is not the ASBA Account holder (or the UPI-linked bank account holder, as the case may be), ensure that the Bid cum Application Form is signed by the ASBA Account holder (or the UPI linked bank account holder, as the case may be). Bidders (except UPI Bidders Bidding using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Bid cum Application Form. UPI Bidders Bidding using the UPI Mechanism should ensure that they have mentioned the correct UPI-linked bank account number and their correct UPI ID in the Bid cum Application Form;
11. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
12. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names;
13. Ensure that you request for and receive a stamped acknowledgment in the form of a counterfoil or by specifying the application number for all your Bid options as proof of registration of the Bid cum Application Form from the concerned Designated Intermediary;
14. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;
15. Submit revised Bids to the same Designated Intermediary, through whom the original Bid is placed and obtain a revised acknowledgment;
16. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, and (iii) any other category of Bidders, including without limitation, multilateral/bilateral institutions, which may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and

- (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
17. Ensure that the Demographic Details are updated, true and correct in all respects;
 18. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;
 19. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;
 20. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust etc., relevant documents, including a copy of the power of attorney, are submitted;
 21. Ensure that Bids submitted by any person outside India should be in compliance with applicable foreign and Indian laws;
 22. Bidders (except UPI Bidders Bidding using the UPI Mechanism) should instruct their respective banks to release the funds blocked in the ASBA Account under the ASBA process. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
 23. Note that in case the DP ID, Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
 24. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and Retail Individual Bidders) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at www.sebi.gov.in);
 25. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
 26. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorisation of the mandate using their UPI PIN, the UPI Bidder may be deemed to have verified the attachment containing the application details of the UPI Bidder Bidding using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorised the Sponsor Bank to Offer a request to block the Bid Amount mentioned in the Bid Cum Application Form in their ASBA Account;
 27. UPI Bidders Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form;
 28. UPI Bidders Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Bid Amount in their account and subsequent debit of funds in case of allotment in a timely manner;
 29. Bids by Eligible NRIs, HUFs and FPIs other than individuals, corporate bodies and family offices, for a Bid Amount of less than ₹200,000 would be considered under the Retail Category for the purposes of allocation and Bids for a Bid Amount exceeding ₹200,000 would be considered under the Non-Institutional Category for allocation in the Offer;
 30. Ensure that Anchor Investors submit their Bid cum Application Forms only to the BRLMs;
 31. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 12:00 p.m. of the Working Day immediately after the Bid/ Offer Closing Date; and
 32. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and

indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is primarily regulated through the Industrial Policy, 1991 by the FDI Policy, the FEMA and the rules and regulations issued thereunder. While the Industrial Policy, 1991 played a foundational role in liberalizing the Indian economy, current foreign investment is governed by sector-specific policies and FEMA regulations. Subject to sectoral caps and conditions, foreign investment is freely permitted under many sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the RBI and the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India ("DPIIT").

The Government has, from time to time, issued policy pronouncements on FDI through press notes and press releases. The DPIIT has issued a consolidated FDI Policy, effective from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications that were in force and effect as on October 15, 2020. The Government has also enacted Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Debt Instruments) Regulations, 2019 in supersession of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018. Pursuant to the Foreign Exchange Management (Non-Debt Instrument) Rules, 2019, the Reserve Bank also issued the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation, 2019 which govern the mode of payment and reporting requirements for investments in India by persons resident outside India.

As per the FDI Policy, FDI in the sector in which our Company operates, is permitted up to 100% of the paid-up share capital of such company under the automatic route. In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2020 has to be obtained by the Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. For further details, see the chapter titled "**Offer Procedure**" beginning on page 499.

Investment by Foreign Portfolio Investors

FPIs are permitted to subscribe to the Equity Shares of an Indian Company in a public issue without the prior approval from the RBI, provided the price offered is not less than that offered to resident investors. SEBI registered FPIs have been permitted to purchase shares of an Indian company through issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the total paid-up equity capital of the Indian Company on a fully diluted basis, or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together, including any other direct and indirect foreign investments in the Indian company by the FPIs permitted under Foreign Exchange Management (Non-debt Instruments) Rules, 2019, shall not exceed 24% of the paid-up equity capital of the Indian company on a fully diluted basis. However, this aggregate limit of 24% may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by the Board of Directors and a subsequent special resolution by the shareholders.

With effect from April 01, 2020, the aggregate FPI investment limit is aligned with the sectoral caps applicable to the Indian company, as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, with respect to its paid-up equity capital on a fully diluted basis or such same sectoral cap percentage of paid-up value of each series of

debentures or preference shares or share warrants. The aggregate limit as provided above may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of their Board of Directors and Shareholders through a resolution and a special resolution, respectively before March 31, 2020. The Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively. However, once the aggregate limit has been increased to a higher threshold, it cannot be reduced thereafter.

Subscription by Non-Resident Indians or Overseas Citizen of India on Repatriation Basis

As per Schedule III of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a Non-Resident Indians ("NRIs") or Overseas Citizen of India ("OCIs") may buy or sell equity shares of a listed Indian company on a repatriation basis, through a recognised stock exchange in India, subject to the conditions that NRIs or OCIs may buy and sell shares through a branch designated by an authorised dealer for the purpose. The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis, or should not exceed 5% of the paid-up value of each series of debentures, preference shares, or share warrants issued by an Indian company. The total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis, or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. This aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the shareholders of the Indian company.

Investment by NRI or OCI on Non-Repatriation Basis

As per Schedule IV of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a purchase by an NRI/ OCI, including a company, trust and partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside, it will be deemed to be domestic investment at par with the investment made by residents. Such investment is, however, subject to applicable remittance channel restrictions. . However, NRIs or OCIs, including companies, trusts and partnership firms incorporated outside India and owned and controlled by NRIs/OCIs, is prohibited from making any investment, under Schedule IV, in capital instruments or units of a Nidhi company, or companies engaged in agricultural/ plantation activities, real estate business, construction of farmhouses, or dealing in transfer of development rights.

Investment by other Non-Resident Investors

As per Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a person resident outside India may purchase capital instruments of a listed Indian company on a recognized stock exchange in India provided the person resident outside India making the investment has already acquired control of such company in accordance with the SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and continues to hold such control. The amount of consideration may be paid as per the mode of payment as prescribed by RBI i.e. Regulation 3 of Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation 2019 under or out of the dividend payable by Indian investee company in which the person resident outside India has acquired and continues to hold the control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 provided the right to receive dividend is established and the dividend amount has been credited to a specially designated non-interest bearing rupee account for acquisition of shares on the recognized stock exchange.

Investors are advised to refer to the exact text of the applicable laws before making any investment, purchase, or sale of Equity Shares of our Company.

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines, and approvals.

The Equity Shares to be issued in the Issue have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“U.S. Securities Act”), or any applicable U.S. state securities laws. Accordingly, the Equity Shares may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and such state laws. . Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment by Non-Resident Entities in India under FDI Policy 2020:

The FDI Policy, 2020 provides that a non-resident entity can invest in India, subject to the provisions of the FDI Policy except in those sectors/activities which are prohibited. However, an entity of a country, which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, can invest only under the Government route. Further, a citizen of Pakistan or an entity incorporated in Pakistan may invest only under the Government route, and in sectors /activities other than defence, space, atomic energy and those specifically prohibited for foreign investment.

In the event of the transfer of ownership of any existing or future FDI in an entity in India, whether directly or indirectly, resulting in the beneficial ownership falling within the scope of the aforementioned restrictions, such subsequent change in beneficial ownership will also require Government approval. This requirement is in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India and the Foreign Exchange Management (Non-debt instrument) Amendment Rules, 2020 notified by Central Government through notification dated April 22, 2020 in order to curb opportunistic takeovers or acquisitions of Indian Companies in light of the COVID-19 pandemic.
